Join Aramark Campaign and Help Children and Families Live Healthier Lives

February 7, 2018

Company will donate $1 for each consumer who joins its Feed Your Potential 365 Health Campaign

PHILADELPHIA--(BUSINESS WIRE)--Feb. 7, 2018-- Aramark (NYSE: ARMK), a global leader in food, facilities and uniforms, announced in coordination with American Heart Month and National Nutrition Month beginning February 1st, that it will donate $1 to local community centers when consumers join or follow its Feed Your Potential 365 health campaign* at FYP365.com/community or on Instagram @Aramark.

Funding from this effort will be distributed through the Alliance for Strong Families and Communities, a respected national community action network, and will be earmarked to support nutrition and cooking educational experiences that help children and families in underserved communities lead healthier lives. Aramark is also providing community centers with nutrition education materials as part of a curriculum designed by the American Heart Association, in collaboration with the company’s chefs and dietitians.

“Seven in 10 Americans face health challenges due to a poor diet, and children and families in our most economically challenged communities are at the greatest risk,” said Dan Wainfan, who leads Health & Wellness for Aramark. “Through this Feed Your Potential community health initiative we are working to empower moms, dads and caregivers to help them access, choose and prepare the healthy food their families need, and ultimately, to improve the health of children and families in underserved communities nationwide.”

“The American Heart Association is incredibly proud of the work we’re doing alongside Aramark in communities across the country,” said Eduardo Sanchez, M.D., M.P.H, FAAFP, Chief Medical Officer for Prevention and Chief of Center for Health Metrics and Evaluation for American Heart Association. “The commitment and expertise that Aramark brings to food innovation and education in the communities they serve is invaluable as we work together to make the healthy choice the easiest choice for all Americans.”

Aramark’s Feed Your Potential 365 campaign, which launched last year, is designed to help people discover the foods that can help them succeed and keep them healthy. The campaign is part of the company’s 5-year initiative with the American Heart Association to improve the health of Americans 20% by 2020.

Two years into their ground-breaking alliance, Aramark has achieved a 13 percent average reduction in calories, saturated fat and sodium, plus significant increases in fruits, vegetables and whole grains on the menus the company serves in workspaces, hospital cafes, and colleges and universities, exceeding the annual target of 3-5 percent.

In addition, as part of the ongoing collaboration between the American Heart Association and Aramark, community health education and engagement programs developed to help people make better food and lifestyle choices through culturally relevant and family-centric cooking, have expanded to 26 cities and nearly 50 community centers. Participants in the program have shown positive changes in food and nutrition behaviors, increasing their intake of fruits, vegetables and whole grains.

Those interested in joining the Feed Your Potential 365 campaign, for their own health and for the health of their communities, will receive healthy ideas from Aramark chefs, dietitians and AHA experts, knowing that when they join a contribution will be made by Aramark to help feed the potential of children and families in need in local communities. Register at FYP365.com/community or by following on Instagram @Aramark. There is no other time or financial commitment required.

The FYP365 campaign aligns with Aramark’s philanthropic efforts to help improve communities by strengthening community centers. Since 2008, through its Aramark Building Community programs, the company has invested tens of millions of dollars in volunteer hours, expertise, financial and in-kind resources to strengthen local community centers around the U.S. and the world.
