May 24, 2017
From Food and Music Festivals to Solar Eclipse Sightings, Aramark Brings New Levels of Excitement to the Nation's National Parks and Lodges

PHILADELPHIA, May 24, 2017 /PRNewswire/ -- As travelers embark on family vacations and cross-country trips this summer, Aramark (NYSE: ARMK), the award-winning food and hospitality partner for national and state parks and other leading leisure and cultural attractions, is rolling out new programs, enhancements and celebrations at the country's premier travel destinations to help guests relax and enjoy themselves.

This vacation season, travelers will enjoy the full scope of Aramark's hospitality and diverse interpretive, educational and sustainability programs. In 2016 national park visitation records surpassed 325 million and each year Aramark welcomes more than 40 million visitors and guests to the parks, zoos and museums and other tourist destinations in which it operates across the United States.

"Visiting a national park is an opportunity to experience some of America's most picturesque landscapes, iconic vistas and treasured resources," said Bruce W. Fears, president of Aramark's Leisure division. "With travel season upon us, we are excited, once again, to welcome first time and returning families, friends and visitors to the parks we serve across the country and help them create lasting memories with new recreational activities, culinary experiences, educational programs and lodging enhancements."

Environmental Sustainability
Aramark's Green Thread™ environmental sustainability platform focuses on sourcing responsibly, managing buildings and fleet efficiently, and minimizing waste by reducing, reusing and recycling. As longtime stewards of America's national parks, Aramark continues to take steps to reduce its impact on the environment and introduce programs that preserve natural resources.

• **Clean the World**
  Aramark recently expanded its work with Clean the World to collect bottled bathroom amenities to 32 hotels. Items such as shampoo and conditioner will be recycled and used in domestic hygiene kits for the homeless and veterans’ organizations, while bar soap will be recycled and distributed to people in impoverished countries.

• **Zero Landfill Initiative**
  Aramark continues its partnership with Subaru of America and the National Parks Conservation Association to develop programs at national parks that work toward a goal of significantly reducing waste going into landfills. Yosemite National Park and Denali National Park are among the pilot sites participating in the "zero landfill" initiative.

#WhyIHeartTheParks
Encompassing Aramark properties across the U.S. park systems, this new social media campaign invites park guests to share their national, state and other park vacation photos, create and share Snapchat filters, and engage in other social media platforms to show their passion for the parks. Participants can submit a sweepstakes entry at www.whyihearttheparks.com, with one winner receiving a complimentary vacation to an Aramark-operated property at a national or state park.
