Philadelphia, PA, November 16, 2021 - Aramark (NYSE: ARMK) today reported fourth quarter and full-year fiscal 2021 results.

"Our fourth quarter and full year results reflected the progress we have made across our business as organic revenue reached 87% of pre-COVID levels. The Company achieved record Net New Business performance across lines of business, geographies, and client size—demonstrating the execution of our strategic growth initiatives, which we are confident will position Aramark to drive higher sustainable growth and create meaningful value for our stakeholders," said John Zillmer, Aramark's Chief Executive Officer. FOURTH QUARTER RESULTS*

Consolidated revenue was \$3.6 billion, an increase of 32% compared to the prior year. Organic Revenue, which adjusts for the effect of currency, the Next Level Hospitality acquisition, and the 53rd week of operations in the prior year, improved 37% year-over-year. An accelerated pace of new client wins, combined with improving business re-opening activity and pricing pass-through, resulted in revenue at 90% and organic revenue at 87% of pre-COVID levels, led by the FSS United States segment.

- FSS United States organic revenue increased 58% compared to the fourth quarter last year with the following sector performance:

- Uniform & Career Apparel organic revenue increased 5% versus the prior year with rental revenues approaching pre-COVID levels and adjacency services reporting another quarter of double-digit growth. Clients in the hospitality industry, particularly in Canada, experienced greater demand, although still below pre-COVID levels.

Adjusted Operating Income was \$165 million, a year-over-year increase of \$177 million, resulting in an AOI margin of 4.8% on a constant-currency basis. - FSS International benefited from previously implemented cost savings actions, with continued participation in government reimbursement programs.
- Uniform & Career Apparel leveraged efficiencies from higher volume levels and favorable merchandise amortization costs, partially offset by investment in growth resources and inventory write-downs for certain Personal Protective Equipment (PPE).
- Corporate managed overhead costs to support the lines-of-business as revenues recovered.

FOURTH QUARTER GAAP SUMMARY

Fourth quarter fiscal 2021 GAAP results improved across all metrics compared to the prior year as the business continued to recover from the impact of COVID-19. On a GAAP basis, revenue was \$3.6 billion, operating income was \$132 million, net income attributable to Aramark stockholders was \$35 million and diluted earnings per share was \$0.14. These results included the contribution from the Next Level Hospitality acquisition that occurred in June 2021. Comparatively, fourth quarter 2020 revenue was \$2.7 billion, operating loss was \$94 million, net loss attributable to Aramark stockholders was \$149 million and diluted loss per share was \$0.59. Fourth quarter fiscal 2020 GAAP results included a 53rd week of operations. A reconciliation of GAAP to Non-GAAP measures is included in the Appendix.

FISCAL 2021 SUMMARY

Fiscal 2021 reflected business performance improvement over the course of the year with particular strength in the second half as all segments reported year-over-year revenue growth due to increased levels of business activity. Net New Business reached record levels, driven by increased new business wins and improved retention.

On a GAAP basis, revenue was \$12.1 billion, operating income was \$191 million, net loss attributable to Aramark stockholders was \$91 million and diluted loss per share was \$0.36. GAAP metrics in fiscal 2021 included approximately four months of operations from Next Level Hospitality. Comparatively, fiscal 2020 revenue was \$12.8 billion, operating loss was \$265 million, net loss attributable to Aramark stockholders was \$462 million and diluted loss per share was \$1.83. Fiscal 2020 GAAP results included a 53rd week of operations across all metrics and GAAP operating loss and diluted loss per share included certain non-cash impairment charges and costs related to organizational realignment.

Organic Revenue for the year was \$11.8 billion with sequential improvement each quarter. Adjusted Operating Income of \$292 million resulted in an AOI margin of 2.4% on a constant-currency basis, compared to 2.3% in fiscal 2020 at higher revenue levels. Disciplined cost management, the Company's flexible operating model, and the ability to leverage operating efficiencies as sales volumes recovered throughout the year contributed to improved margin performance.

CURRENCY

In the fourth quarter, a weaker U.S. dollar increased reported revenue by \$25 million, Adjusted Operating Income by \$0.4 million and had a negligible impact on adjusted earnings per share. The effect of currency translation benefited fiscal 2021 results by \$168 million in reported revenue, \$4 million in Adjusted Operating Income and approximately two cents for adjusted loss per share.

CASH FLOW AND CAPITAL STRUCTURE

Aramark generated Net Cash provided by operating activities of \$657 million, improving \$480 million compared to the prior year, and Free Cash Flow totaled \$282 million in the fiscal year, an increase of \$469 million compared to the prior year. This improvement was due to better operational performance, complemented by disciplined working capital and capital expenditure management as well as the benefit of federal tax refunds and deferred payroll taxes related to the CARES Act.

At year-end, Aramark had over \$2.0 billion in cash availability. The Company's strong cash flow and liquidity position provided a platform to further advance its capital allocation priorities. In the fourth quarter, Aramark strengthened its balance sheet with proactive debt repayments of over \$170 million.

DIVIDEND DECLARATION

The Company's Board of Directors approved a quarterly dividend of 11 cents per share of common stock. The first quarter fiscal 2022 dividend will be payable on December 7, 2021, to stockholders of record at the close of business on November 30, 2021.

BUSINESS UPDATE

Aramark executed the following strategic actions over the course of the year, while navigating a complex operating environment due to COVID-19:

- Adding senior leadership talent and making organizational changes that significantly bolstered industry and line of business expertise, including sales leadership in many key roles;
- Investing in growth-oriented opportunities within the business;
- Enhancing sales training and development programs;
- Further aligning compensation with strategic objectives, including Net New Business which now represents 40% of the Company's bonus incentive plan across the organization;
- Strengthening client and supplier relationships; and
- Enhancing operating infrastructure, including cybersecurity.

In fiscal 2021, Aramark reported record Net New Business that was five times greater than the average of the previous five years. Annualized gross new business wins totaled nearly \$1.25 billion, with a meaningfully greater contribution from first-time outsourcing than prior years. Retention rates increased to 95.5%, or 150 basis points higher than the average of the previous five years, driven by improvements in the Company's hospitality culture and customer service.

Each segment reached performance milestones in driving Net New Business. Net New Business in fiscal 2021 of over \$500 million, represented 3.1% of pre-COVID revenue. This compared to a five-year historical average for Net New Business of approximately \$90 million, or 0.6% of revenue. The Company believes that this level of Net New Business positions Aramark to sustainably grow revenue in the mid-single digits when Base Business growth returns to normalized levels. The Company expects to further build upon this level of Net New Business to drive sustainably higher growth prospectively.

OUTLOOK

The Company provides its expectations for organic revenue growth, Adjusted Operating Income and Free Cash Flow on a non-GAAP basis, and does not provide a reconciliation of such forward-looking non-GAAP measures to GAAP due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for such reconciliations, including adjustments that could be made for the impact of the change in fair value related to certain gasoline and diesel agreements, severance and other charges and the effect of currency translation. The fiscal 2022 outlook reflects management's current assumptions regarding the continued impact of COVID-19 on Aramark and its clients. The extent to which COVID-19 continues to impact business, operations, and financial results, including the duration and magnitude of such impact, will depend on numerous evolving factors that are difficult to accurately predict, including those discussed in the Risk Factors set forth in the Company's filings with the U.S. Securities and Exchange Commission.

Aramark believes it is well-positioned to perform strongly in the recovery period and continue to build on its early Net New Business momentum. In fiscal 2022, the Company currently expects the following full-year performance:

- Organic growth between +23% and +27%, with revenue expected to approach pre-COVID levels by year-end. The impact from acquisitions and foreign currency fluctuations is expected to add approximately 2% to revenue
 - Revenue outlook reflects a continued impact from COVID-19 in fiscal 2022 of approximately \$1.6 billion to \$1.9 billion, or approximately 10% to 12% of pre-COVID revenue, partially offset by net new business and pricing pass-through
- Adjusted Operating Income (AOI) margin in a range of 5.0% to 5.5% with the second half of the year reaching 6.0% to 6.5%
 - AOI margin outlook considers the impact of COVID-19, noted above. In many cases, the Company has brought back operating and above unit costs in advance of full revenue recovery. As COVID-impacted volumes recover, Aramark expects this transitional impact on AOI margin to unwind, with an incremental margin on the remaining COVID-19 volume recovery of 15% to 20%. AOI margin will also be temporarily affected by the start-up of new accounts, which typically have lower margins in year one with an acceleration thereafter. The magnitude of new account start-ups in fiscal 2022 has grown meaningfully following recent New Business wins
 - Pricing, supply chain initiatives and operational efficiencies are expected to offset cost inflation
- Free Cash Flow between \$300 million and \$400 million, which includes repaying approximately \$65 million of deferred payroll taxes associated with the CARES Act
- Annualized Net New Business in a range of \$550 million to \$650 million, which would represent 3.5% to 4.0% of pre-COVID revenue and an increase relative to the record performance achieved in fiscal 2021

Aramark ultimately expects mid-single digit organic revenue growth and ongoing margin progression, with margins that exceed pre-COVID levels. The Company looks forward to sharing further details on its expected multi-year progression at Aramark's upcoming Analyst Day.

"Our investments in growth are generating results. The robust pipeline of opportunities continues to grow, enabling Aramark to enter the new fiscal year with exceptionally strong momentum. I'm emboldened by our team's drive and remain confident in our ability to build on this success and deliver for our stakeholders as the recovery period is underway," Zillmer continued.

(1) The covenant waiver period outlined in Amendment No. 9 to the Company's Credit Agreement expired at the beginning of the fourth quarter of fiscal 2021. The Consolidated Secured Debt Ratio debt covenant is once again effective and the trailing twelve month period as of October 1, 2021 consists of results from the third quarter of fiscal 2019 through the first quarter of fiscal 2020 plus the fourth quarter of fiscal 2021, excluding the results of the second quarter of fiscal 2020 through the third quarter of fiscal 2021.

(2) Represents compensation expense related to the Company's issuances of share-based awards.

(3) Represents the fiscal 2021 non-cash gain from an observable price change on an equity investment (\$137.9 million) and the fiscal 2021 non-cash loss from the termination of certain defined benefit pension plans (\$60.9 million).

(4) Represents the Company's estimated share of EBITDA primarily from the Company's AIM Services Co., Ltd. equity method investment, not already reflected in the Company's net (loss) income attributable to Aramark stockholders.
