## STATEMENTS REGARDING FORWARD-LOOKING INFORMATION

This prospectus contains “forward-looking statements” within the meaning of the federal securities laws, including, without limitation, statements concerning the conditions in our industry, our operations, our economic performance and financial condition, including, in particular, statements relating to our business and growth strategy under “Prospectus Summary,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Business.” You can identify forward-looking statements because they contain words such as “aim,” “anticipate,” “are confident,” “estimate,” “expect,” “will be,” “will continue,” “will likely result,” “project,” “intend,” “plan,” “believe” and other words and terms of similar meaning in connection with a discussion of future operating or financial performance. All statements we make relating to our estimated and projected earnings, costs, expenditures, cash flows, growth rates and financial results are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. These forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, of course, it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from our expectations (“cautionary statements”) are disclosed under “Risk Factors” and elsewhere in this prospectus, including, without limitation, in conjunction with the forward-looking statements included in this prospectus. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results include:

- unfavorable economic conditions;
- natural disasters, global calamities, sports strikes and other adverse incidents;
- the failure to retain current clients, renew existing client contracts and obtain new client contracts;
- a determination by clients to reduce their outsourcing or use of preferred vendors;
- competition in our industries;
- increased operating costs and obstacles to cost recovery due to the pricing and cancellation terms of our food and support services contracts;
- the inability to achieve cost savings through our cost reduction efforts;
- our expansion strategy;
- the failure to maintain food safety throughout our supply chain, food-borne illness concerns and claims of illness or injury;
- governmental regulations including those relating to food and beverages, the environment, wage and hour and government contracting;
- liability associated with noncompliance with applicable law or other governmental regulations;
- changes in, new interpretations of or changes in the enforcement of the government regulatory framework;
- currency risks and other risks associated with international operations, including Foreign Corrupt Practices Act, U.K. Bribery Act and other anti-corruption law compliance;
- continued or further unionization of our workforce;
- liability resulting from our participation in multiemployer defined benefit pension plans;
- risks associated with suppliers from whom our products are sourced;
- disruptions to our relationship with, or to the business of, our primary distributor;

## [Table of Contents](#)

- the inability to hire and retain sufficient qualified personnel or increases in labor costs;
- healthcare reform legislation;
- the contract intensive nature of our business, which may lead to client disputes;
- seasonality;
- our leverage;
- the inability to generate sufficient cash to service all of our indebtedness;
- debt agreements that limit our flexibility in operating our business;
- potential conflicts of interest between our Controlling Owners (as defined herein) and us; and
- other factors set forth under the heading “Risk Factors” in this prospectus.

We caution you that the foregoing list of important factors may not contain all of the material factors that are important to you. In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained in this prospectus may not in fact occur. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

### **PRESENTATION OF FINANCIAL AND OTHER INFORMATION**

Unless otherwise indicated or the context otherwise requires, references in this prospectus to “we,” “our,” “us,” “ARAMARK” and “the Company” and similar terms refer to ARAMARK Holdings Corporation and its subsidiaries and references to “Holdings” refer to ARAMARK Holdings Corporation and not any of its subsidiaries.

Our fiscal year ends on the Friday nearest September 30 in each year. In this prospectus, when we refer to our fiscal years, we say “fiscal” and the year number, as in “fiscal 2013,” which refers to our fiscal year ended September 27, 2013. In addition, “client” refers to those businesses and other organizations which engage us to provide services. “Consumers” refers to those consumers of our services, such as employees, students and patrons, to whom our clients provide us access.

We present Adjusted Net Income, Adjusted Operating Income and Adjusted EBITDA, as defined under “Prospectus Summary—Summary Consolidated Financial Data,” as non-U.S. Generally Accepted Accounting Principles, or non-GAAP, financial measures in various places throughout this prospectus. Adjusted Net Income, Adjusted Operating Income and Adjusted EBITDA are supplemental measures used by management to measure operating performance. Our presentation of Adjusted Net Income, Adjusted Operating Income and Adjusted EBITDA has limitations as an analytical tool, and should not be considered in isolation or as a substitute for analysis of our results as reported under generally accepted accounting principles in the United States (“U.S. GAAP”). We use Adjusted Net Income as a supplemental measure of our overall profitability because it excludes the impact of the non-cash amortization of certain intangible assets and depreciation of property and equipment that were created at the time of our 2007 going-private transaction (the “2007 Transaction”), non-cash share-based compensation expense and other costs that are not indicative of our ongoing operational performance. Similarly, we use Adjusted Operating Income and Adjusted EBITDA as supplemental measures of our operating profitability and to evaluate and control our cash operating costs because they exclude the impact of the items noted above relating to the calculation of Adjusted Net Income that are not indicative of our ongoing operational performance. We believe the presentation of Adjusted Net Income, Adjusted Operating Income and Adjusted EBITDA is appropriate to provide additional information to investors about our operating performance.

We also present Covenant EBITDA and Covenant Adjusted EBITDA as non-GAAP financial measures of ARAMARK Corporation and its restricted subsidiaries under “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources.” Our presentation of Covenant

## [Table of Contents](#)

EBITDA and Covenant Adjusted EBITDA has limitations as an analytical tool, and should not be considered in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. In addition, Covenant EBITDA and Covenant Adjusted EBITDA are measures of ARAMARK Corporation and its restricted subsidiaries only and do not include the results of Holdings. We believe that the inclusion of Covenant EBITDA and Covenant Adjusted EBITDA in this prospectus is appropriate to provide additional information to investors about the calculation of certain financial measures in our senior secured credit facilities and the indenture governing our 5.75% Senior Notes due 2020, which we refer to as our senior notes. For instance, our senior secured credit facilities and the indenture governing our senior notes contain financial ratios that are calculated by reference to Covenant Adjusted EBITDA. Non-compliance with the financial ratio maintenance covenants contained in our senior secured credit facilities could result in the requirement to immediately repay all amounts outstanding under such facilities, while non-compliance with the debt incurrence ratio contained in our senior secured credit facilities and the indenture governing our senior notes would prohibit us from being able to incur additional indebtedness other than pursuant to specified exceptions.

Because Adjusted Net Income, Adjusted Operating Income, Adjusted EBITDA, Covenant EBITDA and Covenant Adjusted EBITDA are not measures determined in accordance with U.S. GAAP and are susceptible to varying calculations, we caution investors that these measures as presented may not be comparable to similarly titled measures of other companies. Under “Prospectus Summary—Summary Consolidated Financial Data” herein, we include a quantitative reconciliation of Adjusted Net Income, Adjusted Operating Income and Adjusted EBITDA to the most directly comparable U.S. GAAP financial performance measure, which is net income. Under “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources,” we include a quantitative reconciliation of Covenant EBITDA and Covenant Adjusted EBITDA to the most directly comparable U.S. GAAP financial performance measure, which is net income attributable to ARAMARK Corporation stockholder.

### **MARKET AND INDUSTRY DATA**

The data included in this prospectus regarding our industry and market opportunity, including the size of certain sectors and geographies, our position and the position of our competitors within these sectors and geographies and the portion of the market opportunity that is currently outsourced, are based on management estimates, which were derived using our management’s knowledge and experience in the sectors and geographies in which we operate, our own internal estimates and research, industry and general publications and research, and surveys and studies conducted by third parties. We believe these estimates to be accurate as of the date of this prospectus. However, these estimates may prove to be inaccurate because of the method by which we obtained some of the data for the estimates or because this information cannot always be verified with complete certainty due to the limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties.

## PROSPECTUS SUMMARY

*This summary does not contain all of the information that you should consider before making your investment decision. You should read the entire prospectus carefully, including the matters discussed under the caption “Risk Factors” and the detailed information and financial statements included in this prospectus.*

*Following this offering, we will be a “controlled company” under the New York Stock Exchange corporate governance standards, and as a result, will rely on exemptions from certain corporate governance requirements. See “Risk Factors.”*

### Our Company

We are a leading global provider of food, facilities and uniform services to education, healthcare, business and industry and sports, leisure and corrections clients. Our core market is North America, which is supplemented by an additional 19-country footprint serving many of the fastest growing global geographies. We hold the #2 position in North America in food and facilities services and uniform services based on total sales in 2013. Internationally, we hold a top 3 position in food and facilities services based on total sales in 2013 in most countries in which we have significant operations, and are one of only 3 food and facilities competitors with our combination of scale, scope, and global reach. Through our established brand, broad geographic presence and approximately 272,000 employees, we anchor our business in our partnerships with thousands of education, healthcare, business, sports, leisure and corrections clients. Through these partnerships we serve millions of consumers including students, patients, employees, sports fans and guests worldwide. The scope and range of ARAMARK’s services are evidenced by the following:

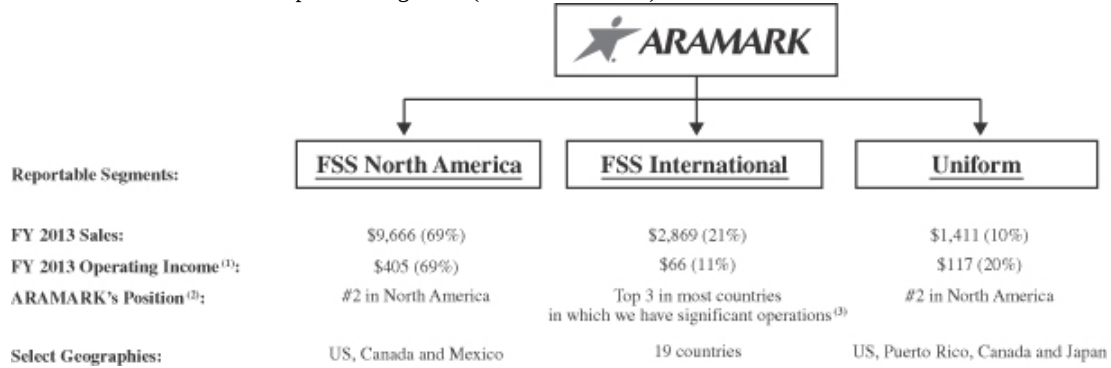

- We provide services to 86% of the Fortune 500
- We serve over 500 million meals annually to approximately 5 million students at colleges, universities, and K-12 schools
- We service over 2,000 healthcare facilities, collectively representing over 75 million patient days annually
- We cater to approximately 100 million sports fans annually through our partnerships with over 150 professional and collegiate teams
- We put over 2 million people in uniforms each day
- We operate in 22 countries in North America, Europe, Asia and South America

ARAMARK’s mission is to **“Deliver experiences that enrich and nourish lives.”** This mission is anchored in a set of goals, which we refer to as our core values, that guide our execution in the marketplace:

- **Sell and Serve with Passion.** Placing clients and consumers at the center of all that we do by listening and responding to their needs with service focused on quality and innovation
- **Set Goals. Act. Win.** Maintaining a culture of accountability where performance matters and exhibiting leadership that achieves and exceeds expectations through our execution
- **Front-Line First.** Providing our front-line employees with tools and training that empower them to deliver excellence at the point of service to thousands of consumers and clients every day
- **Integrity and Respect Always.** High ethical standards are the cornerstone of the ARAMARK brand and help us earn the trust of our key constituents

We strive to accomplish this mission through a repeatable business model founded on five principles of excellence—selling, service, execution, marketing and operations. Our commitment to these values has earned us numerous awards and recognitions; we have been named one of the “World’s Most Admired Companies” by Fortune Magazine in the category of Diversified Outsourcing Services every year since 1999 and we are recognized as one of the “World’s Most Ethical Companies” by the Ethisphere Institute.

We operate our business in three reportable segments that share many of the same operating characteristics: Food and Support Services North America, or FSS North America, Food and Support Services International, or FSS International, and Uniform and Career Apparel, or Uniform. The following chart provides a brief overview of our reportable segments (dollars in millions):

<sup>(1)</sup> Fiscal 2013 operating income excludes \$74.2 million of unallocated corporate expenses.

<sup>(2)</sup> Based on 2013 total sales.

<sup>(3)</sup> We have significant operations in the following countries: China, Chile, Germany, Ireland, Japan, Spain and the UK. We believe we hold top 3 positions in all of these countries except Spain.

Within our reportable segments, our business is generally focused around key client types—Education, Healthcare, Business & Industry, Sports & Leisure and Corrections.

<sup>(1)</sup> Based on 2013 total sales.

We believe that our broad range of services, diversified client base, global reach and repeatable business model position us well for continued growth and margin expansion opportunities, although there can be no assurance that we will continue to grow. In fiscal 2013, we generated \$13.9 billion of sales, \$70 million of net income and \$1.2 billion of Adjusted EBITDA. As of September 27, 2013, we had \$5.8 billion of total debt. Please see “—Summary Consolidated Financial Data” for a reconciliation of Adjusted EBITDA to net income.

### **Our History and Recent Accomplishments**

Since ARAMARK’s founding in 1959, we have broadened our service offerings and expanded our client base through a combination of organic growth and acquisitions, with the goal of further developing our food, facilities and uniform capabilities, as well as growing our international presence.

On January 26, 2007, ARAMARK delisted from the NYSE in conjunction with a going-private transaction executed with investment funds affiliated with GS Capital Partners, CCMP Capital Advisors, LLC and J.P. Morgan Partners, LLC, Thomas H. Lee Partners, L.P. and Warburg Pincus LLC as well as approximately 250 senior management personnel.

In May 2012, Eric Foss became the new CEO and President of our company. Previously, Mr. Foss was the CEO of Pepsi Beverages Company and was Chairman and CEO of the publicly-traded Pepsi Bottling Group. Under Mr. Foss’ leadership at ARAMARK, we have introduced a number of initiatives designed to accelerate revenue and profit growth and expand margins.

In 2013, we continued to grow our existing business and win new clients, including the Ohio and Michigan departments of corrections, the Minnesota Vikings, the Chicago Bears, and the Tampa Bay Buccaneers, and additional services from existing clients such as Airbus and American University. There is no assurance that we will continue to grow and gain new customers.

### **Our Market Opportunity**

ARAMARK operates in large and highly fragmented markets. We believe that the global food and support services market and the North American uniform and career apparel market is approximately \$900 billion. As only approximately 50% of this opportunity is outsourced, we believe that there is a substantial potential for growth by winning business with educational and healthcare institutions, businesses, sports and leisure facilities and correctional facilities that currently provide these services in-house. We expect that demand for increased outsourced services will continue to be driven by shifting client imperatives, including: the need to focus on core businesses, the desire to deliver a high level of consumer satisfaction, the pursuit of reduced costs and the attractiveness of consolidating services with a single provider. We believe our provision of these services is increasingly important to our clients’ achievement of their own missions.

The food and support services market is highly fragmented, with the five largest competitors capturing only 9% of the global market. We believe that larger service providers are better positioned to win a disproportionate amount of the business that is converted from self-operated services as clients seek services from partners with the scale and sophistication necessary to drive consumer satisfaction and increase operational efficiency. There can be no assurance that the number of outsourcing opportunities will increase or that our sales will increase if they do.

Our core geographic market is North America, which we believe will remain an attractive opportunity due to the favorable underlying economic conditions, stability and opportunities for profitable growth, and growing

trend towards outsourcing. We continue to focus on the Education and Healthcare sectors, which are only approximately 30% outsourced, and have increased as a percentage of GDP, representing significant growth opportunities. While cost reduction continues to be a key consideration, we believe that clients' decisions are increasingly driven by other benefits associated with outsourcing as they recognize that providing higher quality, more efficient food and facilities services is critical to driving satisfaction of their key constituents: students and faculty, patients, employees and sports fans.

We also operate in select, high growth, emerging markets in Asia and South America. The GDP of the countries making up these markets grew at approximately 8.6% in 2012, although GDP growth in Asia generally slowed from prior years. The economic growth in these countries is driven by factors such as rising discretionary income and increased investment in growth sectors such as mining, education and healthcare. Additionally, we estimate emerging markets are approximately 70% self-operated, making them highly attractive opportunities for outsourcing expansion. In Europe, we hold top 3 positions in Germany, the UK and Ireland. While we anticipate that economic conditions in Europe will continue to remain challenging, our exposure to southern Europe is limited to Spain, which represented approximately 1% of our total sales in 2013.

### **Our Strengths**

We believe the following competitive strengths are key to our continued success:

#### **Leader in a Large, Fragmented and Growing Market**

We are a global market leader in the large, fragmented and growing food, facilities and uniform services industries. We believe that we have developed our leadership positions through using our experience and client and consumer knowledge to provide service offerings to our clients that allow our clients to focus on their core business. These leadership positions provide us with economies of scale, allow us to attract and retain industry talent and we believe position us to compete effectively for new business opportunities. We believe that clients are increasingly interested in service providers with a broad geographic reach and a breadth of service offerings.

#### **Favorable Geographic, Sector and Service Mix**

We have the global reach and capability to deliver our services in 22 countries around the world, which represent approximately 65% of the world's GDP. We believe that our leading position in our core North American market will remain a principal growth driver. Also, utilizing the skills and experience we have developed over decades of service in the North American market, we have established positions in strategic emerging markets in Asia and South America. Our sales in emerging markets have increased at an annual rate of approximately 14% over the last five years, and represent 8% of our total sales in 2013 versus 4% in 2007. We believe that our expanding presence in these geographies will become increasingly important for our overall growth. In Europe, we have a selective position concentrated in Germany, the UK and Ireland with limited exposure to southern Europe.

We serve a large and diversified client base across a wide range of sectors and businesses, including Education, Healthcare, Business & Industry and Sports, Leisure and Corrections, with no single client accounting for more than 2% of 2013 sales (other than collectively a number of U.S. government entities). The Education and Healthcare sectors, which together contributed 43% of our 2013 sales globally, represent attractive growth opportunities for ARAMARK due to their size and low penetration.

We believe that the breadth of our service capabilities and ability to innovate position ARAMARK well to meet evolving consumer needs and address our clients' increasing desire to conduct business with an experienced single provider of multiple services. Clients rely on ARAMARK to provide a variety of services, from offering safe living and working environments for miners to patient transportation services for healthcare clients to convenience stores on college campuses.

### **Longstanding Client Relationships**

ARAMARK's leading positions, scale and breadth of product offering enable us to continue to grow our business through higher penetration into existing clients and cross-selling of additional services. We have long-lasting relationships with our clients as evidenced by our approximately 94% annual retention rate and an average client relationship of approximately 10 years. We believe we are able to maintain these strong relationships year after year by providing services that help our clients focus on their own mission and also improve satisfaction of their key constituencies: employees, students and faculty, patients and sports fans. We believe that this is increasingly important for our clients as, for example, businesses compete for employees, colleges compete for students and hospitals compete for patients. Given that only 11% of our current clients utilize both food and facilities services, we believe substantial opportunities remain for us to provide additional services to our existing client base.

Further, we aim to increase the per capita spending of our target consumers and expand the participation rates of these populations in our existing service offering, through innovative marketing and merchandising programs. We continuously innovate our existing services to better meet our clients' evolving needs. We use ARAMARK's consumer insights and other research to increase our awareness of market trends, client needs and consumer preferences.

### **Improving Profitability with Significant Cash Flow Generation**

We have and continue to implement a number of programs and tools designed to increase our profitability, including enhanced management of our key costs—food, labor and overhead—through SKU rationalization (a consolidation of product categories for our purchases), standardization of portion sizes, waste control, enhanced labor scheduling, turn-over reduction and SG&A discipline, among others. Because of the leverage inherent in our business model, we believe the implementation of these measures will increase our profitability. Since instituting these new productivity initiatives in 2012, we have seen positive momentum in our performance. During fiscal 2013, we achieved year-over-year growth in our Adjusted Operating Income of 7% and sales growth of 3%. Please see “—Summary Consolidated Financial Data” for a reconciliation of Adjusted Operating Income to net income.

We believe our business mix allows us to deliver consistent profitability in most macroeconomic environments and our high mix of variable costs allows us to react quickly to changing conditions in our day to day operations. We have historically generated significant cash flow as a result of our consistent profitability and limited working capital and capital expenditure requirements. Our capital expenditures in the last 5 years have averaged only 2.5% of sales. In the economic downturn in 2009 for example, our cash flow actually increased as lower capital expenditures and a reduction in working capital more than offset an earnings decline. We believe that the low capital investment requirements of our business position us to continue to generate significant cash flow, which should give us the flexibility to reduce debt, pursue strategic acquisitions and return capital to our stockholders.

### **Experienced Management Team**

Our management team consists of long-tenured ARAMARK leaders with significant industry experience along with outside leaders with significant Fortune 500 management, consumer/retail and food industry experience. Our CEO and President, Eric Foss, is an experienced Fortune 500 public company CEO. Since joining ARAMARK in 2012, he has introduced an integrated strategy focusing on growth, productivity, people and delivering on financial commitments. The average tenure of our principal operating leaders is 20 years, with individual tenure ranging from 33 years to less than one year. Our remaining senior management team and business unit presidents' tenure averages 12 years. ARAMARK has a long history of broad management ownership dating back to the 1980s, and our management team collectively has a significant equity position in ARAMARK.

## Our Strategies

Through the following growth and operational strategies, we seek to provide the highest quality food, facilities and uniform services to our clients and consumers through a consistent, repeatable business model founded on five principles of excellence—selling, service, execution, marketing and operations.

### Grow Our Base Business

- ***Drive Incremental Revenue from Existing Clients***

We intend to increase penetration within our existing client base. We believe our ideas and innovations are a key differentiating factor for ARAMARK in winning new business at existing clients. We believe that opportunities exist to increase penetration in each of our major service lines—food service, facilities service and uniform service. In each of our sectors we have identified the top items that drive demand and have established standardized frameworks at the location level to maximize results. At our Major League Baseball venues where these programs have been introduced, per-capita expenditures by fans are 5.9% higher than last season.

Currently, 11% of our clients use both our food and facilities services. We believe that having an on-site team successfully providing one service positions us well to expand the services we provide. An example of a recent success is American University, where we have been providing facilities services since 2001 and recently won the dining business from a competitor based on our strategic vision for the campus and the local management teams that have consistently delivered high quality services.

- ***Increase Client Retention Rates***

ARAMARK has historically experienced high and consistent client retention rates. In 2013, our client retention rate was 94%. We believe that our front-line focus and emphasis on satisfying our clients' needs enable us to increase the quality of our operations. Our service orientation is centered on creating a culture of excellence. We believe that providing our front-line employees with tools and training that empower them to improve the quality and breadth of service that they provide clients will drive client and consumer loyalty, enabling us to increase our retention rates and enhance profitability for our stockholders.

### Grow New Business

- ***Expand New Business Through Selling Excellence***

ARAMARK's platform for growing new business is centered on understanding our clients' needs, creating innovative service offerings that meet those needs and selling our services with passion. We believe that our market leadership and extensive industry experience position us to capitalize on the large, under-penetrated and growing food, facilities and uniform services markets. We believe that the current rates of penetration will increase as more businesses and organizations continue to see the benefits of outsourcing non-core activities. Estimated annualized revenue from new clients contracted during 2013 as if they were acquired at the beginning of the fiscal year was over \$1.3 billion. Our estimated net new business (the estimated annualized sales of new clients less the annualized sales of lost clients as if they were acquired or lost on the first day of the fiscal year) was approximately \$525 million in fiscal 2013. There can be no assurance that the current rates of penetration of outsourcing for the food, facilities and uniform services markets will increase or that our sales will increase if they do.

We are particularly focused on the Education and Healthcare sectors due to their lower level of economic sensitivity and strong growth. Despite recent economic weakness, total spending on Education and Healthcare has increased as a percentage of total GDP. Additionally, we believe the addressable Education and Healthcare sectors represent opportunities of \$87 billion and \$31 billion, respectively, and are only approximately 30% outsourced to third party providers, which provides a significant opportunity for further growth.

- ***Increase Our Presence in Emerging Markets***

The favorable growth characteristics and relatively low outsourcing rates in emerging market regions present a substantial opportunity for accelerated growth. Our emerging markets presence currently consists of 7 countries across Asia and South America and represented 8% of our total sales in 2013. Our growth strategy in select emerging market geographies is focused on three initiatives: supporting existing clients as they expand into emerging markets, growing in geographies in which we already operate profitably, and entering new geographies where we have identified attractive prospects for profitable expansion. Over the last several years, our China business has experienced significant growth, including 27% growth in 2013, and we believe that we are well positioned to utilize deep industry and country experience to continue to expand in this key geography. Additionally, we are focused on growing our presence in South America, where we currently hold the #2 position in Chile and the #1 position in Argentina based on 2012 total sales. Given the scale and coordination required to successfully execute a multinational contract, we believe we are one of a very small group of global companies currently capable of competing for these contracts within emerging markets.

- ***Pursue Strategic Acquisitions***

We anticipate that continued consolidation in the global food, facilities and uniform services markets will create opportunities for us to acquire businesses with complementary geographic and service offering profiles. We intend to continue strengthening our existing business through selective, accretive acquisitions that will solidify our position, enhance and expand our service capabilities, further develop our differentiated positions, or allow us to enter into high growth geographies. We have a history of acquisitions, which we have integrated into our existing operations while achieving targeted synergies with minimal client losses. For example, in fiscal 2012 we acquired Filterfresh, a leader in providing quality office refreshment services to employees in the workplace, and in fiscal 2011 we acquired Masterplan, a clinical technology management and medical equipment maintenance company, which expanded our capability to service all levels of hospital clinical technology and strengthened our position in a key sector within the North American market. Both acquisitions were integrated into larger, similar ARAMARK operations.

### **Accelerate Margin Expansion through Operational Excellence**

We have been implementing a disciplined process to achieve operational excellence and capture productivity for growth through a standard, repeatable business model. To achieve this, we are investing in the systems, tools and training utilized by our front-line employees, and establishing quality standards and processes to more efficiently manage our food, merchandise, labor, and above-unit costs. Additionally, our scale and operating leverage allow us to effectively manage these costs, which together accounted for 77% of our operating costs in fiscal 2013. We are also incorporating automated, standardized and centralized processes that have resulted in the reduction of overhead costs through the elimination of redundancies in our finance and HR functions.

The implementation of these initiatives has led to increased profitability, a portion of which we are reinvesting in our business to achieve additional growth and margin expansion. This reinvestment is focused on two primary goals: improving the efficiency of standard tools and selling resources, and continuing to recruit, train and develop employees to maintain our culture of high performance. Through continued reinvestment in our business, we expect to both increase our ability to execute upon our core strategies and maintain our operational excellence.

- (1) Fiscal years 2013, 2012 and 2011 refer to the fiscal years ended September 27, 2013, September 28, 2012 and September 30, 2011, respectively. All periods presented are 52-week periods.
- (2) During fiscal 2011, the Company completed the sale of its wholly-owned subsidiary, Galls, for approximately \$75.0 million in cash. The transaction resulted in a pretax loss of approximately \$1.5 million (after-tax loss of approximately \$12.0 million). Galls is accounted for as a discontinued operation. Galls' results of operations have been removed from the Company's results of continuing operations for all periods presented.
- (3) The pro forma net income attributable to ARAMARK stockholders assumes a reduction of interest expense, net of tax, of approximately \$47 million for fiscal 2013 related to the debt refinancing that occurred during the second quarter of fiscal 2013. The pro forma net income attributable to ARAMARK stockholders and per share data assumes the debt refinancing occurred at the beginning of fiscal 2013.
- (4) The pro forma net income attributable to ARAMARK stockholders (as adjusted) and per share data (as adjusted) for fiscal 2013 assumes \$ million of the net offering proceeds are used to repay approximately \$ million of the outstanding term loans due July 26, 2016 under our senior secured credit facilities. Pro forma net income attributable to ARAMARK stockholders (as adjusted) for fiscal 2013 assumes a reduction of interest expense, net of tax, of approximately \$ million related to such repayment of term loans and an increase in share-based compensation expense of approximately \$ million for the ongoing portion of the non-cash charge related to the modification of the terms of certain performance-based options outstanding. The pro forma net income attributable to ARAMARK stockholders (as adjusted) and per share data (as adjusted) assumes the offering and the related application of net proceeds was completed at the beginning of fiscal 2013.

- (5) During fiscal 2011, the Company paid a dividend of approximately \$711 million to its stockholders. On October 29, 2012, we completed the spin-off of our majority interest in Seamless North America, LLC, an online and mobile food ordering service, to our stockholders in the form of a dividend. Each stockholder received one share of the common stock of Seamless Holdings, a newly formed company created to hold our former interest in Seamless North America, LLC, for each share of our common stock held as of the record date.
- (6) In the first quarter of fiscal 2011, the Company adopted the new authoritative accounting guidance regarding transfers of financial assets. The impact upon adoption resulted in the recognition of both the receivables securitized under the program and the borrowings they collateralize on the Consolidated Balance Sheet, which led to a \$220.9 million increase in "Receivables" and "Long-Term Borrowings." As a result of implementing the new guidance, funding under the agreement of \$220.9 million on October 2, 2010 was reflected in the Company's Consolidated Statement of Cash Flows as a use of cash from the securitization of accounts receivable under net cash provided by/(used in) operating activities and as a source of cash under net cash provided by/(used in) financing activities.
- (7) During fiscal 2011, the Company completed a private placement of \$600 million, net of a 1% discount, in aggregate principal amount of 8.625% / 9.375% Senior Notes due 2016. In the second quarter of fiscal 2013, the Company completed a refinancing, repurchasing ARAMARK Corporation's outstanding 8.50% Senior Notes due 2015 and Senior Floating Rate Notes due 2015 and our 8.625% / 9.375% Senior Notes due 2016. The Company refinanced that debt with new term loan borrowings under our senior secured credit facilities and the issuance of our senior notes.
- (8) We use Adjusted Net Income, Adjusted Operating Income and Adjusted EBITDA as supplemental measures to evaluate our performance. Adjusted Net Income, Adjusted Operating Income and Adjusted EBITDA are not measurements of financial performance under generally accepted accounting principles in the United States, or U.S. GAAP. Adjusted Net Income represents net income adjusted to eliminate the impact from discontinued operations, net of tax; the increased amortization of acquisition-related customer relationship intangible assets and depreciation of property and equipment resulting from the 2007 Transaction; the impact of changes in the fair value of our gasoline and diesel fuel derivative instruments; severance and other charges; and share-based compensation, less the tax impact of these adjustments. Adjusted Operating Income represents Adjusted Net Income further adjusted to exclude the impact from income taxes and interest and other financing costs, net. Adjusted EBITDA represents Adjusted Operating Income further adjusted to exclude the impact of all other depreciation and amortization expense.

## Table of Contents

The following table presents a reconciliation of the non-GAAP financial measures used in this prospectus. A directly comparable U.S. GAAP measure to Adjusted Net Income, Adjusted Operating Income and Adjusted EBITDA is net income. Adjusted Net Income, Adjusted Operating Income and Adjusted EBITDA are reconciled from net income as follows:

(unaudited, dollars in millions)	Fiscal year		
	2013	2012	2011
<b>Net Income (as reported)</b>	\$ 70	\$ 107	\$ 85

<b>Adjusted Operating Income</b>	\$ 798	\$ 750	\$ 717
Adjustment:			
Increased Amortization of Acquisition-Related Customer Relationship Intangible Assets and Depreciation of Property and Equipment Resulting from the 2007 Transaction	(155)	(153)	(153)
Depreciation and Amortization	542	529	511
<b>Adjusted EBITDA</b>	\$1,185	\$1,126	\$1,075

- (a) Severance and Other Charges includes severance and related costs of \$63.9 million, goodwill impairments of \$11.7 million, asset write-offs of \$12.0 million and costs related to transformation initiatives of \$20.7 million for fiscal 2013.
- (b) Represents the tax benefit, using an effective tax rate of 39.5%, associated with the adjusted expenses.

We use Adjusted Net Income as a supplemental measure of our overall profitability because it excludes the impact of the non-cash amortization of certain intangible assets and depreciation of property and equipment that were created at the time of the 2007 Transaction, non-cash share-based compensation expense and other items which are not indicative of our ongoing operational performance. Similarly, we use Adjusted Operating Income and Adjusted EBITDA as supplemental measures of our operating profitability and to evaluate and control our cash operating costs because they exclude the impact of the items noted above relating to the calculation of Adjusted Net Income that are not indicative of our ongoing operational performance. We believe the presentation of Adjusted Net Income, Adjusted Operating Income and Adjusted EBITDA is appropriate to provide additional information to investors about our operating performance.

Our presentation of these measures has limitations as an analytical tool, and should not be considered in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. You should not consider these measures as alternatives to net income or operating income, determined in accordance with U.S. GAAP. Adjusted Net Income, Adjusted Operating Income and Adjusted EBITDA, as presented by us, may

[Table of Contents](#)

not be comparable to other similarly titled measures of other companies because not all companies use identical calculations. Moreover, our definition of Adjusted EBITDA as presented here, although similar, is not the same as Covenant EBITDA and Covenant Adjusted EBITDA, which are calculated for ARAMARK Corporation in connection with our financial covenants in the indenture governing our senior notes and in our senior secured credit facilities.

## RISK FACTORS

*An investment in our common stock involves a high degree of risk. You should carefully consider each of the following risks as well as the other information included in this prospectus, including “Selected Consolidated Financial Data,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our financial statements and related notes, before investing in our common stock. Any of the following risks could materially and adversely affect our business, financial condition or results of operations. In such a case, the trading price of the common stock could decline and you may lose all or part of your investment.*

### **Risks Related to Our Business**

***Unfavorable economic conditions have, and in the future could, adversely affect our results of operations and financial condition.***

A national or international economic downturn has, and in the future could, reduce demand for our services in each of our reportable segments, which may result in the loss of business or increased pressure to contract for business on less favorable terms than our generally preferred terms. Economic hardship among our client base can also impact our business. For example, during the recent period of economic distress, certain of our businesses have been negatively affected by reduced employment levels at our clients’ locations and declining levels of business and consumer spending. In addition, insolvency experienced by clients, especially larger clients, has, and in the future could, make it difficult for us to collect amounts we are owed and could result in the voiding of existing contracts. Similarly, financial distress or insolvency, if experienced by our key vendors and service providers such as insurance carriers, could significantly increase our costs.

The portion of our food and support services business that provides services in public facilities such as convention centers and tourist and recreational attractions is particularly sensitive to an economic downturn, as expenditures to take vacations or hold or attend conventions are funded to a partial or total extent by discretionary income. A decrease in such discretionary income on the part of potential attendees at our clients’ facilities has, and in the future could, result in a reduction in our sales. Further, because our exposure to the ultimate consumer of what we provide is limited by our dependence on our clients to attract those consumers to their facilities and events, our ability to respond to such a reduction in attendance, and therefore our sales, is limited. There are many factors that could reduce the numbers of events in a facility or attendance at an event, including labor disruptions involving sports leagues, poor performance by the teams playing in a facility, number of playoff games, inclement weather and adverse economic conditions which would adversely affect sales and profits.

***Natural disasters, global calamities, sport strikes and other adverse incidents could adversely affect our sales and operating results.***

Natural disasters, including hurricanes and earthquakes, or global calamities have, and in the future could, affect our sales and operating results. In the past, ARAMARK experienced lost and closed client locations, business disruptions and delays, the loss of inventory and other assets, and the effect of the temporary conversion of a number of ARAMARK client locations to provide food and shelter to those left homeless by storms. In addition, any terrorist attacks, particularly against venues that we serve, and the national and global military, diplomatic and financial response to such attacks or other threats, also may adversely affect our sales and operating results. Sports strikes, particularly those that are for an extended time period, can reduce our sales and have an adverse impact on our results of operations. For example, in 2012, the collective bargaining agreement for the players in the National Hockey League expired. As a result, the 2012/2013 season was significantly shortened and our sales and profits were negatively impacted. Any decrease in the number of games played would mean a loss of sales and reduced profits at the venues we service.

***Our failure to retain our current clients, renew our existing client contracts and obtain new client contracts could adversely affect our business.***

Our success depends on our ability to retain our current clients, renew our existing client contracts and obtain new business. Our ability to do so generally depends on a variety of factors, including the quality, price and responsiveness of our services, as well as our ability to market these services effectively and differentiate ourselves from our competitors. We cannot assure you that we will be able to obtain new business, renew existing client contracts at the same or higher levels of pricing or that our current clients will not turn to competitors, cease operations, elect to self-operate or terminate contracts with us. The failure to renew a significant number of our existing contracts would have a material adverse effect on our business and results of operations and the failure to obtain new business could have an adverse impact on our growth.

***We may be adversely affected if clients reduce their outsourcing or use of preferred vendors.***

Our business and growth strategies depend in large part on the continuation of a current trend toward outsourcing services. Clients will outsource if they perceive that outsourcing may provide quality services at a lower overall cost and permit them to focus on their core business activities. We cannot be certain that this trend will continue or not be reversed or that clients that have outsourced functions will not decide to perform these functions themselves.

In addition, labor unions representing employees of some of our current and prospective clients have occasionally opposed the outsourcing trend to the extent that they believed that current union jobs for their memberships might be lost. In these cases, unions typically seek to prevent public sector entities from outsourcing and if that fails, ensure that jobs that are outsourced continue to be unionized, which can reduce our pricing and operational flexibility with respect to such businesses.

We have also identified a trend among some of our clients toward the retention of a limited number of preferred vendors to provide all or a large part of their required services. We cannot be certain that this trend will continue or not be reversed or, if it does continue, that we will be selected and retained as a preferred vendor to provide these services. Unfavorable developments with respect to either outsourcing or the use of preferred vendors could have a material adverse effect on our business and results of operations.

***Competition in our industries could adversely affect our results of operations.***

There is significant competition in the food and support services business from local, regional, national and international companies, of varying sizes, many of which have substantial financial resources. Our ability to successfully compete depends on our ability to provide quality services at a reasonable price and to provide value to our clients and consumers. Certain of our competitors have been and may in the future be willing to underbid us or accept a lower profit margin or expend more capital in order to obtain or retain business. Also, certain regional and local service providers may be better established than we are within a specific geographic region. In addition, existing or potential clients may elect to self-operate their food and support services, eliminating the opportunity for us to serve them or compete for the account. While we have a significant international presence, certain of our competitors have more extensive portfolios of services and a broader geographic footprint than we do. Therefore, we may be placed at a competitive disadvantage for clients who require multiservice or multinational bids.

We have a number of major national competitors in the uniform rental industry with significant financial resources. In addition, there are regional and local uniform suppliers whom we believe may have strong client loyalty. While most clients focus primarily on quality of service, uniform rental also is a price-sensitive service and if existing or future competitors seek to gain clients or accounts by reducing prices, we may be required to lower prices, which would reduce our sales and profits. The uniform rental business requires investment capital for growth. Failure to maintain capital investment in this business would put us at a competitive disadvantage. In

## [Table of Contents](#)

addition, due to competition in our uniform rental business, it has become increasingly important for us to source garments and other products overseas, particularly from Asia. To the extent we are not able to effectively source such products from Asia and gain the related cost savings, we may be at a further disadvantage in relation to some of our competitors.

### ***Increased operating costs and obstacles to cost recovery due to the pricing and cancellation terms of our food and support services contracts may constrain our ability to make a profit.***

Our profitability can be adversely affected to the extent we are faced with cost increases for food, wages, other labor related expenses (including workers' compensation, state unemployment insurance and federal or state mandated health benefits and other healthcare costs), insurance, fuel, utilities, piece goods, clothing and equipment, especially to the extent we are unable to recover such increased costs through increases in the prices for our products and services, due to one or more of general economic conditions, competitive conditions or contractual provisions in our client contracts. Oil and natural gas prices have fluctuated significantly in the last several years. Substantial increases in the cost of fuel and utilities have historically resulted in substantial cost increases in our uniform rental business, and to a lesser extent in our food and support services segments. From time to time we have experienced increases in our food costs. While we believe a portion of these increases were attributable to fuel prices, we believe the increases also resulted from rising global food demand and the increased production of biofuels such as ethanol. In addition, food prices can fluctuate as a result of temporary changes in supply, including as a result of incidences of severe weather such as droughts, heavy rains and late freezes. We have two main types of contract in our food and facilities business: profit and loss contracts in which we bear all of the expenses of the contract but gain the benefit of the sales, and client interest contracts in which our clients share some or all of the expenses and gain some or all of the sales. Approximately 73% of our food and support services sales in fiscal 2013 are from profit and loss contracts under which we have limited ability to pass on cost increases to our clients. Therefore, in many cases, we will have to absorb any cost increases, which may adversely impact our operating results.

The amount of risk that we bear and our profit potential vary depending on the type of contract under which we provide food and support services. We may be unable to fully recover costs on contracts that limit our ability to increase prices. In addition, we provide many of our services under contracts of indefinite term, which are subject to termination on short notice by either party without cause. Some of our profit and loss contracts contain minimum guaranteed remittances to our client regardless of our sales or profit at the facility involved. If sales do not exceed costs under a contract that contains minimum guaranteed commissions, we will bear any losses which are incurred, as well as the guaranteed commission. Generally, our contracts also limit our ability to raise prices on the food, beverages and merchandise we sell within a particular facility without the client's consent. In addition, some of our contracts exclude certain events or products from the scope of the contract, or give the client the right to modify the terms under which we may operate at certain events. The payment of guaranteed commissions to a client under a profit and loss contract that is not profitable, the refusal by individual clients to permit the sale of some products at their venues, the imposition by clients of limits on prices which are not economically feasible for us, or decisions by clients to curtail their use of the services we provide could adversely affect our sales and results of operations. For example, during the recent economic downturn, certain of our business and industry clients curtailed their employees' use of catering, which had a negative effect on our sales and profits.

### ***Our inability to achieve cost savings through our cost reduction efforts could impact our results of operations.***

The achievement of the goals we set in our plans and our future financial performance is dependent, in part, on our efforts to reduce our cost structure through various cost reduction initiatives. One of our recent initiatives is the establishment of a North American business services center that will bring together certain back office operations that are currently dispersed in many areas. Successful execution of our cost reduction initiatives is not assured and there are several obstacles to success, including our ability to enable the information technology and business process required for these efforts, as well as the timing of the transition to our business services center.

In addition, there can be no assurance that our efforts, if properly executed, will result in our desired outcome of improved financial performance.

***Our expansion strategy involves risks.***

We may seek to acquire companies or interests in companies or enter into joint ventures that complement our business, and our inability to complete acquisitions, integrate acquired companies successfully or enter into joint ventures may render us less competitive. At any given time, we may be evaluating one or more acquisitions or engaging in acquisition negotiations although we are not currently contemplating any acquisition transaction that would be material to our business. We cannot be sure that we will be able to continue to identify acquisition candidates or joint venture partners on commercially reasonable terms or at all. If we make acquisitions, we also cannot be sure that any benefits anticipated from the acquisitions will actually be realized. Likewise, we cannot be sure that we will be able to obtain necessary financing for acquisitions. Such financing could be restricted by the terms of our debt agreements or it could be more expensive than our current debt. The amount of such debt financing for acquisitions could be significant and the terms of such debt instruments could be more restrictive than our current covenants. In addition, our ability to control the planning and operations of our joint ventures and other less than majority-owned affiliates may be subject to numerous restrictions imposed by the joint venture agreements and majority stockholders. Our joint venture partners may also have interests which differ from ours.

The process of integrating acquired operations into our existing operations may result in operating, contract and supply chain difficulties, such as the failure to retain clients or management personnel and problems coordinating technology and supply chain arrangements. Also, in connection with any acquisition, we could fail to discover liabilities of the acquired company for which we may be responsible as a successor owner or operator in spite of any investigation we make prior to the acquisition. In addition, labor laws in certain countries may require us to retain more employees than would otherwise be optimal from entities we acquire. Such difficulties may divert significant financial, operational and managerial resources from our existing operations, and make it more difficult to achieve our operating and strategic objectives. The diversion of management attention, particularly in a difficult operating environment, may affect our sales. Similarly, our business depends on effective information technology systems and implementation delays or poor execution of the integration of different information technology systems could disrupt our operations and increase costs. Possible future acquisitions could result in the incurrence of additional debt and related interest expense or contingent liabilities and amortization expenses related to intangible assets, which could have a material adverse effect on our financial condition, operating results and/or cash flow. In addition, goodwill resulting from business combinations represents a significant portion of our assets. If the goodwill were deemed to be impaired, we would need to take a charge to earnings to write down the goodwill to its fair value.

***A failure to maintain food safety throughout our supply chain and food-borne illness concerns may result in reputational harm and claims of illness or injury that could adversely affect us.***

Food safety is a top priority for us and we dedicate substantial resources to ensuring that our consumers enjoy safe, quality food products. Claims of illness or injury relating to food quality or food handling are common in the food service industry, and a number of these claims may exist at any given time. Because food safety issues could be experienced at the source or by food suppliers or distributors, food safety could, in part, be out of our control. Regardless of the source or cause, any report of food-borne illness or other food safety issues such as food tampering or contamination at one of our locations could adversely impact our reputation, hindering our ability to renew contracts on favorable terms or to obtain new business, and have a negative impact on our sales. Even instances of food-borne illness, food tampering or contamination at a location served by one of our competitors could result in negative publicity regarding the food service industry generally and could negatively impact our sales. Future food product recalls and health concerns associated with food contamination may also increase our raw materials costs and, from time to time, disrupt our business.

***Governmental regulations relating to food and beverages may subject us to significant liability.***

The regulations relating to each of our food and support services segments are numerous and complex. A variety of regulations at various governmental levels relating to the handling, preparation and serving of food (including, in some cases, requirements relating to the temperature of food), and the cleanliness of food production facilities and the hygiene of food-handling personnel are enforced primarily at the local public health department level. We cannot assure you that we are in full compliance with all applicable laws and regulations at all times or that we will be able to comply with any future laws and regulations. Furthermore, legislation and regulatory attention to food safety is very high. Additional or amended regulations in this area may significantly increase the cost of compliance or expose us to liabilities.

We serve alcoholic beverages at many facilities, and must comply with applicable licensing laws, as well as state and local service laws, commonly called dram shop statutes. Dram shop statutes generally prohibit serving alcoholic beverages to certain persons such as an individual who is intoxicated or a minor. If we violate dram shop laws, we may be liable to the patron and/or third parties for the acts of the patron. Although we sponsor regular training programs designed to minimize the likelihood of such a situation, we cannot guarantee that intoxicated or minor patrons will not be served or that liability for their acts will not be imposed on us. There can be no assurance that additional regulation in this area would not limit our activities in the future or significantly increase the cost of regulatory compliance. We must also obtain and comply with the terms of licenses in order to sell alcoholic beverages in the states in which we serve alcoholic beverages. Some of our contracts require us to pay liquidated damages during any period in which our liquor license for the facility is suspended, and most contracts are subject to termination if we lose our liquor license for the facility.

***If we fail to comply with requirements imposed by applicable law or other governmental regulations, we could become subject to lawsuits, investigations and other liabilities and restrictions on our operations that could significantly and adversely affect our business.***

We are subject to governmental regulation at the federal, state, international, national, provincial and local levels in many areas of our business, such as employment laws, wage and hour laws, discrimination laws, immigration laws, human health and safety laws, import and export controls and customs laws, environmental laws, false claims or whistleblower statutes, minority, women and disadvantaged business enterprise statutes, tax codes, antitrust and competition laws, consumer protection statutes, public procurement regulations, intellectual property laws, food safety and sanitation laws, cost and accounting principles, the Foreign Corrupt Practices Act, the U.K. Bribery Act, other anti-corruption laws, lobbying laws, motor carrier safety laws, data privacy laws and alcohol licensing and service laws.

From time to time, both federal and state governmental agencies have conducted reviews of our billing practices as part of investigations or audits of providers of services under governmental contracts, or otherwise. We also receive requests for information from governmental agencies in connection with these reviews. While we attempt to comply with all applicable laws and regulations, we cannot assure you that we are in full compliance with all applicable laws and regulations or interpretations of these laws and regulations at all times or that we will be able to comply with any future laws, regulations or interpretations of these laws and regulations.

If we fail to comply with applicable laws and regulations, including those referred to above, we may be subject to investigations, criminal sanctions or civil remedies, including fines, penalties, damages, reimbursement, injunctions, seizures or debarments from government contracts or the loss of liquor licenses. The cost of compliance or the consequences of non-compliance, including debarments, could have a material adverse effect on our business and results of operations. In addition, governmental units may make changes in the regulatory frameworks within which we operate that may require either the corporation as a whole or individual businesses to incur substantial increases in costs in order to comply with such laws and regulations.

### ***Changes in, new interpretations of or changes in the enforcement of the governmental regulatory framework may affect our contracts and contract terms and may reduce our sales or profits.***

A portion of our sales, estimated to be approximately 11.2% in fiscal 2013, is derived from business with U.S. federal, state and local governments and agencies. Changes or new interpretations in, or changes in the enforcement of, the statutory or regulatory framework applicable to services provided under governmental contracts or bidding procedures, including an adverse change in government spending policies or appropriations (including budget cuts at the federal level resulting from sequestration or reductions in government spending resulting from the October 2013 government shut down), budget priorities or revenue levels, particularly by our food and support services businesses, could result in fewer new contracts or contract renewals, modifications to the methods we apply to price government contracts, or in contract terms of shorter duration than we have historically experienced. Any of these changes could result in lower sales or profits than we have historically achieved, which could have an adverse effect on our results of operations.

### ***Environmental regulations may subject us to significant liability and limit our ability to grow.***

We are subject to various environmental protection laws and regulations, including the U.S. federal Clean Water Act, Clean Air Act, Resource Conservation and Recovery Act, Comprehensive Environmental Response, Compensation, and Liability Act and similar state statutes and regulations governing the use, management, and disposal of chemicals and hazardous materials. In particular, industrial laundries in our uniform rental business use certain detergents and cleaning chemicals to launder garments and other merchandise. The residues from such detergents and chemicals and residues from soiled garments and other merchandise laundered at our facilities may result in potential discharges to air and to water (through sanitary sewer systems and publicly owned treatment works) and may be contained in waste generated by our wastewater treatment systems.

Our industrial laundries are subject to certain volume and chemical air and water pollution discharge limits, monitoring, permitting and recordkeeping requirements.

We own or operate aboveground and underground storage tank systems at some locations to store petroleum products for use in our or our clients' operations. Certain of these storage tank systems also are subject to performance standards, periodic monitoring, and recordkeeping requirements. We also may use and manage chemicals and hazardous materials in our operations from time to time. In the course of our business, we may be subject to penalties and fines for non-compliance with environmental protection laws and regulations and we may settle, or contribute to the settlement of, actions or claims relating to the management of underground storage tanks and the handling and disposal of chemicals or hazardous materials. We may, in the future, be required to expend material amounts to rectify the consequences of any such events.

In addition, changes to environmental laws may subject us to additional costs or cause us to change aspects of our business. Under U.S. federal and state environmental protection laws, as an owner or operator of real estate we may be liable for the costs of removal or remediation of certain hazardous materials located on or in or emanating from our owned or leased property or our client's properties, as well as related costs of investigation and property damage, without regard to our fault, knowledge, or responsibility for the presence of such hazardous materials. There can be no assurance that locations that we own, lease or otherwise operate, either for ourselves or for our clients, or that we may acquire in the future, have been operated in compliance with environmental laws and regulations or that future uses or conditions will not result in the imposition of liability upon us under such laws or expose us to third-party actions such as tort suits. In addition, such regulations may limit our ability to identify suitable sites for new or expanded facilities. In connection with our present or past operations and the present or past operations of our predecessors or companies that we have acquired, hazardous substances may migrate from properties on which we operate or which were operated by our predecessors or companies we acquired to other properties. We may be subject to significant liabilities to the extent that human health is adversely affected or the value of such properties is diminished by such migration.

### ***Our international business faces risks different from those we face in the United States that could have an effect on our results of operations and financial condition.***

A significant portion of our sales is derived from international business. During fiscal 2013, approximately 21% of our sales were generated outside of North America. We currently have a presence in 19 countries outside of North America with approximately 88,000 personnel. Our international operations are subject to risks that are different from those we face in the United States, including the requirement to comply with changing and conflicting national and local regulatory requirements; Foreign Corrupt Practices Act, U.K. Bribery Act and other anti-corruption law compliance matters; potential difficulties in staffing and labor disputes; differing local labor laws; managing and obtaining support and distribution for local operations; credit risk or financial condition of local clients; potential imposition of restrictions on investments; potentially adverse tax consequences, including imposition or increase of withholding, VAT and other taxes on remittances and other payments by subsidiaries; foreign exchange controls; and local political and social conditions. In addition, the operating results of our non-U.S. subsidiaries are translated into U.S. dollars and those results are affected by movements in foreign currencies relative to the U.S. dollar.

We intend to continue to develop our business in emerging countries over the long term. Emerging international operations present several additional risks, including greater fluctuation in currencies relative to the U.S. dollar; economic and governmental instability; civil disturbances; volatility in gross domestic production; and nationalization and expropriation of private assets.

There can be no assurance that the foregoing factors will not have a material adverse effect on our international operations or on our consolidated financial condition and results of operations.

### ***Continued or further unionization of our workforce may increase our costs and work stoppages could damage our business.***

Approximately 40,000 employees in our North American operations are represented by unions and covered by collective bargaining agreements. The continued or further unionization of a significantly greater portion of our workforce could increase our overall costs at the affected locations and adversely affect our flexibility to run our business in the most efficient manner to remain competitive or acquire new business. In addition, any significant increase in the number of work stoppages at our various operations could adversely affect our business, financial condition or results of operations.

### ***We may incur significant liability as a result of our participation in multiemployer defined benefit pension plans.***

We operate at a number of locations under collective bargaining agreements. Under some of these agreements, we are obligated to participate in and contribute to multiemployer defined benefit pension plans. As a contributing employer to such plans, should ARAMARK withdraw, either totally or trigger a "partial withdrawal," we would be subject to withdrawal liability (or partial withdrawal liability) for our proportionate share of any unfunded vested benefits. In addition, if a multiemployer defined benefit pension plan fails to satisfy the minimum funding standards, we could be liable to increase our contributions to meet minimum funding standards. Also, if a participating employer withdraws from the plan or experiences financial difficulty, including bankruptcy, our obligation could increase. The financial status of certain of the plans in which ARAMARK participates has deteriorated in the recent past and continues to deteriorate. In addition, any increased funding obligations for underfunded multiemployer defined benefit pension plans could have a financial impact on us.

### ***Risks associated with the suppliers from whom our products are sourced could adversely affect our results of operations.***

The raw materials we use in our business and the finished products we sell are sourced from a wide variety of domestic and international suppliers. We seek to require our suppliers to comply with applicable laws and

## [Table of Contents](#)

otherwise be certified as meeting our supplier standards of conduct. Our ability to find qualified suppliers who meet our standards, and to access raw materials and finished products in a timely and efficient manner is a challenge, especially with respect to suppliers located and goods sourced outside the United States. In addition, insolvency experienced by suppliers could make it difficult for us to source the items we need to run our business. Political and economic stability in the countries in which foreign suppliers are located, the financial stability of suppliers, suppliers' failure to meet our supplier standards, labor problems experienced by our suppliers, the availability of raw materials to suppliers, currency exchange rates, transport availability and cost, inflation and other factors relating to the suppliers and the countries in which they are located are beyond our control. In addition, United States foreign trade policies, tariffs and other impositions on imported goods, trade sanctions imposed on certain countries, the limitation on the importation of certain types of goods or of goods containing certain materials from other countries and other factors relating to foreign trade are beyond our control. In addition, if one of our suppliers were to violate the law, our reputation may be harmed simply due to our association with that supplier. These and other factors affecting our suppliers and our access to raw materials and finished products could adversely affect our results of operations.

***In fiscal 2013, one distributor distributed approximately 60% of our food and non-food products in the United States and Canada, and if our relationship or their business were to be disrupted, we could experience disruptions to our operations and cost structure.***

Although we negotiate the pricing and other terms for the majority of our purchases of food and related products in the U.S. and Canada directly with national manufacturers, we purchase these products and other items through SYSCO Corporation and other distributors. SYSCO, the main U.S. and Canadian distributor of our food and non-food products, and other distributors are responsible for tracking our orders and delivering products to our specific locations. If our relationship with, or the business of, SYSCO were to be disrupted, we would have to arrange alternative distributors and our operations and cost structure could be adversely affected in the short term. Similarly, a sudden termination of the relationship with a significant provider in other geographic areas could in the short term adversely affect our ability to provide services and disrupt our client relationships in such areas.

***Our business may suffer if we are unable to hire and retain sufficient qualified personnel or if labor costs increase.***

From time to time, we have had difficulty in hiring and retaining qualified management personnel, particularly at the entry management level. We will continue to have significant requirements to hire such personnel. In the past, at times when the United States or other geographic regions have periodically experienced reduced levels of unemployment, there has been a shortage of qualified workers at all levels. Given that our workforce requires large numbers of entry level and skilled workers and managers, low levels of unemployment when such conditions exist or mismatches between the labor markets and our skill requirements can compromise our ability in certain areas of our businesses to continue to provide quality service or compete for new business. We also regularly hire a large number of part-time and seasonal workers, particularly in our food and support services segments. Any difficulty we may encounter in hiring such workers could result in significant increases in labor costs, which could have a material adverse effect on our business, financial condition and results of operations. Competition for labor has at times resulted in wage increases in the past and future competition could substantially increase our labor costs. Due to the labor intensive nature of our businesses and the fact that 73% of our food and support services segments' sales are from profit and loss contracts under which we have limited ability to pass along cost increases, a shortage of labor or increases in wage levels in excess of normal levels could have a material adverse effect on our results of operations.

***Healthcare reform legislation could have an impact on our business.***

During 2010, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 were signed into law in the United States. Certain of the provisions that have

## [Table of Contents](#)

increased our healthcare costs include the removal of annual plan limits and the mandate that health plans provide 100% coverage on expanded preventative care. In addition, our healthcare costs could increase as the new legislation and accompanying regulations require us to apply new eligibility rules, which could potentially cover more variable hour employees than we do currently or pay penalty amounts in the event that employees do not elect our offered coverage. While much of the cost of the recent healthcare legislation enacted will occur after 2014 due to provisions of the legislation being delayed and phased in over time, changes to our healthcare cost structure could have an impact on our business and operating costs.

### ***Our business is contract intensive and may lead to client disputes.***

Our business is contract intensive and we are parties to many contracts with clients all over the world. Our client interest contracts provide that client billings, and for some contracts the sharing of profits and losses, are based on our determinations of costs of service. Contract terms under which we base these determinations and, for certain government contracts, regulations governing our cost determinations, may be subject to differing interpretations which could result in disputes with our clients from time to time. Clients generally have the right to audit our contracts, and we periodically review our compliance with contract terms and provisions. If clients were to dispute our contract determinations, the resolution of such disputes in a manner adverse to our interests could negatively affect sales and operating results. While we do not believe any reviews, audits or other such matters should result in material adjustments, if a large number of our client arrangements were modified in response to any such matter, the effect could be materially adverse to our business or results of operations.

### ***Our operations are seasonal and quarter to quarter comparisons may not be a good indicator of our performance.***

In our first and second fiscal quarters, within the FSS North America segment, there historically has been a lower level of sales at the sports, entertainment and recreational clients, which is partly offset by increased activity in educational operations. In our third and fourth fiscal quarters, there historically has been a significant increase in sales at the sports, entertainment and recreational clients, which is partially offset by the effect of summer recess in educational operations. For these reasons, a quarter to quarter comparison is not a good indication of our performance or how we will perform in the future.

## **Risks Related to Our Indebtedness**

***Our leverage could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industries, expose us to interest rate risk to the extent of our variable rate debt and prevent us from meeting our obligations.***

We are highly leveraged. As of September 27, 2013, our outstanding indebtedness was \$5,824.1 million, including amounts outstanding under our credit facilities, senior notes and receivables facility. We also had additional availability of approximately \$579.0 million under our revolving credit facility at that date.

This degree of leverage could have important consequences, including:

- exposing us to the risk of increased interest rates as certain of our borrowings, including borrowings under our senior secured credit facilities and our receivables facility, are at variable rates of interest;
- making it more difficult for us to make payments on our indebtedness;
- increasing our vulnerability to general economic and industry conditions;
- requiring a substantial portion of cash flow from operations to be dedicated to the payment of principal and interest on our indebtedness, thereby reducing our ability to use our cash flow to fund our operations, capital expenditures and future business opportunities;
- restricting us from making strategic acquisitions or causing us to make non-strategic divestitures;

## Table of Contents

- limiting our ability to obtain additional financing for working capital, capital expenditures, debt service requirements, acquisitions and general corporate or other purposes; and
- limiting our ability to adjust to changing market conditions and placing us at a competitive disadvantage compared to our competitors who are less highly leveraged.

We and our subsidiaries may be able to incur substantial additional indebtedness in the future, subject to the restrictions contained in our senior secured credit facilities and the indenture governing our senior notes. If new indebtedness is added to our current debt levels, the related risks that we now face could increase.

***If our financial performance were to deteriorate, we may not be able to generate sufficient cash to service all of our indebtedness and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.***

Our ability to make scheduled payments on or to refinance our debt obligations depends on our financial condition and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. While we believe that we currently have adequate cash flows to service our indebtedness, if our financial performance were to deteriorate significantly, we might be unable to maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness.

If, due to such a deterioration in our financial performance, our cash flows and capital resources were to be insufficient to fund our debt service obligations, we may be forced to reduce or delay investments and capital expenditures, or to sell assets, seek additional capital or restructure or refinance our indebtedness. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations. In addition, if we were required to raise additional capital in the current financial markets, the terms of such financing, if available, could result in higher costs and greater restrictions on our business. In addition, although a significant amount of our long-term borrowings do not mature until 2016 and later, if we were to need to refinance our existing indebtedness, the conditions in the financial markets at that time could make it difficult to refinance our existing indebtedness on acceptable terms or at all. If such alternative measures proved unsuccessful, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. Our senior secured credit agreement and the indenture governing our senior notes restrict our ability to dispose of assets and use the proceeds from any disposition of assets and to refinance our indebtedness. We may not be able to consummate those dispositions or to obtain the proceeds that we could realize from them and these proceeds may not be adequate to meet any debt service obligations then due.

***Our debt agreements contain restrictions that limit our flexibility in operating our business.***

Our senior secured credit agreement and the indenture governing our senior notes contain various covenants that limit our ability to engage in specified types of transactions. These covenants limit our and our restricted subsidiaries' ability to, among other things:

- incur additional indebtedness, refinance or restructure indebtedness or issue certain preferred shares;
- pay dividends on, repurchase or make distributions in respect of our capital stock, make unscheduled payments on our notes, repurchase or redeem our notes or make other restricted payments;
- make certain investments;
- sell certain assets;
- create liens;
- consolidate, merge, sell or otherwise dispose of all or substantially all of our assets; and
- enter into certain transactions with our affiliates.

## [Table of Contents](#)

In addition, our senior secured revolving credit facility requires us to satisfy and maintain specified financial ratios and other financial condition tests. Our ability to meet those financial ratios and tests can be affected by events beyond our control, and in the event of a significant deterioration of our financial performance, we cannot assure you that we will satisfy those ratios and tests. A breach of any of these covenants could result in a default under the senior secured credit agreement. Upon our failure to maintain compliance with these covenants that is not waived by the lenders under the revolving credit facility, the lenders under the senior secured credit facilities could elect to declare all amounts outstanding under the senior secured credit facilities to be immediately due and payable and terminate all commitments to extend further credit under such facilities. If we were unable to repay those amounts, the lenders under the senior secured credit facilities could proceed against the collateral granted to them to secure that indebtedness. We have pledged a significant portion of our assets as collateral under the senior secured credit agreement. If the lenders under the senior secured credit facilities accelerate the repayment of borrowings, we cannot assure you that we will have sufficient assets to repay those borrowings, as well as our unsecured indebtedness. If our senior secured indebtedness was accelerated by the lenders as a result of a default, our senior notes may become due and payable as well. Any such acceleration may also constitute an amortization event under our receivables facility, which could result in the amount outstanding under that facility becoming due and payable.

### **Risks Related to this Offering and Ownership of Our Common Stock**

#### ***There is no existing market for our common stock and an active, liquid trading market may not develop.***

Prior to this offering, there has not been a public market for our common stock. We cannot predict the extent to which investor interest in our company will lead to the development of a trading market on the New York Stock Exchange, or NYSE, or otherwise or how active and liquid that market may become. If an active and liquid trading market does not develop, you may have difficulty selling any of our common stock that you purchase. The initial public offering price for the shares of our common stock will be determined by negotiations between us, the selling stockholders and the underwriters and may not be indicative of prices that will prevail in the open market following this offering. The market price of our common stock may decline below the initial offering price, and you may not be able to sell your shares of our common stock at or above the price you paid in this offering, or at all.

#### ***You will incur immediate and substantial dilution in the net tangible book value of the shares you purchase in this offering.***

Prior investors have paid substantially less per share of our common stock than the price in this offering. The initial public offering price of our common stock is substantially higher than the net tangible book value per share outstanding prior to completion of the offering. Based on our net tangible book deficit as of September 27, 2013 and upon the issuance and sale of shares of common stock by us at an assumed initial public offering price of \$      per share (the midpoint of the initial public offering price range indicated on the cover of this prospectus), if you purchase our common stock in this offering, you will pay more for your shares than the amounts paid by our existing stockholders for their shares and you will suffer immediate dilution of approximately \$      per share in net tangible book value. We also have a large number of outstanding stock options to purchase shares of common stock with exercise prices that are below the estimated initial offering price of shares of our common stock. To the extent that these options are exercised, you will experience further dilution.

#### ***Our share price may change significantly following the offering, and you could lose all or part of your investment as a result.***

The trading price of our common stock is likely to be highly volatile and could fluctuate due to a number of factors such as those listed in “—Risks Related to Our Business” and the following, some of which are beyond our control:

- quarterly variations in our results of operations;

## Table of Contents

- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by securities analysts and investors;
- announcements by us, our competitors or our vendors of significant contracts, acquisitions, joint marketing relationships, joint ventures or capital commitments;
- announcements by third parties of significant claims or proceedings against us;
- future sales of our common stock;
- general domestic and international economic conditions; and
- unexpected and sudden changes in senior management.

Furthermore, the stock market has experienced extreme volatility that, in some cases, has been unrelated or disproportionate to the operating performance of particular companies. These broad market and industry fluctuations may adversely affect the market price of our common stock, regardless of our actual operating performance.

In the past, following periods of market volatility, stockholders have instituted securities class action litigation. If we were involved in securities litigation, it could have a substantial cost and divert resources and the attention of executive management from our business regardless of the outcome of such litigation.

***Certain stockholders' shares are restricted from immediate resale but may be sold into the market in the near future. This could cause the market price of our common stock to drop significantly.***

After the completion of this offering, we will have \_\_\_\_\_ million shares of common stock outstanding. This number includes \_\_\_\_\_ million shares of common stock that are being sold in this offering, which may be resold immediately in the public market.

We and the selling stockholders, our directors and executive officers and certain of our principal stockholders have agreed not to offer or sell, dispose of or hedge, directly or indirectly, any of our common stock without the permission of \_\_\_\_\_ for a period of 180 days from the date of this prospectus, subject to certain exceptions and automatic extensions in certain circumstances. See "Shares Eligible for Future Sale." In addition, under our Stockholders Agreement (as defined herein) management stockholders will generally be permitted to sell up to 50% of their shares (including shares underlying stock-based awards) commencing six months following this offering and the remainder of their shares commencing one year following this offering. Pursuant to our Registration Rights Agreement (as defined herein), stockholders who hold more than 10% of our then-outstanding shares, or Joseph Neubauer, or the coordination committee (in the case of a "shelf" registration) have the right to require us to file a registration statement with the SEC for the resale of our common stock following the completion of this offering. These shares may also be sold pursuant to Rule 144 under the Securities Act of 1933, as amended, which we refer to as the Securities Act, depending on their holding period and subject to restrictions in the case of shares held by persons deemed to be our affiliates. As restrictions on resale end or if these stockholders exercise their registration rights, the market price of our common stock could decline if the holders of restricted shares sell them or are perceived by the market as intending to sell them. See "Certain Relationships and Related Party Transactions."

We also have outstanding options to purchase our common stock with exercise prices that are below the estimated initial offering price of our common stock. To the extent that these options are exercised, you will experience further dilution. We also intend to file a registration statement on Form S-8 under the Securities Act covering all of the common stock subject to outstanding equity awards, as well as options and shares reserved for future issuance, under our stock incentive plans. Once we register these shares, they can be freely sold in the

public market upon issuance and vesting, subject to the lock-up agreements described in the “Underwriting” section of this prospectus and contained in the terms of such plans, or unless they are held by “affiliates,” as that term is defined in Rule 144 of the Securities Act. Sales of a substantial number of shares of these shares could cause the market price of our common stock to decline.

### ***The availability of shares for sale in the future could reduce the market price of our common stock.***

In the future, we may issue securities to raise cash for acquisitions or otherwise. We may also acquire interests in other companies by using a combination of cash and common stock or just common stock. We may also issue securities convertible into our common stock. Any of these events may dilute your ownership interest in our company and have an adverse impact on the price of our common stock.

In addition, sales of a substantial amount of our common stock in the public market, or the perception that these sales may occur, could reduce the market price of our common stock. This could also impair our ability to raise additional capital through the sale of our securities.

### ***We cannot assure you that we will pay dividends on our common stock, and our indebtedness could limit our ability to pay dividends on our common stock.***

Following completion of this offering, we intend to commence the payment of cash dividends on our common stock, subject to our compliance with applicable law, and depending on, among other things, our results of operations, financial condition, level of indebtedness, capital requirements, contractual restrictions, business prospects and other factors that our board of directors may deem relevant. Our senior secured credit facilities and the indenture governing our senior notes contain, and the terms of any future indebtedness we or our subsidiaries incur may contain, limitations on our ability to pay dividends. For more information, see “Dividend Policy.” There can be no assurance that we will pay a dividend in the future or continue to pay any dividend if we do commence paying dividends.

### ***Our Controlling Owners can significantly influence our business and affairs and may have conflicts of interest with us in the future.***

Following the completion of this offering, investment funds associated with or designated by GS Capital Partners, CCMP Capital Advisors, LLC, J.P. Morgan Partners, LLC, Thomas H. Lee Partners, L.P. and Warburg Pincus, which we refer to as the Sponsors, and Joseph Neubauer, who, together with the Sponsors, we refer to as the Controlling Owners, will collectively own approximately % of our common stock (or % if the underwriters exercise their option to purchase additional shares in full). As a result, the Controlling Owners have the ability to prevent any transaction that requires the approval of stockholders, including the election of directors, mergers and takeover offers, regardless of whether others believe that approval of those matters is in our best interests.

In addition, the Sponsors are in the business of making investments in companies and may from time to time acquire and hold interests in businesses that compete directly or indirectly with us. One or more of the Sponsors may also pursue acquisition opportunities that may be complementary to our business and, as a result, those acquisition opportunities may not be available to us. So long as the Controlling Owners, or funds controlled by or associated with the Sponsors, continue to own a significant amount of the outstanding shares of our common stock, even if such amount is less than 50%, the Controlling Owners will continue to be able to strongly influence us. Our amended and restated certificate of incorporation provides that none of the Controlling Owners or any of their affiliates will have any duty to refrain from (i) engaging in a corporate opportunity in the same or similar lines of business in which we or our affiliates now engage or propose to engage or (ii) otherwise competing with us or our affiliates. See “Description of Capital Stock—Conflicts of Interest.”

### ***Anti-takeover provisions in our organizational documents could delay or prevent a change of control.***

Certain provisions of our amended and restated certificate of incorporation and amended and restated bylaws may have an anti-takeover effect and may delay, defer or prevent a merger, acquisition, tender offer, takeover

## [Table of Contents](#)

attempt or other change of control transaction that a stockholder might consider in its best interest, including those attempts that might result in a premium over the market price for the shares held by our stockholders.

These provisions provide for, among other things:

- the ability of our board of directors to issue one or more series of preferred stock;
- advance notice for nominations of directors by stockholders and for stockholders to include matters to be considered at our annual meetings;
- certain limitations on convening special stockholder meetings;
- the removal of directors only upon the affirmative vote of the holders of at least 75% in voting power of all the then-outstanding common stock of the company entitled to vote thereon, voting together as a single class, if the Controlling Owners and their affiliates beneficially own, in the aggregate, less than a majority in voting power of the common stock of the Company entitled to vote generally in the election of directors; and
- that certain provisions may be amended only by the affirmative vote of the holders of at least 75% in voting power of all the then-outstanding common stock of the company entitled to vote thereon, voting together as a single class, if the Controlling Owners and their affiliates beneficially own, in the aggregate, less than 50% in voting power of the common stock of the Company entitled to vote generally in the election of directors.

These anti-takeover provisions could make it more difficult for a third-party to acquire us, even if the third-party's offer may be considered beneficial by many of our stockholders. As a result, our stockholders may be limited in their ability to obtain a premium for their shares. See "Description of Capital Stock."

***Our amended and restated certificate of incorporation designates the Court of Chancery of the State of Delaware as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our stockholders, which could limit our stockholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers or other employees.***

Our amended and restated certificate of incorporation provides that, with certain limited exceptions, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for any stockholder (including any beneficial owner) to bring (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of fiduciary duty owed by any director or officer of the Company owed to us or our stockholders, creditors or other constituents, (iii) any action asserting a claim against us or any director or officer of the Company arising pursuant to any provision of the Delaware General Corporation Law or our amended and restated certificate of incorporation or our amended and restated bylaws, or (iv) any action asserting a claim against the Company or any director or officer of the Company governed by the internal affairs doctrine. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock is deemed to have received notice of and consented to the foregoing provisions. This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers or other employees, which may discourage such lawsuits against us and our directors, officers and employees. Alternatively, if a court were to find this choice of forum provision inapplicable to, or unenforceable in respect of, one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could adversely affect our business, financial condition or results of operations.

***We are a "controlled company" within the meaning of the New York Stock Exchange rules and, as a result, will qualify for, and intend to rely on, exemptions from certain corporate governance requirements. You will not have the same protections afforded to stockholders of companies that are subject to such requirements.***

After completion of this offering, certain stockholders will continue to beneficially own a majority of the voting power of all outstanding shares of our common stock. Under New York Stock Exchange corporate

## [Table of Contents](#)

governance standards, a company of which more than 50% of the voting power is held by an individual, group or another company is a “controlled company” and may elect not to comply with certain corporate governance requirements, including:

- the requirement that a majority of the board of directors consist of “independent directors” as defined under the rules of the NYSE;
- the requirement that we have a nominating/corporate governance committee that is composed entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities;
- the requirement that we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities; and
- the requirement for an annual performance evaluation of the nominating/corporate governance and compensation committees.

Following this offering, we intend to utilize these exemptions. As a result, we may not have a majority of independent directors, our nominating and corporate governance committee and compensation committee may not consist entirely of independent directors and such committees may not be subject to annual performance evaluations. Accordingly, you will not have the same protections afforded to stockholders of companies that are subject to all of the corporate governance requirements of the New York Stock Exchange.

### ***We will incur increased costs and our management will face increased demands as a result of operating as a listed company.***

As a listed company, we will incur significant legal, accounting and other expenses that we did not incur as a private company. In addition, our administrative staff will be required to perform additional tasks. For example, in anticipation of becoming a listed company, we will need to adopt additional internal controls and disclosure controls and procedures and bear all of the internal and external costs of preparing and distributing periodic public reports in compliance with our obligations under applicable securities laws.

In addition, changing laws, regulations and standards relating to corporate governance and public disclosure, including the Sarbanes-Oxley Act, the Dodd-Frank Act and related regulations implemented by the Securities and Exchange Commission, or the SEC, and the stock exchanges are creating uncertainty for public companies, increasing legal and financial compliance costs and making some activities more time-consuming. We are currently evaluating and monitoring developments with respect to new and proposed rules and cannot predict or estimate the amount of additional costs we may incur or the timing of such costs. These laws, regulations and standards are subject to varying interpretations, in many cases due to their lack of specificity, and, as a result, their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies. This could result in continuing uncertainty regarding compliance matters and higher costs necessitated by ongoing revisions to disclosure and governance practices.

We intend to invest resources to comply with evolving laws, regulations and standards, and this investment may result in increased general and administrative expenses and a diversion of management’s time and attention from revenue-generating activities to compliance activities. If our efforts to comply with new laws, regulations and standards differ from the activities intended by regulatory or governing bodies due to ambiguities related to practice, regulatory authorities may initiate legal proceedings against us and our business may be harmed. We also expect that being a listed company and these new rules and regulations will make it more expensive for us to obtain director and officer liability insurance, and we may be required to accept reduced coverage or incur substantially higher costs to obtain coverage. These factors could also make it more difficult for us to attract and retain qualified members of our board of directors, particularly to serve on our audit committee and compensation committee, and attract and retain qualified executive officers.

The increased costs associated with operating as a listed company may decrease our net income, and may cause us to reduce costs in other areas of our business or increase the prices of our products or services to offset

---

[Table of Contents](#)

the effect of such increased costs. Additionally, if these requirements divert our management's attention from other business concerns, they could have a material adverse effect on our business, financial condition and results of operations.

***If securities or industry research analysts do not publish or cease publishing research or reports about our business or if they issue unfavorable commentary or downgrade our common stock, our share price and trading volume could decline.***

The trading market for our common stock will rely in part on the research and reports that securities and industry research analysts publish about us, our industry, our competitors and our business. We do not have any control over these analysts. Our share price and trading volumes could decline if one or more securities or industry analysts downgrade our common stock, issue unfavorable commentary about us, our industry or our business, cease to cover our company or fail to regularly publish reports about us, our industry or our business.

## USE OF PROCEEDS

We estimate that the net proceeds we will receive from the sale of \_\_\_\_\_ shares of our common stock we are offering, after deducting underwriters' discounts and commissions and estimated expenses payable by us, will be approximately \$ \_\_\_\_\_ million. This estimate assumes an initial public offering price of \$ \_\_\_\_\_ per share, the midpoint of the range set forth on the cover page of this prospectus. A \$1.00 increase (decrease) in the assumed initial public offering price of \$ \_\_\_\_\_ per share would increase (decrease) the net proceeds to us from this offering by \$ \_\_\_\_\_ million, assuming the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting the estimated underwriting discounts and commissions and estimated expenses payable by us. A one million share increase (decrease) in the number of shares offered by us in this offering would increase (decrease) the net proceeds to us by approximately \$ \_\_\_\_\_ million, assuming an initial public offering price of \$ \_\_\_\_\_ per share, after deducting the estimated underwriting discounts and commissions and estimated expenses payable by us. We will not receive any proceeds from the sale of shares of our common stock by the selling stockholders.

We intend to use the net proceeds received by us from this offering to repay a portion of the outstanding term loans due July 26, 2016 under our senior secured credit facilities. The proceeds from the incurrence of these term loans in December 2012 were used primarily to repay approximately \$650 million of existing term loans with a maturity date of January 26, 2014 and related discounts, fees and costs. As of September 27, 2013, our senior secured credit facilities included term loan facilities consisting of \$3,033.7 million of term loans maturing on July 26, 2016 and \$1,400.0 million of term loans maturing on September 7, 2019, exclusive of the original issue discounts. The term loans maturing in July 2016 have applicable margins of 3.50% for eurocurrency (LIBOR) term loan borrowings and 2.50% for base rate term loan borrowings. The term loans maturing in September 2019 have applicable margins of 3.00% for eurocurrency (LIBOR) term loan borrowings, subject to a LIBOR floor of 1.00%, and 2.00% for base-rate borrowings, subject to minimum base rate of 2.00%. See "Description of Certain Indebtedness."

To the extent we raise more proceeds in this offering than currently estimated, we intend to use such proceeds to repay certain of our other existing indebtedness, as will be determined following completion of this offering, and for general corporate purposes.

Affiliates of certain of the underwriters are lenders under our senior secured credit agreement and, accordingly, may receive a portion of the net proceeds from this offering through repayment of such indebtedness. See "Underwriting—Conflicts of Interest."

## **DIVIDEND POLICY**

Following completion of this offering, we intend to commence the payment of cash dividends on our common stock, subject to our compliance with applicable law, and depending on, among other things, our results of operations, financial condition, level of indebtedness, capital requirements, contractual restrictions, business prospects and other factors that our board of directors may deem relevant. In addition, our ability to pay dividends is limited by covenants in our senior secured credit facilities and the indenture governing our senior notes. Future agreements may also limit our ability to pay dividends. Specifically, the senior secured credit agreement and the indenture governing our senior notes each limit the ability of our subsidiary ARAMARK Corporation to declare dividends or make other distributions to us, which could in turn limit our ability to pay dividends. See “Description of Certain Indebtedness.”

On April 18, 2011, we declared a dividend to our stockholders of approximately \$711 million. The dividend was funded with the net proceeds from the private offering of our 8.625% / 9.375% Senior Notes due 2016 and dividends from our subsidiaries. The 8.625% / 9.375% Senior Notes due 2016 were repurchased through a cash tender offer in March 2013. In addition, on October 29, 2012, we completed the spin-off of our majority interest in Seamless North America, LLC, an online and mobile food ordering service, to our stockholders in the form of a dividend. Each stockholder received one share of the common stock of Seamless Holdings, a newly formed company created to hold our former interest in Seamless North America, LLC, for each share of our common stock held as of the record date. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our audited consolidated financial statements and related notes included elsewhere in this prospectus.

## CAPITALIZATION

The following table sets forth our cash and cash equivalents and capitalization as of September 27, 2013 (1) on a historical basis and (2) on an as adjusted basis to give effect to the issuance of \_\_\_\_\_ shares of our common stock offered by us hereby and the use of proceeds therefrom as well as certain equity and compensation transactions that are contingent upon the completion of this offering. - (1) On November 11, 2013, the Compensation Committee of the Company’s Board of Directors approved special cash bonuses to certain senior executives of approximately \$4.3 million payable in connection with the completion of this offering. The net of tax impact on accumulated deficit was \$ \_\_\_\_\_ million (see Note 17 to our consolidated financial statements).
- (2) Consists of a \$555.0 million revolving credit facility available to the Company in U.S. dollars and a \$50.0 million revolving credit facility available to the Company and a Canadian subsidiary in U.S. dollars and Canadian dollars. U.S. dollar borrowings under the revolving credit facilities have an applicable margin of 3.25% for eurocurrency (LIBOR) borrowings and 2.25% for base-rate borrowings and an unused commitment fee of 0.50% per annum. Canadian dollar borrowings have an applicable margin of 3.25% for BA (bankers’ acceptance) rate borrowings and 2.25% for base-rate borrowings and an unused commitment fee of 0.50% per annum. The final maturity date of the Canadian revolving loan commitments and \$515.0 million of the \$555.0 million U.S. revolving loan commitments is January 26, 2017, provided, however, that the maturity date accelerates to April 26, 2016 if any term loans, other than the term loans due on September 7, 2019 and any other term loans with a maturity at least 91 days after January 26, 2017, remain outstanding on April 26, 2016. September 7, 2019. The senior secured credit agreement also includes a \$200.0 million synthetic letter of credit facility. The maturity date of \$159.3 million of deposits securing the synthetic letter of credit facility is July 26, 2016. The maturity date for \$40.7 million of deposits securing the letter of credit facility is January 26, 2014. As of September 27, 2013, there were approximately \$121.7 million of issued letters of credit under the synthetic letter of credit facility. See “Description of Certain Indebtedness.”

- (4) Consists of borrowings by our foreign subsidiaries.
- (5) Upon the completion of this offering, the Company’s repurchase obligation under the Stockholders Agreement relating to certain shares of the Company’s common stock held by former members of the Company’s management terminates and the value of common stock subject to repurchase will be classified as capital surplus.
- (6) Reflects an adjustment for share-based compensation expense totaling \$        million, net of income taxes, associated with a non-cash charge reflected as an increase in capital surplus of \$        million related to a modification of the terms of certain performance-based options outstanding, and the associated tax effect for the items reflected as additional expense, resulting in a net increase of \$        million to the accumulated deficit of the Company (see Note 17 to our consolidated financial statements).

## DILUTION

If you invest in our common stock, your interest will be immediately diluted to the extent of the difference between the initial public offering price per share and the net tangible book value per share after this offering. Dilution results from the fact that the initial public offering price per share is substantially in excess of the net tangible book value per share attributable to the existing stockholders for our presently outstanding shares of common stock. We calculate net tangible book value per share by dividing the net tangible book value (total consolidated tangible assets less total consolidated liabilities and common stock subject to repurchase and other) by the number of outstanding shares of common stock.

Our net tangible book value (deficit) as of September 27, 2013 was \$(5,125,044), or \$(0.03) per share, based on 201,579,334 shares of common stock outstanding.

Without taking into account any other changes in such net tangible book value after September 27, 2013, after giving effect to the sale by us of shares of common stock in this offering assuming an initial public offering price of \$ \_\_\_\_\_ per share, which is the mid-point of the estimated offering price range set forth on the cover page of this prospectus, less the underwriting discounts and commissions and the estimated offering expenses payable by us, our pro forma as adjusted net tangible book value at September 27, 2013 would have been \$ \_\_\_\_\_, or \$ \_\_\_\_\_ per share. This represents an immediate increase in net tangible book value of \$ \_\_\_\_\_ per share to the existing stockholders and an immediate dilution in net tangible book value of \$ \_\_\_\_\_ per share, to investors purchasing shares of our common stock in this offering. The following table illustrates this per share dilution:

Assumed initial public offering price per share	\$ _____
Net tangible book value (deficit) per share as of September 27, 2013	(0.03)
Pro forma net tangible book value per share after giving effect to this offering	\$ _____
Amount of dilution in net tangible book value per share to new investors in this offering	\$ _____

A \$1.00 increase (decrease) in the assumed initial public offering price of \$ \_\_\_\_\_ per share would increase (decrease) our pro forma net tangible book value after giving effect to this offering by \$ \_\_\_\_\_ million, or by \$ \_\_\_\_\_ per share, assuming no change to the number of shares of common stock offered by us as set forth on the cover page of this prospectus, and after deducting the estimated underwriting discounts and estimated expenses payable by us. A 10% increase (decrease) in the number of shares of common stock offered by us would increase (decrease) our pro forma net tangible book value after giving effect to this offering by \$ \_\_\_\_\_ million, or by \$ \_\_\_\_\_ per share, after deducting the estimated underwriting discounts and estimated expenses payable by us.

The following table summarizes, on a pro forma basis as of September 27, 2013, the total number of shares of our common stock purchased from us, the total cash consideration paid to us by existing stockholders and by new investors purchasing shares of our common stock in this offering.

	Shares of Common Stock Purchased			Total Consideration		Average Price Per Share
	Number	Percent		Amount	Percent	
Existing stockholders	_____	%	\$ _____	%	\$ _____	
New investors	_____	%	\$ _____	%	\$ _____	
<b>Total</b>	_____	%	\$ _____	%	\$ _____	

If the underwriters were to fully exercise the underwriters' option to purchase \_\_\_\_\_ additional shares of common stock from certain of the selling stockholders, the percentage of shares of our common stock held by existing stockholders would be \_\_\_\_\_%, and the percentage of shares of our common stock held by new investors would be \_\_\_\_\_%.

---

[Table of Contents](#)

To the extent that we grant equity awards to our employees in the future under our stock incentive plans, and those equity awards vest and/or are exercised, as the case may be, or other issuances of shares of our common stock are made, there will be further dilution to new investors.

## UNAUDITED PRO FORMA FINANCIAL INFORMATION

We derived the unaudited pro forma financial data set forth below by the application of pro forma adjustments to the audited consolidated financial statements included elsewhere in this prospectus.

The unaudited pro forma consolidated statements of income for fiscal 2013 have been presented:

- on a pro forma basis which gives effect to the debt refinancing that occurred in the second quarter of fiscal 2013 whereby the 8.50% Senior Notes due 2015, Senior Floating Rate Notes due 2015 and 8.625% / 9.375% Senior Notes due 2016 were refinanced with the proceeds of new term loan borrowings under the senior secured credit facilities and the issuance of 5.75% Senior Notes due 2020; and
- on a pro forma basis (as adjusted), which gives effect to our sale of \_\_\_\_\_ shares of common stock in this offering at an initial public offering price of \$ \_\_\_\_\_ per share, which is the mid-point of the estimated offering price range set forth on the cover page of this prospectus, and net proceeds of \$ \_\_\_\_\_ million which will be used to repay outstanding term loans due July 26, 2016 under our senior secured credit facilities as well as certain share-based compensation transactions that are contingent upon the completion of this offering and vest over a future derived service period.

The unaudited pro forma consolidated statements of income give effect to the pro forma adjustments as if they had occurred at the beginning of our 2013 fiscal year. The notes to the unaudited pro forma financial statements provide a more detailed discussion of how such adjustments were derived and presented in the pro forma financial statements. An unaudited pro forma balance sheet as of September 27, 2013 is not presented because the impact of the March 2013 debt refinancing is included in the consolidated balance sheet of the Company as of such date. See also “Capitalization.”

The pro forma adjustments set forth below were based on available information and certain assumptions made by our management and may be revised as additional information becomes available. The unaudited pro forma financial information is presented for informational purposes only, and does not purport to represent what our results of operations would actually have been if the transactions had occurred on the date indicated, nor does it purport to project our results of operations that we may achieve in the future. The pro forma adjustments do not include the impact of any non-recurring additional charges which are directly related to the completion of this offering.

You should read our unaudited pro forma financial information and the accompanying notes in conjunction with all of the historical financial statements and related notes included elsewhere in this prospectus and the financial and other information appearing elsewhere in this prospectus, including information contained in “Risk Factors,” “Selected Consolidated Financial Data,” “Use of Proceeds,” “Capitalization” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

- (1) Fiscal years 2013, 2012, 2011, 2010 and 2009 refer to the fiscal years ended September 27, 2013, September 28, 2012, September 30, 2011, October 1, 2010 and October 2, 2009, respectively. Fiscal years 2013, 2012, 2011 and 2010 were each 52-week periods.
- (2) During fiscal 2011, the Company completed the sale of its wholly-owned subsidiary, Galls, for approximately \$75.0 million in cash. The transaction resulted in a pretax loss of approximately \$1.5 million (after-tax loss of approximately \$12.0 million). Galls is accounted for as a discontinued operation. Galls' results of operations have been removed from the Company's results of continuing operations for all periods presented.
- (3) The pro forma net income attributable to ARAMARK stockholders assumes a reduction of interest expense, net of tax, of approximately \$47 million for fiscal 2013 related to the debt refinancing that occurred during the second quarter of fiscal 2013. The pro forma net income attributable to ARAMARK stockholders and per share data assumes the debt refinancing occurred at the beginning of fiscal 2013.
- (4) The pro forma net income attributable to ARAMARK stockholders (as adjusted) and per share data (as adjusted) for fiscal 2013 assumes \$ million of the net offering proceeds are used to repay approximately \$ million of the outstanding term loans due July 26, 2016 under our senior secured credit facilities. Pro forma net income attributable to ARAMARK stockholders (as adjusted) for fiscal 2013 assumes a reduction of interest expense, net of tax, of approximately \$ million related to such repayment of term loans and an increase in share-based compensation expense of approximately \$ million for the ongoing portion of the non-cash charge related to the modification of the terms of certain performance-based options outstanding. The pro forma net income attributable to ARAMARK stockholders (as adjusted) and per share data (as adjusted) assumes the offering and the related application of net proceeds was completed at the beginning of fiscal 2013.
- (5) During fiscal 2011, the Company paid a dividend of approximately \$711 million to its stockholders. On October 29, 2012, we completed the spin-off of our majority interest in Seamless North America, LLC, on online and mobile food ordering service, to our stockholders in the form of a dividend. Each stockholder received one share of the common stock or Seamless Holdings, a newly formed company created to hold our former interest in Seamless North America, LLC, for each share of our common stock held as of the record date.
- (6) In the first quarter of fiscal 2011, the Company adopted the new authoritative accounting guidance regarding transfers of financial assets. The impact upon adoption resulted in the recognition of both the receivables securitized under the program and the borrowings they collateralize on the Consolidated Balance Sheet, which led to a \$220.9 million increase in "Receivables" and "Long-Term Borrowings." As a result of implementing the new guidance, funding under the agreement of \$220.9 million on October 2, 2010 was reflected in the Company's Consolidated Statement of Cash Flows as a use of cash from the securitization of accounts receivables under net cash provided by/(used in) operating activities and as a source of cash under net cash provided by/(used in) provided by financing activities.

- (7) During fiscal 2011, the Company completed a private placement of \$600 million, net of a 1% discount, in aggregate principal amount of 8.625% / 9.375% Senior Notes due 2016. In the second quarter of fiscal 2013, the Company completed a refinancing, repurchasing ARAMARK Corporation's outstanding 8.50% Senior Notes due 2015 and Senior Floating Rate Notes due 2015 and our 8.625% / 9.375% Senior Notes due 2016. The Company refinanced that debt with new term loan borrowings and the issuance of our senior notes.

### Overview

We are a leading global provider of food, facilities and uniform services to education, healthcare, business and industry, and sports, leisure and corrections clients. Our core market is North America, which is supplemented by an additional 19-country footprint serving many of the fastest growing global geographies. Through our established brand, broad geographic presence and approximately 272,000 employees, we anchor our business in our partnerships with thousands of education, healthcare, business, sports, leisure and corrections clients. Through these partnerships we serve millions of consumers including students, patients, employees, sports fans and guests worldwide.

The Company operates its business in three reportable segments:

- Food and Support Services North America ("FSS North America")—Food, refreshment, specialized dietary and support services, including facility maintenance and housekeeping, provided to business, educational and healthcare institutions and in sports, entertainment, recreational and other facilities serving the general public in the United States, Canada and Mexico.
- Food and Support Services International ("FSS International")—Food, refreshment, specialized dietary and support services, including facility maintenance and housekeeping, provided to business, educational and healthcare institutions and in sports, entertainment, recreational and other facilities serving the general public. We have operations in 19 countries outside North America. Our largest international operations are in the United Kingdom, Germany, Chile and Ireland, and in each of these countries we are one of the leading food service providers. We also have operations in emerging market geographies, such as South America and China, and we own 50% of AIM Services Co., Ltd., a leader in providing outsourced food services in Japan.
- Uniform and Career Apparel ("Uniform")—Rental, sale, cleaning, maintenance and delivery of personalized uniform and career apparel and other textile items on a contract basis and direct marketing of personalized uniforms and career apparel and accessories to businesses, public institutions and individuals. We also provide walk-off mats, cleaning cloths and disposable towels.

Our Food and Support Services operations focus on serving clients in four principal sectors: Education, Healthcare, Business & Industry and Sports, Leisure and Corrections. Our FSS International reportable segment provides a similar range of services as those provided to our FSS North America reportable segment clients and operates in the same sectors although it is more heavily weighted towards Business & Industry. In fiscal 2013, our FSS North America segment generated \$9.6 billion in sales, or 69% of our total sales, and our FSS International

## [Table of Contents](#)

segment generated \$2.9 billion in sales, or 21% of our total sales. Our Uniform segment provides uniforms, career and image apparel, work clothes and accessories to meet the needs of clients in a wide range of industries in the United States, Puerto Rico, Japan and Canada, including manufacturing, transportation, construction, restaurants and hotels, healthcare and pharmaceutical industries and many others. We supply garments, other textile and paper products and other accessories through rental and direct purchase programs to businesses, government agencies and individuals. In fiscal 2013, our Uniform segment generated \$1.4 billion in sales, or 10% of our total sales. Administrative expenses not allocated to our three reportable segments are presented separately as corporate expenses and are not included in our segment results.

Our operating results continue to be affected by the economic uncertainty being experienced in the countries in which we operate. We anticipate that economic conditions, specifically in Europe, and unemployment levels will continue to remain challenging.

Across all of our businesses, we are planning and executing both growth and cost control initiatives and are working to streamline and improve the efficiency and effectiveness of our general and administrative functions through increased standards, process improvements, and consolidation. As a result, we recorded certain costs related to these initiatives starting in the second quarter of fiscal 2013 and estimate that we will incur an additional \$20 to \$45 million of costs over the next 15 months.

### ***Seasonality***

Our sales and operating results have varied, and we expect them to continue to vary, from quarter to quarter, as a result of different factors. Within our FSS North America segment, historically there has been a lower level of activity during our first and second fiscal quarters in operations that provide services to sports, entertainment and recreational clients. This lower level of activity historically has been partially offset during our first and second fiscal quarters by the increased activity in our educational operations. Conversely, historically there has been a significant increase in the provision of services to sports, entertainment and recreational clients during our third and fourth fiscal quarters, which is partially offset by the effect of summer recess at colleges, universities and schools on our educational operations.

### ***Sources of Sales***

Our clients engage us, generally through written contracts, to provide our services at their locations. Depending on the type of client and service, we are paid either by our client or directly by the consumer to whom we have been provided access by our client. We use two general contract types in our FSS North America and FSS International segments: profit and loss contracts and client interest contracts. These contracts differ in their provision for the amount of financial risk that we bear and, accordingly, the potential compensation, profits or fees we may receive. Under profit and loss contracts, we receive all of the revenue from, and bear all of the expenses of, the provision of our services at a client location. For fiscal 2013, approximately 73% of our FSS North America and FSS International sales were derived from profit and loss contracts. Client interest contracts include management fee contracts, under which our clients reimburse our operating costs and pay us a management fee, which may be calculated as a fixed dollar amount or a percentage of sales or operating costs. Some management fee contracts entitle us to receive incentive fees based upon our performance under the contract, as measured by factors such as sales, operating costs and customer satisfaction surveys. For fiscal 2013, approximately 27% of our FSS North America and FSS International sales were derived from client interest contracts.

For our Uniform segment, we typically serve our rental clients under written service contracts for an initial term of three to five years. Because the majority of our clients purchase on a recurring basis, our backlog of orders at any given time consists principally of orders in the process of being filled. With the exception of certain governmental bid business, most of our direct marketing business is conducted under invoice arrangement with repeat clients. Our direct marketing business is, to a large degree, relationship-centered. While we have long term relationships with some of our larger clients, we generally do not have contracts with these clients.

### ***Costs and Expenses***

Our costs and expenses are comprised of Cost of services provided, depreciation and amortization and selling and general corporate expenses. Cost of services provided consists of direct expenses associated with our operations, including food costs, wages, other labor related expenses (including workers' compensation, state unemployment insurance and federal or state mandated health benefits and other healthcare costs), insurance, fuel, utilities, piece goods and clothing and equipment. Depreciation and amortization mainly relate to assets used in generating sales. Selling and general corporate expenses include expenses related to sales commissions, marketing, share-based compensation and other costs related to administrative functions including compensation and benefits, professional services and information technology.

### ***Interest and Other Financing Costs, net***

Interest and other financing costs, net relates primarily to interest expense on long-term borrowings. Interest and other financing costs, net also includes third-party costs associated with long-term borrowings that were capitalized as deferred financing costs and are being amortized over the term of the borrowing.

### ***Provision for Income Taxes***

The provision for income taxes represents federal, foreign, state and local income taxes. Our effective tax rate differs from the statutory U.S. income tax rate due to the effect of state and local income taxes, tax rates in foreign jurisdictions and certain nondeductible expenses. Our effective tax rate will change from quarter to quarter based on recurring and nonrecurring factors including, but not limited to, the geographical mix of earnings, enacted tax legislation, including certain business tax credits, state and local income taxes, tax audit settlements and the effect of various global tax strategies. Changes in judgment from the evaluation of new information resulting in the recognition, derecognition or remeasurement of a tax position taken in a prior annual period are recognized separately in the quarter of the change.

### ***Foreign Currency Fluctuations***

The impact from foreign currency translation assumes constant foreign currency exchange rates based on the rates in effect for the current year period were used in translation for the comparable prior year period. We believe that providing the impact of fluctuations in foreign currency rates on certain financial results can facilitate analysis of period-to-period comparisons of business performance.

**RESULTS OF OPERATIONS**

The following tables present our sales and operating income from continuing operations, and related percentages, attributable to each reportable segment for the fiscal years 2013, 2012 and 2011 (dollars in millions). On September 30, 2011, the Company sold its wholly-owned subsidiary, Galls. Accordingly, operating results for this business are reported as discontinued operations.

**Fiscal 2013 Compared to Fiscal 2012**

**Consolidated Overview**

Sales of \$13.9 billion for fiscal 2013 represented an increase of 3% over the prior year period. This increase is primarily attributable to growth in the Sports, Leisure and Corrections, Healthcare and Education sectors and the facilities business in the Business & Industry sector of the FSS North America segment, growth in Ireland, China, Chile and Argentina in our FSS International segment and growth in the uniform rental base business in our Uniform segment. This increase was partially offset by a sales decline in the U.K. in our FSS International segment. Sales for fiscal 2013 were negatively impacted as a result of the National Hockey League (“NHL”) lockout and the impact of Hurricane Sandy in our FSS North America segment and the spin-off of Seamless North America, LLC (“Seamless”) in October 2012 in the Business & Industry sector of the FSS North America segment.

Cost of services provided was \$12.7 billion for fiscal 2013 compared to \$12.2 billion for the prior year period. Cost of services provided as a percentage of sales was 91% for fiscal 2013 compared to 90% in the prior year period. Food and support service costs comprised approximately 27% of Cost of services provided for fiscal 2013 compared to 28% for fiscal 2012, personnel costs comprised approximately 47% of Cost of services provided for both periods, and other direct costs comprised the remaining approximately 26% of Cost of services provided for fiscal 2013 as compared to 25% for fiscal 2012. Cost of services provided was impacted by the items discussed below for operating income.

Operating income for fiscal 2013 was \$514.4 million compared to \$581.8 million in the prior year period. The decline in operating income for fiscal 2013 was primarily due to \$63.9 million of severance and related costs as a result of the series of actions the Company initiated in the second quarter of fiscal 2013 to drive efficiency

## [Table of Contents](#)

through the consolidation and centralization of its operations (see Note 4 to our consolidated financial statements). During fiscal 2013, the Company also recorded approximately \$11.7 million of goodwill impairment charges (see Note 5 to our consolidated financial statements), other asset write-downs of approximately \$12.0 million primarily related to the write-offs of certain client contractual investments and approximately \$20.7 million of costs related to transformation initiatives. In addition, fiscal 2013 was also negatively affected by the NHL lockout and Hurricane Sandy. This profit decline was partially offset by profit growth in our Business & Industry and Education sectors and other income recognized of approximately \$14.0 million relating to the recovery of the Company's investment (possessory interest) at one of the National Park Service ("NPS") sites in the Sports, Leisure and Corrections sector, which was terminated in the current year. Fiscal 2012 includes other income recognized of \$6.7 million relating to the recovery of the Company's investment (possessory interest) at one of the NPS sites in the Sports, Leisure and Corrections sector, which was terminated during fiscal 2012, a favorable risk insurance adjustment of \$7.4 million related to favorable claims experience, of which \$5.7 million relates to our Uniform segment, transition and integration costs of \$4.9 million related to the Filterfresh acquisition and severance related charges of \$6.9 million in the Uniform segment and FSS International segment.

Interest and Other Financing Costs, net, for fiscal 2013 decreased by approximately \$33.0 million when compared to the prior year period. The decrease in fiscal 2013 was primarily due to the maturity of interest rate swaps during fiscal 2012 and the repurchase of the 8.625% / 9.375% Senior Notes due 2016 ("Holdings Notes"), 8.50% senior notes due 2015 ("Fixed Rate Notes") and senior floating rate notes due 2015 ("Floating Rate Notes") (see Note 6 to our consolidated financial statements). Interest and Other Financing Costs, net, for fiscal 2013 includes charges of \$39.8 million in connection with the tender offer and repayment of the Holdings Notes, Fixed Rate Notes and Floating Rate Notes, consisting of \$12.9 million of third-party costs for the tender offer premium and \$26.9 million of non-cash charges for the write-off of deferred financing costs. Interest and Other Financing Costs, net, for fiscal 2013 also includes approximately \$11.6 million of third-party costs incurred related to Amendment Agreement No. 3 to the senior secured credit agreement and approximately \$3.2 million of hedge ineffectiveness related to the repayment of the Canadian subsidiary's term loan with a maturity date of January 26, 2014. Interest and Other Financing Costs, net, for fiscal 2012 includes \$11.1 million of third-party costs related to Amendment Agreement No. 2 and the amendment of the Company's Canadian subsidiary cross currency swap.

The effective income tax rate for fiscal 2013 was 21.2% compared to 14.5% in the prior year period. The increase is primarily due to the goodwill impairment charges in the second quarter of fiscal 2013 that were non-tax deductible which more than offset the impact of the work opportunity tax credits that were extended under the American Taxpayer Relief Act.

Income from continuing operations was \$71.4 million during fiscal 2013 compared to \$106.9 million in the prior year period. Income (loss) from discontinued operations was (\$1.0) million during fiscal 2013 compared to \$0.3 million in the prior year period. Net income attributable to noncontrolling interests for fiscal 2013 was \$1.0 million compared to \$3.6 million in the prior year period.

### ***FSS North America Segment***

The Food and Support Services—North America reportable segment consists of four operating segments which have similar economic characteristics and are aggregated into a single operating segment consistent with the objective and basic principles of Financial Accounting Standards Board Accounting Standard Codification 280-10-50-11. The four operating segments of the Food and Support Services—North America reportable segment are Business & Industry; Education; Healthcare; and Sports, Leisure and Corrections.

Sales for each of these operating segments are summarized as follows (dollars in millions):

	<u>Fiscal Year Ended September 27, 2013</u>	<u>Fiscal Year Ended September 28, 2012</u>
Business & Industry	\$ 2,287.1	\$ 2,315.4
Education	3,385.5	3,217.9
Healthcare	1,982.5	1,941.6
Sports, Leisure and Corrections	2,010.1	1,938.3
	<u>\$ 9,665.2</u>	<u>\$ 9,413.2</u>

The Company's Education and Healthcare operating segments generally have high-single digit operating margins while the Business & Industry and Sports, Leisure and Corrections operating segments generally have mid-single digit operating margins.

FSS North America segment sales for fiscal 2013 increased 3% over the prior year period, primarily due to growth in the Sports, Leisure and Corrections, Healthcare and Education sectors and in the facilities business in the Business & Industry sector. Sales for fiscal 2013 were negatively impacted by the NHL lockout and Hurricane Sandy. The negative impact of acquisitions and divestitures was approximately -1% in fiscal 2013.

The Business & Industry sector had a low-single digit sales decline for fiscal 2013 primarily due to the spin-off of Seamless in October 2012 and the impact of Hurricane Sandy on our business dining operations. This was somewhat offset by growth in our facilities business as a result of base and net new business growth.

The Education sector had mid-single digit sales growth for fiscal 2013 due to base and net new business growth in our Higher Education and K-12 food and facilities businesses.

The Healthcare sector had low-single digit sales growth for fiscal 2013. This was primarily due to base business growth as net new business has been impacted by sector uncertainty.

The Sports, Leisure and Corrections sector had mid-single digit sales growth for fiscal 2013 due to growth in our Major League Baseball venues. In addition, we have seen an increase in attendance and number of events in our amphitheaters. This growth was partially offset by the effect of the NHL lockout.

Cost of services provided was \$8.8 billion for fiscal 2013 compared to \$8.6 billion for the prior year period. Cost of services provided as a percentage of sales was 91% in both periods. Cost of services provided was impacted by the items discussed below for operating income.

## [Table of Contents](#)

Operating income for fiscal 2013 was \$405.1 million compared to \$425.6 million in the prior year period. The decrease in fiscal 2013 is due to approximately \$43.5 million of severance and related costs, \$6.8 million of asset write-offs and approximately \$15.2 million of costs related to transformation initiatives, which more than offset the profit growth in our Business & Industry and Education sectors from food and labor productivity initiatives and the other income recognized of approximately \$14.0 million relating to the recovery of the Company's investment (possessory interest) at one of the NPS sites in the Sports, Leisure and Corrections sector, which was terminated in the current year. Fiscal 2013 was also negatively affected by the NHL lockout and Hurricane Sandy. Operating income for fiscal 2012 includes other income recognized of \$6.7 million relating to the recovery of the Company's investment (possessory interest) at one of the NPS sites in the Sports, Leisure and Corrections sector, which was terminated during fiscal 2012 and \$4.9 million of transition and integration costs related to the Filterfresh acquisition.

### ***FSS International Segment***

Sales in the FSS International segment for fiscal 2013 increased 5% compared to the prior year period, as net new and base business growth in Chile, China, Argentina and Germany more than offset the sales decline in the U.K. as a result of the Olympics in the prior year (-2%) and prior year lost business.

Cost of services provided was \$2.7 billion for fiscal 2013 compared to \$2.5 billion for the prior year period. Cost of services provided as a percentage of sales was 95% in fiscal 2013 compared to 94% in fiscal 2012. Cost of services provided was impacted by the items discussed below for operating income.

Operating income for fiscal 2013 was \$66.2 million compared to \$89.9 million in the prior year period as profit growth in Chile and Germany was more than offset by \$14.6 million of severance and related costs, \$16.9 million of goodwill impairment charges and other asset write-offs and \$2.3 million of costs related to transformation initiatives as well as the negative impact of foreign currency translation (approximately -3%).

### ***Uniform Segment***

Uniform segment sales increased 4% for fiscal 2013 compared to the prior year period primarily due to growth in our uniform rental base business.

Cost of services provided was \$1.1 billion for both periods. Cost of services provided as a percentage of sales was 80% for fiscal 2013 compared to 79% for the prior year period. Cost of services provided was impacted by the items discussed below for operating income.

Operating income for fiscal 2013 was \$117.3 million compared to \$118.1 million in the prior year period as growth in the uniform rental business and operational efficiencies across the segment were more than offset by \$8.5 million of severance and related costs, which includes \$3.7 million of severance related expenses recorded in the first quarter of fiscal 2013, and a net charge of approximately \$6.5 million related to multiemployer pension withdrawals and a final settlement of wage and hour claims, net of a favorable risk insurance adjustment. Operating income for fiscal 2012 includes severance related charges of \$2.6 million and a favorable risk insurance adjustment of \$5.7 million.

### ***Corporate***

Corporate expenses, those administrative expenses not allocated to the business segments, were \$74.2 million for fiscal 2013 compared to \$51.8 million for the prior year period. The increase is primarily due to the increase in share-based compensation expense for performance-based options and the issuance of restricted stock units (see note 11 to the consolidated financial statements), an accounting charge related to the retirement obligation to our current Chairman and former Chief Executive Officer, increase in consulting costs, approximately \$1.0 million of severance and related costs and approximately \$3.2 million of costs related to transformation initiatives.

## Fiscal 2012 Compared to Fiscal 2011

### Consolidated Overview

Sales of \$13.5 billion for fiscal 2012 represented an increase of 3% over the prior year. This increase is primarily attributable to growth in the Higher Education business and Business & Industry sector of the FSS North America segment, growth in Ireland, Germany, China, Chile and Argentina in our FSS International segment, growth in the uniform rental business in our Uniform segment and the impact of acquisitions (approximately 1%). Sales were also positively impacted from our role as the exclusive food service provider in the Athletes' Villages for the London Olympics in the U.K. in our FSS International segment. This increase more than offset the sales decline in Spain in our FSS International segment and the negative impact of foreign currency translation (approximately -1%).

Cost of services provided was \$12.2 billion for fiscal 2012 compared to \$11.8 billion for the prior year. Cost of services provided as a percentage of sales was 90% in both periods. Food and support service costs comprised approximately 28% of Cost of services provided for both periods, personnel costs comprised approximately 47% of Cost of services provided for both periods, and other direct costs comprised the remaining approximately 25% of Cost of services provided for both periods. Cost of services provided was impacted by the items discussed below for operating income.

Operating income was \$581.8 million for fiscal 2012 compared to \$547.1 million for the prior year. This increase is primarily attributable to profit growth in our Higher Education business, our Healthcare sector and in the U.K., Ireland and Chile, offset by the negative impact of foreign currency translation (approximately -1%). Fiscal 2012 also includes other income recognized of \$6.7 million relating to the recovery of the Company's investment (possessory interest) at one of the National Park Service ("NPS") sites in the Sports, Leisure and Corrections sector, which was terminated during fiscal 2012, a favorable risk insurance adjustment of \$7.4 million related to favorable claims experience, of which \$5.7 million relates to our Uniform segment, transition and integration costs of \$4.9 million related to the Filterfresh acquisition and severance related charges of \$6.9 million. Fiscal 2011 included a gain of approximately \$7.7 million on the sale of the Company's 67% ownership interest in the security business of its Chilean subsidiary, favorable non-income tax settlements of approximately \$5.3 million in the U.K., a goodwill and other intangible assets impairment charge of \$5.3 million, severance related charges of approximately \$22.8 million, other income of approximately \$7.8 million related to a compensation agreement signed with the NPS under which the NPS agreed to pay down a portion of our investment (possessory interest) in certain assets at one of our NPS sites in our Sports, Leisure and Corrections sector and a favorable risk insurance adjustment of \$5.7 million.

Interest and Other Financing Costs, net, for fiscal 2012 increased approximately \$5.7 million from the prior year primarily due to the impact of a full year of interest expense on the Holdings Notes compared to the prior year period, which more than offset the positive impact of interest rate swaps that matured during fiscal 2012. Interest and Other Financing Costs, net, for fiscal 2012 includes \$7.5 million of third-party costs incurred related to the March 2012 amendment that extended the U.S. dollar equivalent of approximately \$1,231.6 million of the Company's term loans and approximately \$3.6 million of hedge ineffectiveness incurred related to the Company's amendment of its cross currency swaps. Interest and Other Financing Costs, net, for fiscal 2011 includes interest income related to \$14.1 million of favorable non-income tax settlements in the U.K. recorded in the second quarter of fiscal 2011 and a write-off of deferred financing fees of \$2.1 million related to the amendment that extended the U.S. dollar denominated portion of the revolving credit facility.

The effective income tax rate for fiscal 2012 was 14.5% compared to (0.8%) in the prior year. The higher effective income tax rate in fiscal 2012 is due to a reduction of approximately \$17.0 million in reserves in fiscal 2011 related to the remeasurement of an uncertain tax position.

Income from continuing operations for fiscal 2012 was \$106.9 million compared to \$96.7 million in the prior year. Income (loss) from discontinued operations during fiscal 2012 was \$0.3 million compared to \$(11.7) million in fiscal 2011. Fiscal 2011 included the pretax loss of approximately \$1.5 million (after-tax loss of

approximately \$12.0 million) related to the sale of the Company's wholly-owned subsidiary, Galls, for approximately \$75.0 million in cash (see Note 2 to our consolidated financial statements). Net income attributable to noncontrolling interests for fiscal 2012 was \$3.6 million compared to \$1.1 million in the prior year.

positive impact of acquisitions (approximately 2%), which more than offset the negative impact of foreign currency translation (approximately -1%). The Business & Industry sector had high-single digit sales growth for fiscal 2012 primarily due to base business growth in our refreshment services and facilities businesses and the Filterfresh acquisition. This growth more than offset the sales decline in our business dining operations due to the impact of lost business. The Education sector had low-single digit sales growth for fiscal 2012, due to base and net new business growth in our Higher Education food and facilities services businesses which more than offset the sales decline in K-12 due to the impact of lost business. The Healthcare sector had low-single digit sales growth for fiscal 2012 primarily due to base business growth and the full year effect of the 2011 acquisition of Masterplan within the Healthcare Technologies business. The Sports, Leisure and Corrections sector had low-single digit sales growth for fiscal 2012 primarily related to growth at our National Hockey League and Major League Baseball venues.

Cost of services provided was \$8.6 billion for fiscal 2012 compared to \$8.2 billion for the prior year. Cost of services provided as a percentage of sales was 91% in both periods. Cost of services provided was impacted by the items discussed below for operating income.

Operating income for fiscal 2012 was \$425.6 million compared to \$400.5 million in the prior year. The increase is due to profit growth in our Higher Education business and Healthcare sector and other income recognized of \$6.7 million relating to the recovery of the Company's investment (possessory interest) at one of the NPS sites in the Sports, Leisure and Corrections sector, which was terminated in the current year. This profit growth more than offset the negative impact of foreign currency translation (approximately -1%), the profit decline in our Business & Industry sector and the transition and integration costs of \$4.9 million related to the Filterfresh acquisition. Fiscal 2011 included other income recognized in the first quarter of fiscal 2011 of \$7.8 million related to a compensation agreement signed with the NPS under which the NPS agreed to pay down a portion of our investment (possessory interest) in certain assets at one of our NPS sites in our Sports, Leisure and Corrections sector and severance related charges of \$6.2 million.

### ***FSS International Segment***

Sales in the FSS International segment for fiscal 2012 were flat compared to the prior year as growth in Ireland, Germany, China, Chile and Argentina and sales related to the London Olympics (approximately 2%) were offset by the negative impact of foreign currency translation (approximately -5%), divestitures (approximately -1%) and the sales decline in Spain (approximately -1%).

Cost of services provided was \$2.5 billion for both periods. Cost of services provided as a percentage of sales was 94% in both periods. Cost of services provided was impacted by the items discussed below for operating income.

Operating income for fiscal 2012 was \$89.9 million compared to \$79.9 million in the prior year. This increase is primarily attributable to profit growth in the U.K., Ireland and Chile and a reduction in severance related expenses, which more than offset the profit decline in Belgium and in our equity method investee in Japan and the negative impact of foreign currency translation (approximately -4%). Operating income for fiscal 2011 included a gain of \$7.7 million related to the divestiture of the Company's 67% ownership interest in the security business of its Chilean subsidiary, favorable non-income tax settlements in the U.K. of \$5.3 million, a goodwill and other intangible assets impairment charge of \$5.3 million and severance related expenses of \$11.4 million.

## [Table of Contents](#)

Cost of services provided was \$1.1 billion for both periods. Cost of services provided as a percentage of sales was 79% for both periods. Cost of services provided was impacted by the items discussed below for operating income.

Operating income for fiscal 2012 was \$118.1 million compared to \$117.3 million in the prior year as the increase in favorable risk insurance adjustments compared to the prior year and a reduction in severance related expenses more than offset the fiscal 2012 increased investment in our growing sales force and higher energy costs. Operating income for fiscal 2012 includes a favorable risk insurance adjustment of \$5.7 million compared to \$4.8 million in the prior year. Operating income for fiscal 2012 also includes severance related charges of \$2.6 million compared to \$3.9 million in the prior year.

### **Corporate**

Corporate expenses, those administrative expenses not allocated to the business segments, were \$51.8 million in fiscal 2012, compared to \$50.6 million for the prior year. The increase is mainly due to costs related to the hiring of our new Chief Executive Officer and President in May 2012, which more than offset the decrease in share-based compensation expense related to performance-based options (see Note 10 to our consolidated financial statements), gains due to the change in fair value on gasoline and diesel fuel agreements and prior year charges for headcount reductions.

### **Liquidity and Capital Resources**

#### **Overview**

Our principal sources of liquidity are cash generated from operating activities, funds from borrowings and existing cash on hand. As of September 27, 2013, we had \$111.0 million of cash and cash equivalents and approximately \$579.0 million of availability under our senior secured revolving credit facility.

We believe that our cash and cash equivalents and the unused portion of our committed credit availability under our senior secured revolving credit facility will be adequate to meet anticipated cash requirements to fund working capital, capital spending, debt service obligations, refinancings and other cash needs. We will continue to seek to invest strategically but prudently in certain sectors and geographies. Over time, the Company has repositioned its service portfolio so that today a significant portion of the operating income in our FSS North America segment comes from sectors and businesses such as Education, Healthcare and corrections, which we believe to be economically less sensitive. In addition, we have worked to further diversify our international business by geography and sector. The Company routinely monitors its cash flow and the condition of the capital markets in order to be prepared to respond to changing conditions.

### ***Cash Flows Provided by Operating Activities***

During fiscal 2013, the decrease in the total of net income and noncash charges results mainly from the results of operations of the Company as discussed above. As expected and consistent with historical patterns, working capital was a source of cash for us during fiscal 2013. The change in working capital requirements relates principally to changes in Inventory (approximately \$15.4 million) due to less inventory purchases in our Uniform segment offset by inventory purchases for new business in our Sports, Leisure and Corrections sector and Accrued Expenses (approximately \$144.9 million) due to the severance and related costs from the series of actions undertaken by the Company to drive efficiency through the consolidation and centralization of its operations, timing of interest payments and timing of higher commission payments from increased business offset by Accounts Receivable (approximately \$63.4 million) primarily due to business growth and the timing of collections, Prepayments (approximately \$87.5 million) due to the timing of estimated tax payments and a change in tax regulations that impacts the timing of deductions allowable for certain in service inventory and Accounts Payable (approximately \$9.5 million) primarily due to business growth and the timing of disbursements. The “Other operating activities” caption reflects adjustments to net income in the current year period related to nonoperating gains and losses, which are primarily non-cash and include goodwill impairments and other financing related charges and write-offs.

During fiscal 2012, the increase in the total of net income and noncash charges results mainly from the overall growth of the business and higher results of operations of the Company, as discussed above. A portion of the net change in cash provided by operating activities was driven by the new accounting treatment for the Company’s accounts receivable securitization agreement. On October 2, 2010, the Company adopted new accounting guidance that affected the presentation of its accounts receivables securitization program, through which the Company sells eligible accounts receivables on a revolving basis. As a result of implementing the new guidance, funding under the agreement of \$220.9 million on October 2, 2010 was reflected in the Company’s Consolidated Statement of Cash Flows as a use of cash from the securitization of accounts receivables under net cash provided in operating activities and as a source of cash under net cash (used in) provided by financing activities in fiscal 2011. As expected and consistent with historical patterns, working capital was a source of cash for us during fiscal 2012. The change in working capital requirements relates principally to changes in Accounts Receivable (approximately \$66.7 million), primarily due to the improvement and timing of collections offset by the overall growth in the business, Accounts Payable (approximately \$57.0 million), due to the timing of disbursements and Prepayments (approximately \$41.4 million), primarily due to the timing of income tax payments, partially offset by changes in Inventory (approximately \$24.3 million), primarily due to the growth of the business. The increase in the “Other operating activities” caption is primarily due to \$34.9 million of cash distributions received in fiscal 2012 versus \$10.5 million in fiscal 2011 from our 50% ownership interest in AIM Services Co., Ltd. The “Other, net” caption also reflects adjustments to net income in the current year and prior year periods related to nonoperating gains and losses.

During fiscal 2011, the increase in the total of net income and noncash charges results mainly from the overall growth of the business and higher results of operations of the Company, as discussed above. Cash flows provided by operating activities include an increase in accounts receivable of \$220.9 million associated with the Company’s adoption of the new authoritative accounting guidance related to the transfer of financial assets in the first quarter of fiscal 2011. Effective October 2, 2010, the periodic transfers of undivided interests in accounts receivable no longer qualify for sale accounting treatment in accordance with the new accounting guidance and are now accounted for as secured

borrowings. Cash flows after October 2, 2010 associated with the receivables facility are presented as financing activities. During fiscal 2011, the Company's accounts receivable increased by \$220.9 million resulting in a cash outflow being reported in the operating section of the Consolidated Statement of Cash Flows and the secured borrowings associated with the Receivables Facility increased by \$225.9 million resulting in a cash inflow being reported in the financing section of the Consolidated Statement of Cash Flows. As expected, working capital was a use of cash during fiscal 2011. The change in working capital requirements relates principally to changes in Accounts Receivable (approximately \$42.6 million), primarily due to the overall growth of the business and timing of collections, Inventory (approximately \$44.9 million) due to growth of the business, Accounts Payable (approximately \$47.7 million) due to timing of disbursements and Accrued Expenses (approximately \$35.7 million) due to the timing of commissions and income tax payments as compared to the prior year period. The "Other operating activities" caption reflects adjustments to net income related to nonoperating gains and losses.

### ***Cash Flows Used in Investing Activities***

The remaining Fixed Rate Notes and Floating Rate Notes were redeemed by the trustee on April 6, 2013. The remaining Holdings Notes were redeemed by the trustee on May 1, 2013. In connection with the tender offer and Satisfaction and Discharge of the Notes, the Company recorded \$39.8 million of charges to

“Interest and Other Financing Costs, net” in the Consolidated Statements of Income for fiscal 2013, consisting of \$12.9 million cash charges for the tender offer premium and \$26.9 million of non-cash charges for the write-off of deferred financing costs.

During fiscal 2012, the Company’s 5.00% Senior Notes, contractually due in June 2012, were paid in full. The Company, also during fiscal 2012, paid an amendment fee of approximately \$3.2 million and third-party costs of approximately \$7.5 million related to Amendment Agreement No. 2 to the senior secured credit agreement, which extended the maturity date of an aggregate U.S. dollar equivalent of approximately \$1,231.6 million of the Company’s term loans and \$66.7 million of letter of credit deposits securing the Company’s synthetic letter of credit facility to July 26, 2016. Approximately \$4.5 million of the third-party costs were paid to entities affiliated with GS Capital Partners and J.P. Morgan Partners.

During fiscal 2011, the Company paid commitment fees and third-party costs of approximately \$7.2 million, of which approximately \$3.9 million were paid to entities affiliated with GS Capital Partners and J.P. Morgan Partners, related to an Amendment Agreement to the senior secured credit agreement that extended, from January 2013 to January 2015, the maturity of, and increased, from \$435 million to \$500 million, the U.S. dollar denominated portion of its existing revolving credit facility. In addition, during fiscal 2011, the Company paid third-party costs of approximately \$14.6 million, of which approximately \$8.3 million were paid to entities affiliated with GS Capital Partners and J.P. Morgan Partners, related to the private placement of \$600 million, net of a 1% discount, in aggregate principal amount of the Holdings Notes. The Company used the net proceeds from the offering of the Holdings Notes, along with \$132.7 million in borrowings under the extended U.S. dollar revolving credit facility, to pay an approximately \$711 million dividend to the Company’s stockholders and to pay fees and expenses related to the issuance of the Holdings Notes. During fiscal 2011, the Company sold a noncontrolling ownership interest in Seamless North America, LLC, an online and mobile food ordering service, for consideration of \$50.0 million in cash.

### **Our Indebtedness**

#### *Senior Secured Credit Facilities*

Our senior secured credit facilities currently provide:

- a total of \$4,433.7 million in term loan facilities comprised of various tranches denominated in U.S. dollars, Canadian dollars, euros, yen and pounds sterling;
- a revolving credit facility of up to \$605.0 million available for loans denominated in U.S. dollars, \$50.0 million of which is also available in Canadian dollars; and
- a synthetic letter of credit facility of up to \$200.0 million.

The primary borrower under the senior secured credit facilities is ARAMARK Corporation. In addition, certain subsidiaries of ARAMARK Corporation are borrowers under certain tranches of the term loan facility and/or the revolving credit facility. Holdings is not a guarantor under the senior secured credit facilities and is not subject to the covenants or obligations under the senior secured credit agreement.

The revolving credit facility currently consists of the following subfacilities:

- a revolving credit facility available for loans in U.S. dollars to ARAMARK Corporation with aggregate commitments of \$555.0 million; and
- a revolving credit facility available for loans in Canadian dollars or U.S. dollars to ARAMARK Canada, Ltd. or ARAMARK Corporation with aggregate commitments of \$50.0 million.

The final maturity date of \$515.0 million of the \$555.0 million U.S. revolving loan commitments and of all of the Canadian revolving loan commitments is January 26, 2017, provided, however, that the maturity date

## [Table of Contents](#)

accelerates to April 26, 2016 if any term loans, other than the term loans due September 7, 2019 and any other term loans with a maturity at least 91 days after January 26, 2017, remain outstanding on April 26, 2016. The final maturity date of the \$40.0 million of remaining U.S. dollar revolving loan commitments is January 26, 2015.

Our revolving credit facility includes a \$250.0 million sublimit for letters of credit and includes borrowing capacity available for short-term borrowings referred to as swingline loans subject to a sublimit.

The senior secured credit facilities provide that we have the right at any time to request up to \$675.0 million of incremental commitments in the aggregate under one or more incremental term loan facilities and/or synthetic letter of credit facilities and/or revolving credit facilities and/or by increasing commitments under the revolving credit facility. The lenders under these facilities are not under any obligation to provide any such incremental facilities or commitments, and any such addition of or increase in facilities or commitments will be subject to pro forma compliance with an incurrence-based financial covenant and customary conditions precedent. Our ability to obtain extensions of credit under these incremental facilities or commitments is subject to the same conditions as extensions of credit under the existing credit facilities.

As of September 27, 2013, outstanding term loan borrowings were \$4,433.7 million (recorded at \$4,425.9 million to reflect original issue discount) and outstanding revolving credit borrowings were \$10.0 million.

### *Senior Notes*

On March 7, 2013, ARAMARK Corporation issued \$1,000 million of 5.75% Senior Notes due 2020 (the “senior notes”) pursuant to the indenture, dated as of March 7, 2013 (the “Indenture”), among the ARAMARK Corporation, the guarantors named therein and The Bank of New York Mellon, as trustee.

The senior notes are unsecured obligations of ARAMARK Corporation. The senior notes rank equal in right of payment to all of ARAMARK Corporation’s existing and future senior debt and senior in right of payment to all of ARAMARK Corporation’s existing and future debt that is expressly subordinated in right of payment to the senior notes. Each of the guarantors named in the Indenture (each a “Senior Notes Guarantor”) is providing an unconditional guarantee of the senior notes which ranks equal in right of payment to all of the senior obligations of such Senior Notes Guarantor. The senior notes and the guarantees are effectively subordinated to ARAMARK Corporation’s existing and future secured debt and that of the Senior Notes Guarantors, including all indebtedness under our senior secured credit facilities, to the extent of the value of the assets securing that indebtedness. The senior notes and guarantees are structurally subordinated to all of the liabilities of any of ARAMARK Corporation’s subsidiaries that do not guarantee the senior notes.

Interest on the senior notes is payable on March 15 and September 15 of each year, commencing on September 15, 2013. Interest on the senior notes accrues from March 7, 2013 and is calculated on the basis of a 360-day year of twelve 30-day months. The senior notes mature on March 15, 2020.

Holdings does not currently guarantee the senior notes and is not subject to the covenants that apply to ARAMARK Corporation or its restricted subsidiaries under the senior notes. Following completion of this offering, it is intended that Holdings will guarantee the senior notes for purposes of financial reporting, but will not become subject to any covenants under the senior notes.

### *Receivables Facility*

We have in place an agreement whereby ARAMARK Receivables, LLC (“ARAMARK Receivables”), a wholly-owned, bankruptcy-remote subsidiary of ARAMARK Corporation, purchases accounts receivable generated by certain of our operating subsidiaries using funding provided through the sale of an interest in such accounts receivable and other related assets to Wells Fargo Bank, N.A. (“Wells Fargo”) and a commercial paper

## [Table of Contents](#)

conduit (the “Commercial Paper Conduit”) sponsored by Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A., New York Branch (“Rabobank”). This receivables facility provides an amount of funding up to a maximum of \$300.0 million. The availability of funding under the facility depends on the amount of receivables eligible for funding under the receivables facility and satisfaction of other customary conditions. As of September 27, 2013, we had outstanding borrowings under the receivables facility of \$300.0 million.

Availability of funding under the receivables facility depends primarily upon the outstanding accounts receivable balance of our subsidiaries that participate in the facility. Aggregate availability is determined by using a formula that reduces the gross receivables balance by factors that take into account, among other things, historical default and dilution rates, excessive obligor concentrations and average days outstanding and the costs of the facility.

The Commercial Paper Conduit may discontinue funding the receivables facility at any time for any reason. If it does, Rabobank will be obligated to fund the Commercial Paper Conduit’s proportion of the receivables facility.

Twenty-three of our subsidiaries participate in the receivables facility program all of which are domestic subsidiaries in our FSS North America segment.

### ***Covenant Compliance***

The senior secured credit agreement contains a number of covenants that, among other things, restrict our ability to: incur additional indebtedness; issue preferred stock or provide guarantees; create liens on assets; engage in mergers or consolidations; sell assets; pay dividends, make distributions or repurchase our capital stock; make investments, loans or advances; repay or repurchase any notes, except as scheduled or at maturity; create restrictions on the payment of dividends or other amounts to us from our restricted subsidiaries; make certain acquisitions; engage in certain transactions with affiliates; amend material agreements governing the notes (or any indebtedness that refinances the notes); and fundamentally change the Company’s business. The indenture governing our senior notes contains similar provisions. As of September 27, 2013, we were in compliance with these covenants.

Under the senior secured credit agreement and the indenture governing our senior notes we are required to satisfy and maintain specified financial ratios and other financial condition tests and covenants. Our continued ability to meet those financial ratios, tests and covenants can be affected by events beyond our control, and we cannot assure you that we will meet those ratios, tests and covenants.

These financial ratios, tests and covenants involve the calculation of certain measures that we refer to in this discussion as “Covenant EBITDA” and “Covenant Adjusted EBITDA.” Covenant EBITDA and Covenant Adjusted EBITDA are not measurements of financial performance under U.S. GAAP. Covenant EBITDA is defined as net income (loss) of ARAMARK Corporation and its restricted subsidiaries plus interest and other financing costs, net, provision (benefit) for income taxes, and depreciation and amortization. Covenant Adjusted EBITDA is defined as Covenant EBITDA, further adjusted to give effect to adjustments required in calculating covenant ratios and compliance under our senior secured credit agreement and the indenture.

Covenant EBITDA and Covenant Adjusted EBITDA are included in this section to provide additional information to investors about the calculation of certain financial measures in the senior secured credit agreement and the indenture governing our senior notes that are calculated by reference to Covenant Adjusted EBITDA. Our presentation of these measures has limitations as an analytical tool, and should not be considered in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. You should not consider these measures as alternatives to net income or operating income determined in accordance with U.S. GAAP. Covenant EBITDA and Covenant Adjusted EBITDA, as presented by us, may not be comparable to other similarly titled measures of other companies because not all companies use identical calculations.

## Table of Contents

The following is a reconciliation of net income attributable to ARAMARK Corporation stockholder, which is a U.S. GAAP measure of ARAMARK Corporation's operating results, to Covenant Adjusted EBITDA as defined in our debt agreements. The terms and related calculations are defined in the senior secured credit agreement and the indenture governing our senior notes. Covenant EBITDA and Covenant Adjusted EBITDA are measures of ARAMARK Corporation and its restricted subsidiaries only and do not include the results of Holdings.

- (1) Fiscal 2013 includes goodwill impairment charges in Spain and Korea, asset write-downs mainly related to client contract investments and other income related to the Company's investments (possessory interest) at one of our terminated National Park Service ("NPS") client sites. Fiscal 2012 includes other income recognized related to our investment (possessory interest) at one of our NPS sites which was terminated in the prior year. Fiscal 2011 includes the after-tax loss on the sale of our Galls business, the gain on the sale of our 67% ownership interest in a security business in Chile, goodwill and other intangible assets impairment charge and other income related to a compensation agreement signed with the NPS under which the NPS agreed to pay down a portion of our investment (possessory interest) in certain assets at one of our NPS sites.
- (2) Represents our estimated share of EBITDA from our AIM Services Co., Ltd. equity method investment not already reflected in Covenant EBITDA. EBITDA for this equity method investee is calculated in a manner consistent with Covenant EBITDA but does not represent cash distributions received from this investee.
- (3) Represents the annualizing of estimated EBITDA from acquisitions and divestitures made during the period.
- (4) During fiscal 2011, the Company sold a noncontrolling ownership interest in Seamless North America, LLC. In connection with the sale, we designated Seamless North America, LLC as an Unrestricted Subsidiary under the senior secured credit agreement, and as a result, its EBITDA for all periods presented are excluded from Covenant Adjusted EBITDA.
- (5) Other includes certain other miscellaneous items (primarily severance related expenses).

Our covenant requirements and actual ratios for the twelve months ended September 27, 2013 are as follows:

	Covenant Requirements	Actual Ratios
Maximum Consolidated Secured Debt Ratio(1)	5.75x	4.00x
Interest Coverage Ratio (Fixed Charge Coverage Ratio)(2)	2.00x	3.52x

- (1) Our senior secured credit agreement requires us to maintain a maximum Consolidated Secured Debt Ratio, defined as consolidated total indebtedness secured by a lien to Covenant Adjusted EBITDA, of 5.875x,

## Table of Contents

being reduced over time to 5.125x by the end of 2016. Consolidated total indebtedness secured by a lien is defined in the senior secured credit agreement as total indebtedness outstanding under the senior secured credit agreement, capital leases, advances under the receivables facility and any other indebtedness secured by a lien reduced by the lesser of the amount of cash and cash equivalents on our balance sheet that is free and clear of any lien and \$75 million. Non-compliance with the maximum Consolidated Secured Debt Ratio could result in the requirement to immediately repay all amounts outstanding under such agreement, which, if the Company's revolving credit facility lenders failed to waive any such default, would also constitute a default under our indenture.

- (2) Our senior secured credit agreement establishes an incurrence-based minimum Interest Coverage Ratio, defined as Covenant Adjusted EBITDA to consolidated interest expense, the achievement of which is a condition for us to incur additional indebtedness and to make certain restricted payments. If we do not maintain this minimum Interest Coverage Ratio calculated on a pro forma basis for any such additional indebtedness or restricted payments, we could be prohibited from being able to incur additional indebtedness, other than the additional funding provided for under the senior secured credit agreement and pursuant to specified exceptions, and make certain restricted payments, other than pursuant to certain exceptions. The minimum Interest Coverage Ratio is 2.00x for the term of the senior secured credit agreement. Consolidated interest expense is defined in the senior secured credit agreement as consolidated interest expense excluding interest income, adjusted for acquisitions and dispositions, further adjusted for certain non-cash or nonrecurring interest expense and our estimated share of interest expense from one equity method investee. The indenture governing our senior notes includes a similar requirement which is referred to as a Fixed Charge Coverage Ratio.

The Company and its subsidiaries, affiliates or significant stockholders may from time to time, in their sole discretion, purchase, repay, redeem or retire any of the Company's outstanding debt securities (including any publicly issued debt securities), in privately negotiated or open market transactions, by tender offer or otherwise, or extend or refinance any of the Company's outstanding indebtedness.

- (1) Excludes the \$7.8 million discount on the term loans.
- (2) These amounts represent future interest payments related to our existing debt obligations based on fixed and variable interest rates specified in the associated debt agreements. Payments related to variable debt are based on applicable rates at September 27, 2013 plus the specified margin in the associated debt agreements for each period presented. The amounts provided relate only to existing debt obligations and do not assume the refinancing or replacement of such debt. The average debt balance for each fiscal year from 2014 through 2020 is \$5,433,000, \$5,385,700, \$4,843,500, \$2,356,300, \$2,342,300, \$2,243,700 and \$791,700, respectively. The average interest rate (after giving effect to interest rate swaps) for each fiscal year from 2014 through 2020 is 4.76%, 4.71%, 4.73%, 5.38%, 4.94%, 4.78% and 4.55%, respectively. Refer to Note 6 to the consolidated financial statements for the terms and maturities of existing debt obligations.
- (3) Represents commitments for capital projects and client contract investments to help finance improvements or renovations at the facilities from which the Company operates.
- (4) Includes certain unfunded employee retirement obligations.

The Company has excluded from the table above uncertain tax liabilities due to the uncertainty of the amount and period of payment. As of September 27, 2013, the Company has gross uncertain tax liabilities of \$27.3 million (see Note 9 to our consolidated financial statements). During fiscal 2013, the Company made contributions totaling \$19.7 million into our defined benefit pension plans and benefit payments and settlements of \$16.8 million out of these plans. Estimated contributions to our defined benefit pension plans in fiscal 2014 are \$25.8 million and estimated benefit payments out of these plans in fiscal 2014 are \$12.2 million (see Note 8 to our consolidated financial statements).

Pursuant to the stockholders agreement which was entered into in connection with the 2007 Transaction and which will be amended and restated in connection with this offering (as so amended, the "Stockholders Agreement"), upon termination of employment from the Company or one of its subsidiaries, members of the Company's management (other than Mr. Neubauer) who hold shares of common stock can cause the Company to repurchase all of their initial investment shares (as defined) or shares acquired as a result of the exercise of installment stock purchase opportunities at appraised fair market value. Generally, payment for shares repurchased could be, at the Company's option, in cash or installment notes. The amount of common stock subject to repurchase as of September 27, 2013 and September 28, 2012 was \$158.7 million and \$167.5 million, which is based on approximately 9.4 million and 11.0 million shares of common stock valued at \$16.88 and \$15.17 per share, respectively. The Stockholders Agreement, the senior secured credit agreement and the indenture governing our senior notes contain limitations on the amount that can be expended for such share repurchases.

Pursuant to the Stockholders Agreement, former employees who have terminated employment with the Company within one year of this offering and have sold back their shares to the Company prior to this offering will be entitled to receive upon consummation of this offering an amount equal to the difference between the price they were paid for their shares and the offering price multiplied by the number of shares they sold. Assuming an offering price of \$            per share, which is the mid-point of the estimated offering price range set forth on the cover page of this prospectus, we would owe such former employees an aggregate of \$            upon consummation of this offering.

The Company's business activities do not include the use of unconsolidated special purpose entities, and there are no significant business transactions that have not been reflected in the accompanying financial statements. The Company is self-insured for a limited portion of the risk retained under its general liability and workers' compensation arrangements. Self-insurance reserves are recorded based on actuarial analyses.

### **Critical Accounting Policies and Estimates**

The Company's significant accounting policies are described in the notes to the consolidated financial statements included in this prospectus. As described in such notes, the Company recognizes sales in the period in which services are provided pursuant to the terms of our contractual relationships with our clients. Sales from direct marketing activities are recognized upon shipment.

## [Table of Contents](#)

In preparing our financial statements, management is required to make estimates and assumptions that, among other things, affect the reported amounts of assets, liabilities, sales and expenses. These estimates and assumptions are most significant where they involve levels of subjectivity and judgment necessary to account for highly uncertain matters or matters susceptible to change, and where they can have a material impact on our financial condition and operating performance. We discuss below the more significant estimates and related assumptions used in the preparation of our consolidated financial statements. If actual results were to differ materially from the estimates made, the reported results could be materially affected.

### ***Asset Impairment Determinations***

Goodwill and the ARAMARK trade name are indefinite-lived intangible assets that are not amortizable and are subject to an impairment test that we conduct annually as of the end of fiscal August or more frequently if a change in circumstances or the occurrence of events indicates that potential impairment exists, using discounted cash flows. The Company performs its assessment of goodwill at the reporting unit level. Within the FSS International segment, each country is evaluated separately since such operating units are relatively autonomous and separate goodwill balances have been recorded for each entity. The Company completed its annual goodwill and trade name impairment tests for fiscal 2013, which did not result in an impairment charge. During the second quarter of fiscal 2013, the Company performed an interim goodwill impairment test and recorded an impairment charge of approximately \$11.7 million in the FSS International segment to write-off all of the goodwill associated with its reporting units in Spain and Korea. The impairment charge resulted from continued economic weakness in Spain and reductions in government support for the healthcare and education sectors, two of the primary sectors of the Spanish reporting unit. In Korea, the Company undertook a strategic analysis of the Korean reporting unit, which prompted the impairment analysis in the second quarter. The completion of the step two impairment analyses confirmed that goodwill for both reporting units was impaired. The Company estimated the fair value measurements using a discounted cash flow valuation methodology which included making assumptions about the future profitability and cash flows of the business.

With respect to our other long-lived assets, we are required to test for asset impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable. If indicators of impairment are present, the Company compares the sum of the future expected cash flows from the asset, undiscounted and without interest charges, to the asset's carrying value. If the sum of the future expected cash flows from the asset is less than the carrying value, an impairment would be recognized for the difference between the estimated fair value and the carrying value of the asset.

In making future cash flow analyses of various assets, the Company makes assumptions relating to the following:

- the intended use of assets and the expected future cash flows resulting directly from such use;
- comparable market valuations of businesses similar to ARAMARK's business segments;
- industry specific economic conditions;
- competitor activities and regulatory initiatives; and
- client and consumer preferences and behavior patterns.

We believe that an accounting estimate relating to asset impairment is a critical accounting estimate because the assumptions underlying future cash flow estimates are subject to change from time to time and the recognition of an impairment could have a significant impact on our consolidated statement of income.

### ***Environmental Loss Contingencies***

Accruals for environmental loss contingencies (i.e., environmental reserves) are recorded when it is probable that a liability has been incurred and the amount can reasonably be estimated. Management views the

## [Table of Contents](#)

measurement of environmental reserves as a critical accounting estimate because of the considerable uncertainty surrounding estimation, including the need to forecast well into the future. We are involved in legal proceedings under federal, state, local and foreign environmental laws in connection with our operations or businesses conducted by our predecessors or companies that we have acquired. The calculation of environmental reserves is based on the evaluation of currently available information, prior experience in the remediation of contaminated sites and assumptions with respect to government regulations and enforcement activity, changes in remediation technology and practices, and financial obligations and creditworthiness of other responsible parties and insurers.

### ***Litigation and Claims***

From time to time, the Company and its subsidiaries are party to various legal actions, proceedings and investigations involving claims incidental to the conduct of their business, including those brought by clients, consumers, employees, government entities and third parties under, among others, federal, state, international, national, provincial and local employment laws, wage and hour laws, discrimination laws, immigration laws, human health and safety laws, import and export controls and customs laws, environmental laws, false claims or whistleblower statutes, minority, women and disadvantaged business enterprise statutes, tax codes, antitrust and competition laws, consumer protection statutes, procurement regulations, intellectual property laws, food safety and sanitation laws, cost and accounting principles, the Foreign Corrupt Practices Act, the U.K. Bribery Act, other anti-corruption laws, lobbying laws, motor carrier safety laws, data privacy laws and alcohol licensing and service laws, or alleging negligence and/or breaches of contractual and other obligations. Management considers the measurement of litigation reserves as a critical accounting estimate because of the significant uncertainty in some cases relating to the outcome of potential claims or litigation and the difficulty of predicting the likelihood and range of potential liability involved, coupled with the material impact on our results of operations that could result from litigation or other claims. In determining legal reserves, management considers, among other issues:

- interpretation of contractual rights and obligations;
- the status of government regulatory initiatives, interpretations and investigations;
- the status of settlement negotiations;
- prior experience with similar types of claims;
- impact to the Company's brand or reputation;
- whether there is available insurance; and
- advice of counsel.

### ***Allowance for Doubtful Accounts***

We encounter risks associated with sales and the collection of the associated accounts receivable. We record a provision for accounts receivable that are considered to be uncollectible. In order to calculate the appropriate provision, management analyzes the creditworthiness of specific clients and the aging of client balances. Management also considers general and specific industry economic conditions, industry concentrations, such as exposure to small and medium-sized businesses, the non-profit healthcare sector and the automotive, airline and financial services industries, and contractual rights and obligations. Management believes that the accounting estimate related to the allowance for doubtful accounts is a critical accounting estimate because the underlying assumptions used for the allowance can change from time to time and uncollectible accounts could potentially have a material impact on our results of operations.

### ***Inventory Obsolescence***

We record an inventory obsolescence reserve for obsolete, excess and slow-moving inventory, principally in the Uniform segment. In calculating our inventory obsolescence reserve, management analyzes historical and projected data regarding client demand within specific product categories and makes assumptions regarding

## [Table of Contents](#)

economic conditions within client specific industries, as well as style and product changes. Management believes that its accounting estimate related to inventory obsolescence is a critical accounting estimate because client demand in certain of our businesses can be variable and changes in our reserve for inventory obsolescence could materially affect our results of operations.

### ***Income Taxes***

We use the asset and liability method of accounting for income taxes. Under this method, income tax expense is recognized for the amount of taxes payable or refundable for the current year and for deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our consolidated financial statements or tax returns. We must make assumptions, judgments and estimates to determine our current provision for income taxes and also our deferred tax assets and liabilities and any valuation allowance to be recorded against a deferred tax asset. Our assumptions, judgments and estimates relative to the current provision for income taxes take into account current tax laws, our interpretation of current tax laws and possible outcomes of current and future audits conducted by foreign and domestic tax authorities. Changes in tax law or our interpretation of tax laws and the resolution of current and future tax audits could significantly impact the amounts provided for income taxes in our consolidated financial statements. Our assumptions, judgments and estimates relative to the amount of deferred income taxes take into account estimates of the amount of future taxable income, and actual operating results in future years could render our current assumptions, judgments and estimates inaccurate. Any of the assumptions, judgments and estimates mentioned above could cause our actual income tax obligations to differ from our estimates.

### ***Share-Based Compensation***

Under the ARAMARK Holdings Corporation 2007 Management Stock Incentive Plan, as amended (the “Plan”), incentive awards may be granted to employees or directors of, or consultants to, the Company or one of its affiliates in the form of non-qualified stock options (time- and performance-based), installment stock purchase opportunities (“ISPOs”) and deferred stock units (only to non-employee directors). In June 2013, the Plan was amended and now additionally provides for the grant of restricted stock units and restricted stock. The compensation committee also approved a new form of non-qualified stock option award agreement which provides for 100% time-based vesting rather than earlier forms of non-qualified discretionary stock option agreements which had provided for 50% time-based vesting and 50% performance-based vesting. Finally, in June 2013, the Company offered to holders of outstanding ISPOs the ability to exchange such awards for restricted stock and non-qualified stock options (the “Award Exchange”).

We value our non-qualified stock option and ISPO awards using the Black-Scholes option valuation model. The Black-Scholes option valuation model uses assumptions of expected volatility, the expected dividend yield of our stock, the expected term of the awards and the risk-free interest rate, as well as our estimated fair value of our common stock. Since our stock has not been publicly traded, the expected volatility is based on an average of the historical volatility of our competitors’ stocks over the expected term of the share-based awards. The dividend yield assumption is based on our history and expected future dividend payouts, excluding dividends that resulted from activities we deemed to be one-time in nature. The expected term of share-based awards represents the weighted-average period the share-based award is expected to remain outstanding. The expected term for all grants of time-based awards and ISPO awards were calculated using the simplified method, as permitted under SEC rules and regulations due to the lack of history of our equity incentive plan and the lack of a public market for our common stock. The expected term for all grants and modifications of performance-based awards was calculated utilizing the same approach as time-based awards as management believes that the exercise activity of award holders is similar for both types of awards, however management has calculated a different expected term for each tranche of the performance-based awards. The simplified method uses the midpoint between an option’s vesting date and contractual term. The risk-free interest rate assumption is based upon the rate applicable to the U.S. Treasury security with a maturity equal to the expected term of the option on the grant date. All other employee share-based awards and non-employee director awards are valued based on the fair value of our common stock on the date of grant.

## [Table of Contents](#)

Share-based compensation expense is recognized in our results of operations for the awards that are expected to vest. For time-based options, restricted stock and restricted stock units, share-based compensation expense is recognized over the period during which an employee is required to provide service in exchange for the award, usually the vesting period. For performance-based options, management must assess the probability of the achievement of the earnings before interest and taxes (“EBIT”) targets, as defined in the Plan. If the EBIT targets are not probable of achievement, changes in the recognition of share-based compensation expense may occur. Management makes its probability assessments based on the Company’s actual and projected results of operations. As share-based compensation expense recognized in the Company’s results of operations is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. Forfeitures are estimated at the time of each grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on our historical experience.

During fiscal 2013, fiscal 2012 and fiscal 2011, share-based compensation expense was approximately \$19.4 million, \$15.7 million and \$17.3 million, respectively. We expect to continue to grant share-based awards in the future, and to the extent that we do, our actual share-based compensation expense recognized will likely increase.

At each grant date, the compensation committee of the board of directors considered whether any events or circumstances occurred between the date of the valuation and the date of the grant that would indicate a significant change in the fair value of our common stock per share during that period. The decline in market value from September 5, 2012 to

## [Table of Contents](#)

October 29, 2012 was a result of the spin-off of our majority interest in Seamless North America, LLC, an online and mobile food ordering service, to our stockholders in the form of a dividend. Each stockholder received one share of Seamless Holdings, a newly formed company created to hold our former interest in Seamless North America, LLC, for each share of our common stock held as of the record date.

We have been a private company with no active public market for our common stock. Management, with authority delegated by the board of directors, estimates the fair value of our common stock per share, which includes consideration of a contemporaneous valuation by an independent third-party valuation firm in accordance with the guidelines outlined in the AICPA Practice Aid, *Valuation of Privately-Held Company Equity Securities Issued as Compensation*. The valuation of the Company's common stock per share is performed on a regular quarterly basis as of the beginning of the month when share-based awards are expected to be granted. The third party valuations consider a number of objective and subjective factors that we believe market participants would consider, including understanding the financial condition, future prospects and projected operations of the Company, a review of the history and nature of the Company, a review of the financial data bearing upon recent and prospective operations, a review of certain other publicly available financial data for certain companies deemed comparable to the Company and capital market information deemed relevant to the assessment of the investment risk return attributes of the Company's common stock. For all periods, the valuation of our common stock has agreed to the valuation performed by the third party valuation firm.

In making a determination of the fair value of common stock per share, the valuation of our enterprise value utilizes the market-comparable approach and the income approach. The valuation methodology has been performed on a consistent basis for all periods. The market-comparable approach estimates the value of a company by applying market multiples of publicly traded comparable companies in similar lines of business to the results and projected results of the company being valued. The income approach involves applying an appropriate risk-adjusted discount rate to projected cash flows based on forecasted sales and costs. When estimating an enterprise value at each valuation date and the corresponding value of the common stock per share, the valuation equally weights the market-comparable approach and income approach.

For each valuation date, the Company prepares financial forecasts which are used in the different valuation approaches. The financial forecasts are based on assumed sales growth rates, operating margins and expected cash flows in the future. These forecasts can differ from time to time based on current and projected changes in the business. As the assumptions in these forecasts change, the value of our common stock will also change. In addition to the forecast, changes in the multiples of our publicly-traded comparable companies and changes in our cash and debt balances will also cause the value of our common stock to vary.

Management believes that the accounting estimate related to the expense of share-based awards is a critical accounting estimate because the underlying assumptions, including financial forecasts, can change from time to time and, as a result, the compensation expense that we record in future periods may differ significantly from what we have recorded in the current period with respect to similar instruments.

### ***Fair Value of Financial Assets and Financial Liabilities***

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities recorded at fair value are classified based upon the level of judgment associated with the inputs used to measure their fair value. The hierarchical levels related to the subjectivity of the valuation inputs are defined as follows:

- Level 1—inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets
- Level 2—inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument

## [Table of Contents](#)

- Level 3—inputs to the valuation methodology are unobservable and significant to the fair value measurement

Management believes that the carrying value of cash and cash equivalents, accounts receivable and accounts payable are representative of their respective fair values. The fair value of the Company's debt was computed using market quotes, if available, or based on discounted cash flows using market interest rates as of the end of the period. The fair values for interest rate swap agreements, foreign currency forward exchange contracts and natural gas, gasoline and diesel fuel agreements are based on quoted market prices from various banks for similar instruments, adjusted for the Company and the counterparties' credit risk. The Company performs an independent review of these values to determine if they are reasonable. The fair value of our derivative instruments are impacted by changes in interest rates, foreign exchange rates, and the prices of natural gas, gasoline and diesel fuel. The fair value of our common stock subject to repurchase is derived principally from unobservable inputs. Management believes that the accounting estimate related to the fair value of our financial assets and financial liabilities is a critical accounting estimate due to its complexity and the significant judgments and estimates involved in determining fair value in the absence of quoted market prices.

\*\*\*\*\*

Critical accounting estimates and the related assumptions are evaluated periodically as conditions warrant, and changes to such estimates are recorded as new information or changed conditions require.

### **Quantitative and Qualitative Disclosure About Market Risk**

We are exposed to the impact of interest rate changes and manage this exposure through the use of variable-rate and fixed-rate debt and by utilizing interest rate swaps. We do not enter into contracts for trading purposes and do not use leveraged instruments. The information below summarizes our market risks associated with debt obligations and other significant financial instruments as of September 27, 2013 (See Notes 6 and 7 to our consolidated financial statements). Fair values were computed using market quotes, if available, or based on discounted cash flows using market interest rates as of the end of the respective periods. For debt obligations, the table presents principal cash flows and related interest rates by contractual fiscal year of maturity. Variable interest rates disclosed represent the weighted-average rates of the portfolio at September 27, 2013. For interest rate swaps, the table presents the notional amounts and related weighted-average interest rates by the fiscal year of maturity. The variable rates presented are the average forward rates for the term of each contract.

### **Our Mission**

ARAMARK’s mission is to “*Deliver experiences that enrich and nourish lives.*” This mission is anchored in a set of goals, which we refer to as our core values, that guide our execution in the marketplace:

- **Sell and Serve with Passion.** Placing clients and consumers at the center of all that we do by listening and responding to their needs with service focused on quality and innovation
- **Set Goals. Act. Win.** Maintaining a culture of accountability where performance matters and exhibiting leadership that achieves and exceeds expectations through our execution
- **Front-Line First.** Providing our front-line employees with tools and training that empower them to deliver excellence at the point of service to thousands of consumers and clients every day
- **Integrity and Respect Always.** High ethical standards are the cornerstone of the ARAMARK brand and help us earn the trust of our key constituents

We strive to accomplish this mission through a repeatable business model founded on five principles of excellence—selling, service, execution, marketing and operations. Our commitment to these values has earned us numerous awards and recognitions; we have been named one of the “World’s Most Admired Companies” by Fortune Magazine in the category of Diversified Outsourcing Services every year since 1999 and we are recognized as one of the “World’s Most Ethical Companies” by the Ethisphere Institute. Fortune Magazine conducts its survey of the “World’s Most Admired Companies” by requesting industry executives, directors and analysts to rank the 15 largest companies in each international industry and the 10 largest for each U.S. industry based on revenue based on nine criteria ranging from investment value to social responsibility. The criteria for selection as one of the Ethisphere Institute’s “World’s Most Ethical Companies” is based on Ethisphere’s collection of certain information regarding a company’s corporate governance, risk, sustainability, compliance or ethics and the processing of such information through Ethisphere’s internal ethics rating system.

### **Our History and Recent Accomplishments**

Since ARAMARK’s founding in 1959, we have broadened our service offerings and expanded our client base through a combination of organic growth and successful acquisitions, with the goal of further developing our food, facilities and uniform capabilities, as well as growing our international presence.

In 1984, we completed a management buyout, after which our management and employees increased their Company ownership to approximately 90% of our equity capital leading up to our December 2001 public offering.

On January 26, 2007, ARAMARK delisted from the NYSE in conjunction with a going-private transaction executed with investment funds affiliated with GS Capital Partners, CCMP Capital Advisors, J.P. Morgan Partners, Thomas H. Lee Partners, L.P. and Warburg Pincus LLC as well as approximately 250 senior management personnel.

In May 2012, Eric Foss became the new CEO and President of our company. Previously, Mr. Foss was the CEO of Pepsi Beverages Company and was Chairman and CEO of the publicly-traded Pepsi Bottling Group.

## [Table of Contents](#)

Under Mr. Foss' leadership at ARAMARK, we have introduced a number of initiatives designed to accelerate revenue and profit growth and expand margins. Our programs focused on the enhanced management of our key costs—food, labor and overhead—include SKU rationalization (a consolidation of product categories for our purchases), standardization of portion sizes, waste control, enhanced labor scheduling, turn-over reduction and SG&A discipline, among others. We expect SKU rationalization to reduce our food costs by allowing us to concentrate our purchasing power with suppliers and achieve a lower average cost per unit. We are also training our employees to use standardized portioning and waste control measures in an effort to reduce the amount of food that we utilize in providing our services thereby improving our profitability. To improve our labor costs, we have implemented technology solutions and process improvements designed to reduce over-scheduling of labor and similar staffing inefficiencies, thereby reducing total hours worked. We also hope to lower our recruiting and training costs through programs designed to reduce employee turnover. Our initiatives to reduce our SG&A costs are focused on eliminating redundant processes and centralizing our back office functions, among others.

In 2013, we continued to grow our existing business and win new clients, including the Ohio and Michigan departments of corrections, the Minnesota Vikings, the Chicago Bears, and the Tampa Bay Buccaneers, and additional services from existing clients such as Airbus and American University. There is no assurance that we will continue to grow and gain new customers.

### **Food and Support Services**

Our Food and Support Services segments manage a number of interrelated services—including food, hospitality and facility services—for school districts, colleges and universities, healthcare facilities, businesses, sports, entertainment and recreational venues, conference and convention centers, national and state parks and correctional institutions. Our Food and Support Services segments holds the #2 position in North America and a top 3 position in most countries in which FSS has significant operations based on 2013 total sales.

We are the exclusive provider of food and beverage services at most of the locations we serve and are responsible for hiring, training and supervising substantially all of the food service personnel in addition to ordering, receiving, preparing and serving food and beverage items sold at those facilities. Our facilities services capabilities are broad, and include plant operations and maintenance, custodial/housekeeping, energy management, clinical equipment maintenance, grounds keeping, and capital project management. In governmental, business, educational and healthcare facilities (for example, offices and industrial plants, schools and universities and hospitals), our clients provide us with a captive client base through their on-site employees, students and patients. At sports, entertainment and recreational facilities, our clients attract patrons to their site, usually for specific events such as sporting events and conventions.

We manage our Food and Support Services business in two geographic reportable segments split between our North American and International operations. In fiscal 2013, our FSS North America segment generated \$9.6 billion in sales, or 69% of our total sales, and our FSS International segment generated \$2.9 billion in sales, or 21% of our total sales. No individual client represents more than 2% of our 2013 total sales, other than, collectively, a number of U.S. government agencies. See note 14 to our consolidated financial statements for information on revenue, profit and total assets for the FSS North America segment and the FSS International segment.

We also offer a variety of facility management services to business and industry clients. These services include the management of housekeeping, plant operations and maintenance, energy management, laundry and linen, groundskeeping, landscaping, transportation, capital program management and commissioning services and other facility consulting services relating to building operations.

We also offer remote services which include facility and business support services primarily for mining and oil operations.

*Sports, Leisure and Corrections.* We administer concessions, banquet and catering services, retail services and merchandise sales, recreational and lodging services and facility management services at sports, entertainment and recreational facilities. We serve 156 professional (including minor league affiliates) and college sports teams, including 40 teams in Major League Baseball, the National Basketball Association, the National Football League and the National Hockey League. We also serve 25 convention and civic centers, 16 national and state parks and other resort operations, plus numerous concert venues, entertainment complexes and other popular tourist attractions in the United States and Canada. Additionally, we provide correctional food services, operate commissaries, laundry facilities and property rooms and provide food and facilities management services for parks.

Our FSS International segment provides a similar range of services as those provided to our FSS North America segment clients and operates in all of our sectors. We have operations in 19 countries outside North America. Our largest international operations are in the United Kingdom, Germany, Chile and Ireland, and in each of these countries we are one of the leading food service providers. We also have operations in emerging market countries, such as China, and a strong presence in Japan through our 50% ownership of AIM Services Co., Ltd., a leader in providing outsourced food services in Japan. In addition to the core Business & Industry sector, our FSS International segment serves many soccer stadiums across Europe, and numerous educational institutions, correctional institutions and convention centers globally. There are particular risks attendant with our international operations. Please see “Risk Factors.”

### **Purchasing**

We negotiate the pricing and other terms for the majority of our purchases of food and related products in the United States and Canada directly with national manufacturers. We purchase these products and other items through SYSCO Corporation and other distributors. We have a master distribution agreement with SYSCO that covers a significant amount of our purchases of these products and items in the United States and another distribution agreement with SYSCO that covers our purchases of these products in Canada. Our distributors are responsible for tracking our orders and delivering products to our specific locations. Due to our ability to negotiate favorable terms with our suppliers, we receive vendor consideration, including rebates, allowances and volume discounts. See “Types of Contracts” below. Our location managers also purchase a number of items, including bread, dairy products and alcoholic beverages from local suppliers, and we purchase certain items directly from manufacturers.

Our relationship with SYSCO is important to our operations—we have had distribution agreements in place for more than 20 years. In fiscal 2013, SYSCO distributed approximately 60% of our food and non-food products in the United States and Canada, and we believe that we are one of their largest clients. However, we believe that the products acquired through SYSCO can, in significant cases, be purchased through other sources and that termination of our relationship with them or any disruption of their business would cause only short-term disruptions to our operations.

Our agreements with our distributors are generally for an indefinite term, subject to termination by either party after a notice period, which is generally 60 to 120 days. The pricing and other financial terms of these agreements are renegotiated periodically. Our current agreement with SYSCO is terminable by either party with 180 days notice.

## [Table of Contents](#)

In our international segment, our approach to purchasing is substantially similar. On a country-by-country basis, we negotiate pricing and other terms for a majority of our purchases of food and related products with manufacturers operating in the applicable country, and we purchase these products and other items through distributors in that country. Due to our ability to negotiate favorable terms with our suppliers, we receive vendor consideration, including rebates, allowances and volume discounts. See “Types of Contracts” below. As in North America, our location managers also purchase a number of items, including bread, dairy products and alcoholic beverages from local suppliers, and we purchase certain items directly from manufacturers. Our agreements with our distributors are subject to termination by either party after a notice period, which is generally 60 days. The pricing and other financial terms of these agreements are renegotiated periodically.

Our relationship with distributors in the countries outside the United States and Canada is important to our operations, but from an overall volume standpoint, no distributor outside the United States and Canada distributes a significant volume of products. We believe that products we acquire from our distributors in countries outside the United States and Canada can, in significant cases, be purchased from other sources, and that the termination of our relationships with our distributors outside the United States and Canada, or the disruption of their business operations, would cause only short-term disruption to our operations.

### ***Sales and Marketing***

We maintain selling and marketing excellence by focusing on the execution of a common selling process as well as optimal resource allocation and deployment. Our common selling process ensures that we sell our services to our clients in the same way, regardless of the sector in which such client is located. We have developed consistent tools and training that are used across all of our businesses to train our employees on this selling process. Our business development functions are aligned directly with the sectors and services in which we have leadership positions, and we combine our targeted business development strategies with our strong client relationships to deliver differentiated and innovative solutions. We target our business development by aligning our sales efforts directly with the sectors and services in which we operate. We identify individuals at various levels in our organization to match up with individuals in a variety of roles at both existing and potential clients. We believe that these connections throughout various levels within the client organization allow us to develop strong relationships with the client and gain a better understanding of the clients’ requirements. Based on the knowledge of the clients’ requirements and the sector, our goal is to develop solutions for the client that are unique and that help to differentiate us from our competitors. We believe that, through our years of operational experience as well as periodic surveys, we have significant insight into the factors that influence client and consumer choice and tailor our interactions to maximize impact and create a demonstrable growth trajectory. We believe that our sales and marketing platform has created a common toolkit and a repeatable process to deliver both improved retention as well as cross-selling opportunities.

The effectiveness of our approach has been demonstrated through our improved growth trajectory. Our estimated net new business (the estimated annualized sales of new clients less the annualized sales of lost clients as if they were acquired or lost on the first day of the fiscal year) during fiscal year 2013 was approximately 208% of the previous three year average and our performance in fiscal 2013 was approximately 32% greater than in fiscal 2012. Our estimated net new business was approximately \$525 million in fiscal 2013. Because our calculation of estimated net new business is made on an annualized basis, the full amount of estimated net new business for any given fiscal year will not be fully recognized in our sales until the following fiscal year.

### ***Types of Contracts***

We use contracts that allow us to manage our potential upside and downside risk in connection with our various business interactions with clients. Our contracts may require that the client’s consent be obtained in order to raise prices on the food, beverages and merchandise we sell within a particular facility. The length of contracts that we enter into with clients varies. Contracts generally are for fixed terms, many of which are in excess of one year. Client contracts for sports, entertainment and recreational services typically require larger capital investments, but have correspondingly longer and fixed terms, usually from five to fifteen years.

## [Table of Contents](#)

When we enter into new contracts, or extend or renew existing contracts, particularly those for stadiums, arenas, convention centers, colleges and universities, we are sometimes contractually required to make some form of up-front or future capital investment to help finance improvement or renovation, typically to the food and beverage facilities of the venue from which we operate. Contractually required capital expenditures typically take the form of investment in leasehold improvements, food service equipment and/or grants to clients. At the end of the contract term or upon its earlier termination, assets such as equipment and leasehold improvements typically become the property of the client, but generally the client must reimburse us for any undepreciated or unamortized capital investments.

Food and Support Services contracts are generally obtained and renewed either through a competitive process or on a negotiated basis, although contracts in the public sector are frequently awarded on a competitive bid basis, as required by applicable law. Contracts for Food and Support Services with school districts and correctional clients are typically awarded through a formal bid process. Contracts in the private sector may be entered into on a less formal basis, but we and other companies will often compete in the process leading up to the award or the completion of contract negotiations. Typically, after the award, final contract terms are negotiated and agreed upon.

We use two general contract types in our Food and Support Services segments: profit and loss contracts and client interest contracts. These contracts differ in their provision for the amount of financial risk that we bear and, accordingly, the potential compensation, profits or fees we may receive. Commission rates and management fees, if any, may vary significantly among contracts based upon various factors, including the type of facility involved, the term of the contract, the services we provide and the amount of capital we invest.

*Profit and Loss Contracts.* Under profit and loss contracts, we receive all of the revenue from, and bear all of the expenses of, the provision of our services at a client location. Expenses under profit and loss contracts sometimes include commissions paid to the client, typically calculated as a fixed or variable percentage of various categories of sales, and, in some cases, require minimum guaranteed commissions. We benefit from greater upside potential with a profit and loss contract, although we do consequently bear greater downside risk than with a client interest contract. For fiscal 2013, approximately 73% of our Food and Support Services sales were derived from profit and loss contracts.

*Client Interest Contracts.* Client interest contracts include management fee contracts, under which our clients reimburse our operating costs and pay us a management fee, which may be calculated as a fixed dollar amount or a percentage of sales or operating costs. Some management fee contracts entitle us to receive incentive fees based upon our performance under the contract, as measured by factors such as sales, operating costs and client satisfaction surveys. Client interest contracts also include limited profit and loss contracts, under which we receive a percentage of any profits earned from the provision of our services at the facility and we generally receive no payments if there are losses. As discussed above under "Purchasing," we receive vendor consideration, including rebates, allowances and volume discounts that we retain except in those cases and to the extent that, under certain arrangements, they are passed through to our clients. For our client interest contracts, both our upside potential and downside risk are reduced compared to our profit and loss contracts. For fiscal 2013, approximately 27% of our Food and Support Services sales were derived from client interest contracts.

### **Competition**

There is significant competition in the Food and Support Services business from local, regional, national and international companies, as well as from the businesses, healthcare institutions, colleges and universities, correctional facilities, school districts and public assembly facilities that decide to provide these services themselves. Institutions may decide to operate their own services or outsource to one of our competitors following the expiration or termination of contracts with us. Clients do not necessarily choose the lowest cost provider, and tend to place a premium on the total value proposition offered. In our FSS North America segment, our external competitors include other multi-regional food and support service providers, such as Centerplate, Inc., Compass Group plc, Delaware North Companies Inc. and Sodexo SA. Internationally, our external food service and support service competitors include Compass Group plc, Elior SA, International Service System A/S and Sodexo SA. We also face competition from many regional and local service providers.

## [Table of Contents](#)

We believe that the following competitive factors are the principal drivers of our success:

- quality and breadth of services and management talent;
- service innovation;
- reputation within the industry;
- pricing; and
- financial strength and stability.

### **Seasonality**

Our sales and operating results have varied, and we expect them to continue to vary, from quarter to quarter as a result of different factors. Within our FSS North America segment, historically there has been a lower level of activity during our first and second fiscal quarters in the sports, entertainment and recreational services. This lower level of activity historically has been partially offset during our first and second fiscal quarters by the increased activity in our educational operations. Conversely, historically there has been a significant increase in the provision of sports, entertainment and recreational services during our third and fourth fiscal quarters, which is partially offset by the effect of summer recess at colleges, universities and schools.

### **Uniform**

Our Uniform segment provides uniforms and other garments and work clothes and ancillary items such as mats and shop towels in the United States, Puerto Rico, Canada and through a joint venture in Japan. We hold the #2 position in the North American uniform services market. We operate approximately 2,600 routes nationally, giving us a broad reach to service our clients' needs.

Clients use our uniforms to meet a variety of needs, including:

- establishing corporate identity and brand awareness;
- projecting a professional image;
- protecting workers—work clothes can help protect workers from difficult environments such as heavy soils, heat, flame or chemicals; and
- protecting products—uniforms can help protect products against contamination in the food, pharmaceutical, electronics, health care and automotive industries.

We provide a full service employee uniform solution, including design, sourcing and manufacturing, delivery, cleaning and maintenance. We rent uniforms, work clothing, outerwear, particulate-free garments and non-garment items and related services, including industrial towels, floor mats, mops, linen products, and paper products to businesses in a wide range of industries, including manufacturing, food services, automotive, healthcare, construction, utilities, repair and maintenance services, restaurant and hospitality. In fiscal 2013, our Uniform segment generated \$1.4 billion in sales, or 10% of our total sales. See note 14 to the Company's consolidated financial statements for information on revenue, profit and total assets for the Uniform segment.

### **Clients and Services**

We serve businesses of all sizes in many different industries. We have a diverse client base, serving clients in all 50 states, Puerto Rico and one Canadian province, from over 200 service location and distribution centers across the United States and one service center in Ontario, Canada. None of our clients individually represents a material portion of our sales. We typically visit our clients' sites weekly, delivering clean, finished uniforms and, at the same time, removing the soiled uniforms or other items for cleaning, repair or replacement. We also offer products for direct sale.

## [Table of Contents](#)

Our cleanroom service offers advanced static dissipative garments, barrier apparel, sterile garments and cleanroom application accessories for clients with contamination-free operations in the technology, food, healthcare and pharmaceutical industries.

We conduct our direct marketing business through three primary brands—WearGuard, Crest and ARAMARK. We design, source or manufacture and distribute distinctive image apparel to workers in a wide variety of industries through the Internet at [www.shoparamark.com](http://www.shoparamark.com), dedicated sales representatives and telemarketing sales channels. We customize and embroider personalized uniforms and logos for clients through an extensive computer assisted design center and distribute work clothing, outerwear, business casual apparel and footwear throughout the United States, Puerto Rico and Canada.

### ***Operations***

We operate our uniform rental business as a network of 78 laundry plants and 148 satellite plants and depots supporting over 2,600 pick-up and delivery routes. We operate a fleet of service vehicles that pick up and deliver uniforms for cleaning and maintenance. We conduct our direct marketing activities principally from our facilities in Salem, Virginia; Norwell, Massachusetts; and Reno, Nevada. We market our own brands of apparel and offer a variety of customized personalization options such as embroidery and logos. We also source uniforms and other products to our specifications from a number of domestic and international suppliers and also manufacture a significant portion of our uniform requirements. We purchase uniform and textile products as well as equipment and supplies from domestic and international suppliers. The loss of any one supplier would not have a significant impact on us. We also operate a cutting and sewing plant in Mexico, which satisfies a substantial amount of our standard uniform inventory needs.

### ***Sales and Marketing***

Our sales representatives and route sales drivers are responsible for selling our services to current and potential clients and developing new accounts through the use of an extensive, proprietary database of pre-screened and qualified business prospects. We build our brand identity through local advertising, promotional initiatives and through our distinctive service vehicles. Our clients frequently come to us through client referrals, either from our uniform rental business or from our other service sectors. Our customer service representatives generally interact on a weekly basis with their clients, while our support personnel are charged with expeditiously handling client requirements regarding the outfitting of new client employees and other customer service needs.

### ***Types of Contracts***

We typically serve our rental clients under written service contracts for an initial term of three to five years. While clients are not required to make an up-front investment for their uniforms, in the case of nonstandard uniforms and certain specialty programs, clients typically agree to reimburse us for our costs if they terminate their agreement early. With the exception of certain governmental bid business, most of our direct marketing business is conducted under invoice arrangement with repeat clients.

### ***Competition***

Although the United States rental industry has experienced some consolidation, there is significant competition in all the areas that we serve, and such competition varies across geographies. Although many competitors are smaller local and regional firms, we also face competition from other large national firms such as Cintas Corporation, G&K Services, Inc. and UniFirst Corporation. We believe that the primary competitive factors that affect our operations are quality, service, design, consistency of product, and distribution capability, particularly for large multi-location clients, and price. We believe that our ability to compete effectively is enhanced by the quality and breadth of our product line as well as our nationwide reach.

### **Employees**

As of September 27, 2013, we had a total of approximately 272,000 employees, including seasonal workers, consisting of approximately 162,000 full-time and approximately 110,000 part-time employees in our three business segments. The number of part-time employees varies significantly from time to time during the year due to seasonal and other operating requirements. We generally experience our highest level of employment during the fourth fiscal quarter. The approximate number of employees by segment is as follows: FSS North America: 170,000; FSS International: 88,000; Uniform: 14,000. In addition, the ARAMARK corporate staff is approximately 200 employees. Approximately 40,000 employees in our North American operations are covered by collective bargaining agreements. We have not experienced any material interruptions of operations due to disputes with our employees and consider our relations with our employees to be satisfactory.

### **Properties**

Our principal executive offices are located at ARAMARK Tower, 1101 Market Street, Philadelphia, Pennsylvania 19107. Our principal real estate is primarily comprised of Uniform facilities. As of September 27, 2013, we operated 248 service facilities in our Uniform segment, consisting of industrial laundries, cleanroom laundries, warehouses, distribution centers, satellites, depots, and stand-alone garages that are located in 40 states, Mexico, Canada and Puerto Rico. Of these, approximately 50% are leased and approximately 50% are owned. In addition, we operate one cutting and sewing plant in Mexico. We own 11 buildings that we use in our FSS North America segment, including two office buildings, three hotels and several office/warehouse spaces, and we lease 148 premises, consisting of offices, office/warehouses and distribution centers. In addition, we own a distribution center and four other properties and lease 109 facilities throughout the world that we use in our FSS International segment. We also maintain other real estate and leasehold improvements, which we use in the Uniform and FSS segments. No individual parcel of real estate owned or leased is of material significance to our total assets.

### **Legal Proceedings**

Our business is subject to various federal, state and local laws and regulations governing, among other things, the generation, handling, storage, transportation, treatment and disposal of water wastes and other substances. We engage in informal settlement discussions with federal, state, local and foreign authorities regarding allegations of violations of environmental laws in connection with our operations or businesses conducted by our predecessors or companies that we have acquired, the aggregate amount of which and related remediation costs we do not believe should have a material adverse effect on our financial condition or results of operations.

From time to time, the Company and its subsidiaries are party to various legal actions, proceedings and investigations involving claims incidental to the conduct of their business, including those brought by clients, consumers, employees, government entities and third parties under, among others, federal, state, international, national, provincial and local employment laws, wage and hour laws, discrimination laws, immigration laws, human health and safety laws, import and export controls and customs laws, environmental laws, false claims or whistleblower statutes, minority, women and disadvantaged business enterprise statutes, tax codes, antitrust and competition laws, consumer protection statutes, procurement regulations, intellectual property laws, food safety and sanitation laws, cost and accounting principles, the Foreign Corrupt Practices Act, the U.K. Bribery Act, other anti-corruption laws, lobbying laws, motor carrier safety laws, data privacy laws and alcohol licensing and service laws, or alleging negligence and/or breaches of contractual and other obligations. Based on information currently available, advice of counsel, available insurance coverage, established reserves and other resources, the Company does not believe that any such actions, proceedings or investigations are likely to be, individually or in the aggregate, material to its business, financial condition, results of operations or cash flows. However, in the event of unexpected further developments, it is possible that the ultimate resolution of these matters, or other similar matters, if unfavorable, may be materially adverse to the Company's business, financial condition, results of operations or cash flows.

## Governmental Regulation

We are subject to various governmental regulations, such as environmental, labor, employment, immigration, health and safety laws and liquor licensing and dram shop laws. In addition, our facilities and products are subject to periodic inspection by federal, state and local authorities. We have established, and periodically update, various internal controls and procedures designed to maintain compliance with these regulations. Our compliance programs are subject to changes in federal or state legislation, or changes in regulatory interpretation, implementation or enforcement. From time to time both federal and state government agencies have conducted audits of certain of our practices as part of routine investigations of providers of services under government contracts, or otherwise. Like others in our business, we receive requests for information from governmental agencies in connection with these audits. If we fail to comply with applicable laws, we may be subject to investigations, criminal sanctions or civil remedies, including fines, penalties, damages, reimbursement, injunctions, seizures, debarments from government contracts or loss of liquor licenses.

Our operations are subject to various governmental regulations, including those governing:

- the service of food and alcoholic beverages;
- collection of sales tax;
- minimum wage, overtime, wage payment and employment discrimination;
- immigration;
- governmentally funded entitlement programs;
- environmental protection;
- human health and safety;
- customs, import and export control laws;
- the Foreign Corrupt Practices Act, the U.K. Bribery Act and other anti-bribery laws;
- minority business enterprise and women owned business enterprise statutes;
- federal motor carrier safety; and
- privacy and client data security.

There are a variety of regulations at various governmental levels relating to the handling, preparation and serving of food, including in some cases requirements relating to the temperature of food, the cleanliness of the kitchen, and the hygiene of personnel, which are enforced primarily at the local public health department level. While we attempt to comply with applicable laws and regulations, we cannot assure you that we are in full compliance at all times with all of the applicable laws and regulations referenced above. Furthermore, legislation and regulatory attention to food safety is very high. Additional or amended regulations in this area may significantly increase the cost of compliance.

In addition, various federal, state and provincial agencies impose nutritional guidelines and other requirements on us at certain of the healthcare, education and corrections facilities we serve. We may also be subject to regulations that limit or restrict the use of trans fats in the food we serve or other requirements relating to ingredient or nutrient labeling. There can be no assurance that federal or state legislation, or changes in regulatory implementation or interpretation of government regulations, would not limit our activities in the future or significantly increase the cost of regulatory compliance.

Because we serve alcoholic beverages at many sports, entertainment and recreational facilities, including convention centers and national and state parks, we also hold liquor licenses incidental to our contract food service business and are subject to the liquor license requirements of the jurisdictions in which we hold a liquor license. As of September 27, 2013, our subsidiaries held liquor licenses in 41 states and the District of Columbia,

## [Table of Contents](#)

three Canadian provinces and certain other countries. Typically, liquor licenses must be renewed annually and may be revoked or suspended for cause at any time. Alcoholic beverage control regulations relate to numerous aspects of our operations, including minimum age of patrons and employees, hours of operation, advertising, wholesale purchasing, inventory control and handling, and storage, dispensing and service of alcoholic beverages. We have not encountered any material problems relating to alcoholic beverage licenses to date. The failure to receive or retain a liquor license in a particular location could adversely affect our ability to obtain such a license elsewhere. Some of our contracts require us to pay liquidated damages during any period in which our liquor license for the facility is suspended, and most contracts are subject to termination if we lose our liquor license for the facility. Our service of alcoholic beverages is also subject to state, provincial and local service laws, commonly called dram shop statutes. Dram shop statutes generally prohibit serving alcoholic beverages to minors or visibly intoxicated persons. If we violate dram shop laws, we may be liable to the patron or to third parties for the acts of the patron. We sponsor regular training programs designed to minimize the likelihood of such a situation. However, we cannot guarantee that intoxicated or minor patrons will not be served or that liability for their acts will not be imposed on us.

Our uniform rental business and our food and support service business are subject to various environmental protection laws and regulations, including the U.S. federal Clean Water Act, Clean Air Act, Resource Conservation and Recovery Act, Comprehensive Environmental Response, Compensation, and Liability Act and similar state and local statutes and regulations governing the use, management, shipping and disposal of chemicals and hazardous materials. In particular, industrial laundries use certain detergents and cleaning chemicals to launder garments and other merchandise. The residues from such detergents and chemicals and residues from soiled garments and other merchandise laundered at our facilities may result in potential discharges to air and to water (through sanitary sewer systems and publicly owned treatment works) and may be contained in waste generated by our wastewater treatment systems. Our industrial laundries are subject to certain volume and chemical air and water pollution discharge limits, monitoring, permitting and recordkeeping requirements. We own or operate aboveground and underground storage tank systems at some locations to store petroleum products for use in our or our clients' operations. Certain of these storage tank systems also are subject to performance standards, periodic monitoring and recordkeeping requirements. We also may use and manage chemicals and hazardous material in our operations from time to time. We are mindful of the environmental concerns surrounding the use, management, shipping and disposal of these chemicals and hazardous materials, and have taken and continue to take measures to maintain compliance with environmental protection laws and regulations. Given the regulated nature of our operations, we could face penalties and fines for non-compliance. In the past, we have settled, or contributed to the settlement of, actions or claims relating to the management of underground storage tanks and the handling and disposal of chemicals or hazardous materials, either on or off-site. We may, in the future, be required to expend material amounts to rectify the consequences of any such events. Under environmental laws, we may be liable for the costs of removal or remediation of certain hazardous materials located on or in or emanating from our owned or leased property or our clients' properties, as well as related costs of investigation and property damage. Such laws may impose liability without regard to our fault, knowledge or responsibility for the presence of such hazardous substances. We may not know whether our clients' properties or our acquired or leased properties have been operated in compliance with environmental laws and regulations or that our future uses or conditions will not result in the imposition of liability upon us under such laws or expose us to third-party actions such as tort suits.

We do not anticipate any capital expenditures for environmental remediation that would have a material effect on our financial condition.

### **Intellectual Property**

We have the patents, trademarks, trade names and licenses that are necessary for the operation of our business. Other than the ARAMARK brand, we do not consider our patents, trademarks, trade names and licenses to be material to the operation of our business in any material respect.

### **Composition of the Board of Directors**

Our business and affairs are managed under the direction of our board of directors. Babbio, Coleman, Heinrich, Ksansnak and Sadove) will be considered independent under NYSE corporate governance standards.

### ***Background and Experience of Directors***

When considering whether directors and nominees have the experience, qualifications, attributes or skills, taken as a whole, to enable our board of directors to satisfy its oversight responsibilities effectively in light of our business and structure, the board of directors focused primarily on each person's background and experience as reflected in the information discussed in each of the directors' individual biographies set forth above. We believe that our directors provide an appropriate mix of experience and skills relevant to the size and nature of our business. In particular, the members of our board of directors considered the following important characteristics, among others:

Mr. Neubauer—our board considered his extensive history with and knowledge of the Company, his business experience both before and after he joined the Company and his experience serving on the boards of other public companies.

Mr. Foss—our board considered his extensive knowledge of the Company through his service as CEO and President, his business experience and his experience serving on boards of other public companies.

### ***Role of Board in Risk Oversight***

The board of directors has extensive involvement in the oversight of risk management related to us and our business and accomplishes this oversight through the regular reporting by the Audit Committee. The Audit Committee represents the board of directors by periodically reviewing our accounting, reporting and financial practices, including the integrity of our financial statements, the surveillance of administrative and financial controls and our compliance with legal and regulatory requirements. Through its regular meetings with management, including the accounting, finance, legal, and internal audit functions, the Audit Committee reviews and discusses all significant areas of our business and summarizes for the board of directors all areas of risk and the appropriate mitigating factors. In addition, our board of directors receives periodic detailed operating performance reviews from management.

### **Controlled Company Exception**

After the completion of this offering, certain stockholders will continue to beneficially own a majority of the voting power of all outstanding shares of our common stock. Under the NYSE corporate governance standards, a company of which more than 50% of the voting power is held by an individual, group or another company is a “controlled company” and may elect not to comply with certain corporate governance standards, including (1) the requirement that a majority of the board of directors consist of independent directors, (2) the requirement that we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities, (3) the requirement that we have a nominating and corporate governance committee that is composed entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities and (4) the requirement for an annual performance evaluation of the nominating and corporate governance and compensation committees. Following this offering, we intend to utilize certain of these exemptions. As a result, following this offering, we will not have a majority of independent directors on our board of directors; and we will not have a nominating and corporate governance committee or a compensation committee that is composed entirely of independent directors. Also, such committees will not be required to be subject to annual performance evaluations. Accordingly, you will not have the same protections afforded to stockholders of companies that are subject to all of the NYSE corporate governance requirements. In the event that we cease to be a “controlled company,” we will be required to comply with these provisions within the transition periods specified in the NYSE corporate governance rules.

### **Board Committees**

After the completion of this offering, our board of directors will have five standing committees: the Audit and Corporate Practices Committee (the “Audit Committee”), the Compensation and Human Resources Committee (the “Compensation Committee”), the Nominating and Corporate Governance Committee (the “Nominating Committee”), the Finance Committee and the Stock Committee.

Each of our standing committees operates under a written charter approved by our board of directors. The charters of each of our standing committees will be available on our website upon completion of this offering. The board and each of our standing committees other than the Stock Committee, perform self-evaluations on an annual basis.

Our chief executive officer and president and other executive officers regularly report to the non-executive directors and the Audit, the Compensation, the Nominating and the Finance Committees to ensure effective and efficient oversight of our activities and to assist in proper risk management and the ongoing evaluation of management controls. The vice president of internal audit reports functionally and administratively to our chief financial officer and directly to the Audit Committee. We believe that the leadership structure of our board of directors provides appropriate risk oversight of our activities given the controlling interests held by certain of our stockholders.

### **Audit Committee**

Upon the completion of this offering, we expect to have an Audit Committee, consisting of Messrs. Ksansnak (Chairman), Neubauer, Abbrecht, Coleman, Heinrich and Murray. Messrs. Coleman, Ksansnak and Heinrich qualify as independent directors under the NYSE corporate governance standards and the independence requirements of Rule 10A-3 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) and each of Messrs. Ksansnak and Heinrich qualifies as an “audit committee financial expert” as such term is defined in Item 407(d)(5) of Regulation S-K.

The purpose of the Audit Committee is to prepare the audit committee report required by the SEC to be included in our proxy statement and to assist our board of directors in overseeing and monitoring (1) the quality and integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) our independent registered public accounting firm’s qualifications and independence, (4) the performance of our internal audit function and (5) the performance of our independent registered public accounting firm.

### ***Nominating and Corporate Governance Committee***

Upon the completion of this offering, we expect to have a Nominating and Corporate Governance Committee, consisting of Messrs. Mehra (Chairman), Neubauer, Barr, Coleman and Sadove.

The purpose of our Nominating and Corporate Governance Committee is to assist our board of directors in discharging its responsibilities relating to (1) identifying individuals qualified to become new members of the board of directors, consistent with criteria approved by the board of directors, subject to the Stockholders Agreement; (2) reviewing the qualifications of incumbent directors to determine whether to recommend them for reelection and selecting, or recommending that the board of directors select, the director nominees for the next annual meeting of stockholders; (3) identifying board of directors members qualified to fill vacancies on any board of directors committee and recommending that the board of directors appoint the identified member or members to the applicable committee, subject to the Stockholders Agreement; (4) reviewing and recommending to the board of directors corporate governance principles applicable to us; (5) overseeing the evaluation of the board of directors and management; and (6) handling such other matters that are specifically delegated to the committee by the board of directors from time to time. For more information on the Stockholders Agreement, see the disclosure under "Certain Relationships and Related Party Transactions."

### ***Finance Committee***

Upon completion of this offering, we expect to have a Finance Committee, consisting of Messrs. Abbrecht (Chairman), Neubauer, Babbio, Barr, Heinrich and Ksansnak.

The purpose of our Finance Committee is to assist our board of directors in discharging its responsibilities relating to the review of our long-term business direction and goals and the strategy for maintaining that direction and achieving those goals. In connection with its fulfillment of this responsibility, the Finance Committee reviews with management and recommends to the board of directors our overall financial plans, including capital expenditures, acquisitions and divestitures, securities issuances and incurrences of debt, and reviews the performance of our retirement benefit plans. It will also recommend to our board of directors specific transactions involving these matters, and it has been empowered by our board of directors to approve certain financial commitments and acquisitions and divestitures by us up to specified levels.

### ***Stock Committee***

Upon completion of this offering, we expect to have a Stock Committee, consisting of Messrs. Coleman and Sadove.

The Stock Committee has authority to administer or grant approvals under our equity and incentive compensation plans and to approve specific equity transactions or incentive awards involving our officers and directors and us. The Stock Committee also approves performance targets under our Senior Executive Annual Performance Bonus Plan and equity compensation plans.

## Code of Ethics

Our Business Conduct Policy contains a “code of ethics,” as defined in Item 406(b) of Regulation S-K. Please note that our Internet website address is provided as an inactive textual reference only. ## Executive Compensation

### *Compensation Discussion and Analysis*

#### *Background*

This compensation discussion and analysis provides information regarding our executive compensation programs for the following executive officers in fiscal 2013:

- Eric J. Foss, our Chief Executive Officer and President;
- L. Frederick Sutherland, our Executive Vice President and Chief Financial Officer;
- Lynn B. McKee, our Executive Vice President, Human Resources;
- Stephen R. Reynolds, our Executive Vice President, General Counsel and Secretary; and
- Christina T. Morrison, our Senior Vice President, Finance.

#### *Equity Compensation Background*

Each of our named executive officers holds a substantial amount of equity in the Company that they were granted in connection with our 2007 Transaction or upon their commencement of employment with us, and through subsequent equity grants. This equity serves as a substantial component of our compensation program for our named executive officers and has provided significant motivation and retention value to us for two reasons:

- As a private company, the investment in our common stock generally has been illiquid while our named executive officers remain employed by us, subject only to the specified rights of the Company to repurchase stock following a termination of employment and the executive’s right to cause such repurchase under certain circumstances following termination of employment or in specified amounts at specified times with respect to shares originally bought in connection with the 2007 Transaction. When we become a public company, our named executive officers will be subject to restrictions on transfer for a period of up to 12 months following our initial public offering (subject to reduction to the extent the Sponsors reduce their ownership of the Company). In addition, Mr. Foss is currently subject to stock ownership guidelines equal to six times his base salary (taking into account owned stock) under his Employment Letter Agreement. The other named executive officers are also subject to stock ownership guidelines, and are required to retain either two or three times their base salaries depending upon their executive level. These restrictions will help to ensure that our named executive officers’ interests remained aligned with the interests of our stockholders and the long-term interests of the Company.
- Prior to June 2013, one-half of all stock options granted have had a time-based vesting schedule and vest over a four-year period, provided that the employee continues to be employed by us. The other half of the stock options have been performance-based and require, in addition to the elapse of certain time periods, that we achieve specified financial targets before those stock options will vest. See “Components of Executive Compensation—Equity Incentives.”

## Table of Contents

### *New Equity Compensation Program*

In fiscal 2013, the compensation committee reviewed our equity program and determined to align it more closely to that of large public companies, by utilizing restricted stock, time-based stock options and restricted stock units and discontinuing the grant of Installment Stock Purchase Opportunities, or ISPOs, which required upfront employee investment in accordance with the terms of the ISPO. Stock options and restricted stock units granted in fiscal 2013 are time-based and vest 25% per year over four years, provided that the named executive officer remains employed by us. This four-year pro rata vesting schedule supports our retention objective. We plan to institute performance-based equity as a component of our new equity program in fiscal 2014, which will continue our executives' focus on long-term performance. ISPOs were a specialized form of stock option for new hires and promoted employees that were divided into five equal installments, with the first installment vesting immediately upon grant and remaining exercisable for one year. The holder was required to exercise at least 25% of the first installment or he or she would forfeit the entire remaining grant. The remaining installments vested in each subsequent year on the 15th of December, beginning in December following the grant date anniversary, and were exercisable only during the 31-day period from December 15th until the immediately following January 15th. Any subsequent vested installments that were not exercised during the relevant exercise period were canceled. In connection with the compensation committee's determination to change our equity program, the Company completed an exchange offer in July 2013 whereby holders of outstanding ISPO awards had the ability to exchange such awards for new grants of restricted stock and non-qualified stock options, as further described below under "Components of Executive Compensation—Equity Incentives."

For fiscal 2013, Mr. Foss received an equity grant consisting of time-based stock options and restricted stock units in accordance with the terms of his Employment Letter Agreement. Messrs. Sutherland and Reynolds and Ms. McKee received equity grants consisting of time-based stock options and restricted stock units in July 2013 that were intended to make up for grants that they did not receive in 2012. The Company is currently contemplating making additional grants in early fiscal 2014 in respect of fiscal 2013 equity compensation. Regular annual grants are expected to begin in November 2014. In addition, in November 2013, the compensation committee approved grants of restricted stock units to each of the named executive officers, which will become effective at the time of this offering. See "Components of Executive Compensation—Equity Incentives—Grants in Connection with the Offering."

### *Our Executive Compensation Policy*

Our compensation programs are designed to support our overall commitment to continued growth and the provision of quality services to our clients and customers. Our programs are focused on three important goals:

- Attraction and Retention—to enable us to recruit and retain the best performers;
- Company and Individual Performance—to provide compensation levels consistent with the executive's level of contribution and degree of accountability; and
- Alignment and Stockholder Value Creation—to use performance measures consistent with our goals and to include a significant portion of incentive compensation to motivate business results and strengthen the connection between the long-term interests of our executives and the interests of stockholders by encouraging each executive to maintain a significant ownership interest in us.

### Attraction and Retention

Our compensation programs are an integral part of attracting and retaining our named executive officers. When we are attracting new executives, we aim to be competitive with the overall market, while maintaining internal consistency in the compensation among executives at similar levels in the Company and building compensation packages that will motivate executives to leave their then current positions and join us. We primarily achieve retention through equity grants with multi-year vesting schedules. Our stock options (other than Replacement Stock Options (as defined below)) and restricted stock units generally vest over four years, which encourages executives who receive these grants to remain with us.

## [Table of Contents](#)

### Company and Individual Performance

Our business requires us to deliver exceptional, value-driven experiences to our clients and customers. Our compensation programs, particularly our Senior Executive Annual Performance Bonus Plan (the “Bonus Plan”) and the Amended and Restated Management Incentive Bonus Plan (the “MIB”), are designed to reward all executives, including our named executive officers, who perform to or exceed our standards by recognizing each executive’s scope of responsibilities, and management capabilities, and providing incentives to him or her to optimize Company-wide financial results including, among other measures, earnings before interest and taxes, or EBIT.

### Alignment and Stockholder Value Creation

We attempt to align our named executive officers’ and other executives’ goals with those of our clients, customers and stockholders. For our named executive officers who hold a significant amount of stock, either due to their initial purchases in connection with the 2007 Transaction or their commencement of employment, or who have been granted significant equity, our named executive officers’ interests are strongly aligned with those of our stockholders. In addition, because historically 50% of stock options granted were subject to performance-based vesting, if we perform well and satisfy the EBIT targets for performance vesting of stock options as described below in “Components of Executive Compensation—Equity Incentives,” portions of the total number of stock options held by our named executive officers will vest. Therefore, if any executive helps us to achieve corporate EBIT growth, he or she can have a direct impact on the vesting of a portion of his or her equity. We also plan to institute performance-based equity as a component of our new equity program in fiscal 2014, which will continue our executives’ focus on long-term performance. This emphasis on long-term compensation underscores the importance of maintaining our executives’ focus on creating long-term success and sustained stockholder value.

### Role of Compensation Consultants

The compensation committee originally engaged Frederic W. Cook & Co., Inc. as its compensation consultant in October 2007 and has reengaged Frederic W. Cook & Co., Inc. each fiscal year since that time. Ms. McKee, our Executive Vice President, Human Resources, participated in the selection of and discussions with representatives from Frederic W. Cook & Co., Inc. None of our other executive officers has participated in the selection of any particular compensation consultant. Frederic W. Cook & Co., Inc. has provided us with market intelligence and guidance on compensation trends, along with general views on specific compensation programs being designed by our Human Resources management. While only the compensation committee may formally engage compensation consultants with respect to the compensation of executive officers and directors, our management may seek the advice of these or other compensation consultants from time to time with the approval of our compensation committee chairman. In addition, only the compensation committee has the right to terminate Frederic W. Cook & Co., Inc., its compensation consultant.

The compensation committee re-engaged Frederic W. Cook & Co., Inc. in November 2012 to assist in the evaluation of compensation for our named executive officers (other than Ms. Morrison) and our board of directors, as well as other compensation-related matters for fiscal 2013. In fiscal 2013, Frederic W. Cook & Co., Inc. assisted the compensation committee with the redesign of the Company’s equity compensation program and recommendations for equity awards to our named executive officers.

In the past, Frederic W. Cook & Co., Inc. assisted the compensation committee with the configuration of our peer group of companies, which the compensation committee uses to benchmark or market check compensation for certain of our named executive officers. Since 2008, our peer group has consisted of Cintas, Compass Group PLC, Darden Restaurants, FedEx, Hertz, Manpower, Marriott, McDonald’s, RR Donnelley, Ryder System, Starbucks, SYSCO, Tyco International, UPS, Waste Management and Yum Brands. In terms of size, our revenues approximate the median of the peer companies, our enterprise value approximates the 25th percentile and the number of our employees is above the 75th percentile.

## Table of Contents

In November 2012, Frederic W. Cook & Co., Inc. performed a competitive review of 2012 compensation paid to Mr. Foss and the named executive officers who report directly to him to provide the compensation committee with information relating to the competitiveness of existing compensation and to assist the compensation committee with compensation decisions for fiscal 2013. In November 2012, for Mr. Foss, Frederic W. Cook & Co., Inc. benchmarked the individual components of his compensation and his total compensation against chief executive officers in our peer group as is required by his Employment Letter Agreement. For Mr. Sutherland, Frederic W. Cook & Co., Inc. performed a market check of individual components of his compensation, as well as his total compensation against other chief financial officers in our peer group. For Ms. McKee and Mr. Reynolds, Frederic W. Cook & Co., Inc. utilized a subset of the Towers Watson 2012 CDB General Industry Executive Compensation Survey - U.S. that relates to companies with over \$10 billion in global corporate revenue (206 companies from the overall survey of 435 companies) (the "Survey Data" and together with our peer group data, "Market Practice") to perform a market check of the individual components of their compensation, as well as their total compensation. We do not consider any specific company included in the survey data to be a material factor in the review of the compensation of our named executive officers. Total cash compensation paid to our named executive officers in fiscal 2013 was generally between the median and the 75th percentile of Market Practice, which is consistent with our targeted competitive positioning. Base salaries paid to our named executive officers in fiscal 2013 generally approximated between the median and the 75th percentile of Market Practice and target bonus as a percentage of base salary generally approximated the median. Frederic W. Cook & Co., Inc.'s report, which was based upon 2012 compensation data for the abovementioned named executive officers, was utilized as one data point by the compensation committee to determine base salary and bonus targets fiscal 2013.

In November 2013, Frederic W. Cook & Co., Inc. confirmed to the compensation committee that the Company's compensation programs are competitive with Market Practice and are well balanced to provide annual and longer-term capital accumulation opportunities by way of salary, annual incentives and equity interests. As described below, in fiscal 2013, after evaluating current named executive officer compensation levels and Market Practice, Frederic W. Cook & Co., Inc. indicated that no significant changes to base salary levels and/or target bonus opportunities were required in order to support the competitiveness of the Company's compensation programs, and proposed that the compensation committee adopt market competitive long-term equity incentive opportunities to bring total direct compensation opportunities in line with the Company's proposed compensation strategy.

### *Role of Compensation Committee and Executive Officers*

The compensation committee is responsible for the oversight of our executive compensation program. The compensation committee or its subcommittee (in the case of equity grants and bonus plan payments to executive officers, subject to the approval of the stock committee) makes or approves all decisions concerning compensation awarded to our named executive officers.

Compensation decisions for Mr. Foss and the named executive officers who report directly to him (Messrs. Sutherland and Reynolds and Ms. McKee) are made differently than those for our other executive officers. Compensation recommendations for Ms. Morrison are made by Mr. Sutherland, who is her supervisor, with input from Ms. McKee.

### Messrs. Foss, Sutherland and Reynolds and Ms. McKee

Mr. Foss joined us as our Chief Executive Officer and President in May 2012. Ms. McKee negotiated his compensation package on behalf of the Company, with input from the compensation committee and our board and assistance from Frederic W. Cook & Co., Inc. and outside legal counsel. Mr. Foss' compensation package was based upon benchmarking data with regard to compensation paid to other chief executive officers in our peer group. Under Mr. Foss's Employment Letter Agreement, for fiscal 2012 and fiscal 2013, he was entitled to receive minimum equity grants such that his total annual compensation is consistent with the 75th percentile of

## [Table of Contents](#)

our market peer group. The agreement by Mr. Foss to retain shares of our common stock equal to six times his base salary also reflects the Company's emphasis on management stockholders maintaining a substantial investment in the Company. The compensation committee felt that Mr. Foss' perquisites should be consistent with what other senior executives at the Company receive, also consistent with the goal of maintaining the Company's existing compensation structure.

Mr. Reynolds joined us in September 2012. In making Mr. Reynolds' compensation recommendation, Ms. McKee and Mr. Foss considered the results of a market check of the Survey Data between the 50<sup>th</sup> and 75<sup>th</sup> percentile for similarly situated general counsels, the compensation level that was likely to be attractive to Mr. Reynolds considering his then-current compensation at his previous employer, the compensation paid to our former general counsel, Mr. Reynolds' experience compared to the requirements of the position and internal consistency with respect to Mr. Reynolds' compensation and the compensation of executives at similar levels in the Company. Mr. Foss and Ms. McKee recommended and the compensation committee approved with respect to Mr. Reynolds a starting base salary of \$500,000 and a bonus target of \$400,000, which is consistent with the targets of Company executives at his level (80% of base salary). His compensation was not increased for fiscal 2013, since he had only been at the Company for one month of fiscal 2012. In addition, Mr. Reynolds received a new hire grant of 60,000 ISPOs and 250,000 stock options that were one-half time-based and one-half performance-based. Mr. Reynolds' grant recommendation was made by Mr. Foss and Ms. McKee to be consistent with a value range for Company executives at his level and was approved by the compensation committee in December 2012.

For fiscal 2013, our Human Resources department initially prepared a tally sheet for use by Frederic W. Cook & Co., Inc. in its analysis of the compensation of Mr. Foss and the named executive officers who are Mr. Foss' direct reports (Messrs. Sutherland and Reynolds and Ms. McKee). The tally sheet contained the following information for Mr. Foss and each of our named executive officers who are direct reports of Mr. Foss: current base salary, bonus target and prior year's bonus award, current year option grant, if any, and current equity holdings. Frederic W. Cook & Co., Inc. used the information contained in the tally sheet, along with market data (relating to our peer group for Messrs. Foss and Sutherland and Survey Data for Ms. McKee and Mr. Reynolds) to prepare a compensation competitive review report to the compensation committee, which it provided directly to the chairman of the compensation committee. Frederic W. Cook & Co., Inc. then provided the report to Ms. McKee and discussed the report with the chairman of the compensation committee and Ms. McKee. With regard to bonus awards, our Human Resources department also prepared a report containing hypothetical bonus amounts that Messrs. Sutherland and Reynolds and Ms. McKee could have received under the MIB, which is the bonus plan available to other executives at the Company, based on business results, including revenue, EBIT and a group metric, if they had been participants in the MIB.

For 2013 base salary recommendations, which were determined in November 2012, Ms. McKee engaged in discussions with Mr. Foss regarding Mr. Sutherland's proposed calendar 2013 base salary. Following this consultation, Mr. Foss presented a recommendation for Ms. McKee's base salary and Ms. McKee presented the recommendations for Messrs. Foss' and Sutherland's base salaries, to the compensation committee for its consideration. Mr. Reynolds joined the Company in September 2012 and did not receive a salary increase for calendar 2013.

For fiscal 2013 bonuses, Ms. McKee engaged in discussions with Mr. Foss regarding a bonus recommendation for Messrs. Sutherland and Reynolds, which she then presented to the compensation committee. Mr. Foss presented a bonus recommendation for Ms. McKee directly to the compensation committee. The compensation committee met in executive session to discuss Mr. Foss' fiscal 2013 bonus.

Under his Employment Letter Agreement, Mr. Foss was entitled to receive an equity grant in 2013 such that his total compensation would be equal to the 75<sup>th</sup> percentile of our market peer group of companies. In June 2013, the compensation committee and the stock committee determined to give Mr. Foss an equity grant consisting of time-based stock options and restricted stock units with a value of \$11,149,732, which exceeded the

## [Table of Contents](#)

75th percentile of our market peer group of companies. This grant was awarded to recognize Mr. Foss's contributions and to further encourage retention. In July 2013, Messrs. Sutherland and Reynolds and Ms. McKee received equity grants consisting of time-based stock options and restricted stock units. The equity grants were generally based upon the 50th percentile of Market Practice for equity grants made to similarly situated executives and were adjusted to maintain consistency among similarly situated executives. In making the July 2013 grants, after input from Frederic W. Cook & Co., Inc. and discussions between the chairman of the compensation committee, Frederic W. Cook & Co., Inc. and Ms. McKee, the compensation committee was presented with a recommended grant level and delegated to a subcommittee (in the case of executive officers, subject to the approval of the stock committee) the authority to make individual grants to employees, including the named executive officers. The final awards were determined by the compensation subcommittee after consultation with Mr. Foss and Ms. McKee regarding, among other things, individual grant amounts, aggregate amount of equity to be awarded to management, and the effects of stockholder dilution and accounting expense, balanced against reward and retention factors.

In addition, in November 2013, the compensation committee and the stock committee approved grants of restricted stock units to each of our named executive officers, which will become effective at the time of this offering. With respect to these grants, Mr. Foss and Ms. McKee met with members of the compensation committee, including the chairman of the compensation committee, over a period of weeks prior to the grants to discuss their recommendations for the dollar amount of the pool of equity to be distributed, the particular executives who would receive restricted stock unit grants and the amount of such individual awards, which were based upon a multiple of the average of base salary and bonus target for each particular executive level. Mr. Foss and Ms. McKee made recommendations regarding the restricted stock unit award amounts for each of the named executive officers other than Mr. Foss. Mr. Foss made the recommendation for Ms. McKee. Recommended amounts were consistent for executives at similar levels. The compensation committee approved the recommendations of management for the named executive officers other than Mr. Foss and determined a grant amount for Mr. Foss based upon earlier compensation committee discussions. These grants are more fully described below in "Components of Executive Compensation – Equity Incentives."

### Ms. Morrison

Ms. Morrison joined us in June 2013. In making Ms. Morrison's cash compensation recommendation, Ms. McKee and Mr. Sutherland considered the level of cash compensation that was likely to be attractive to Ms. Morrison considering her then-current compensation at her previous employer, internal consistency with respect to the compensation of executives at similar levels in the Company, and the results of a market check against the Survey Data at the 50<sup>th</sup> and 75<sup>th</sup> percentile for similarly situated positions. Ms. Morrison's starting base salary is \$500,000 and her bonus target is equal to \$250,000, or 50% of her base salary, which is generally consistent with the bonus targets for Company executives at her level. Ms. Morrison's bonus for fiscal 2013 was prorated for her partial year of service, in addition to a guaranteed amount of \$129,000 that was designed to compensate her for the bonus that she forfeited by leaving her previous employer. Ms. Morrison also received an equity grant of 186,000 time-based stock options and 38,000 restricted stock units. Of that total equity grant, 94,000 stock options and 8,000 restricted stock units were granted to her in the form of a typical new hire grant for an executive at her level. The remaining 92,000 stock options and 30,000 restricted stock units were designed to compensate Ms. Morrison for the unvested equity that she forfeited by leaving her prior employer. In November 2013, the compensation committee also approved a grant to Ms. Morrison of \$500,000 worth of restricted stock units, which will become effective at the time of this offering. Her grant was recommended to the compensation committee by Mr. Foss and Ms. McKee and was consistent with grants made to other executives at her level.

### *The Compensation Committee's Processes*

The compensation committee generally makes its cash compensation decisions at its November meetings. New hires and promotions and other compensation adjustments are considered at its meetings throughout the year. Annual base salary decisions for the following calendar year and bonus decisions for the immediately preceding fiscal year are made in November. The bonus pool under the Bonus Plan for the current fiscal year is

## Table of Contents

set in November as well. The compensation committee makes its decisions after review and discussion of recommendations made by Ms. McKee, with input from Mr. Foss, and, with respect to Mr. Foss and the named executive officers who report directly to him, materials prepared by Frederic W. Cook & Co., Inc., and in the case of bonus recommendations, by our Human Resources department. In addition, with regard to participants in the Bonus Plan, Mr. Foss provides the compensation committee with qualitative assessments of the performance of the other named executive officers who are his direct reports and his review of their performance, before it makes its compensation decisions. The compensation committee also considers skill set and experience, data based upon Market Practice, incumbent responsibilities relative to the applicable position, and internal consistency with respect to compensation among similarly situated executives when making its compensation decisions. The compensation committee is entitled to exercise its discretion with regard to any element of compensation and exercised negative discretion with regard to bonuses under the Bonus Plan.

Historically, stock options were granted in 2007 to certain of our named executive officers who were employed at that time in connection with their individual investments in the Company. Since that time, stock options have generally been granted in connection with new employment, management realignments and changes in responsibility and from time to time at the discretion of the compensation committee. For fiscal 2013, Mr. Foss received an equity grant consisting of time-based stock options and restricted stock units in accordance with the terms of his Employment Letter Agreement. Messrs. Sutherland and Reynolds and Ms. McKee received equity grants consisting of time-based stock options and restricted stock units in July 2013 that were intended to make up for grants that they did not receive in 2012. The value of the July 2013 grant was generally based upon the 50<sup>th</sup> percentile of Market Practice, adjusted to maintain consistency among levels of executives. The Company is currently contemplating making additional grants in early fiscal 2014 in respect of fiscal 2013 equity compensation. Regular annual grants are expected to begin in November 2014. Ms. Morrison received an equity grant consisting of time based stock options and restricted stock units in July 2013 in connection with the commencement of her employment. In November 2013, the compensation committee and the stock committee approved an additional grant of restricted stock units to each of the named executive officers that becomes effective at the time of the offering. These grants are more fully described below in “Components of Executive Compensation—Equity Incentives.”

### *Components of Executive Compensation*

The principal components of our executive compensation program are base salary, bonus and equity incentives. We also provide employee and post-employment benefits and perquisites.

#### Base Salary

We use base salary to reflect the value of a particular position—to us and the marketplace—and the value the individual contributes to us. Salary levels for our executives are reviewed at least annually.

#### *Messrs. Foss, Sutherland, Reynolds and Ms. McKee*

Mr. Foss’ initial annual base salary of \$1,350,000 was negotiated in connection with his total compensation package in 2012. The Company agreed that Mr. Foss’ total compensation for fiscal 2013 would be at the 75<sup>th</sup> percentile of chief executive officers in the Company’s peer group. Mr. Foss’ base salary increased by 3% to \$1,390,500 for calendar 2013, after consultation with Frederic W. Cook & Co., Inc. and consistent generally with salary increases for senior management, followed by a review of market data. Mr. Foss’ calendar 2014 base salary of \$1,390,500 was set by the compensation committee at its November 2013 meeting and represents no increase from his 2013 base salary.

For 2013, the specific salary recommendations for each of our named executive officers who are Mr. Foss’ direct reports were based upon a review of Market Practice between the median and 75<sup>th</sup> percentile, their previous salary increases, internal consistency with respect to the compensation of Company executives at similar levels, budgetary considerations and consideration of the percentage increases for other members of

## Table of Contents

management. The salary recommendations were then made to the compensation committee for its review and approval. Salaries for Mr. Sutherland and Ms. McKee were reviewed by Mr. Foss. Ms. McKee participated in reviews for Mr. Sutherland. Ms. McKee reviewed Mr. Foss' base salary with the compensation committee and the compensation committee then met in executive session to make its determination with regard to Mr. Foss' calendar 2013 base salary. Salary adjustments generally are effective at the beginning of the following calendar year. Salary increases or decreases also can be recommended and approved in connection with a promotion or a significant change in responsibilities. For calendar 2012, Mr. Sutherland's base salary was \$800,000 and Ms. McKee's base salary was \$625,000. Mr. Sutherland and Ms. McKee each received a salary increase for calendar 2013 of 3%, which was generally consistent with the overall salary increase budget for the Company. The compensation committee believes that the 2013 salaries are consistent with Market Practice for similarly situated executives. Mr. Reynolds joined us in September 2012 at a base salary of \$500,000 and his base salary remained the same for 2013. For calendar 2013, base salaries are as follows: for Mr. Sutherland, \$824,000, for Mr. Reynolds \$500,000, and for Ms. McKee, \$643,750. Base salaries for calendar 2014 will be as follows: for Mr. Sutherland, \$840,480, for Mr. Reynolds, \$510,000, and for Ms. McKee, \$656,625. These base salaries represent a 2% increase over their 2013 base salaries, which is consistent with overall increases for all salaried employees in the Company.

### Ms. Morrison

Ms. Morrison joined us in June 2013. Ms. McKee and Mr. Sutherland considered the level of cash compensation that was likely to be attractive to Ms. Morrison considering her then-current compensation at her previous employer, internal consistency with respect to the compensation of executives at similar levels in the Company and the results of a market check against the Survey Data at the 50<sup>th</sup> and 75<sup>th</sup> percentile for similarly situated positions to determine the recommended base salary for Ms. Morrison of \$500,000. Ms. Morrison's base salary was then approved by the compensation committee at its June 2013 meeting. For calendar 2014, Ms. Morrison's base salary will be \$507,500, which represents a 1.5% increase over her 2013 base salary. This increase is consistent with those of other salaried employees at the Company, prorated due to Ms. Morrison's brief tenure at the Company.

## Bonus

### Messrs. Foss, Sutherland and Reynolds and Ms. McKee

In fiscal 2013, Messrs. Foss, Sutherland and Reynolds and Ms. McKee participated in the Bonus Plan. Under the Bonus Plan, the compensation committee approved in November 2012 the establishment of a bonus pool that was funded based on 1.44% of adjusted EBIT. This pool method was chosen to satisfy the requirements of the performance-based pay exception to Section 162(m) of the Internal Revenue Code (when we had historically been subject to Section 162(m) as a public company prior to 2007), which limits tax deductions for compensation paid to a public company's named executive officers (other than the chief financial officer) to \$1,000,000. Although we are not currently subject to the Section 162(m) compensation deduction limit, following our initial public offering and any applicable phase-in period, we will become subject to the Section 162(m) compensation deduction limit. Therefore, we intend to operate our Bonus Plan to comply with Section 162(m). For purposes of the Bonus Plan and the formula used to determine the bonus pool approved by the compensation committee, adjusted EBIT is income from both continuing and discontinued operations before income taxes, if any, and before interest expense and other financing costs, in each case as shown on our consolidated financial statements and notes thereto. In addition, adjusted EBIT for purposes of the pool excluded incremental customer relationship amortization and incremental depreciation that resulted from the 2007 Transaction and share-based compensation expense. For fiscal 2013 bonuses, the compensation committee adjusted the calculation of actual adjusted EBIT for purposes of the Bonus Plan to exclude share-based compensation expense and incremental customer relationship amortization and incremental depreciation that resulted from the 2007 Transaction. These adjustments were made to normalize the adjusted EBIT number so that it does not reflect certain non-operational items. For fiscal 2013, our adjusted EBIT under the Bonus Plan

## [Table of Contents](#)

was \$689,334,000. The following percentages of adjusted EBIT for Mr. Foss and the named executive officers who are his direct reports represent the maximum amount that could have been awarded to him or her for fiscal 2013: for Mr. Foss, 0.5904% (up to the plan maximum of \$4,500,000), for Mr. Sutherland, 0.3280%, and for Mr. Reynolds and Ms. McKee, 0.2624%. The potential bonus amounts under the Bonus Plan for fiscal 2013 based upon the percentages of adjusted EBIT were as follows: For Mr. Foss, \$4,070,000, for Mr. Sutherland, \$2,261,000, and for Ms. McKee and Mr. Reynolds, \$1,809,000. For fiscal 2013, the compensation committee exercised negative discretion under the Bonus Plan with regard to the actual bonus amounts awarded to Mr. Foss and the other named executive officers who report directly to him and those actual bonus amounts are as follows: for Mr. Foss, \$2,632,200, for Mr. Sutherland, \$783,000, for Ms. McKee, \$620,000 and for Mr. Reynolds, \$481,000. For fiscal 2014, the compensation committee approved the following percentages of adjusted EBIT for each of the participants in the Bonus Plan, which represent the maximum amount that can be awarded to him or her in respect of his or her fiscal 2014 bonus under the Bonus Plan: for Mr. Foss, 0.76% (up to a plan maximum of \$6,000,000), for Mr. Sutherland, 0.32%, and for Ms. McKee and Mr. Reynolds, 0.25%.

Bonuses are designed to encourage and reward performance that is consistent with our financial objectives and individual performance goals and targets. In determining the actual bonuses paid to our named executive officers who are Mr. Foss' direct reports for fiscal 2013, the compensation committee considered the maximum bonus amount based on the above adjusted EBIT formula and then considered reference points, including amounts that the named executive officers would have received under the MIB had they participated in the MIB and the named executive officers' historical bonus awards. As described in more detail below, bonus calculations under the MIB are based on achievement against an adjusted EBIT target, a sales target, and additional functional objectives depending on the participant's responsibilities. Had Messrs. Foss, Sutherland and Reynolds and Ms. McKee participated in the MIB, the functional objectives would have consisted of leadership in driving new business growth for Mr. Foss, company-wide managed cash flow for Mr. Sutherland, evaluation, planning and implementation of contract life cycle management for Mr. Reynolds, and leadership of the human resources department's initiative to embed the Company's new mission, value and focus into the organization for Ms. McKee. Based upon fiscal 2013 performance, Mr. Foss would have been deemed to have achieved a 150% payout on the functional objective metric (resulting from achievement of net new business of approximately \$525 million in fiscal 2013), Mr. Sutherland would have been deemed to have achieved a payout against the managed cash flow of 112.6% as described in more detail below, and Mr. Reynolds and Ms. McKee would have been deemed to have achieved a 120% payout on their respective functional objectives, based on a qualitative assessment of the performance of each of their respective departments against the stated objective, in each case, had the executive been a participant in the MIB in fiscal 2013. Ms. McKee presented the reference points for the named executive officers who report to Mr. Foss (other than herself) to Mr. Foss for his review. After consultation with Mr. Foss, who considered the individual contributions of the named executive officers who report to him, final bonus recommendations for those executives were made to the compensation committee in November 2013. The compensation committee considered the reference points and recommendations and exercised negative discretion to determine the bonus amounts under the Bonus Plan for our named executive officers who are Mr. Foss' direct reports. The compensation committee also considered a target amount which represents the compensation committee's view of a market competitive award based upon a competitive review by Frederic W. Cook and Co., Inc. at approximately the 75th percentile of Market Practice. For fiscal 2013, as determined in November 2012, bonus targets were equal to approximately 80% of salary or \$659,200 for Mr. Sutherland, \$400,000 for Mr. Reynolds and \$515,000 for Ms. McKee. Messrs. Sutherland's and Reynolds' and Ms. McKee's bonus awards for fiscal 2013 that were determined by the compensation committee in November 2013 were equal to the amounts each would have received if he or she were a participant in the MIB. For fiscal 2014, bonus targets are as follows: for Mr. Sutherland, \$672,384, for Mr. Reynolds, \$408,000, and Ms. McKee, \$525,300.

In determining the actual bonus paid to Mr. Foss, the compensation committee considered the maximum bonus amount based on the above Bonus Plan formula and considered as reference points Mr. Foss' historical bonus awards, and the amount Mr. Foss would have received had he participated in the MIB, keeping in mind the provision in Mr. Foss' agreement that his total annual compensation will be targeted to the 75th percentile of the Company's market peer group for fiscal 2012 and fiscal 2013. The compensation committee also considered a

## Table of Contents

target amount as a percentage of base salary, which represented the compensation committee's view of a market competitive award (for fiscal 2013, Mr. Foss' target bonus was \$2,085,750, which is equal to 150% of his base salary for 2013). The chairman of the compensation committee then presented his bonus recommendation for Mr. Foss to the compensation committee. The compensation committee then considered the reference points and recommendation, which was based upon the award Mr. Foss would have received had he participated in the MIB, and exercised negative discretion to determine Mr. Foss' bonus amount of \$2,632,200 under the Bonus Plan. The compensation committee determined not to increase Mr. Foss' bonus target for fiscal 2014.

### *IPO Bonuses*

In addition to their annual bonuses under the Bonus Plan, the compensation committee determined to award Mr. Foss and the other named executive officers who report directly to him special bonuses designed to recognize the critical role Messrs. Foss, Sutherland and Reynolds and Ms. McKee played and will continue to play in positioning the Company for and executing a successful initial public offering as follows: for Mr. Foss, \$2,367,800, for Mr. Sutherland, \$704,700, for Ms. McKee, \$558,000, and for Mr. Reynolds, \$432,900. These bonus amounts, which were based upon approximately 90% of the bonuses awarded under the Bonus Plan, were determined by the compensation committee in executive session based upon a recommendation by the chairman of the compensation committee. Prior to the meeting at which the bonuses were awarded, the chairman of the compensation committee had discussed with Ms. McKee the IPO bonus that he had been planning to recommend for Mr. Foss, which equated to approximately 90% of Mr. Foss's annual bonus, and based upon that amount, determined an IPO bonus recommendation for the other named executive officers at the same percentage level. The IPO bonus amounts are contingent on and payable following the closing of the offering.

### Ms. Morrison

Ms. Morrison participates in the MIB, which provides annual cash bonuses to eligible executives for the achievement of explicit performance objectives established for each fiscal year. Each November (or at another time during the year in the case of a promotion), the compensation committee sets a bonus target in dollars for each executive who participates in the MIB which was amended and restated in November 2012. For fiscal 2013, the MIB was composed of two parts: a financial portion representing 80% of the overall potential MIB award, with functional or business group objectives representing the remaining 20%. In the MIB, the financial portion now focuses on top and bottom line performance, with a sales target (\$13.785 billion) representing 39% of the total target and an adjusted EBIT target (\$784,700,000) representing 41% of the total target. The sales target for purposes of the MIB is adjusted for the impact of currency translation and acquisitions and divestitures. The adjusted EBIT target for purposes of the MIB excludes the impact of currency translation, acquisitions and divestitures, the incremental customer relationship amortization and incremental depreciation from the 2007 Transaction and share-based compensation expense and includes an amount intended to normalize the plan targets for corporate functional participants. The functional objective that comprised 20% of the overall MIB award for Ms. Morrison in fiscal 2013 is company-wide managed cash flow (\$686,409,000), which consists of EBITDA excluding share-based compensation expense, less capital expenditures, minus the change in accounts receivable, minus the change in inventories, plus the change in deferred income. Ms. Morrison joined the Company in June 2013 and as a result, her MIB award was prorated to reflect the portion of fiscal 2013 that she was employed by the Company. She was also guaranteed an additional bonus amount of \$129,000, which was designed to compensate her for the bonus amount that she forfeited by leaving her prior employer. For fiscal 2013, actual sales for purposes of the MIB equaled \$13.978 billion, actual adjusted EBIT for purposes of the MIB was \$805,200,000 and actual managed cash flow for purposes of the MIB equaled \$703,727,000. Actual adjusted sales for purposes of the MIB excludes the estimated impact of the NHL lockout and Hurricane Sandy and the impact of acquisitions and divestitures. Actual adjusted EBIT for purposes of the MIB excludes share-based compensation expense, incremental customer relationship amortization and incremental depreciation that resulted from the 2007 Transaction, the estimated impact of the NHL lockout and Hurricane Sandy, the impact of acquisitions and divestitures, severance and related costs as a result of a series of actions the Company initiated

## Table of Contents

to drive efficiency through a consolidation and centralization of its operations, goodwill impairment charges, other asset write-offs primarily related to certain client contractual investments, costs related to transformation initiatives and certain other gains and losses recorded by the Company. Actual adjusted managed cash flow excludes the estimated impact of the NHL lockout and Hurricane Sandy, severance and related costs as a result of a series of actions the Company initiated to drive efficiency through a consolidation and centralization of its operations, goodwill impairment charges, costs related to transformation initiatives and certain other gains and losses recorded by the Company and includes an adjustment for capital expenditures related to new business.

The following table describes the threshold, targets and maximum for each of the components of the MIB award to Ms. Morrison for fiscal 2013:

<u>Measure</u>	<u>Business Performance</u> (Percentage of Target Performance)			<u>Payout</u> (Percentage of Target Payout)		
	<u>Threshold</u>	<u>Target</u>	<u>Maximum</u>	<u>Threshold</u>	<u>Target</u>	<u>Maximum</u>
<b>EBIT (41%)</b>	87.5	100	110	25	100	200
<b>Sales (39%)</b>	90	100	110	25	100	200
<b>Managed Cash Flow (20%)</b>	87.5	100	110	25	100	150

As the table illustrates, the Company must attain a threshold, or minimum, performance on each financial measure for the participant to receive any payout for the measure. If the threshold performance is achieved, the participant will receive 25% of the payout for that measure, which increases to 100% when 100% of the measure is attained. If greater than 100% of the target for a particular measure is achieved, the participant will receive more than 100% payout on that measure up to the maximum amount set forth in the table. Therefore, if the maximum performance of all measures was achieved, Ms. Morrison could receive up to 190% of her target bonus amount, prorated for the portion of the fiscal year that she was employed by the Company.

Ms. Morrison's target bonus amount of 50% of her base salary, or \$250,000, was based upon bonus targets for similarly situated executives at the Company, market checked against the Survey Data and approved by the compensation committee.

The actual award of bonuses under the MIB was based on the mechanical calculation of the financial target (for the 80% financial portion) and the achievement of a certain functional group objective (for Ms. Morrison, company-wide managed cash flow). Ms. Morrison's fiscal 2013 bonus was \$99,000, as prorated for the portion of the year that she was employed by us, and was approved by the compensation committee in November 2013. Her fiscal 2014 bonus target as determined by the compensation committee is \$253,750.

## Equity Incentives

### Historical Grants

Historically, stock options were granted in 2007 to certain of our named executive officers who were employed at that time in connection with their individual investments in the Company. Since that time, stock options have generally been granted in connection with new employment, management realignments and changes in responsibility and from time to time at the discretion of the compensation committee. For fiscal 2013, after consultation with Frederic W. Cook & Co., Inc. and management, each of the named executive officers received a grant of time-based stock options and restricted stock units.

As was negotiated with the sponsors in connection with the 2007 Transaction, half of all of the stock options granted through March 2013 had a time-based vesting schedule and vest over a four-year period, while half of all stock options granted through March 2013 were intended to have a performance-based vesting schedule and require that we achieve specified financial targets in addition to the four-year vesting period before those options will vest, subject to the compensation committee's discretion to accelerate vesting.

## Table of Contents

The Company completed a spinoff of Seamless Holdings Corporation on October 26, 2012. The exercise price of all stock options granted prior to that spinoff was adjusted to reflect the reduction of \$1.06 per share, which was the portion of the appraisal price of a share of Company common stock allocated to each share of Seamless Holdings Corporation common stock at the time of the spinoff.

### New Equity Program

After review of our equity compensation program, which consisted of ISPOs as a vehicle for investment in the Company and stock options, 50% of which were subject to time-based vesting and 50% of which vested based upon the Company's achievement of annual or cumulative EBIT targets, the compensation committee determined to change our equity program to make it more like the equity programs of large public companies. The new equity program generally consists of time-based stock options and restricted stock units and may in the future include additional stock-based awards, including performance-based restricted stock units and stock options.

On June 20, 2013, the compensation committee approved new forms of award agreements for stock options and restricted stock units, which provide for 100% time-based vesting, with 25% of the award vesting on each of the first four anniversaries of the date of grant, subject to the participant's continued employment with the Company or one of its subsidiaries through each such anniversary. Upon termination of employment, unvested stock options, restricted stock or restricted stock units are immediately forfeited (other than in the case of death, disability or retirement) and vested stock options are forfeited immediately, in the case of termination for cause or 90 days after termination, in the case of any other termination of employment other than death, disability or retirement, when vested stock options are forfeited one year after termination of employment. If the participant's service with the Company or any of its subsidiaries terminates due to death, disability or retirement (as disability and retirement are defined in the 2007 Stock Plan, as defined below), the installment of stock options, restricted stock or restricted stock units that is scheduled to vest on the next vesting date following such termination will immediately vest, and all remaining unvested stock options, restricted stock and restricted stock units will be forfeited. Mr. Sutherland is the only named executive officer who has attained the retirement age under the Fourth Amended and Restated ARAMARK Holdings Corporation 2007 Management Stock Incentive Plan (the "2007 Stock Plan"). In the event of a change of control (as defined in the 2007 Stock Plan) prior to a termination of the participant's service, any remaining unvested stock options, restricted stock and restricted stock units granted under the new equity compensation program will vest. Participants holding restricted stock units will receive the benefit of any dividends paid on shares in the form of additional restricted stock units.

### Amendment to CEO's Employment Letter Agreement and Equity Grant to CEO

Mr. Foss entered into an amendment to his Employment Letter Agreement on June 25, 2013 providing that any equity compensation awards granted as part of his compensation package for any fiscal year after 2012 will be in a form and have terms (including vesting conditions) that are the same as those granted to senior management of the Company as determined by the compensation committee from time to time.

Mr. Foss's June 2013 equity grant, which consisted of 1,247,638 stock options and 271,438 restricted stock units, was made on June 20, 2013, subject to the approval of the stock committee of the board, which approval was received on the same date. The stock options have an exercise price equal to the fair market value of a share of the Company common stock on June 20, 2013, which was the most recent appraisal price of our common stock on that date, have a ten-year term, vest 25% on each of the first four anniversaries of the date of grant, subject to Mr. Foss' continued employment with the Company, and contain such other terms as are set forth in the award agreement. The restricted stock units vest 25% on each of the first four anniversaries of the date of grant, subject to Mr. Foss' continued employment with the Company, and contain such other terms as are set forth in the award agreement.

*Fiscal 2013 Equity Grants to Messrs. Sutherland and Reynolds and Meses. McKee and Morrison*

On July 9, 2013 Messrs. Sutherland and Reynolds and Ms. McKee received equity grants consisting of stock options and restricted stock units, each with time-based vesting schedules. While there was no formal grant program in place for fiscal 2012, the July grants were intended to represent equity compensation for fiscal 2012, as Mr. Sutherland and Ms. McKee had not received an equity grant since June 2011. It is expected that these executive officers will receive additional awards in early fiscal 2014 in respect of equity compensation for fiscal 2013. Regular annual grants are expected to begin in November 2014. The value of the aggregate annual equity grants to Messrs. Sutherland and Reynolds and Ms. McKee for fiscal 2013 was at approximately the 50<sup>th</sup> percentile of Market Practice, adjusted to maintain consistency among the levels of executives. Mr. Sutherland received 94,518 stock options and 30,846 restricted stock units; Mr. Reynolds received 75,615 stock options and 24,677 restricted stock units; and Ms. McKee received 94,518 stock options and 30,846 restricted stock units. Ms. Morrison received a grant of 186,000 time-based stock options and 38,000 restricted stock units in connection with the commencement of her employment with us in June 2013. Of her total equity grant, 94,000 stock options and 8,000 restricted stock units were granted to her in the form of a typical new hire grant for a Company executive at her level. The remaining 92,000 stock options and 30,000 restricted stock units were designed to compensate Ms. Morrison for the unvested equity that she forfeited by leaving her prior employer.

The stock options granted have an exercise price equal to the fair market value of a share of the Company common stock on the date of grant, which was the most recent appraisal price of our common stock on that date, have a ten-year term, vest 25% on each of the first four anniversaries of the date of grant, subject to the holder's continued employment with the Company, and contain such other terms as are set forth in the award agreement. The restricted stock units vest 25% on each of the first four anniversaries of the date of grant, subject to the holder's continued employment with the Company, and contain such other terms as are set forth in the award agreement.

*ISPO Exchange Offer*

On July 29, 2013, the Company closed an exchange offer for all outstanding ISPOs (the "ISPO Exchange Offer") held by certain employees, including certain named executive officers. Under the ISPO Exchange Offer, the Company offered to holders of outstanding ISPO awards the ability to exchange such awards for new grants of restricted stock ("Restricted Stock") and non-qualified time-based stock options with an exercise price of \$16.21, which was equal to the fair market value of the Company's common stock on the date of grant based upon the most recent appraisal price of our common stock on the date of grant ("Replacement Stock Options"), in each case, granted under the 2007 Stock Plan and forms of a Restricted Stock Award Agreement and a non-qualified Replacement Stock Option Award Agreement approved by the compensation committee on June 20, 2013. The named executive officers who participated in the ISPO Exchange Offer received a number of shares of Restricted Stock with a grant date fair value equal to the aggregate in-the-money spread value of their ISPOs plus a number of Replacement Stock Options, calculated in a manner such that the total number of shares of Restricted Stock received in the ISPO Exchange Offer plus the number of Replacement Stock Options equaled the aggregate number of shares subject to the ISPOs. The grants of Restricted Stock and Replacement Stock Options were made to certain of our named executive officers by the stock committee on July 31, 2013.

The vesting schedule of the Restricted Stock and Replacement Stock Options is based upon the vesting schedule of the ISPO award that was exchanged. If the participant's service with the Company or any of its subsidiaries terminates due to death, disability or retirement (as disability and retirement are defined in the 2007 Stock Plan), the installments of Restricted Stock and Replacement Stock Options that are scheduled to vest during the twelve months following such termination will immediately vest and any remaining shares of Restricted Stock and any unvested Replacement Stock Options will be forfeited. In the event of a change of control (as defined in the 2007 Stock Plan) prior to a termination of the participant's service, any remaining shares of Restricted Stock and any unvested Replacement Stock Options will vest and become nonforfeitable. Replacement Stock Options expire on the date that falls at the end of a number of years that equals (x) 10 minus

## Table of Contents

(y) the number of years (rounded down to the nearest whole year) that have elapsed from the date of grant of the ISPOs being exchanged through the exchange date. Upon termination of employment, unvested Replacement Stock Options are immediately forfeited (other than in the case of death, disability or retirement) and vested Replacement Stock Options expire immediately, in the case of termination for cause, and 90 days after termination, in the case of any other termination of employment. The Restricted Stock Award Agreement also provides that a participant may make an election under Section 83(b) of the Internal Revenue Code with regard to his or her restricted stock.

Messrs. Foss, Sutherland and Reynolds and Ms. McKee elected to participate in the ISPO Exchange Offer. The following table shows the number of ISPOs each named executive officer exchanged and the number of shares of Restricted Stock and Replacement Stock Options that each of them received in the ISPO Exchange Offer:

<u>Name</u>	<u>ISPOs Exchanged</u>	<u>Restricted Stock Granted</u>	<u>Replacement Options Granted<sup>1</sup></u>
Eric J. Foss	400,000	57,002	342,998
L. Frederick Sutherland	36,000	10,172	25,828
Lynn B. McKee	36,000	10,172	25,828
Stephen R. Reynolds	60,000	4,516	55,484

- (1) The exercise price of the Replacement Stock Options granted is \$16.21, which equals the fair market value of a share of our common stock on the date of grant based upon the most recent appraisal price of our common stock on the date of grant.

### *Grants in Connection with the Offering*

In November 2013, the compensation committee and stock committee approved grants of restricted stock units to each of the named executive officers, which will become effective at the time of this offering. The restricted stock units will vest in one third increments on the first three anniversaries of the grant date, subject to the named executive officer's continued employment with the Company and its subsidiaries. The number of restricted stock units received will be based on the following dollar values divided by the price per share in the offering:

Eric Foss	\$ 10,000,000
L. Frederick Sutherland	\$ 1,875,000
Lynn B. McKee	\$ 1,875,000
Stephen R. Reynolds	\$ 1,150,000
Christina T. Morrison	\$ 500,000

Mr. Foss and Ms. McKee met with members of the compensation committee, including the chairman of the compensation committee, over a period of time prior to the grants to discuss the dollar amount of the pool of equity to be distributed, the particular executives who would receive restricted stock unit grants and the amount of such individual awards, which were based upon a multiple of the average of base salary and bonus target for a particular executive level. Mr. Foss and Ms. McKee made recommendations regarding the restricted stock unit award amounts for each of the named executive officers other than Mr. Foss. Recommended amounts were consistent for executives at similar levels. The compensation committee approved the recommendations of management for the named executive officers other than Mr. Foss and determined a grant amount for Mr. Foss based upon earlier compensation committee discussions.

### Equity Grant Policy

On May 8, 2007, our board of directors adopted a policy on granting equity awards. The board modified the policy in December 2009, March 2010 and June 2011 and the compensation committee modified the policy in

## Table of Contents

June 2013. Under this policy, stock option grants were permitted to be approved by the compensation committee (or a subcommittee thereof or another committee) for a reasonable period following each new appraisal of our common stock. In addition, the compensation committee was permitted to grant newly hired or promoted executives the right to purchase shares of our common stock. The grant date for equity grants is the date the compensation committee or subcommittee (or the stock committee, in the case of executive officers) approves the grants and the exercise price is the most recent appraisal price in effect on the date of such grant.

Following our initial public offering, the compensation committee intends to make annual awards of equity at its meeting held early in each fiscal year. The compensation committee has in the past, and may in the future, make limited grants of equity on other dates to retain key employees, to compensate an employee in connection with a promotion or to compensate newly hired executives for equity or other benefits lost upon termination of their previous employment or to otherwise induce them to join our Company or otherwise at the discretion of the compensation committee. The grant date of equity awards to executives is the date of compensation committee approval or a later date of subcommittee or stock committee approval if designated by the compensation committee. The exercise price of option grants will be the closing market price of our common stock on the date of grant. We plan to monitor and periodically review our equity grant policy to ensure compliance with plan rules and applicable law.

### Stock Ownership Guidelines

Our compensation committee has adopted stock ownership guidelines that apply to our named executive officers. Mr. Foss must retain stock with a value equal to six times his base salary, Messrs. Sutherland and Reynolds and Ms. McKee must retain stock with a value equal to three times his or her base salary and Ms. Morrison must retain stock with a value equal to two times her base salary. Directly owned shares, beneficially owned shares held indirectly (including by family members or family trusts) and vested share units in a non-qualified deferral arrangement count toward the guidelines for Messrs. Sutherland and Reynolds and Ms. McKee and Ms. Morrison. There is no required time period for attaining the minimum stock ownership level for these executives.

### Other Components of Compensation

*Employee and Post-Employment Benefits.* We offer basic employee benefits to provide our workforce with a reasonable level of coverage in the event of illness or injury. The cost of certain employee benefits is partially or fully borne by the employee, including each named executive officer. We offer comparable benefits to our eligible U.S. employees, which include medical, dental and vision coverage, disability insurance and optional life insurance. In addition, our named executive officers receive excess medical coverage that provides reimbursement for medical, dental and vision expenses in excess of \$1,500 per covered individual per year. Our named executive officers also participate in a Survivor Income Protection Plan, which entitles a surviving spouse or domestic partner and dependent children to receive the executive's full base salary for one year after the executive's death and one-half of the executive's base salary for the subsequent nine years or, alternatively, may receive excess term life insurance. A participant in the Survivor Income Protection Plan who is 65 and has attained 5 years of employment with us is entitled to a benefit equal to one times his or her base salary upon his or her retirement or death instead of the benefit described above.

Generally, our highly compensated employees (for 2013, those earning more than \$110,000), including our named executive officers, are not eligible to participate in our 401(k) plans because of certain legal requirements. Instead, those employees are eligible to participate in a non-qualified savings plan that we call our Savings Incentive Retirement Plan, the successor plan to our Stock Unit Retirement Plan. This plan is intended to be a substitute for those employees' participation in our 401(k) plans. See "Non-Qualified Deferred Compensation for Fiscal Year 2013" below for further information.

### Messrs. Foss, Reynolds and Sutherland and Ms. McKee

Messrs. Foss, Reynolds and Sutherland and Ms. McKee are also parties to employment agreements that entitle them to lump sum payments and severance payments in installments if there is a change of control of us or ARAMARK Corporation as described in those agreements and their employment is terminated under specified circumstances. These provisions are intended to align executive and stockholder interests by enabling executives to consider corporate transactions that are in the best interests of the stockholders and our other constituents without concern over whether the transactions may jeopardize the executives' own employment.

Mr. Foss' employment agreement contains a "double trigger"—for payments to be made, there must be a change of control followed by an involuntary loss of employment (or resignation by Mr. Foss for "good reason") within three years or his employment must be terminated in anticipation of a change of control. See "Potential Post-Employment Benefits" below for the applicable definition of "good reason." The agreements with Messrs. Sutherland and Reynolds and Ms. McKee were entered into following the 2007 Transaction and also contain a "double trigger." We chose to implement a "double trigger" for Mr. Foss and the other named executive officers who report directly to him after receiving advice from Frederic W. Cook & Co., Inc. that a "double trigger" is a more common practice in the market than a "single trigger."

### Ms. Morrison

Ms. Morrison is a party to an Agreement Relating to Employment and Post Employment Competition that provides for certain benefits if she should be terminated by us without cause. Those benefits include between 26 and 52 weeks of severance pay, depending on her length of service with the Company, as well as the continuation of an auto allowance and the continuation of basic health care coverage through the end of the severance pay period. Pursuant to the agreement, Ms. Morrison must adhere to certain non-disclosure, non-disparagement, non-competition and non-solicitation requirements for various periods of time after a termination of employment. Ms. Morrison is currently entitled to 26 weeks of severance pay if she is terminated by us without cause.

For more information on change of control and severance payments for our named executive officers, see the disclosure under "Employment Agreements and Change of Control Arrangements" and under "Potential Post-Employment Benefits."

*Perquisites.* We provide our named executive officers with other benefits, reflected in the All Other Compensation column in the Summary Compensation Table, that we believe are reasonable and encourage retention. We believe that these benefits enable our executives to focus on our business and enhance their commitment to us. These benefits include premiums paid on life insurance or the Survivor Income Protection Plan, disability insurance (in Mr. Sutherland's case, a legacy policy the premiums for which are paid 100% by the Company), excess health insurance, receipt of a car allowance, no cost parking at a garage near Company offices, an executive physical, financial planning services and personal use of Company tickets or the Company box and related items at sporting or other events and the costs of these benefits constitute a small percentage of each named executive officer's total compensation. The availability of financial planning services assists those who receive them to optimize the value received from all of the compensation and benefit programs offered. Generally, Company-provided perquisites are reviewed by the compensation committee in consultation with Frederic W. Cook & Co., Inc. on an annual basis. Based upon the usefulness of such perquisites for retention, the compensation committee determines whether or not to continue them.

Messrs. Foss and Reynolds and Ms. Morrison received benefits under our relocation program in fiscal 2012 and/or 2013 that provided them with temporary housing and reimbursement for meals and other incidental expenses. Although the relocation program provides for benefits for a 90-day period to enable new employees to search for and purchase a permanent residence, we may extend the temporary housing benefit due to the tight housing market, work demands and/or family-related issues. In Mr. Foss' case, we extended his relocation benefits because his work demands delayed him in his search for his permanent residence in the Philadelphia area. We also extended relocation benefits for Mr. Reynolds and Ms. Morrison due to delays in procuring new permanent residences.

Our compensation committee established a policy, which it has determined to be in our business interest, directing the Chief Executive Officer to use Company aircraft, whenever possible, for all air travel, whether personal or business. Under the policy, the Chief Executive Officer may also designate other members of senior management to use the Company aircraft for air travel. Some of Mr. Foss' business use of the corporate aircraft in fiscal 2013 included flights to attend outside board meetings at the companies or organizations for which he serves as a director. We believe that Mr. Foss' service on these boards, and his ability to conduct Company business while traveling to these board meetings, provides benefits to us and therefore deem it to be business use. In addition, depending on seat availability, Mr. Foss' family members may accompany him on the Company aircraft. Although there is little or no incremental cost to us for these trips, we reflect a \$500 per seat charge in the "All Other Compensation" amounts in the Summary Compensation Table for flights in which those additional passengers' travel is not business-related. Mr. Foss has a car and driver that we provide to him. Much of his use of the Company-provided car and driver, which generally enables him to make efficient use of travel time, is business use, although Mr. Foss utilizes the car and driver for commuting to and from the office, which is considered personal use, and for other limited personal use.

### *Impact of Regulatory Requirements on our Executive Compensation*

*Sections 280G and 4999.* Sections 280G and 4999 of the Internal Revenue Code, respectively, limit our ability to take a tax deduction for certain "excess parachute payments" (as defined in Sections 280G and 4999) and impose excise taxes on each executive that receives "excess parachute payments" in connection with his or her severance from us in connection with a change of control. The compensation committee considered the adverse tax liabilities imposed by Sections 280G and 4999, as well as other competitive factors, when it structured certain post-termination compensation payable to our named executive officers. The potential adverse tax consequences to us and/or the executive, however, are not necessarily determinative factors in such decisions. Our agreements with Mr. Sutherland and Ms. McKee relating to employment require us to make a gross-up payment to compensate them for any excise taxes (and income taxes on such gross-up payment) that they incur under Section 4999. Messrs. Foss' and Reynolds' agreements do not provide for such gross-up payments, as the compensation committee was advised that it is no longer a common practice in the marketplace. Similarly, Ms. Morrison's agreement does not provide for a gross-up.

*Section 162(m).* Section 162(m) of the Internal Revenue Code limits tax deductions for compensation paid to a public company's named executive officers (other than the chief financial officer) to \$1,000,000. Although we are not currently subject to the Section 162(m) compensation deduction limit, following our initial public offering and any applicable phase-in period, we will become subject to the Section 162(m) compensation deduction limit. The compensation committee considers the loss of deductibility, as well as other factors, when it structures compensation arrangements for our named executive officers (such as the Bonus Plan, which we intend to operate in compliance with Section 162(m)). However, the potential tax consequences to us are not necessarily determinative in such decisions and the compensation committee believes it should have flexibility in awarding compensation to accomplish business objectives and to attract and retain our named executive officers, even though some compensation awards may result in non-deductible compensation expenses.

### *Compensation Committee Interlocks and Insider Participation*

Joseph Neubauer, who is our Chairman and former Chief Executive Officer (and remains an employee of the Company), serves on our compensation committee.

investments, including its investment in us. Sanjeev Mehra, a member of our Compensation and Human Resources Committee, is Managing Director of Goldman, Sachs & Co.'s Principal Investment Area of its Merchant Banking Division.

### **Compensation Risk Disclosure**

As part of its oversight responsibilities, the compensation committee considered the impact of our compensation programs on our risk profile and whether these programs promote excessive risk taking. Based on its review and the recommendation of its compensation consultant, the compensation committee determined that our compensation programs are appropriately structured and that risks arising from our compensation programs are not reasonably likely to have a material adverse effect on us for the following reasons, among others:

- our compensation programs are well aligned with sound compensation design principles;
- our Bonus Plan and the MIB utilize financial performance measures at the corporate level, which cannot be easily manipulated by any one individual;
- none of our individual business areas pose a significant business risk to the overall enterprise;
- post-initial public offering transfer restrictions and our stock ownership guidelines will ensure a long-term focus by our executives on our growth and long-term viability; and
- equity compensation constitutes a meaningful portion of pay for most senior executives and focuses them on enhancing long-term stockholder value over a multi-year period.

## Table of Contents

- (1) Messrs. Foss, Sutherland and Reynolds and Ms. McKee each deferred a portion of their salaries for 2013 under the 2007 Savings Incentive Retirement Plan and Mr. Sutherland and Ms. McKee each deferred a portion of their salaries for prior fiscal years. These amounts for fiscal 2013 are reflected in the Non-Qualified Deferred Compensation Table for Fiscal Year 2013 and in this column.
- (2) For fiscal 2012, Mr. Foss' bonus amount includes a signing bonus of \$500,000, which was intended to cover relocation and commuting expenses, as well as \$1,012,500, which was his target bonus, prorated for six months. Ms. Morrison was guaranteed a bonus amount of \$129,000, which was intended to compensate her for her forgone bonus at her previous employer and her fiscal 2013 bonus under the MIB was prorated to reflect the portion of the year that she was employed by us.
- (3) Includes the aggregate grant date fair value of restricted stock units granted with respect to the 2013 fiscal year computed in accordance with FASB ASC Topic 718. The grant date fair value per share for restricted stock and restricted stock units is equal to the appraisal price of a share of Company common stock on the date of grant. Also includes the incremental grant date fair value of restricted stock issued in the ISPO Exchange Offer to Messrs. Foss, Sutherland and Reynolds and Ms. McKee. For additional information on the valuation assumptions and more discussion with respect to the restricted stock and restricted stock units, refer to Note 10 to the consolidated financial statements appearing elsewhere in this prospectus.
- (4) This column represents the aggregate grant date fair value computed in accordance with FASB ASC Topic 718 with respect to the 2013, 2012 and 2011 fiscal years for the stock options granted to each of the named executive officers in 2013, 2012 and 2011, respectively. Fiscal 2013 includes the grant date fair value for performance-based stock options granted prior to fiscal 2013 whose vesting was subject to the 2013 EBIT target and such target was not established at the time the option was granted, as targets for later years had not been determined. Fiscal 2012 includes the grant date fair value for performance-based stock options granted prior to fiscal 2012 whose vesting was subject to the 2012 EBIT target and such target was not established at the time the option was granted, as targets for later years had not been determined. Fiscal 2011 includes the grant date fair value for performance-based stock options granted in fiscal 2011 whose vesting was subject to the 2011 EBIT target, as targets for later years had not been determined. As future targets are determined in future years, additional grant date fair value will be reflected in the years in which such targets are set. Also includes the incremental fair value of Replacement Stock Options granted in the ISPO Exchange Offer, computed as of the modification date in accordance with FASB ASC Topic 718, with respect to the modified award. See "Grants of Plan Based Awards for Fiscal Year 2013" for additional information on stock options granted or deemed granted in 2013. For additional information on the valuation assumptions and more discussion with respect to the stock options, refer to Note 10 to the consolidated financial statements appearing elsewhere in this prospectus. For Mr. Reynolds, the amount included in this column reflects the incremental grant date fair value of the Replacement Options he received and the grant date fair value of the ISPO that he was granted in fiscal 2013, but later exchanged in fiscal 2013 for restricted stock and Replacement Stock Options.
- (5) Includes amounts earned on deferred compensation in excess of 120% of the applicable federal rate, based upon the above-market return at the time the rate basis was set.

The calculation of incremental cost for personal use of Company aircraft includes the variable costs incurred as a result of personal flight activity: a portion of ongoing maintenance and repairs, landing fees, aircraft fuel, telephone communications and any travel expenses for the flight crew. ## Table of Contents

- (1) The amounts represent the threshold, target, and maximum payouts under our MIB for the fiscal 2013 performance period. The payment for threshold performance is 25% of target on all measures. Ms. Morrison's threshold, target and maximum amounts have been prorated to reflect the portion of the fiscal year that she was employed by the Company.
- (2) Named executive officers may receive all, or less than all, of the target amount of performance-based options when certain events occur, including the achievement of certain percentage returns by our Sponsors. See the discussion under "Performance-Based Stock Options" below. Consists of shares underlying options granted that vest in 25% increments on each of the first four anniversaries of the date of grant and upon the attainment of certain EBIT targets that are established by the compensation committee within the first ninety days of each fiscal year and described in the Compensation Discussion and Analysis and the narrative following this table. These stock options will expire ten years from the date of grant. The EBIT targets associated with the grants of performance-based options are listed below under "Performance-Based Stock Options."
- (3) The exercise price of the options reported in the table is the most recent appraisal price of a share of our common stock on the original date of grant, as adjusted as described in footnote 10 below, if applicable.
- (4) This column shows the full grant date fair value of stock options granted or deemed granted to our named executive officers in fiscal 2013 under FASB ASC Topic 718 and the incremental fair value, computed as of the modification date in accordance with FASB ASC Topic 718, with respect to Restricted Stock and Replacement Stock Options granted in the ISPO Exchange Offer. Performance-based options granted on December 5, 2012 include only those performance-based options granted on that date whose vesting is subject to the achievement of the 2013 EBIT target, which was the only EBIT target for that grant that had been set. For additional information on the valuation assumptions, refer to Note 10 to our consolidated financial statements appearing elsewhere in the prospectus. These amounts do not correspond to the actual value that will be received by the named executive officers.
- (5) The grant date fair value for these previously granted performance-based stock options reflects the value attributable only to those options whose vesting is based on 2013 targets, which were set on November 13, 2012, as that is the only target that had been determined during fiscal 2013. As future targets are determined in future years, additional grant date fair value will be reflected in the years in which such targets are set.
- (6) These stock options vest 25% per year over four years and have a ten-year term, subject to the grantee's continued employment with the Company.
- (7) These restricted stock units vest 25% per year over four years, subject to the grantee's continued employment with the Company.
- (8) These are shares of Restricted Stock that were granted in the ISPO Exchange Offer described above under "Compensation Discussion and Analysis—Components of Executive Compensation—Equity Incentives—New Equity Program—ISPO Exchange Offer." The vesting schedule of the restricted stock is based upon the vesting schedule of the ISPO award that was exchanged. For Mr. Sutherland and Ms. McKee, one-third of the restricted stock vests on each of December 15, 2013, December 15, 2014 and December 15, 2015. For Mr. Foss, 25% of the restricted stock vests on each of December 15, 2013, December 15, 2014, December 15, 2015 and December 15, 2016. For Mr. Reynolds, 20% of the restricted stock vested immediately and 20% will vest on each of December 15, 2013, December 15, 2014, December 15, 2015 and December 15, 2016.
- (9) These Replacement Stock Options have a vesting schedule based upon the vesting schedule of the ISPO award that was exchanged. For Mr. Sutherland and Ms. McKee, one-third of the Replacement Stock Option vests on each of December 15, 2013, December 15, 2014 and December 15, 2015. For Mr. Foss, 25% of the Replacement Stock Option vests on each of December 15, 2013, December 15, 2014, December 15, 2015 and December 15, 2016. For Mr. Reynolds, 20% of the Replacement Stock Option vested immediately and 20% will vest on each of December 15, 2013, December 15, 2014, December 15, 2015 and December 15, 2016.
- (10) Exercise price reflects the reduction of \$1.06 per share, which was the portion of the appraisal price of a share of Company common stock allocated to each share of Seamless Holdings Corporation common stock. Seamless Holdings Corporation was spun off by the Company on October 26, 2012 and the exercise prices of all stock options issued prior to that time were adjusted to reflect the spinoff.
- (11) These stock options are installment stock purchase opportunities that are divided into 5 installments. The first installment vests immediately upon grant and is exercisable for one year. The remaining installments vest on the first four anniversaries of the December 15<sup>th</sup> following the grant date and are exercisable for a

period of 31 days. At least 25% of the first installment must be exercised or the remaining installments are canceled. As described above under “Compensation Discussion and Analysis—Components of Executive Compensation—Equity Incentives—New Equity Program—ISPO Exchange Offer,” in July 2013, Mr. Reynolds exchanged his outstanding ISPOs granted in December 2012 for shares of restricted stock and stock options, which are also reflected in the table.

### **Narrative Disclosure to Summary Compensation Table and Grants of Plan Based Awards Table**

#### *Performance-Based Stock Options*

The performance targets for 50% of the stock options granted to our named executive officers through June 2013, when the compensation committee changed the equity program to eliminate performance-based stock options, are based upon our annual EBIT. If we do not achieve the performance target for any particular fiscal year (other than that of the “Final Fiscal Year” for each grant, as defined below), but we do achieve a cumulative performance target at the end of a later fiscal year, then all installments of performance-based options that did not become vested because of a missed performance target or targets in a prior year will vest. Our EBIT targets over the four-year vesting schedule of options granted to our named executive officers in fiscal 2009 and fiscal 2010 are as follows:

<u>Year</u>	<u>Annual EBIT Target (in millions)</u>	<u>Cumulative EBIT Target (in millions)</u>
2010	\$ 718.1	N/A
2011	\$ 748.5	\$ 1,507.5
2012	\$ 834.8	\$ 2,366.0
2013 (the “Final Fiscal Year”)	\$ 804.2	\$ 3,299.3

In June 2011, our board approved a new form of Non-Qualified Stock Option Agreement that provides that annual and cumulative EBIT targets for performance-based stock options will be established by the compensation committee within the first ninety days of each fiscal year. For example, performance-based options granted to certain of our named executive officers in fiscal 2011 had only an EBIT target for fiscal 2011 and those granted in fiscal 2012 had only an EBIT target for fiscal 2012 at the time of grant. The compensation committee established EBIT targets for each fiscal year in November of that fiscal year. EBIT targets for 2015 and later fiscal years will be established within the first ninety days of the respective fiscal year. The EBIT targets for options granted in fiscal 2011 are as follows:

<u>Year</u>	<u>Annual EBIT Target (in millions)</u>	<u>Cumulative EBIT Target (in millions)</u>
2011	\$ 748.5	N/A
2012	\$ 834.8	\$ 1,583.3
2013	\$ 804.2	\$ 2,387.5
2014 (the “Final Fiscal Year”)	\$ 823.2	\$ 3,594.6

The EBIT targets for options granted in fiscal 2012 are as follows:

<u>Year</u>	<u>Annual EBIT Target (in millions)</u>	<u>Cumulative EBIT Target (in millions)</u>
2012	\$ 834.8	N/A
2013	\$ 804.2	\$ 1,639.0

Mr. Reynolds was the only named executive officer who received a grant of performance-based options in fiscal 2013. The EBIT targets for options granted in fiscal 2013 are as follows:

\* EBIT Target not yet established

When we calculate our EBIT (which calculation is subject to review and approval by the compensation committee) for purposes of determining whether we have achieved our annual EBIT target, we take our net income and increase it by: (1) net interest expense and (2) the provision for income taxes. We are then required to exclude a number of categorical amounts as follows:

- any extraordinary gains or losses, cumulative effect of a change in accounting principle, income or loss from disposed or discontinued operations and any gains or losses on disposed or discontinued operations, all as determined in accordance with generally accepted accounting principles;
- any gain or loss greater than \$2 million attributable to asset dispositions, contract terminations and similar items, provided that losses on contract terminations and asset dispositions in connection with client contract terminations are limited in any given fiscal year to \$5 million;
- any increase in amortization or depreciation resulting from the application of purchase accounting to the 2007 Transaction, including the current amortization of existing acquired intangibles;
- any gain or loss from the early extinguishment of indebtedness, including any hedging obligation or other derivative instrument;
- any impairment charge or similar asset write-off required by generally accepted accounting principles;
- any non-cash compensation expense resulting from the application of the authoritative accounting pronouncement for share-based compensation expense or similar accounting requirements;
- any expenses or charges related to any equity offering, acquisition, disposition, recapitalization, refinancing or similar transaction, including the 2007 Transaction;
- any transaction, management, monitoring, consulting, advisory and related fees and expenses paid or payable to the Sponsors;
- the effects of changes in foreign currency translation rates from the rates used in the calculation of the EBIT targets. The 2011 and later EBIT targets are based on the foreign currency translation rates used in the Business Plan approved by our board for the applicable year; and
- the impact of the 53rd week of operations on our financial results during any 53-week fiscal year referenced in the relevant Schedule 1 to the Non-Qualified Stock Option Agreement.

Our calculation of EBIT is adjusted for acquisitions as follows:

- for small acquisitions, which have purchase prices of less than \$20 million each, there is no adjustment until the total consideration for all small acquisitions exceeds \$20 million in any fiscal year, and then the EBIT targets will be adjusted for the percentage of EBIT that results from the cumulative amounts of such acquisitions over \$20 million; and
- for larger acquisitions, which have purchase prices of more than \$20 million, our EBIT targets are adjusted based on the amount of EBIT that we project for that acquisition when it is approved by our board.

Our calculation of EBIT also is adjusted when we sell a business by an amount equal to the last twelve months of earnings of the divested business.

The terms of the performance targets and calculation of EBIT, including the adjustments described above, were initially negotiated with the Sponsors in connection with the 2007 Transaction and were approved by our board in connection with the closing of the 2007 Transaction and subsequently modified. The EBIT targets were also modified in November 2008 and in December 2009 to reflect acquisitions and divestitures, pursuant to the terms of the Non-Qualified Stock Option Agreements. The EBIT targets were intended to measure achievement of the plan presented by us to the Sponsors at the time of the negotiation of the 2007 Transaction, as modified in response to changed circumstances, and the adjustments to EBIT described above primarily represent elements of our performance that are either beyond the control of management or were not predictable at the time the targets were set. On June 21, 2011, our board approved a revised EBIT target for fiscal year 2011 and adopted a new form of Non-Qualified Stock Option Agreement that provides that the compensation committee will, on an annual basis, set both annual and cumulative EBIT targets for future fiscal years within 90 days of the beginning of each fiscal year based upon the Company's business plan as approved by our board. Our board also approved an amendment to outstanding Stock Option Agreements, which provides that if an annual EBIT target is established for fiscal 2012 or later years for options granted after June 21, 2011 that is less than the annual EBIT target for such fiscal year for the outstanding stock options, the EBIT target for such outstanding options will be reduced to such lower EBIT target. In addition, if a cumulative EBIT target as established for options granted after June 21, 2011 is achieved in a fiscal year ending after fiscal 2011, then for any years (beginning with fiscal 2011) that an annual EBIT target as established under the outstanding Stock Option Agreement was not achieved and which was not the final performance year of such option (a "missed year"), then the portion of the performance option under the outstanding Stock Option Agreement that did not vest in respect of such missed year will nevertheless become vested or will vest.

We did not achieve our EBIT target for 2012; therefore, performance-based stock options whose vesting is based upon the attainment of the 2012 EBIT target did not or will not vest unless an alternate vesting condition for those options is later satisfied. Mr. Foss' employment agreement contains a provision that provides that his performance-based tranche that would vest based on our performance for fiscal year 2012 was to become fully vested so long as Mr. Foss remained employed with us through the applicable vesting date (regardless of whether the 2012 EBIT target was achieved). Accordingly, even though we did not achieve our 2012 EBIT target, in May 2013, the compensation committee vested the tranche of Mr. Foss's performance options whose vesting was subject to the 2012 EBIT target. The compensation committee determined that we achieved our EBIT target for fiscal 2013 — therefore, performance-based stock options whose vesting was subject to the 2013 EBIT target vested or will vest.

#### *Amendment to Vesting of Outstanding Performance-Based Options*

On November 11, 2013, the compensation committee approved a form of amendment to all outstanding Non-Qualified Option Agreements under the 2007 Stock Plan modifying the vesting provisions relating to outstanding stock options subject to performance-based vesting conditions granted under the 2007 Stock Plan. This amendment provides that in the event of an initial public offering of our common stock, subject to continued employment on such date, 50% of any then-unvested performance-based options that did not meet applicable performance thresholds in prior years (the "Missed Year Options") will become vested if the price of our common stock in this offering equals or exceeds \$20.00 per share. In addition, during the 18 month period following our initial public offering, if the closing trading price for our common stock equals or exceeds \$25.00 per share over any twenty consecutive trading-day period, 100% of the Missed Year Options will become vested. To the extent either or both of the above targets are achieved (x) prior to June 30, 2014, in the event of a termination of employment of an optionholder by us without cause, or (y) within twelve months following an optionholder's termination of employment due to death, disability or retirement, in each case prior to the date(s) such conditions are satisfied, then in any such case the relevant portion of Missed Year Options, to the extent not then vested, will become vested upon such achievement.

## Table of Contents

Some or all of the performance-based options also will vest if certain other events occur, including the achievement of a return or internal rate of return by our Sponsors. For example, if our Sponsors were to sell a portion of their investment in us and, in connection with that sale, achieve an internal rate of return (i) on or after the third anniversary of the grant date of the options for options granted prior to June 2012 and (ii) at any time for options granted in June 2012 or later equal to 15%, or, for options granted prior to June 2012, prior to the third anniversary of the grant date, that equals or exceeds 200% of that Sponsor's investment, the sale would be a qualified partial liquidity event and a percentage of the unvested performance-based options would vest. The percentage will be based upon the percentage of our Sponsors' interest in us that was sold in the qualified partial liquidity event. In addition, if there is a change of control of us in which our sponsors do not achieve the return or internal rate of return described above, a portion of the unvested performance-based options will vest, with the percentage vesting based upon the percentage of eligible performance-based options that had previously vested (all unvested time-based options will vest on a change of control). Upon death, disability or retirement (attaining at least age 60 with five years of service), unvested performance-based options that would have vested during the twelve-month period immediately following termination had the termination not occurred during that period will vest if the performance targets for that period are satisfied. Time-based options that would have vested in the year following retirement, death or disability would also vest according to the vesting schedule. In addition, if employment terminates due to death, disability or retirement, the exercise period for vested options is one year, rather than the 90-day period that is otherwise available for terminations other than for cause. All performance-based options terminate on the date of termination of employment in the case of termination for cause.

The above performance targets do not represent a prediction of how we did or will perform during the fiscal years 2013 through 2016. We are not providing any guidance, nor updating any prior guidance, of our future performance with the disclosure of these performance targets, and you are cautioned not to rely on these performance targets as a prediction of ARAMARK's future performance.

### *ISPO Exchange Offer*

On July 29, 2013, we closed the ISPO Exchange Offer whereby we offered to holders of outstanding ISPO awards (including certain named executive officers) the ability to exchange such awards for new grants of Restricted Stock equal to the spread value of the ISPO and a number of Replacement Stock Options equal to the number of ISPOs exchanged minus the number of shares of Restricted Stock granted. The exercise price of the Replacement Stock Options (\$16.21) was equal to the fair market value of the Company's common stock on the date of grant based upon the most recent appraisal price of our common stock on the date of grant. The grants of Restricted Stock and Replacement Stock Options were made to certain of our named executive officers by the stock committee on July 31, 2013. The incremental fair value attributable to the Restricted Stock and Replacement Stock Options is reflected in the Summary Compensation Table and the Grants of Plan Based Awards table with respect to Messrs. Foss, Sutherland and Reynolds and Ms. McKee.

### *Employment Agreements and Change of Control Arrangements*

We have employment agreements with all of the named executive officers for indeterminate periods terminable by either party, in most cases subject to post-employment severance and benefit obligations. While we do have these agreements in place, from time to time, it has been necessary to renegotiate some terms upon actual termination.

For more information regarding change of control and severance payments for our named executive officers, see the disclosure under "Potential Post-Employment Benefits."

### Mr. Foss

In connection with his employment with us, we entered into an employment letter agreement and an agreement relating to employment and post-employment competition, dated May 7, 2012, with Mr. Foss, which

## [Table of Contents](#)

was later amended in June 2013. Mr. Foss' letter agreement provides that Mr. Foss will serve as Chief Executive Officer and President of the Company and will be elected to our board so long as we are controlled by investment funds associated with or designated by our Sponsors. Thereafter, Mr. Foss, while he remains the Chief Executive Officer and President, will be included as a nominee for election to our board at each annual stockholders meeting.

Mr. Foss is employed with us "at-will" and may be terminated at any time, subject to the severance provisions contained in his employment letter agreement. Mr. Foss' minimum annual base salary is \$1,350,000, and is subject to periodic review by the compensation committee. The compensation committee may, in its discretion, increase Mr. Foss' annual base salary. Mr. Foss' annual cash bonus will be determined by the compensation committee under our Bonus Plan. For fiscal 2012, however, Mr. Foss received a guaranteed bonus of \$1,012,500 (his 2012 target bonus prorated for six months). His target bonus for fiscal 2013 is equal to 150% of his annual base salary. When we hired Mr. Foss, we committed to providing a total annual compensation package to Mr. Foss for fiscal 2013 based on total annual compensation values at the 75th percentile of the Company's market peer group of companies. In addition, Mr. Foss received a one-time signing bonus of \$500,000 intended to cover commuting and relocation expenses and is eligible to participate in all retirement, welfare and perquisite programs applicable to senior executives of the Company at benefit levels applicable to senior executives. Mr. Foss also receives a \$2,000 monthly car allowance. Under our agreement with Mr. Foss, he is entitled to serve on two for-profit boards, subject to the prior approval of the board. His current service on the boards of CIGNA Corporation and UDR, Inc. was approved by our board in connection with the approval of his employment arrangements.

Mr. Foss invested \$3,750,000 through the purchase of our common stock at a per share purchase price equal to \$14.96, which was equal to the fair market value (the appraisal price on the date of purchase) per share of our common stock. In addition, Mr. Foss received an ISPO to purchase 500,000 shares of our common stock, of which Mr. Foss exercised the first installment for 100,000 shares of our common stock, which he had committed to do under the terms of his employment letter agreement. The remaining portion of Mr. Foss's ISPO grant was exchanged in connection with the ISPO Exchange Offer described above. Mr. Foss was also granted a nonqualified stock option to purchase 1,450,000 shares of our common stock, one-half of which has time-based vesting conditions and the other half of which has service and performance-based vesting conditions, except that the performance-based tranche that would vest based on our performance for fiscal year 2012 was to become fully vested so long as Mr. Foss remained employed with us through the applicable vesting date (regardless of whether the 2012 EBIT target was achieved). Accordingly, even though we did not achieve our 2012 EBIT target, in May 2013, the compensation committee vested the tranche of Mr. Foss's performance options whose vesting was subject to the 2012 EBIT target. In addition, under his Employment Letter Agreement, Mr. Foss is required to hold shares of our common stock having a fair market value equal to six times his base salary.

If we terminate Mr. Foss' employment without cause or Mr. Foss resigns for good reason prior to a change of control (as defined in his agreement relating to employment and post-employment competition), Mr. Foss will receive severance payments equal to two times his base salary plus two times his most recent annual bonus, paid over a twenty-four month period. In addition, he would receive a pro rata portion of his bonus for the year of his termination, based upon our actual performance (his 2012 bonus was deemed to be his full target bonus of \$2,025,000 for this purpose). Mr. Foss would also continue to receive his car allowance and to participate in our medical and life insurance programs for the same period. Finally, Mr. Foss' time-based stock options that would have vested in the 24-month period following his termination date, but for his termination of employment, would vest immediately.

Mr. Foss' agreement relating to employment and post-employment competition contains a double trigger in the event of a change of control. If we experience a change of control (as defined in Mr. Foss' agreement), and in anticipation of or within three years after that change of control Mr. Foss is terminated without cause or resigns for good reason, he would be entitled to similar payments as if he were terminated without cause or resigned for good reason prior to a change of control. Mr. Foss would receive severance payments equal to two times his base salary plus two times his most recent annual bonus or his target bonus, whichever is higher, paid over a twenty-four month period. In addition, he would receive a pro rata portion of his bonus for the year of his termination

## Table of Contents

payable in a lump sum within 60 days of the date of termination (his 2012 bonus was deemed to be his full target bonus of \$2,025,000 for this purpose). Mr. Foss would also continue to receive his car allowance and to participate in our medical and life insurance programs for the severance period. Finally, Mr. Foss' stock options would vest in accordance with the applicable plan document or award agreement.

Upon any termination of employment, Mr. Foss would also receive any accrued amounts (earned but unpaid salary and benefits) owed to him by us. During his employment term and for a period of two years thereafter, Mr. Foss would be subject to a non-competition restriction that would restrict him from associating with or acquiring or maintaining an ownership interest in a competing business and non-solicitation restrictions.

### Messrs. Sutherland and Reynolds and Ms. McKee

In connection with the 2007 Transaction, we entered into employment agreements relating to employment and post-employment competition with Mr. Sutherland and Ms. McKee in July 2007. We entered into an employment agreement relating to employment and post-employment competition with Mr. Reynolds in connection with his commencement of employment with us.

If Messrs. Sutherland or Reynolds or Ms. McKee is terminated for any reason other than "cause," the agreements generally provide, subject to execution of a general release, for severance payments equal to 6 to 18 months of pay based on years of service, plus the continuation of certain other benefits, including basic group medical and life insurance coverage and continuation of a car allowance, during the period of such payment. The agreements contain non-competition provisions pursuant to which the executive would be restricted from associating with or acquiring or maintaining an ownership interest in a competing business for a period of two years (or one year if employment is terminated by us other than for cause or is terminated by the employee for good reason after a change of control).

Upon a change of control of us as described in the agreements, in addition to the severance payments discussed in the preceding paragraph, each executive also would be entitled to a lump sum payment if their employment is terminated within the three years following such change of control or in anticipation of such change of control. The agreements provide a payout in the event of a change of control based on a "double trigger" (more fully described under "Potential Post-Employment Benefits"). The agreements, including the "double trigger" provision, were negotiated with the Sponsors in connection with the 2007 Transaction. These provisions are intended to align executive and stockholder interests by enabling executives to consider corporate transactions that are in the best interests of the stockholders and our other constituents without undue concern over whether the transactions may jeopardize the executives' own employment.

### Ms. Morrison

We entered into an agreement relating to employment and post-employment competition with Ms. Morrison in connection with her commencement of employment with us. The agreement provides for post-employment benefits should Ms. Morrison be terminated by us without cause. Those benefits include between 26 and 52 weeks of severance pay (Ms. Morrison is currently entitled to 26 weeks of severance pay), depending on the length of time Ms. Morrison has been employed by the Company, and basic group medical coverage and continuations of the Company-paid auto allowance during the severance pay period. The agreements contain non-disclosure and non-disparagement provisions to which Ms. Morrison must adhere for certain periods of time after termination of employment, as well as a two-year non-competition provision and a two-year non-solicitation provision.

### *Indemnification Agreements*

We have entered into Indemnification Agreements with our named executive officers (other than Ms. Morrison), among others, that provide rights that are substantially similar to those to which they are currently entitled pursuant to our certificate of incorporation and by-laws and that spell out further the procedures to be followed in connection with indemnification.

(1) The amounts in this column are time-based and performance-based options that have vested.

(2) These are options subject to time-based vesting and generally vest 25% per year over four years from the date of grant, provided that the named executive officer is still employed by us. Certain options included in this column were granted in connection with our ISPO Exchange Offer and have vesting schedules based upon the original vesting schedule of the ISPO that was exchanged.

- (3) These are the total number of options that are still subject to performance-based vesting. 25% of the original award is eligible to vest each year over four years from the grant date, which in each case was 10 years prior to the listed expiration date, provided that certain performance targets are satisfied and the named executive officer is still employed by us, with certain exceptions (disability, retirement or death). See “Narrative Disclosure to Summary Compensation Table and Grants of Plan Based Awards Table”.
- (4) Exercise price reflects the reduction of \$1.06 per share, which was the portion of the appraisal price of a share of Company common stock allocated to each share of Seamless Holdings Corporation common stock. Seamless Holdings Corporation was spun off by the Company on October 26, 2012 and the exercise prices of all stock options issued prior to that time were adjusted to reflect the spinoff.

**Non-Qualified Deferred Compensation for Fiscal Year 2013**

Our named executive officers are eligible to participate in two deferred compensation plans: the 2007 Savings Incentive Retirement Plan and the 2005 Deferred Compensation Plan, each of which is discussed in “Other Components of Compensation” in the Compensation Discussion and Analysis above. Mr. Sutherland and Ms. McKee participated in predecessor plans to the 2007 Savings Incentive Retirement Plan and retain balances in these older plans, all of which are reflected in the table.

- (1) All amounts in this column were deferred under the 2007 Savings Incentive Retirement Plan during fiscal 2013. All amounts deferred are included in the named executive officer’s salary amount in the Summary Compensation Table.
- (2) With respect to our named executive officers, these amounts constitute the Company match to the Savings Incentive Retirement Plan for fiscal 2013, which were made in November 2013. These amounts are reported in the Summary Compensation Table.
- (3) Our Summary Compensation Table for previous years included the amount of salary deferred and Company match for those years. The amounts in the Executive Contributions column are included in the Salary column in the Summary Compensation Table for fiscal 2013 and amounts in the Registrant Contributions column are reflected in the All Other Compensation column and separately footnoted. To the extent that earnings for the 2007 Savings Incentive Retirement Plan and the 2005 Deferred Compensation Plan exceeded 120% of the applicable federal rate, those excess earnings were reported in the Change in Pension Value and Non-Qualified Deferred Compensation Earnings column of the Summary Compensation Table as follows: for Mr. Foss, \$155, for Mr. Sutherland, \$17,915, for Ms. McKee, \$9,990, and for Mr. Reynolds, \$89.
- (4) The Aggregate Balance at Fiscal Year End includes amounts that were reported in the Summary Compensation Table for the last three fiscal years as follows: for Mr. Foss, \$75,614 (for 2013 only), for Mr. Sutherland, \$223,260, for Ms. McKee, \$170,112, and for Mr. Reynolds, \$30,435 (for 2013 only).

The 2007 Savings Incentive Retirement Plan enables our named executive officers to defer up to 25% of their base salaries, which become our unfunded deferral obligations. We credit amounts deferred with interest at the Moody’s Long Term Corporate Baa Bond Index rate for October of the previous year; which was 4.58%

## [Table of Contents](#)

beginning January 1, 2013. From September 29, 2012 until December 31, 2012, we credited amounts deferred with an interest rate equal to 5.37%. Employees who participate in the 2007 Savings Incentive Retirement Plan are eligible to receive a Company matching contribution equal to 25-75% of the first 6% of their salary deferred up to the Internal Revenue Code maximum deferral limit (\$17,500 for fiscal 2013). This match is intended to replicate what the employee would have received if he or she had been able to participate in our 401(k) plans. For fiscal 2013, the Company matching contribution was 65%. Participants in the Savings Incentive Retirement Plan may only make account withdrawals if there occurs an unforeseeable emergency as defined in the plan and the withdrawal is approved by the plan administrative committee. Company match amounts are not available for a hardship withdrawal. The 2007 Savings Incentive Retirement Plan is settled in cash following termination of employment and in compliance with certain requirements of Section 409A of the Internal Revenue Code.

Named executive officers may defer receipt of part or all of their cash compensation under our 2005 Deferred Compensation Plan. The 2005 Deferred Compensation Plan allows executives to save for retirement in a tax-deferred way at minimal cost to us. Under this unfunded Plan, amounts deferred by the executive are credited at an interest rate based on Moody's Long Term Corporate Baa Bond Index rate for October of the previous year, which was 4.58% beginning January 1, 2013. From September 29, 2012 until December 31, 2012, we credited amounts deferred with an interest rate equal to 5.37%. The 2005 Deferred Compensation Plan permits participants to select a payment schedule at the time they make their deferral election, subject to a three-year minimum deferral period as long as the participant remains employed by us. All or a portion of the amount then credited to a deferral account may be withdrawn, if the withdrawal is necessary in light of a severe financial hardship.

The interest rate for both the 2007 Savings Incentive Retirement Plan and the 2005 Deferred Compensation Plan will be adjusted on January 1, 2014 based on the Moody's Long Term Corporate Baa Bond Index rate for October 2013 which is 5.31%.

In connection with, and effective upon, this offering, our board of directors approved the assumption by us of the obligations of ARAMARK Corporation under the 2007 Savings Incentive Retirement Plan and the 2005 Deferred Compensation Plan, each as amended from time to time.

### ***Potential Post-Employment Benefits***

Our named executive officers may be eligible to receive benefits in the event their employment is terminated (1) upon their retirement, disability or death, (2) by ARAMARK without cause, or (3) in certain circumstances following a change of control. The amount of benefits will vary based on the reason for the termination.

The following sections present a discussion and calculations, as of September 27, 2013, of the estimated benefits the named executive officers would receive in these situations. Although the calculations are intended to provide reasonable estimates of the potential benefits, they are based on numerous assumptions discussed in the footnotes to the table and may not represent the actual amount an executive would receive if an eligible termination event were to occur.

In addition to the amounts disclosed in the following sections, each of our named executive officers would retain the amounts which he or she has earned or accrued over the course of his or her employment prior to the termination event, such as the executive's balances under our deferred compensation plans and, in certain circumstances as described below, the vesting one additional tranche of unvested time-based equity and the proceeds of any unvested performance-based options that would have otherwise vested in the year following termination. For further information about previously earned and accrued amounts, see "Summary Compensation Table," "2013 Outstanding Equity Awards at Fiscal Year-End" and "Nonqualified Deferred Compensation for Fiscal Year 2013."

## Table of Contents

### *Treatment of Equity Grants*

#### Retirement, Death, Disability

Upon retirement, death or disability, our named executive officers are eligible to vest one additional tranche of time based equity awards and performance-based stock options (subject to the achievement of the applicable EBIT target(s)) that are scheduled to vest in the year following retirement, death or disability. In addition, vested stock options remain exercisable for one year following termination of employment due to death, disability or retirement.

#### Termination for Cause

Upon termination for cause, all vested stock options and unvested equity is immediately cancelled.

#### Termination without Cause or Resignation without Good Reason Prior to a Change of Control

Upon termination without cause or resignation without good reason prior to a change of control, all of our named executive officers' (other than Mr. Foss') unvested equity is cancelled and the named executive officers have 90 days to exercise vested stock options. For Mr. Foss, all time-based stock options that would have vested during the 24-month period following his termination would vest immediately.

#### Change of Control

Upon a change of control, all time-based equity awards become immediately vested. If the change of control occurs prior to the final fiscal year of the performance-based vesting schedule for a performance-based option, a percentage of the then-unvested performance-based options which would have been eligible for vesting based on EBIT performance for the fiscal year during which the change of control occurs and those eligible for any subsequent fiscal years, equal to (x) 100% multiplied by (y) a quotient, the numerator of which is the aggregate number of performance-based options that previously became vested options prior to the fiscal year in which the change of control occurs, and the denominator of which is the aggregate number of performance-based options that were eligible to become vested options if all EBIT Targets were achieved prior to the fiscal year during with the change of control occurs, will vest. Some or all of the performance-based options also will vest if certain other events occur, including the achievement of a return or internal rate of return by our Sponsors. See "Narrative Disclosure to Summary Compensation Table and Grants of Plan Based Awards Table."

### *Retirement, Death and Disability*

The named executive officers do not receive any special benefits upon retirement, disability or death, other than those under the Survivor Income Protection Plan and/or life insurance, as applicable, in the case of death as more fully described in the "Other Components of Compensation" section of the Compensation Discussion and Analysis, or with regard to their equity awards that are more fully described above. Mr. Sutherland has attained the retirement age under the 2007 Stock Plan. Therefore, upon retirement, he would be eligible to vest one additional tranche of time-based equity awards, as well as his performance-based stock options (subject to the achievement of the applicable EBIT target(s)) that are scheduled to vest in the year following his retirement.

### *Termination for Cause or Resignation without Good Reason*

#### Mr. Foss

Mr. Foss is not entitled to any benefits under his employment agreement upon termination for cause or resignation without good reason. Termination for cause as defined in his employment agreement means termination of employment due to conviction or plea of guilty or nolo contendere to a felony or a misdemeanor involving moral turpitude that has a substantial adverse effect on Mr. Foss' ability to perform his duties, willful

## Table of Contents

and continuous failure to perform his or her duties after written notice, willful and continuous failure to perform lawfully assigned duties that are consistent with his position with the Company, willful violation of our Business Conduct Policy that causes us material harm or intentionally working against our best interests, in each case after notice and failure to cure the conduct within 15 business days. Mr. Foss is subject to a two-year non-competition covenant if his employment is terminated for cause or if he resigns without good reason.

### Messrs. Sutherland and Reynolds and Ms. McKee

Messrs. Sutherland and Reynolds and Ms. McKee are not entitled to any benefits under their employment agreements upon termination for cause or resignation without good reason. With respect to Messrs. Sutherland and Reynolds and Ms. McKee, termination for cause means termination of employment due to conviction or plea of nolo contendere to a felony, intentional fraud or dishonesty with regard to us that causes us demonstrable harm, willful and continuous failure to perform his or her lawfully assigned duties that are consistent with his or her position, willful violation of our Business Conduct Policy that causes material harm to us or our business reputation or intentionally working against our best interests, in each case after notice and failure to cure the conduct within 10 business days. Messrs. Sutherland and Reynolds and Ms. McKee are subject to a two-year non-competition covenant if their employment is terminated for cause or if they resign without good reason.

### Ms. Morrison

Ms. Morrison is not entitled to any benefits under her employment agreements upon termination for cause or resignation without good reason. With respect to Ms. Morrison, termination for cause means termination of employment due to conviction or plea of nolo contendere to a felony, fraud or dishonesty, willful failure to perform her assigned duties, willful violation of our Business Conduct Policy or intentionally working against our best interests. Ms. Morrison is subject to a one-year non-competition and a two-year non-solicitation covenant if her employment is terminated for cause or she resigns without good reason.

### *Termination without Cause / Resignation for Good Reason in the Absence of a Change of Control*

#### Mr. Foss

If Mr. Foss is terminated without cause or resigns for good reason in the absence of a change of control (as defined in his agreement and described below), he will be entitled to the following payments and benefits:

- a pro rata bonus for the year of termination based upon actual performance;
- continued payment of his base salary for 24 months;
- two times the prior year's bonus (if any) paid over 24 months (for 2012, this is deemed to be his full target bonus);
- continued participation in the Company's basic medical and life insurance programs on the same terms as prior to termination for a period of 24 months, both for Mr. Foss and for his dependents;
- continued payment of his car allowance for 24 months;
- immediate vesting of time-based stock options that would have vested during the 24 month period following his termination; and
- all of his vested stock options, with 90 days following termination of employment to exercise.

Mr. Foss is subject to non-competition and non-solicitation provisions for the two year period following his termination of employment.

## Table of Contents

### Messrs. Sutherland and Reynolds and Ms. McKee

If we terminate Messrs. Sutherland or Reynolds or Ms. McKee without cause, he or she will receive:

- severance payments equal to his or her monthly base salary for 12 to 18 months, depending on length of service (Mr. Sutherland and Ms. McKee would receive severance for 18 months, while Mr. Reynolds would receive severance for 12 months, based on their respective length of service), made in the course of our normal payroll cycle;
- participation in our basic medical and life insurance programs during the period over which he or she receives severance payments, with the employee's share of premiums deducted from the severance payments;
- continuation of his or her car allowance payments during the severance period; and
- all of his or her vested stock options, with 90 days following termination of employment to exercise.

Messrs. Sutherland and Reynolds and Ms. McKee are subject to a two-year non-competition covenant if their employment is terminated without cause and it is reduced to one year if, following a change of control, they are terminated without cause or they resign for good reason.

### Ms. Morrison

If we terminate Ms. Morrison without cause, she will receive:

- severance payments equal to her monthly base salary for 26 weeks made in the course of our normal payroll cycle;
- participation in our basic medical and life insurance programs during the period over which she receives severance payments, with her share of premiums deducted from the severance payments;
- continuation of her car allowance payments, as applicable, during the severance period; and
- all of her vested stock options, with 90 days following termination of employment to exercise.

Ms. Morrison is subject to non-disclosure and non-disparagement obligations, a one-year non-competition covenant and a two-year non-solicitation covenant after termination of employment under her agreement.

### *Termination without Cause or Resignation for Good Reason in Relation to a Change of Control*

#### Mr. Foss

Our employment agreement with Mr. Foss contains a "double trigger"—to be initiated, there must be a change of control followed by an involuntary loss of employment or decrease in responsibilities within three years thereafter, or employment must be terminated in anticipation of a change of control. If we terminate Mr. Foss' employment without cause during the three-year period following a change of control or he resigns for good reason following a change of control, Mr. Foss would receive:

- a pro-rata portion of his annual target bonus in effect on the date of the change of control or on the date of termination, whichever is higher, in a lump sum;
- two times his base salary in effect on the date of the change of control or on the date of termination, whichever is higher, payable over 24 months;
- two times the higher of his annual target bonus in effect on the date of the change of control or his most recent annual bonus, whichever is higher, payable over 24 months;
- outplacement counseling in an amount not to exceed 20% of his base salary, for a period of 24 months;
- continued participation in our medical (for Mr. Foss and his dependents), life and disability insurance programs on the same terms as in effect immediately prior to his termination, for a period of 24 months;

## Table of Contents

- continued payment of his car allowance, if provided at the time of termination, for a period of 24 months; and
- accelerated vesting of outstanding equity-based awards or retirement plan benefits (this would not be applicable to Mr. Foss for 2013 as he does not have any unvested retirement plan benefits) as is specified under the terms of the applicable plans. See “Narrative Disclosure to Summary Compensation Table and Grants of Plan Based Awards Table.”

Change of control is defined in Mr. Foss’ agreement relating to employment and post-employment competition to include the following:

- an entity or group other than us, our Sponsors or one of our employee benefit plans acquires more than 50% of our voting stock;
- the Company experiences a reorganization, merger or sale or disposition of substantially all of our assets or we purchase the assets or stock of another entity unless the stockholders prior to the transaction own at least 50% of the voting stock after the transaction and no person owns a majority of the voting stock (unless that ownership existed before the transaction); or
- a majority of the members of our board are replaced during any 12-month period and the new directors are not endorsed by a majority of the Company’s board before the replacement or the replacement is not contemplated by our stockholders’ agreement.

In addition to termination by us following a change of control, Mr. Foss’ employment agreement provides the same benefits to him if he resigns for good reason following a change of control. Good reason is defined in Mr. Foss’ agreement relating to employment and post-employment competition as:

- any diminution in title or reporting relationships, or substantial diminution in duties or responsibilities (other than a change of control after which we are no longer publicly held or independent) including the requirement that he report to any person or entity other than our board;
- reduction in base salary or target annual bonus opportunity, other than, prior to a change of control, an across-the-board reduction applicable to all senior executives;
- the relocation of his principal place of employment by more than 35 miles in a direction further away from his current residence;
- a material decrease in his employee benefits in the aggregate; and
- failure to pay or provide (in any material respect) the compensation and benefits under his employment letter agreement or his agreement relating to employment and post-employment competition.

Mr. Foss must provide 90 days’ written notice that he is resigning for good reason and the Company then has 30 days to cure. If the condition is not cured, Mr. Foss has 30 days from the end of the cure period to resign for good reason.

Mr. Foss’ employment agreement also provides that if any payments to Mr. Foss in connection with a change of control of the Company would constitute excess parachute payments that are subject to excise taxes under Section 4999 of the Internal Revenue Code, such payments will be subject to a reduction to avoid any such excise taxes that may be due, if such reduction results in Mr. Foss retaining a greater after-tax amount than if Mr. Foss paid the excise taxes otherwise due. Mr. Foss is not eligible to receive a gross-up payment in respect of any such excise taxes he may pay. During his employment term and for a period of two years thereafter, Mr. Foss would be subject to non-competition and non-solicitation restrictions with the Company.

### Messrs. Sutherland and Reynolds and Ms. McKee

Our employment agreements with Messrs. Sutherland and Reynolds and Ms. McKee contain a “double trigger”—to be initiated, there must be a change of control followed by a termination of employment by us without cause or by them for good reason within three years thereafter, or in anticipation of a change of control.

## Table of Contents

We chose to implement a “double trigger” because we were advised by Frederic W. Cook & Co., Inc. that a “double trigger” is more common in the market than a “single trigger.” In addition, in connection with the 2007 Transaction, change of control amounts were paid to Mr. Sutherland and Ms. McKee under their previous employment agreements. With respect to Messrs. Sutherland and Reynolds and Ms. McKee, a change of control is deemed to occur if:

- an entity or group other than our Sponsors acquires more than 50% of our voting stock;
- the Company experiences a reorganization, merger or sale or disposition of substantially all of our assets or we purchase the assets or stock of another entity unless the stockholders prior to the transaction own at least 50% of the voting stock after the transaction and no person owns a majority of the voting stock (unless that ownership existed before the transaction); or
- a majority of the members of our board are replaced during any 12-month period and the new directors are not endorsed by a majority of the Company’s board before the replacement or the replacement is not contemplated by our stockholders’ agreement.

In addition to termination by us following a change of control, the employment agreements with Messrs. Sutherland and Reynolds and Ms. McKee provide the same benefits to them if they resign for good reason following a change of control. Good reason is defined in their employment agreements as any of the following actions occurring after a change of control:

- a decrease in base salary or target bonus;
- a material decrease in aggregate employee benefits;
- diminution in title or substantial diminution in reporting relationship or responsibilities; or
- relocation of his or her principal place of business by 35 miles or more.

If Messrs. Sutherland’s or Reynolds’ or Ms. McKee’s employment is terminated by us without cause or if he or she resigns with good reason (as defined in his or her employment agreement), following a Change of Control, he or she is entitled to the following in addition to severance payments and benefits, which are also included in the “change of control” amounts in the table (see “Employment Agreements and Change of Control Arrangements”):

- cash severance benefits based on a multiple of two times his or her base salary and target bonus (or the prior year’s actual bonus, if higher) over a two-year period according to our payroll cycle;
- a lump sum payment, within 40 days after his or her termination date, equal to the portion of his or her target bonus attributable to the portion of the fiscal year served prior to termination, plus any earned but unpaid amounts;
- continued medical, life and disability insurance at our expense for a two-year period following termination;
- outplacement counseling in an amount not to exceed 20% of base salary; and
- accelerated vesting of outstanding equity-based awards or retirement plan benefits (this would not be applicable to Messrs. Sutherland or Reynolds or Ms. McKee for 2013 as they do not have any unvested retirement plan benefits) as is specified under the terms of the applicable plans. See “Narrative Disclosure to Summary Compensation Table and Grants of Plan Based Awards Table.”

Messrs. Sutherland and Reynolds and Ms. McKee are subject to a one-year non-competition covenant if their employment is terminated without cause or they terminate for good reason, each after a change of control.

## [Table of Contents](#)

If the payments made to Mr. Sutherland or Ms. McKee were to result in excise taxes or interest and penalties, the Company is required to gross up the payments to Mr. Sutherland or Ms. McKee for the income or excise tax imposed. This gross-up provision ensures that Mr. Sutherland or Ms. McKee receives the full benefit of payments related to a change of control to which they are entitled. If a change of control were to have occurred at the end of fiscal 2013, excise tax would have been imposed on Messrs. Foss, Sutherland and Reynolds and Ms. McKee and, therefore, the table below includes any gross-up for excise taxes for Mr. Sutherland or Ms. McKee.

Mr. Reynolds' employment agreement also provides that if any payments to Mr. Reynolds in connection with a change of control of the Company would constitute excess parachute payments that are subject to excise taxes under Section 4999 of the Internal Revenue Code, such payments will be subject to a reduction to avoid any such excise taxes that may be due, if such reduction results in Mr. Reynolds retaining a greater after-tax amount than if Mr. Reynolds paid the excise taxes otherwise due. Mr. Reynolds is not eligible to receive a gross-up payment in respect of any such excise taxes he may pay.

### Ms. Morrison

Ms. Morrison is not entitled to any additional benefits under her employment agreement upon termination without cause after a change of control, other than severance benefits as follows:

- severance payments equal to her monthly base salary for 26 weeks made in the course of our normal payroll cycle;
- participation in our basic medical and life insurance programs during the period over which she receives severance payments, with her share of premiums deducted from the severance payments;
- continuation of her car allowance payments during the severance period;
- all of her vested stock options; and
- accelerated vesting of unvested time-based options and restricted stock units in accordance with our 2007 Stock Plan.

There is no concept of "good reason" in her employment agreement.

### *Estimated Benefits Upon Termination*

The following table shows potential payments to our named executive officers under existing contracts, agreements, plans or arrangements, whether written or unwritten, for various scenarios involving a termination of employment, assuming a September 27, 2013 termination date and using the appraisal price of our common stock (\$16.88) as of September 27, 2013. The named executive officers would also be eligible to receive their accrued deferred compensation (see "Nonqualified Deferred Compensation for Fiscal Year 2013"), which does not automatically accelerate upon a change of control. Certain of the named executive officers have optional life insurance for which they pay 100% of the premium.

(1) Represents vested stock options as of the end of the fiscal year. Calculations with regard to stock options are based upon the most recent appraisal price of our common stock (\$16.88) as of September 27, 2013. Vested stock options are included in the table due to the fact that absent the events set forth in the table, the named

## Table of Contents

executive officers would not have been able to gain any liquidity as of September 27, 2013 from any of the stock they would receive upon exercising vested options.

- (2) Represents unvested stock options, restricted stock and restricted stock units that would vest upon the occurrence of the specified event. Calculations with regard to stock options, restricted stock and restricted stock units are based upon the most recent appraisal price of our common stock (\$16.88) as of September 27, 2013.
  - (a) Only Mr. Sutherland has attained the eligible retirement age of 60 under the 2007 Stock Plan. Therefore, the accelerated vesting for equity awards on retirement would apply only to Mr. Sutherland.
  - (b) In the case of death or disability of any named executive officer, amounts were calculated assuming that all time-based options, restricted stock and restricted stock units scheduled to vest in fiscal 2014 vest and the performance-based options granted in 2009, 2010, 2011 and 2012 that were scheduled to vest based upon the achievement of the 2013 EBIT target would vest.
  - (c) Unvested stock option amounts (which apply to options not yet vested) on a change of control for named executive officers assume that unvested performance-based options scheduled to vest based upon the achievement on the 2013 EBIT target that were granted in 2009 and 2010 vest at a rate of 50%, which is the blended achieved rate for the vesting of performance-based stock options based on the 2010, 2011, 2012 and 2013 EBIT targets. Stock option amounts on a change of control for named executive officers assume that unvested performance-based options scheduled to vest based upon the achievement on the 2013 EBIT target that were granted in 2011 vest at a rate of 67%, which is the achieved rate for the vesting of performance-based stock options based on the 2011, 2012 and 2013 EBIT targets. Stock option amounts on a change of control for named executive officers assume that unvested performance-based options scheduled to vest based upon the achievement on the 2013 EBIT target that were granted in 2012 vest at a rate of 50% (except for Mr. Reynolds, whose options have as the first target the 2013 EBIT target and would vest at 100%), which is the achieved rate for the vesting of performance-based stock options based on the 2012 and 2013 EBIT targets. Assumes that other events that would trigger vesting of performance-based options do not occur, including the achievement of a return or internal rate of return by our Sponsors. See “Grants of Plan Based Awards for Fiscal Year 2013” and “Narrative Disclosure to Summary Compensation Table and Grants of Plan Based Awards Table.” Unvested time based stock options, restricted stock and restricted stock units would become fully vested upon a change of control and such full vesting is reflected in the table.
- (3) The following assumptions were used in our calculation of the cost of perquisites in connection with termination of employment: a 5% increase annually for health insurance premiums, dental insurance premiums, vision insurance premiums and excess health, with 2013 used as the base year, and no increase annually for life and accident insurance premiums.
- (4) Includes amounts payable under the Survivor Income Protection Plan (for Mr. Sutherland and Ms. McKee), various term life insurance policies and accidental death and dismemberment policies for which we pay all or part of the premium, which amounts are reflected in the “Summary Compensation Table.”
- (5) For Mr. Foss, the “Termination Without Cause” column means termination without cause or resignation for Good Reason (as defined in his employment arrangements) prior to a change of control.
- (6) Cash payments and perquisites included in this column will only be paid to or received by the named executive officers if they are terminated following the change of control.
- (7) Included in Mr. Foss’ perquisites: (a) in the case of termination without cause, are basic medical and life insurance coverage and a car allowance over a 24-month severance period; and (b) in the case of a change of control, are health care, accident, disability and survivor insurance premiums for two years and a car allowance for 24-months, as well as outplacement benefits of 20% of his base salary for 24 months. Mr. Foss would incur excise tax if a change of control of the Company had occurred on September 27, 2013, as his payout would be considered a parachute payment. He is not entitled to a 280G gross up, but under the terms of his employment agreement, if his payout on a change of control would be considered a parachute payment, we would reduce his payments if that reduction (to avoid the excise tax) would result in him receiving a greater after tax amount than he would have received had he been paid the full amount and then paid the excise tax. If Mr. Foss would receive a greater after tax amount if his payout were cut back to avoid the excise tax, his payments on change of control would be reduced. In the event that Mr. Foss’

## Table of Contents

payments were considered parachute payments, the Company would lose the tax deduction for all amounts it paid to Mr. Foss above the “base amount” as defined in the Internal Revenue Code.

- (8) (a) Only Mr. Sutherland has attained the eligible retirement age of 60 under the 2007 Stock Plan. Therefore, the accelerated vesting for equity awards on retirement would apply only to Mr. Sutherland.
- (b) Included in the amount paid to Mr. Sutherland over time upon a change of control is \$2,835,974 which is the gross up amount to compensate him for excise tax imposed.
- (c) Included in Mr. Sutherland’s perquisites: (i) in the case of termination without cause, are basic medical and life insurance coverage and a car allowance over an 18-month severance period; and (ii) in the case of a change of control, are health care, accident, disability and survivor insurance premiums for two years, a car allowance for eighteen months and outplacement benefits of 20% of his base salary.
- (9) (a) Included in the amount paid to Ms. McKee over time upon a change of control is \$2,190,346 which is the gross up amount to compensate her for excise tax imposed.
- (b) Included in Ms. McKee’s perquisites: (i) in the case of termination without cause, are basic life insurance coverage and a car allowance over an 18-month severance period; and (ii) in the case of a change of control, are health care, accident, disability and survivor insurance premiums for two years, a car allowance for 18 months, as well as outplacement benefits of 20% of her base salary.
- (10) (a) Mr. Reynolds would incur excise tax if a change of control of the Company had occurred on September 27, 2013, as his payout would be considered a parachute payment. He is not entitled to a 280G gross up, but under the terms of his employment agreement, if his payout on a change of control would be considered a parachute payment, we would reduce his payments if that reduction (to avoid the excise tax) would result in him receiving a greater after tax amount than he would have received had he been paid the full amount and then paid the excise tax. If Mr. Reynolds would receive a greater after tax amount if his payout were cut back to avoid the excise tax, his payments on change of control would be reduced. In the event that Mr. Reynolds’ payments were considered parachute payments, the Company would lose the deduction for all amounts it paid to Mr. Reynolds’ above the “base amount” as defined in the Internal Revenue Code.
- (b) Included in Mr. Reynolds’ perquisites: (i) in the case of termination without cause, are basic medical and life insurance coverage and a car allowance over a 12-month severance period; and (ii) in the case of a change of control, are health care, accident, disability and survivor insurance premiums for two years, a car allowance for 12 months, and outplacement benefits of 20% of his base salary.
- (11) Included in Ms. Morrison’s perquisites, in the case of termination without cause, are basic medical and life insurance coverage and receipt of a car allowance over a 26-week severance period.

### ***Amended and Restated Senior Executive Performance Bonus Plan***

In connection with this offering, on November 12, 2013, the Board of Directors adopted, and the stockholders approved, the Amended and Restated ARAMARK Holdings Corporation Senior Executive Performance Bonus Plan (the “Amended Performance Bonus Plan”). The Amended Performance Bonus Plan is intended to provide for annual bonus awards for the Chief Executive Officer and other senior executives designated by the compensation committee administering the plan. The compensation committee will administer the plan and establish in writing the amount of the bonus award and the performance measure or measures for each participant not later than 90 days after the beginning of any performance period (or prior to the expiration of 25% of the performance period, if the performance period is less than 12 months). The Amended Performance Bonus Plan will be effective through the first meeting of the stockholders of the Company occurring in 2017. The compensation committee may amend the Amended Performance Bonus Plan from time to time as it deems desirable; provided, that no such amendment may, without stockholder approval, increase the scope of the group of employees who may receive compensation, change the permitted performance measures, increase the maximum bonus award payable or make any other change requiring further stockholder approval under Section 162(m).

The bonus award will be based on the attainment of target levels of, a targeted percentage increase in, or, to the extent permitted under Section 162(m), solely the achievement of, one or more of the following measures

## [Table of Contents](#)

(which may be expressly modified by the compensation committee with respect to the relevant performance period): (1) earnings before interest and taxes, (2) return on net assets, (3) net income, (4) after tax return on investment, (5) sales, (6) revenues, (7) earnings per share, (8) total shareholder return, (9) return on equity, (10) return on investment, (11) total business return, (12) return on gross investment, (13) operating cash flow, (14) free cash flow, (15) operating income, (16) pretax income or (17) stock price appreciation. The measures may be based on our absolute performance or our performance relative to a peer group or other external measure of selected performance. In all events, the performance measures will be established in a manner intended to comply with the requirements of Section 162(m).

A participant in the Amended Performance Bonus Plan is only entitled to the award if the performance goals are attained and if such participant is employed by the Company or one of its subsidiaries on the last day of the applicable performance period. An award pursuant to the Amended Performance Bonus Plan is payable in the form of cash or settled shares of common stock, restricted stock units that are settled in common stock or a combination thereof, with any stock-based awards settled under the 2013 Stock Plan. The maximum bonus payment for any participant in respect of any performance period that is established as the fiscal year of the Company under the Amended Performance Bonus Plan is \$6,000,000. In addition, the compensation committee may, in its discretion, pay to any participant under the Amended Performance Bonus Plan an additional, discretionary bonus award in respect of any performance period, whether or not based on achievement of performance measures in an amount not to exceed \$6,000,000 to any participant in any one fiscal year.

### ***Fifth Amended and Restated 2007 Management Stock Incentive Plan***

We established the 2007 Stock Plan, which became effective on January 25, 2007, as amended and restated from time to time. In connection with this offering, on November 12, 2013, our board of directors adopted, and our stockholders approved, the fifth amendment and restatement of the 2007 Stock Plan, to be effective December 1, 2013. The purpose of the 2007 Stock Plan was to further our growth and success by enabling directors, employees and consultants of the Company and its affiliates to acquire shares of our common stock thereby increasing their personal interest in such growth and success and to provide a means of rewarding outstanding performance by such persons to the Company and its affiliates. Prior to the effective date of this offering, the Company granted awards under the 2007 Stock Plan to directors and employees of, or consultants to, the Company or any of its affiliates, which awards included nonqualified stock options, restricted shares of common stock, the opportunity to purchase shares of common stock, and other stock-based awards. Other than certain grants expected to be made in connection with the offering, shortly after the consummation of this offering, no further awards will be granted under the 2007 Stock Plan.

*Share Reserve.* Subject to the adjustment provisions in the 2007 Stock Plan described further below, the aggregate number of shares of Common Stock reserved under the 2007 Stock Plan is 55,797,497. To the extent an award is forfeited, cancelled, redeemed, terminated or expires unexercised, the number of shares of Common Stock subject to such award would become available again for grant under the 2007 Stock Plan, if any future grants were to be contemplated under the 2007 Stock Plan. Shares of Common Stock that are used to pay the exercise price of an award or to satisfy tax withholding obligations, including shares redeemed as part of a “net exercise” settlement, would also become available for future grants under the 2007 Stock Plan.

*Eligibility.* Prior to the effective date of this offering, awards were granted only to directors and employees of, or consultants to, the Company or any of its affiliates on the date of the grant. The compensation committee, a sub-committee or other committee of our board of directors appointed pursuant to the 2007 Stock Plan or our board of directors (such committee, the “2007 Plan Committee”) is authorized to determine eligibility of particular persons who will receive awards.

*Administration.* The 2007 Stock Plan is administered by the 2007 Plan Committee. The 2007 Plan Committee is authorized to approve the forms of award agreements, construe and interpret the 2007 Stock Plan and any award agreement, make factual determinations, further define the terms used in the 2007 Stock Plan, and prescribe, amend and rescind rules and regulations relating to the administration of the 2007 Stock Plan. The

## [Table of Contents](#)

2007 Plan Committee may also cancel, modify, waive, terminate, accelerate, extend the exercisability or extend the term of any or all outstanding awards, subject to any consent required under the 2007 Stock Plan, and make all other determinations and take such other action as contemplated by or as may be necessary or advisable for the administration of the 2007 Stock Plan, other than the amendment of any Plan provision, which power and authority shall be held by our board of directors and, to the extent applicable, subject to the Stockholders Agreement.

*Options.* Prior to the effective date of this offering, the 2007 Plan Committee determined whether and to what extent any options were subject to vesting based upon the participants continued service to the Company and its subsidiaries, and/or upon any other basis. The 2007 Plan Committee also determined the exercise price for each option, except that the option must have had an exercise price that was at least equal to the fair market value per share on the date the option was granted.

An option holder may exercise an option granted under the 2007 Stock Plan and pay the option price, to the extent permitted by applicable law and subject to the provisions of the 2007 Stock Plan, (1) in cash, (2) by surrender of shares of common stock with fair market value equal to the option price, (3) pursuant to a net exercise arrangement where a number of shares with a fair market value equal to the exercise price are withheld by us in satisfaction of the exercise price, or (4), in compliance with any cashless exercise program under the 2007 Stock Plan at the time of such exercise.

*Other Stock-Based Awards.* Prior to the effective date of this offering, the 2007 Plan Committee could, subject to the Stockholders Agreement and the reserved shares limit, grant or sell awards of shares, including awards of restricted stock, purchased stock, and awards that are valued in whole or in part by reference to, or are otherwise based on fair market value of shares, including awards of deferred stock units or restricted stock units. The 2007 Plan Committee also determined terms and conditions of such other stock based awards including, without limitation, vesting conditions, to whom and when other stock-based awards will be made, the number of shares to be awarded and whether such awards may be settled in cash, shares or a combination of cash and shares.

*Adjustments Upon Certain Events.* In the event of a stock dividend, stock split, reverse stock split, share combination, or recapitalization or similar event affecting the capital structure of the Company, an extraordinary cash dividend, separation, spin-off or a reorganization, or a merger, consolidation, acquisition of property or shares, stock rights offering, liquidation, disaffiliation, or similar event affecting the Company or any of its subsidiaries, the 2007 Plan Committee will act in good faith and make appropriate and equitable substitutions or adjustments, as applicable, to (A) the aggregate number and kind of shares or other securities reserved for issuance and delivery under the 2007 Stock Plan, (B) the number and kind of shares or other securities subject to outstanding awards; (C) performance metrics and targets underlying outstanding awards; and (D) the option exercise price of outstanding options. In the case of a corporate transaction that does not constitute a change of control of us (“Change of Control”), the 2007 Plan Committee will act in good faith and make appropriate and equitable substitutions or adjustments which may include, without limitation, (1) the cancellation of outstanding awards in exchange for the same amount and kind of consideration, in the same proportion, as that received by each of our sponsors; and (2) the substitution of other property for the shares subject to outstanding awards.

In the case of a corporate transaction that does constitute a Change of Control, unless a participant agrees otherwise with respect to his own awards, then all outstanding awards will be cancelled in exchange for, on a per share basis, the same amount and kind of consideration, in the same proportion as that received by each of our sponsors.

In the event of an extraordinary cash distribution on our shares, the option exercise price of such option will be reduced by the amount of such cash distribution, but only to the extent permitted without subjecting such option to tax under Section 409A of the Internal Revenue Code. If the adjustment amount exceeds the reduction permitted without subjecting such option to Section 409A of the Internal Revenue Code, then, if and when the option becomes a vested option, the holder thereof may receive, in addition to the shares subject to such option, an amount in cash or in the form of additional shares having a value equal to such excess.

## [Table of Contents](#)

*Limitations on Transferability.* Generally, awards granted under the 2007 Stock Plan are not assignable or otherwise transferable, except by designation of a beneficiary in compliance with any applicable laws, by will or by the laws of descent and distribution.

*Amendment and Termination.* The 2007 Stock Plan may be modified or amended in any respect by our board of directors or by the 2007 Plan Committee with the prior approval of our board of directors, except that the 2007 Stock Plan may not be modified or amended as it pertains to any existing award agreement without the consent of an applicable participant where such modification or amendment would materially impair the rights of such participant. In addition, no such amendment may be made without the approval of the Company's stockholders to the extent such approval is required by applicable law or regulation or the listing standards of the securities exchange, which is, at the applicable time, the principal market for our common stock.

### **2013 Stock Incentive Plan**

In connection with this offering, on November 12, 2013, our board of directors adopted, and our stockholders approved, the ARAMARK Holdings Corporation 2013 Stock Incentive Plan, or the 2013 Stock Plan, to be effective December 1, 2013.

*Purpose.* The purpose of the 2013 Stock Plan is to provide a means through which to attract and retain key personnel and to provide a means whereby our current and prospective directors, officers, employees, consultants and advisors can acquire and maintain an equity interest in us, or be paid incentive compensation, which may (but need not) be measured by reference to the value of our common stock, thereby strengthening their commitment to our welfare and aligning their interests with those of our stockholders.

*Administration.* The 2013 Stock Plan will be administered by the compensation committee of our board of directors, a sub-committee or other committee of our board of directors as may be appointed pursuant to the 2013 Stock Plan or our board of directors (as applicable, the "2013 Plan Committee"). The 2013 Plan Committee has the sole and plenary authority to establish the terms and conditions of any award and any amendments thereto consistent with the provisions of the 2013 Stock Plan. The 2013 Plan Committee is authorized to interpret, administer, reconcile any inconsistency in, correct any defect in and/or supply any omission in the 2013 Stock Plan and any instrument or agreement relating to, or any award granted under, the 2013 Stock Plan; establish, amend, suspend, or waive any rules and regulations and appoint such agents as the 2013 Plan Committee deems appropriate for the proper administration of the 2013 Stock Plan; accelerate the vesting or exercisability of, payment for or lapse of restrictions on awards; and to make any other determination and take any other action that the 2013 Plan Committee deems necessary or desirable for the administration of the 2013 Stock Plan.

*Shares Subject to the 2013 Stock Plan.* The 2013 Stock Plan provides that the total number of shares of common stock that may be issued under the 2013 Stock Plan is 25,500,000. Of this amount, no more than 2,000,000 shares of common stock may be issued upon the exercise of incentive stock options; no more than 2,000,000 shares of common stock issuable upon the exercise of options or stock appreciation rights may be granted to any single participant during any calendar year; no more than 800,000 shares of common stock may be earned by any single participant in respect of a single calendar year during a performance period or in the event any such award is paid in cash, other securities or other property, no more than the fair market value of 800,000 shares of common stock on the last day of the performance period to which such award relates; and the maximum amount that can be paid to any single Participant in any one calendar year pursuant to a cash bonus award is \$8,000,000. To the extent an award is forfeited, cancelled, redeemed, terminated or expires unexercised, the number of shares of common stock subject to such award will become available again for grant under the 2013 Stock Plan. Shares of common stock that are used to pay the exercise price of an award or to satisfy tax withholding obligations, including shares redeemed as part of a "net exercise" settlement, will become available for future grant under the 2013 Stock Plan.

Awards may, in the sole discretion of the 2013 Plan Committee, be granted in assumption of, or in substitution for, outstanding awards previously granted by an entity acquired by us or with which we combine

## [Table of Contents](#)

(referred to as “substitute awards”). The number of shares of common stock underlying any substitute awards will not be counted against the total number of shares of common stock available for awards under the 2013 Stock Plan. No award may be granted under the 2013 Stock Plan during any suspension of the 2013 Stock Plan or after the tenth anniversary of the effective date (as defined therein), but awards theretofore granted may extend beyond that date.

*Options.* The 2013 Plan Committee may grant non-qualified stock options and incentive stock options, under the 2013 Stock Plan. All stock options granted under the 2013 Stock Plan are required to have a per share exercise price that is not less than 100% of the fair market value of our common stock underlying such stock options on the date the option is granted, and all stock options that are intended to qualify as incentive stock options must be granted pursuant to an award agreement expressly stating that the option is intended to qualify as an incentive stock option, and will be subject to the terms and conditions that comply with the rules as may be prescribed by Section 422 of the Internal Revenue Code. The maximum term for stock options granted under the 2013 Stock Plan will be ten years from the initial date of grant, or five years with respect to any stock options intended to qualify as incentive stock options granted to a participant who owns stock representing more than 10% of the voting power of all classes of stock of us or any of our affiliates.

The purchase price for the shares as to which a stock option is exercised may be paid to us, to the extent permitted by law and subject to the limitations set forth in the 2013 Stock Plan: (i) in cash, (ii) by surrender of shares of common stock having a fair market value equal to the aggregate exercise price for the shares being purchased, (iii) through a “net exercise” arrangement where a number of shares with a fair market value equal to the exercise price is withheld by us in satisfaction of the exercise price and tax withholding obligations; (iv) in other property having a fair market value on the date of exercise equal to the purchase price; (v) through the delivery of irrevocable instructions to a broker to sell the shares being acquired upon the exercise of the stock option and to deliver to us the amount of the proceeds of such sale equal to the aggregate exercise price for the shares being purchased, or (vi) a combination of the foregoing methods. Any fractional shares of common stock will be settled in cash.

*Stock Appreciation Rights.* The 2013 Plan Committee may grant stock appreciation rights under the 2013 Stock Plan. Generally, each stock appreciation right will entitle the participant upon exercise to an amount (in cash, shares or a combination of cash and shares, as determined by the 2013 Plan Committee) equal to the product of (i) the excess of (A) the fair market value on the exercise date of one share of common stock, over (B) the strike price per share, times (ii) the numbers of shares of common stock covered by the stock appreciation right being exercised. The strike price per share of a stock appreciation right granted in tandem with an option will be the exercise price of the related option and in the case of a stock appreciation right granted independent of an option, the fair market value on the date of grant (other than in the case of stock appreciation rights granted in substitution of previously granted awards).

*Restricted Shares and Restricted Stock Units.* The 2013 Plan Committee may grant restricted shares of our common stock or restricted stock units, representing the right to receive, upon the expiration of the applicable restricted period, one share of common stock for each restricted stock unit, or, if provided in a restricted stock unit award agreement, in the sole discretion of the 2013 Plan Committee, the cash value thereof (or any combination thereof). As to restricted shares of our common stock, subject to the other provisions of the 2013 Stock Plan, the holder will generally have the rights and privileges of a stockholder as to such restricted shares of common stock, including without limitation the right to vote such restricted shares of common stock. A holder of restricted stock units will have no rights as a stockholder until such time as the award has vested and any other applicable conditions and/or criteria have been satisfied and the shares of common stock underlying the award have been issued to the holder.

*Stock Bonus Awards.* The 2013 Plan Committee may issue unrestricted common stock, or other awards denominated in shares of common stock, either alone or in tandem with other awards, under the 2013 Stock Plan.

## [Table of Contents](#)

*Deferred Stock Units.* The 2013 Plan Committee may grant deferred stock units under the 2013 Stock Plan. Generally, each deferred stock unit will entitle the holder thereof to receive one share of common stock on the date the deferred stock unit becomes vested or upon a specified settlement date thereafter (which settlement date may, but is not required to, be the date of the participant's termination of relationship). A holder of deferred stock units will have no rights as a stockholder until such time as the award has vested and any other applicable conditions and/or criteria have been satisfied and the shares of common stock underlying the award have been issued to the holder.

*Dividend Equivalents.* The 2013 Plan Committee may grant dividend equivalents based on dividends declared on the common stock, to be credited as of the dividend payment dates during the period between the date an award is granted to a participant and the date such award vests, is exercised, is distributed or expires, as determined by the 2013 Plan Committee. Such dividend equivalents will be converted to cash, additional awards or additional shares of common stock by such formula and at such time and subject to such limitations as may be determined by the 2013 Plan Committee.

*Performance Compensation Awards.* The 2013 Plan Committee may also designate any award as a "performance compensation award" intended to qualify as "performance-based compensation" under Section 162(m) of the Internal Revenue Code. The 2013 Plan Committee also has the authority to make an award of a cash bonus to any participant and designate such award as a performance compensation award under the 2013 Stock Plan. The 2013 Plan Committee has sole discretion to select the length of any applicable performance periods, the types of performance compensation awards to be issued, the applicable performance criteria and performance goals, and the kinds and/or levels of performance goals that are to apply. The performance criteria that will be used to establish the performance goals will be based on the attainment of target levels of, a targeted percentage increase in, or, to the extent permitted under Section 162(m) of the Internal Revenue Code, solely the achievement of, one or more of the following Company or business group measures (which may be expressly modified by the 2013 Plan Committee with respect to the relevant performance period): (i) earnings before interest and taxes, (ii) return on net assets, (iii) net income, (iv) after tax return on investment, (v) sales, (vi) revenues, (vii) earnings per share, (viii) total shareholder return, (ix) return on equity, (x) return on investment, (xi) total business return, (xii) return on gross investment, (xiii) operating cash flow, (xiv) free cash flow, (xv) operating income, (xvi) pretax income or (xvii) stock price appreciation. The measures may be based on our absolute performance or our performance relative to a peer group or other external measure of selected performance. The 2013 Plan Committee also has the authority to provide for accelerated vesting of any award based on the achievement of performance goals pursuant to the performance criteria specified above. To the extent required under Section 162(m) of the Internal Revenue Code, the 2013 Plan Committee will, within the first ninety (90) days of a performance period (or, if longer or shorter, within the maximum period allowed under Section 162(m) of the Internal Revenue Code), define in an objective fashion the manner of calculating the performance criteria it selects to use for such performance period and thereafter promptly communicate such performance criteria to the participant and record them in writing.

*Change in Capital Structure and Similar Events.* In the event of (a) any dividend, extraordinary cash dividend or other distribution (whether in the form of securities or other property), recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, split-off, combination, repurchase or exchange of our shares of common stock or other securities, issuance of warrants or other rights to acquire our shares of common stock or other securities, or other similar corporate transaction or event (including, without limitation, a change of control, as defined in the 2013 Stock Plan) that affects the shares of common stock, or (b) unusual or nonrecurring events (including, without limitation, a change of control) affecting us, any of our affiliates, or the financial statements of us or any of our affiliate, or changes in applicable rules, rulings, regulations or other requirements of any governmental body or securities exchange or inter-dealer quotation system, accounting principles or law, such that in either case an adjustment is determined by the 2013 Plan Committee in its sole discretion to be necessary or appropriate, then the 2013 Plan Committee must make any such adjustments in such manner as it may deem equitable, including without limitation, any or all of: (i) adjusting any or all (A) the number of our shares of common stock or other securities which may be delivered in respect of awards or with

respect to which awards may be granted under the 2013 Stock Plan and (B) the terms of any outstanding award, including, without limitation, (1) the number of shares of common stock subject to outstanding awards or to which outstanding awards relate, (2) the exercise price or strike price with respect to any award or (3) any applicable performance measures; (ii) providing for a substitution or assumption of awards, accelerating the exercisability of, lapse of restrictions on, or termination of, awards or providing for a period of time for participants to exercise outstanding awards prior to the occurrence of such event; and (iii) cancelling any one or more outstanding awards and causing to be paid to the holders, in cash, shares of common stock, other securities or other property, or any combination, the value of such awards, if any, as determined by the 2013 Plan Committee (which if applicable may be based upon the price per share of common stock received or to be received by other stockholders of the Company in such event), including without limitation, in the case of options and stock appreciation rights, a cash payment equal to the excess, if any, of the fair market value of the shares of common stock subject to the option or stock appreciation right over the aggregate exercise price thereof.

*Effect of Change of Control.* Except to the extent otherwise provided in an award agreement, in the event of (i) the occurrence of a change of control of us (“Change of Control”) and (ii) thereafter, there is a termination of relationship of a participant by us without cause or by the participant for good reason (if applicable) that occurs prior to the second anniversary of the date of such Change of Control, then notwithstanding any provision of the 2013 Stock Plan to the contrary, with respect to all or any portion of the participant’s outstanding award or awards: (a) the then outstanding options and stock appreciation rights will become immediately exercisable on the date of the termination of relationship ; (b) the period of restriction applicable to awards will expire as on the date of the termination of relationship (including without limitation a waiver of any applicable performance goals); (c) performance periods in effect on the date the termination of relationship will end on such date, and all applicable performance goals will be deemed to have been achieved at the applicable “target” levels of performance; and (d) all awards that have been previously deferred to be settled in full as soon as practicable, but if and only if, with respect to an award which provides for the deferral of compensation and is subject to Section 409A of the Internal Revenue Code, (I) such termination of relationship occurs prior to the second anniversary of the Change of Control and (II) such settlement does not contradict any pre-existing deferral election under any other plan, program or arrangement of the Company or any of its Affiliates then in effect.

*Nontransferability of Awards.* An award will not be transferable or assignable by a participant except by will or by the laws of descent and distribution and any such purported assignment, alienation, pledge, attachment, sale, transfer or encumbrance will be void and unenforceable against us or any affiliate. However, the 2013 Plan Committee may, in its sole discretion, permit awards (other than incentive stock options) to be transferred, including transfer to a participant’s family members, any trust established solely for the benefit of participant or such participant’s family members, any partnership or limited liability company of which participant, or participant and participant’s family members, are the sole member(s), and a beneficiary to whom donations are eligible to be treated as “charitable contributions” for tax purposes.

*Amendment and Termination.* Our board of directors may amend, alter, suspend, discontinue, or terminate the 2013 Stock Plan or any portion thereof at any time, except that no such amendment, alteration, suspension, discontinuation or termination may be made without stockholder approval if (i) such approval is necessary to comply with any applicable tax or regulatory requirement (including the rules or requirements of any securities exchange or inter-dealer quotation system on which our shares may be listed). In addition, any such amendment, alteration, suspension, discontinuance or termination that would materially and adversely affect the rights of any participant or any holder or beneficiary of any award will not to that extent be effective without such individual’s consent.

*Plan Duration and 162(m) Approval.* The 2013 Stock Plan will expire on the tenth anniversary of the effective date of the plan, and no awards may be granted after such expiration, but the terms of the 2013 Stock Plan will continue to apply to previously granted awards. If determined by the 2013 Plan Committee, the 2013 Stock Plan will be approved by stockholders of the Company no later than the first meeting of stockholders at

which directors are to be elected that occurs after the close of the third calendar year following the calendar year in which the effective date of this offering occurs, in order for certain awards granted after such time to be exempt from deduction limitations of Section 162(m) of the Internal Revenue Code.

*Claw-back Provisions.* All awards (including any proceeds, gains or other economic benefit actually or constructively received by the participant in respect of such awards) will be subject to the provisions of any claw-back policy implemented by the Company or set forth in the applicable award agreement, including, without limitation, any claw-back policy adopted to comply with the requirements of applicable law, such as the Dodd-Frank Wall Street Reform and Consumer Protection Act.

### **Director Compensation**

#### *Annual Cash Compensation for Board Service*

Each non-employee, non-Sponsor director receives \$100,000 annually for service on the board, payable quarterly in arrears. The chairman of the Audit Committee is eligible to receive an additional annual retainer of \$20,000, the chairman of the Compensation Committee is eligible to receive an additional annual retainer of \$15,000 and the chairmen of the Nominating and Corporate Governance Committee and the Finance Committee are eligible to receive an additional annual retainer of \$10,000, provided, in each case, that such committee chairmen are non-employee, non-Sponsor directors. Mr. Ksansnak currently is the only committee chairman who receives an additional annual retainer (\$20,000), since he is the only non-employee, non-sponsor director who chairs a standing committee. In the first quarter of fiscal 2013, Messrs. Babbio (Finance Committee), Robert J. Callander (Compensation Committee), Kean (Nominating Committee) and Ksansnak (Audit Committee) each received additional fees for chairing board committees.

Following the offering, each member of the board who is not an employee of the Company will be entitled to receive an annual cash retainer of \$100,000, including the Sponsor directors. Following the offering, the Nominating and Corporate Governance Committee chairman will be entitled to receive an annual cash retainer of \$15,000, rather than the current annual cash retainer of \$10,000. While Sponsor directors will become eligible to receive annual board retainer fees following the offering, they will not be eligible for committee chair fees.

#### *Annual Deferred Stock Unit Grant*

Each non-employee, non-Sponsor director received an annual grant of \$100,000 worth of deferred stock units (“DSUs”) under the 2007 Stock Plan, which vest immediately upon grant. DSUs granted in fiscal 2013 are deliverable to a director in shares of our common stock six months after his service as a director terminates.

Beginning in February 2014, each member of the board who is not an employee of the Company will receive an annual grant of \$125,000 worth of DSUs under the 2013 Stock Plan. These DSUs will vest on the first anniversary of the date of grant, subject to the director’s continued service on the board of directors through the vesting date, and will be settled in shares of the Company’s common stock on the first day of the seventh month following termination of service. Directors who are appointed to the board during the year will be entitled to a prorated DSU grant.

#### *Director Deferred Compensation Plan*

Prior to our 2007 Transaction, our non-employee directors could participate in our Deferred Compensation Plan for Directors, electing to receive all or part of an annual cash retainer in the form of deferred shares and/or deferred cash. We credit amounts deferred with interest at the Moody’s Long Term Corporate Baa Bond Index rate for October of the previous year; which was 4.58% beginning January 1, 2013. From September 29, 2012 until December 31, 2012, we credited amounts deferred with an interest rate equal to 5.37%. This plan was frozen in 2007 and only Governor Kean retains a balance, which accrues interest.

### *Health and Welfare Premiums*

Current non-employee, non-Sponsor directors are eligible to participate in the Company's health and welfare programs, for which the Company pays a portion of the premiums. The Company discontinued providing the benefit for new directors in May 2012, but grandfathered the benefit for then-serving non-employee, non-Sponsor directors who continue to serve on our board.

Effective December 31, 2013, non-employee, non-Sponsor directors will no longer be eligible to participate in the Company's health and welfare plans.

### *Non-Employee, Non-Sponsor Directors*

The following table sets forth compensation information for our non-employee, non-Sponsor directors in fiscal 2013. Mr. Callander retired from our Board effective January 1, 2013 and Governor Kean did not stand for re-election in November 2013.

## PRINCIPAL AND SELLING STOCKHOLDERS

The following table sets forth information with respect to the beneficial ownership, as of November 15, 2013, of (i) each individual or entity known by us to own beneficially more than 5% of the shares of our common stock, (ii) each of our named executive officers, (iii) each of our directors and (iv) all of our directors and executive officers as a group. As of November 15, 2013, we had approximately 363 holders of record.

The amounts and percentages of shares beneficially owned are reported on the basis of SEC regulations governing the determination of beneficial ownership of securities. Under SEC rules, a person is deemed to be a “beneficial owner” of a security if that person has or shares voting power or investment power, which includes the power to dispose of or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which that person has a right to acquire beneficial ownership within 60 days. Securities that can be so acquired are deemed to be outstanding for purposes of computing such person’s ownership percentage, but not for purposes of computing any other person’s percentage. Under these rules, more than one person may be deemed to be a beneficial owner of the same securities and a person may be deemed to be a beneficial owner of securities as to which such person has no economic interest.

Except as otherwise indicated in the footnotes below, each of the beneficial owners has, to our knowledge, sole voting and investment power with respect to the indicated shares. Unless otherwise noted, the address of each beneficial owner is ARAMARK Holdings Corporation, ARAMARK Tower, 1101 Market Street, Philadelphia, Pennsylvania 19107.

### **Stockholder Arrangements**

#### ***Stockholders Agreement***

In connection with the 2007 Transaction, we entered into a stockholders agreement with Mr. Neubauer, the Sponsors and other management participants, which agreement will be amended and restated in connection with this offering (as so amended, the “Stockholders Agreement”). The Stockholders Agreement contains agreements among the parties with respect to the nomination and election of directors, restrictions on the transfer of shares, informational rights, corporate opportunities, and certain other corporate governance provisions.

Under the Stockholders Agreement, each of GS Capital Partners, CCMP Capital Advisors, Thomas H. Lee Partners, L.P. and Warburg Pincus is entitled to select for nomination one person to serve on our board of directors, which right falls away when such Sponsor’s share ownership falls below 20% of the original share amount owned by such Sponsor. In addition, pursuant to the agreement Mr. Neubauer is entitled to serve on our board of directors for as long as he and our employees collectively own 5% or more of outstanding shares on a fully diluted basis and will serve as the chairman of the board until at least the earlier of the first annual meeting of stockholders following this offering or November 30, 2014. Management stockholders are entitled to proportionate director representation based on their aggregate share ownership and Mr. Foss serves as the management stockholders’ representative. Unless waived, a majority of the Sponsor directors and Mr. Neubauer must be present in order to constitute a quorum for purposes of any meeting of our board of directors.

Stockholders party to the Stockholders Agreement may not transfer shares except pursuant to certain exceptions set forth in the agreement, including to specifically permitted transferees, in a public offering subject to the Registration Rights Agreement (as defined below) or as otherwise approved by the coordination committee established under the Registration Rights Agreement. In addition, under the Stockholders Agreement management stockholders will generally be permitted to sell up to 50% of their shares (including shares underlying stock-based awards) commencing six months following this offering and the remainder of their shares commencing one year following this offering, in each case subject to the company’s policies. Management stockholders also may transfer shares to pay an option price or withholding tax in connection with a stock-based award. Mr. Neubauer and certain affiliated stockholders are also entitled to make certain transfers commencing in May 2014 or to cultural or academic not-for-profit institutions. The restrictions on transfer set forth in the Stockholders Agreement are in addition to those set forth in the lock-up agreements entered into in connection with this offering. See “Shares Eligible for Future Sale—Lock-Up Agreements”.

### **Registration Rights Agreement**

In connection with the 2007 Transaction, we entered into a registration rights agreement with Mr. Neubauer, the Sponsors and other management participants, which agreement will be amended and restated in connection with this offering (as so amended, the “Registration Rights Agreement”). Pursuant to the Registration Rights Agreement, these existing stockholders are entitled to participate in certain offerings of the Company’s securities registered under the Securities Act which are initiated by the Company, the Sponsors or Mr. Neubauer, subject to certain exceptions. All stockholders party to the agreement are entitled to “piggy back” rights in connection with this offering so long as any such stockholder is permitted by the Company to participate in the offering. In addition, under the agreement certain stockholders who hold more than 10% of our then-outstanding shares, or Mr. Neubauer, or the coordination committee (in the case of a “shelf” registration), have the right to require us to file a registration statement with the SEC for the resale of our common stock following the completion of this offering. The agreement provides to the Sponsors an unlimited number of “demand” registrations and provides to Mr. Neubauer two “demand” registrations. In addition, the Sponsors, Mr. Neubauer and, in certain circumstances, some members of senior management are also entitled to “piggy back” rights in subsequent offerings. In any subsequent offerings in which “piggy back” rights apply, Mr. Neubauer is entitled to participate in the offering at a participation rate two times his pro rata share as compared to the pro rata share of the Sponsors. The Registration Rights Agreement also provides that we will pay certain expenses of these stockholders relating to such registrations and indemnify them against certain liabilities which may arise under the Securities Act of 1933, as amended.

### **Financing Transactions**

We manage our exposure to interest rate changes with respect to our floating rate indebtedness through the use of interest rate swaps. Before and subsequent to the closing of the 2007 Transaction on January 26, 2007, our financial institution counterparties on these swaps have included entities affiliated with GS Capital Partners and with J.P. Morgan Partners, two of our Sponsors. As of September 27, 2013, the notional value of interest rate swaps with entities affiliated with GS Capital Partners was \$230 million and with entities affiliated with J.P. Morgan Partners was \$205 million. In all of these swaps, we pay the counterparty a fixed interest rate in exchange for their payment of a floating interest rate. The net payments to entities affiliated with GS Capital Partners and entities affiliated with J.P. Morgan Partners pursuant to interest rate swap transactions in fiscal 2013 were approximately \$3.1 million and \$5.5 million, respectively.

JP Morgan Chase Bank, N.A., an affiliate of J.P. Morgan Partners, serves as administrative agent, collateral agent and LC facility issuing bank for our Amended and Restated Credit Agreement dated as of March 26, 2010 (the “Credit Agreement”). In each of fiscal 2012 and 2013, we paid JPMorgan Chase Bank, N.A. \$200,000 for these services.

We engaged Goldman Sachs Lending Partners LLC and J.P. Morgan Securities LLC, affiliates of GS Capital Partners and J.P. Morgan Partners, respectively, as co-lead arrangers in connection with several amendments to our Credit Agreement since the beginning of fiscal 2012. Under these engagements, Goldman Sachs Lending Partners LLC and J.P. Morgan Securities LLC were each paid (i) approximately \$2.3 million on February 29, 2012 in connection with Amendment Agreement No. 2, (ii) approximately \$2.2 million on December 20, 2012 in connection Amendment Agreement No. 3 and (iii) approximately \$3.1 million in connection with Amendment Agreement No. 4. In addition, we paid approximately \$565,000 in the aggregate in legal fees related to the Amendment Agreements on behalf of these co-lead arrangers.

Goldman, Sachs & Co. and J.P. Morgan Securities LLC, affiliates of GS Capital Partners and J.P. Morgan Partners, respectively, each acted as a lead book running manager and a representative of the initial purchasers of the \$1,000 million aggregate principal amount of 5.75% Senior Notes due 2020 (the “2020 Notes”) that ARAMARK Corporation issued on March 7, 2013. Goldman, Sachs & Co. and J.P. Morgan Securities LLC were each paid \$3.6 million in connection with the offering of the 2020 Notes. The proceeds from the offering, along

with borrowings under the new term loans pursuant to Amendment Agreement No. 4, were used to tender any and all of (i) our outstanding 8.625% / 9.375% Senior Notes due 2016 (ii) ARAMARK Corporation's outstanding 8.50% Senior Notes due 2015 and (iii) ARAMARK Corporation's outstanding Senior Floating Rate Notes due 2015 (the "March 2013 Tender Offer"). Goldman, Sachs & Co. acted as a dealer manager in connection with the March 2013 Tender Offer and we paid approximately \$42,000 in legal fees in connection with this engagement on behalf of Goldman, Sachs & Co.

Goldman Sachs Lending Partners LLC is an affiliate of GS Capital Partners, and Sanjeev Mehra, Managing Director of Goldman, Sachs & Co. and a member of the board of directors of the Company. JPMorgan Chase Bank, N.A. and J.P. Morgan Securities LLC are affiliates of J.P. Morgan Partners, Stephen P. Murray, who serves on the board of directors of the Company, was employed by J.P. Morgan Partners until August 2006 and has been employed by CCMP Capital Advisors since August 2006.

### **Other Transactions**

Effective March 5, 2013, Mr. Neubauer's 1995 Trust surrendered split dollar life insurance policies it owned, in which the Company held a security interest. Pursuant to Mr. Neubauer's Split Dollar Life Insurance Agreement, prior to 2003 we paid a substantial portion of the premiums on the policies, and those amounts were required to be repaid from the proceeds of the policies upon their termination. We did not charge interest in each fiscal year on this amount, but we captured at least some of the foregone interest because we reduced the amount of the interest that would otherwise accrue on Mr. Neubauer's deferred compensation. At March 5, 2013, the effective date of the surrender of the policies, the amount of the premium repayment obligation was \$ 2,497,692. Upon the surrender of the policies, we received the amount of the premium repayment obligation and then remitted the remaining \$1,341,212 to Mr. Neubauer's 1995 Trust.

##### Senior Secured Credit Facilities

Our senior secured credit facilities currently provide:

- a total of \$4,433.7 million in term loan facilities comprised of various tranches denominated in U.S. Dollars, Canadian dollars, euros, yen and pounds sterling;

The primary borrower under the senior secured credit facilities is ARAMARK Corporation. In addition, certain subsidiaries of ARAMARK Corporation are borrowers under certain tranches of the term loan facility and/or the revolving credit facility. Holdings is not a guarantor under the senior secured credit facilities and is not subject to the covenants or obligations under the senior secured credit agreement. Following completion of this offering, it is intended that Holdings will become a guarantor under the senior secured credit facilities.

The revolving credit facility currently consists of the following subfacilities:

- a revolving credit facility available for loans in U.S. dollars to ARAMARK Corporation with aggregate commitments of \$555.0 million; and
- a revolving credit facility available for loans in Canadian dollars or U.S. dollars to ARAMARK Canada Ltd., a wholly-owned Canadian subsidiary, and ARAMARK Corporation with aggregate commitments of \$50.0 million.

### ***Interest Rate and Fees***

Borrowings under the senior secured credit facilities bear interest at a rate equal to an applicable margin plus, at our option, either (a) a LIBOR rate determined by reference to the costs of funds for deposits in the currency of such borrowing for the interest period relevant to such borrowing adjusted for certain additional costs, (b) with respect to borrowings denominated in U.S. Dollars, a base rate determined by reference to the higher of (1) the prime rate of the administrative agent, (2) the federal funds rate plus 0.50% and (3) the LIBOR rate plus 1% or (c) with respect to borrowings denominated in Canadian dollars, (1) a base rate determined by reference to the prime rate of Canadian banks or (2) a BA (bankers' acceptance) rate determined by reference to the rate offered for banker's acceptances in Canadian dollars for the interest period relevant to such borrowing.

The applicable margin spread for Canadian dollar borrowings under the revolving credit facility are 3.25% for BA (bankers' acceptance) rate borrowings and 2.25% for base rate borrowings. U.S. and Canadian swingline loans must be base rate borrowings.

In addition to paying interest on outstanding principal, we are required to pay a commitment fee to the lenders under the revolving credit facility in respect of the unutilized commitments thereunder. The commitment fee rate is 0.50% per annum.

### ***Maturity Dates***

Beginning on March 26, 2010, we began extending the maturity dates of our term loans from January 26, 2014 to July 26, 2016 through a series of amendments to our senior secured credit agreement. On December 20, 2012, we extended the maturity of approximately \$650 million of term loans, representing the remaining balance of un-extended term loans, and on March 7, 2013, we borrowed an additional \$1,400 million of term loans, which have a maturity date of September 7, 2019. The applicable margin spreads for all term loans are as follows (i) 3.50% for U.S. dollar denominated LIBOR term loan borrowings other than the term loans maturing on September 7, 2019 and Euro denominated LIBOR term loan borrowings, (ii) 2.50% for U.S. dollar denominated base rate term loan borrowings other than term loans maturing on September 7, 2019, (iii) 3.00% for the term loans maturing on September 7, 2019 borrowed at the LIBOR rate, (iv) 2.00% for the term loans maturing on September 7, 2019 borrowed at the base rate and (v) 3.50% for yen denominated term loans and sterling denominated term loans borrowings.

Beginning on March 26, 2010, we began extending the maturity dates of the deposits securing the synthetic letter of credit facility from January 26, 2014 to July 26, 2016 through a series of amendments to our senior secured credit agreement. We have extended the maturity dates for \$159.3 million of synthetic letter of credit facility deposits to July 26, 2016. The maturity dates for the remaining \$40.7 million of un-extended synthetic letter of credit facility deposits remain January 26, 2014. Fees with respect to the \$159.3 million of extended letter of credit facility deposits are 3.50%. Fees on the \$40.7 million of un-extended synthetic letter of credit facility deposits are 1.875% to 2.125% depending on ARAMARK Corporation's ratio of Consolidated Secured Debt to Covenant EBITDA, as defined in the senior secured credit agreement. The actual fees on the un-extended synthetic letter of credit facility deposits as of September 27, 2013 were 2.00%.

### ***Prepayments***

The senior secured credit agreement requires us to prepay outstanding term loans, subject to certain exceptions, with:

- 50% of ARAMARK Corporation's annual excess cash flow (as defined in the senior secured credit agreement) with stepdowns to 25% and 0% upon ARAMARK Corporation's reaching a certain senior secured leverage ratio threshold;

## [Table of Contents](#)

- 100% of the net cash proceeds of all nonordinary course asset sales or other dispositions of property subject to certain exceptions and customary reinvestment rights; and
- 100% of the net cash proceeds of any incurrence of debt, including debt incurred by any business securitization subsidiary in respect of any business securitization facility, but excluding proceeds from the receivables facilities and other debt permitted under the senior secured credit agreement.

The foregoing mandatory prepayments will be applied to the term loan facilities as directed by us. We may voluntarily repay outstanding loans under the senior secured credit facilities at any time without premium or penalty, other than customary “breakage” costs with respect to LIBOR loans. Prepaid term loans may not be reborrowed.

On March 30, 2007, June 29, 2007 and September 28, 2007, we voluntarily prepaid an additional \$40.0 million, \$300.0 million and \$50.0 million, respectively. In fiscal 2009, we voluntarily prepaid an additional \$100.0 million of outstanding term loans in anticipation of a required excess cash flow prepayment in the first quarter of fiscal year 2010. In June 2010 and September 2010, we made optional prepayments of \$150.0 million and \$150.0 million, respectively, of outstanding U.S. Dollar term loan. In September 2013, we made an optional prepayment of \$265.0 million of outstanding U.S. Dollar term loans due on July 26, 2016.

If a change of control as defined in the senior secured credit agreement occurs, this will cause an event of default under the credit agreement. Upon an event of default, the senior secured credit facilities may be accelerated, in which case we would be required to repay all outstanding loans plus accrued and unpaid interest and all other amounts outstanding under the senior credit facilities.

### ***Amortization and Maturity***

We are required to repay installments on the loans under the term loan facilities in quarterly principal amounts of 1% per annum of their funded total principal amount beginning on March 31, 2014. For term loans due on July 26, 2016, the remaining principal amount is payable on the maturity date of July 26, 2016. For term loans due on September 7, 2019, the remaining principal amount is payable on the maturity date of September 7, 2019.

Principal amounts outstanding under the revolving credit facility are due and payable in full at maturity. The final maturity date of the Canadian revolving loan commitments and \$515.0 million of the \$555.0 million U.S. revolving loan commitments is January 26, 2017, provided, however, that the maturity date accelerates to April 26, 2016 if any term loans, other than the term loans due on September 7, 2019 and any other term loans with a maturity at least 91 days after January 26, 2017, remain outstanding on April 26, 2016. The final maturity date of the remaining revolving loan commitments is January 26, 2015.

Principal amounts outstanding under the synthetic letter of credit facility are due and payable in full at maturity, on which day the commitments thereunder will terminate. The final date of maturity for \$159.3 million of synthetic letter of credit facility deposits has been extended to July 26, 2016. The final date of maturity for the \$40.7 million of un-extended synthetic letter of credit facility deposits remains January 26, 2014.

### ***Guarantee and Security***

All obligations under the senior secured credit agreement are unconditionally guaranteed by ARAMARK Intermediate Holdco Corporation and, subject to certain exceptions, substantially all of ARAMARK Corporation’s existing and future domestic subsidiaries (excluding certain immaterial and dormant subsidiaries, receivables facility subsidiaries, business securitization subsidiaries and certain subsidiaries designated by us under our senior secured credit agreement as “unrestricted subsidiaries”), referred to, collectively, as U.S. Guarantors. All obligations of each foreign borrower under the senior secured credit facilities are unconditionally guaranteed by ARAMARK Corporation, the U.S. guarantors and, subject to certain exceptions and qualifications, the respective other foreign borrowers.

## [Table of Contents](#)

All obligations under the senior secured credit facilities, and the guarantees of those obligations, are secured by substantially all of the following assets of ARAMARK Intermediate Holdco Corporation, ARAMARK Corporation and each U.S. Guarantor, subject to certain exceptions:

- a pledge of 100% of the capital stock of ARAMARK Corporation;
- 100% of the capital stock held by ARAMARK Intermediate Holdco Corporation, us or any of our domestic subsidiaries that are directly owned by us or one of the U.S. Guarantors and 100% of the capital stock of each of our existing and future foreign subsidiaries that are directly owned by us or one of the U.S. Guarantors; and
- a security interest in, and mortgages on, substantially all tangible and intangible assets of ARAMARK Intermediate Holdco Corporation, ARAMARK Corporation and each U.S. Guarantor.

### ***Certain Covenants and Events of Default***

The senior secured credit agreement contains a number of covenants that, among other things, restrict, subject to certain exceptions, ARAMARK Corporation's ability and the ability of its restricted subsidiaries to:

- incur additional indebtedness, issue preferred stock or provide guarantees;
- create liens on assets;
- engage in mergers or consolidations;
- sell assets;
- pay dividends, make distributions or repurchase our capital stock;

- make certain acquisitions;
- engage in certain transactions with affiliates;
- amend material agreements governing the senior notes (or any indebtedness that refinances the senior notes); and
- fundamentally change our business.

In addition, the senior secured credit agreement requires us to maintain the following financial covenants in connection with the revolving credit facility:

- a maximum senior secured leverage ratio; and
- maximum annual capital expenditures.

The senior secured credit agreement also contains certain customary affirmative covenants and certain events of default.

### **Senior Notes**

#### ***General***

On March 7, 2013, ARAMARK Corporation issued \$1,000 million of 5.75% Senior Notes due 2020 (the "senior notes") pursuant to the indenture, dated as of March 7, 2013 (the "Indenture"), among ARAMARK Corporation, the guarantors named therein and The Bank of New York Mellon, as trustee.

## [Table of Contents](#)

The senior notes are unsecured obligations of ARAMARK Corporation. The senior notes rank equal in right of payment to all of ARAMARK Corporation's existing and future senior debt and senior in right of payment to all of ARAMARK Corporation's existing and future debt that is expressly subordinated in right of payment to the senior notes. Each of the guarantors named in the Indenture (each a "Senior Notes Guarantor") is providing an unconditional guarantee of the senior notes which ranks equal in right of payment to all of the senior obligations of such Senior Notes Guarantor. The senior notes and the guarantees are effectively subordinated to ARAMARK Corporation's existing and future secured debt and that of the Senior Notes Guarantors, including all indebtedness under our senior secured credit facilities, to the extent of the value of the assets securing that indebtedness. The senior notes and guarantees are structurally subordinated to all of the liabilities of any of ARAMARK Corporation's subsidiaries that do not guarantee the senior notes.

Interest on the senior notes is payable on March 15 and September 15 of each year, commencing on September 15, 2013. Interest on the senior notes accrue from March 7, 2013. Interest is calculated on the basis of a 360-day year of twelve 30-day months. The senior notes mature on March 15, 2020.

### ***Optional Redemption***

Prior to March 15, 2015, ARAMARK Corporation may redeem up to 40% of the senior notes with the proceeds from one or more qualified equity offerings at a price equal to 105.750% of the principal amount of the senior notes redeemed, plus accrued and unpaid interest and additional interest, if any, to the date of redemption. In addition, at any time prior to March 15, 2015, ARAMARK Corporation may redeem all or a portion of the senior notes at a price equal to 100% of the principal amount of the senior notes redeemed plus a "make whole" premium and accrued and unpaid interest and additional interest, if any, to the date of redemption. Thereafter, ARAMARK Corporation has the option to redeem all or a portion of the senior notes at any time at the redemption prices set forth in the Indenture.

### ***Change of Control Offer***

In the event of certain types of change of control, the holders of the senior notes may require ARAMARK Corporation to purchase for cash all or a portion of their senior notes at a purchase price equal to 101% of the principal amount of such senior notes, plus accrued and unpaid interest, if any, to the date of repurchase.

### ***Covenants***

The Indenture contains covenants limiting ARAMARK Corporation's ability and the ability of its restricted subsidiaries to:

- incur additional indebtedness or issue certain preferred shares;
- pay dividends and make certain distributions, investments and other restricted payments;
- create certain liens;
- sell assets;
- enter into transactions with affiliates;
- limit the ability of restricted subsidiaries to make payments to ARAMARK Corporation;
- enter into sale and leaseback transactions;
- merge, consolidate, sell or otherwise dispose of all or substantially all of ARAMARK Corporation's assets; and
- designate ARAMARK Corporation's subsidiaries as unrestricted subsidiaries.

## [Table of Contents](#)

The Indenture also provides for events of default which, if any of them occurs, would permit or require the principal of and accrued interest on the senior notes to become or to be declared due and payable.

Holdings does not currently guarantee the senior notes and is not subject to the covenants that apply to ARAMARK Corporation or its restricted subsidiaries under the senior notes. Following completion of this offering, it is intended that Holdings will guarantee the senior notes for purposes of financial reporting, but will not become subject to any covenants under the senior notes.

### **Receivables Facility**

#### **Overview**

We have in place an agreement whereby ARAMARK Receivables, LLC (“ARAMARK Receivables”), a wholly-owned, bankruptcy-remote subsidiary of ARAMARK Corporation, purchases accounts receivable generated by certain of our operating subsidiaries using funding provided through the sale of an interest in such accounts receivable and other related assets to Wells Fargo Bank, N.A. (“Wells Fargo”) and a commercial paper conduit (the “Commercial Paper Conduit”) sponsored by Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A., New York Branch (“Rabobank”). This receivables facility provides an amount of funding up to a maximum of \$300.0 million. The availability of funding under the facility depends on the amount of receivables eligible for funding under the receivables facility and satisfaction of other customary conditions. As of September 27, 2013, we had outstanding borrowings under the receivables facility of \$300.0 million.

Availability of funding under the receivables facility depends primarily upon the outstanding accounts receivable balance of our subsidiaries that participate in the facility. Aggregate availability is determined by using a formula that reduces the gross receivables balance by factors that take into account, among other things, historical default and dilution rates, excessive obligor concentrations and average days outstanding and the costs of the facility.

The Commercial Paper Conduit may discontinue funding the receivables facility at any time for any reason. If it does, Rabobank will be obligated to fund the Commercial Paper Conduit’s proportion of the receivables facility.

Twenty-three of our subsidiaries participate in the receivables facility program all of which are domestic subsidiaries in our FSS North America segment.

#### **Interest Rates and Fees**

ARAMARK Receivables is required to pay interest on the amount of each advance forwarded by Wells Fargo at a variable rate equal to a one-month Eurodollar rate determined daily plus the applicable margin equal to 1.40%. ARAMARK Receivables is required to pay interest on the amount of each advance funded by the Commercial Paper Conduit at the quoted cost of funds for the Commercial Paper Conduit’s issuance of commercial paper plus an applicable margin equal to 1.40%. For the amount of each advance funded through Rabobank directly, the receivables facility provides funding at an applicable margin equal to 1.40%, plus, either (1) a one, two, three or six-month Eurodollar rate plus the applicable margin for revolving loans under our senior secured credit agreement, or (2) the higher of (x) Rabobank’s prime rate and (y) the federal funds effective rate plus 0.50%.

In addition, ARAMARK Receivables is required to pay a fee on the unused portion of the receivables facility of between 0.35% and 0.45% (depending on the level of used capacity) per annum.

In addition, ARAMARK Corporation acts as receivables collection agent, servicing, administering and collecting receivables transferred pursuant to the receivables facility. Under the receivables facility, ARAMARK Corporation receives an estimated monthly servicing fee of approximately 1.0% per annum of the daily average outstanding balance of the receivables under such facility, payable monthly in arrears by ARAMARK Receivables.

---

***Maturity and Termination Events***

The final maturity of the receivables facility is January 26, 2015. The receivables facility may be terminated for material breaches of representations and warranties or covenants, bankruptcies of any seller, the collection agent or the transferor, a change of control or certain cross defaults under our senior secured credit facility or other material indebtedness, among other reasons.

**Other Indebtedness**

As of September 27, 2013, we had outstanding approximately \$52.4 million of secured debt representing capital lease obligations. In addition, we had \$35.8 million of other indebtedness outstanding at September 27, 2013, consisting primarily of borrowings by certain of our foreign subsidiaries.

- the number of shares of the series, which our board of directors may, except where otherwise provided in the preferred stock designation, increase (but not above the total number of authorized shares of the class) or decrease (but not below the number of shares then outstanding);
- whether dividends, if any, will be cumulative or non-cumulative and the dividend rate of the series;
- the dates at which dividends, if any, will be payable;
- the redemption rights and price or prices, if any, for shares of the series;
- the terms and amounts of any sinking fund provided for the purchase or redemption of shares of the series;
- the amounts payable on shares of the series in the event of any voluntary or involuntary liquidation, dissolution or winding-up of the affairs of the Company;

## Table of Contents

- whether the shares of the series will be convertible into shares of any other class or series, or any other security, of the Company or any other corporation, and, if so, the specification of the other class or series or other security, the conversion price or prices or rate or rates, any rate adjustments, the date or dates as of which the shares will be convertible and all other terms and conditions upon which the conversion may be made;
- restrictions on the issuance of shares of the same series or of any other class or series; and
- the voting rights, if any, of the holders of the series.

We could issue a series of shares of preferred stock that could, depending on the terms of the series, impede or discourage an acquisition attempt or other transaction that some, or a majority, of the holders of shares of our common stock might believe to be in their best interests or in which the holders of shares of our common stock might receive a premium for your shares of common stock over the market price of the shares of common stock. Additionally, the issuance of shares of preferred stock may adversely affect the holders of shares of our common stock by restricting dividends on the shares of common stock, diluting the voting power of the shares of common stock or subordinating the liquidation rights of the shares of common stock. As a result of these or other factors, the issuance of shares of preferred stock could have an adverse impact on the market price of shares of our common stock.

### **Dividends**

The DGCL permits a corporation to declare and pay dividends out of “surplus” or, if there is no “surplus,” out of its net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year. “Surplus” is defined as the excess of the net assets of the corporation over the amount determined to be the capital of the corporation by the board of directors. The capital of the corporation is typically calculated to be (and cannot be less than) the aggregate par value of all issued shares of capital stock. Net assets equals the fair value of the total assets minus total liabilities. The DGCL also provides that dividends may not be paid out of net profits if, after the payment of the dividend, remaining capital would be less than the capital represented by the outstanding stock of all classes having a preference upon the distribution of assets.

Declaration and payment of any dividend will be subject to the discretion of our board of directors. The time and amount of dividends will be dependent upon our financial condition, operations, cash requirements and availability, debt repayment obligations, capital expenditure needs and restrictions in our debt instruments, industry trends, the provisions of Delaware law affecting the payment of distributions to stockholders and any other factors our board of directors may consider relevant.

Following completion of this offering, we intend to pay cash dividends on our common stock, subject to our compliance with applicable law, and depending on, among other things, our results of operations, financial condition, level of indebtedness, capital requirements, contractual restrictions, business prospects and other factors that our board of directors may deem relevant. In addition, our ability to pay dividends is limited by covenants in our senior secured credit agreement and our notes indenture. Future agreements may also limit our ability to pay dividends. See “Dividend Policy,” “Description of Certain Indebtedness” for restrictions on our ability to pay dividends.

### **Annual Stockholder Meetings**

Our amended and restated certificate of incorporation and our amended and restated bylaws provide that annual stockholder meetings will be held at a date, time and place, if any, as exclusively selected by our board of directors. To the extent permitted under applicable law, we may conduct meetings by remote communications, including by webcast.

We anticipate that the first annual stockholders meeting following this offering will take place in early 2015.

## **Anti-Takeover Effects of Our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws and Certain Provisions of Delaware Law**

Our amended and restated certificate of incorporation, amended and restated bylaws and the DGCL contain provisions, which are summarized in the following paragraphs, that are intended to enhance the likelihood of continuity and stability in the composition of our board of directors. These provisions are intended to avoid costly takeover battles, reduce our vulnerability to a hostile change of control and enhance the ability of our board of directors to maximize stockholder value in connection with any unsolicited offer to acquire us. However, these provisions may have an anti-takeover effect and may delay, deter or prevent a merger or acquisition of the Company by means of a tender offer, a proxy contest or other takeover attempt that a stockholder might consider in its best interest, including those attempts that might result in a premium over the prevailing market price for the shares of common stock held by stockholders.

### ***Authorized but Unissued Capital Stock***

Delaware law does not require stockholder approval for any issuance of authorized shares. However, the listing requirements of the NYSE, which would apply if and so long as our common stock remains listed on the NYSE, require stockholder approval of certain issuances equal to or exceeding 20% of the then outstanding voting power or then outstanding number of shares of common stock. Additional shares that may be used in the future may be used for a variety of corporate purposes, including future public offerings, to raise additional capital or to facilitate acquisitions.

Our board of directors may generally issue preferred shares on terms calculated to discourage, delay or prevent a change of control of the Company or the removal of our management. Moreover, our authorized but unissued shares of preferred stock will be available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, to facilitate acquisitions and employee benefit plans.

One of the effects of the existence of unissued and unreserved shares of common stock or preferred stock may be to enable our board of directors to issue shares to persons friendly to current management, which issuance could render more difficult or discourage an attempt to obtain control of the Company by means of a merger, tender offer, proxy contest or otherwise, and thereby protect the continuity of our management and possibly deprive our stockholders of opportunities to sell their shares of common stock at prices higher than prevailing market prices.

### ***Delaware Anti-Takeover Statutes***

Certain Delaware law provisions may make it more difficult for someone to acquire us through a tender offer, proxy contest or otherwise.

Section 203 of the DGCL, provides that, subject to certain stated exceptions, an “interested stockholder” is any person (other than the corporation and any direct or indirect majority-owned subsidiary) who owns 15% or more of the outstanding voting stock of the corporation or is an affiliate or associate of the corporation and was the owner of 15% or more of the outstanding voting stock of the corporation at any time within the three-year period immediately prior to the date of determination, and the affiliates and associates of such person. A corporation may not engage in a business combination with any interested stockholder for a period of three years following the time that such stockholder became an interested stockholder unless:

- prior to such time the board of directors of the corporation approved either the business combination or transaction which resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation

## [Table of Contents](#)

outstanding at the time the transaction commenced, excluding shares owned by persons who are directors and also officers and employee stock plans in which participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

- at or subsequent to such time, the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of 66-2/3% of the outstanding voting stock which is not owned by the interested stockholder.

The effect of these provisions may make a change of control of our business more difficult by delaying, deferring or preventing a tender offer or other takeover attempt that a stockholder might consider in its best interest. This includes attempts that might result in the payment of a premium to stockholders over the market price for their shares. These provisions also may promote the continuity of our management by making it more difficult for a person to remove or change the incumbent members of the board of directors.

### ***Removal of Directors; Vacancies***

Our amended and restated certificate of incorporation provides that directors may be removed with or without cause upon the affirmative vote of a majority in voting power of all outstanding shares of stock entitled to vote thereon, voting together as a single class; provided, however, at any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, less than a majority in voting power of the stock of the Company entitled to vote generally in the election of directors, directors may only be removed by the affirmative vote of holders of at least 75% in voting power of all the then-outstanding shares of stock of the Company entitled to vote thereon, voting together as a single class. In addition, our amended and restated certificate of incorporation also provides that, subject to the rights granted to one or more series of shares of preferred stock then outstanding, and any provisions of the Stockholders Agreement, any newly created directorship on the board of directors that results from an increase in the number of directors and any vacancies on our board of directors will be filled only by the affirmative vote of a majority of the remaining directors, even if less than a quorum, by a sole remaining director or by the stockholders; provided, however, at any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, less than a majority in voting power of the shares of stock of the Company entitled to vote generally in the election of directors, any newly created directorship on the board of directors that results from an increase in the number of directors and any vacancy occurring in the board of directors may, unless otherwise required by law or by resolution by the board of directors, only be filled by a majority of the directors then in office, although less than a quorum, or by a sole remaining director (and not by the stockholders).

### ***No Cumulative Voting***

Under Delaware law, the right to vote cumulatively does not exist unless the certificate of incorporation specifically authorizes cumulative voting. Our amended and restated certificate of incorporation does not authorize cumulative voting. Therefore, stockholders holding a majority in voting power of the shares of our stock entitled to vote generally in the election of directors will be able to elect all our directors.

### ***Special Stockholder Meetings***

Our amended and restated certificate of incorporation provides that special meetings of our stockholders may be called at any time only by or at the direction of the board of directors or the chairman of the board of directors; provided, however, at any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, at least a majority in voting power of the shares of stock of the Company entitled to vote generally in the election of directors, special meetings of our stockholders shall also be called by the board of directors or the chairman of the board of directors at the request of the Controlling Owners and their affiliates. Our amended and restated bylaws prohibit the conduct of any business at a special meeting other than as specified in the notice for such meeting. These provisions may have the effect of deferring, delaying or discouraging hostile takeovers, or changes in control or management of the Company.

***Requirements for Advance Notification of Director Nominations and Stockholder Proposals***

Our amended and restated bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of the board of directors or a committee of the board of directors. In order for any matter to be “properly brought” before a meeting, a stockholder will have to comply with advance notice requirements and provide us with certain information. Generally, to be timely, a stockholder’s notice must be received at our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary date of the immediately preceding annual meeting of stockholders. Our amended and restated bylaws also specify requirements as to the form and content of a stockholder’s notice. Our amended and restated bylaws allow the chairman of the meeting at a meeting of the stockholders to adopt rules and regulations for the conduct of meetings which may have the effect of precluding the conduct of certain business at a meeting if the rules and regulations are not followed. These provisions will not apply to the Controlling Owners and their affiliates so long as the Stockholders Agreement remains in effect. These provisions may also defer, delay or discourage a potential acquirer from conducting a solicitation of proxies to elect the acquirer’s own slate of directors or otherwise attempting to influence or obtain control of the Company.

***Stockholder Action by Written Consent***

Pursuant to Section 228 of the DGCL, any action required to be taken at any annual or special meeting of the stockholders may be taken without a meeting, without prior notice and without a vote if a consent or consents in writing, setting forth the action so taken, is signed by the holders of outstanding shares of stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of our stock entitled to vote thereon were present and voted, unless our amended and restated certificate of incorporation provides otherwise. Our amended and restated certificate of incorporation will preclude stockholder action by written consent at any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, less than a majority in voting power of the shares of stock of the Company entitled to vote generally in the election of directors.

***Supermajority Provisions***

Our amended and restated certificate of incorporation and amended and restated bylaws will provide that the board of directors is expressly authorized to make, alter, amend, change, add to, rescind or repeal, in whole or in part, our bylaws without a stockholder vote in any matter not inconsistent with the laws of the State of Delaware and our amended and restated certificate of incorporation. For as long as the Controlling Owners and their affiliates beneficially own, in the aggregate, at least a majority in voting power of the shares of stock of the Company entitled to vote generally in the election of directors, any amendment, alteration, rescission or repeal of our bylaws by our stockholders will require the affirmative vote of a majority in voting power of the outstanding shares of our stock present in person or represented by proxy at the meeting of stockholders and entitled to vote on such amendment, alteration, change, addition, rescission or repeal. At any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, less than a majority in voting power of all outstanding shares of stock of the Company entitled to vote generally in the election of directors, any amendment, alteration, rescission or repeal of our bylaws by our stockholders will require the affirmative vote of the holders of at least 75% in voting power of all the then-outstanding shares of stock of the Company entitled to vote thereon, voting together as a single class.

The DGCL provides generally that the affirmative vote of a majority of the outstanding shares entitled to vote thereon, voting together as a single class, is required to amend a corporation’s certificate of incorporation, unless the certificate of incorporation requires a greater percentage.

Our amended and restated certificate of incorporation provides that at any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, less than a majority in voting power of the stock of the Company entitled to vote generally in the election of directors the following provisions in our amended and

## [Table of Contents](#)

restated certificate of incorporation may be amended, altered, repealed or rescinded only by the affirmative vote of the holders of at least 75% in voting power of all the then-outstanding shares of stock of the Company entitled to vote thereon, voting together as a single class:

- the provision requiring a 75% supermajority vote for stockholders to amend our amended and restated bylaws;
- the provisions regarding resignation and removal of directors;
- the provisions regarding competition and corporate opportunities;
- the provisions regarding stockholder action by written consent;
- the provisions regarding calling special meetings of stockholders;
- the provisions regarding filling vacancies on our board of directors and newly created directorships;
- the provisions eliminating monetary damages for breaches of fiduciary duty by a director;
- the provisions related to the Court of Chancery as the exclusive forum for certain types of actions by stockholders; and
- the amendment provision requiring that the above provisions be amended only with a 75% supermajority vote.

The combination of the lack of cumulative voting and the supermajority voting requirements will make it more difficult for our existing stockholders to replace our board of directors as well as for another party to obtain control of us by replacing our board of directors. Because our board of directors has the power to retain and discharge our officers, these provisions could also make it more difficult for existing stockholders or another party to effect a change in management.

These provisions may have the effect of deterring hostile takeovers or delaying or preventing changes in control of our management or the Company, such as a merger, reorganization or tender offer. These provisions are intended to enhance the likelihood of continued stability in the composition of our board of directors and its policies and to discourage certain types of transactions that may involve an actual or threatened acquisition of the Company. These provisions are designed to reduce our vulnerability to an unsolicited acquisition proposal. The provisions are also intended to discourage certain tactics that may be used in proxy fights. However, such provisions could have the effect of discouraging others from making tender offers for our shares and, as a consequence, they also may inhibit fluctuations in the market price of our shares that could result from actual or rumored takeover attempts.

### **Dissenters' Rights of Appraisal and Payment**

Under the DGCL, with certain exceptions, our stockholders will have appraisal rights in connection with a merger or consolidation of us. Pursuant to the DGCL, stockholders who properly request and perfect appraisal rights in connection with such merger or consolidation will have the right to receive payment of the fair value of their shares as determined by the Delaware Court of Chancery.

### **Stockholders' Derivative Actions**

Under the DGCL, any of our stockholders may bring an action in our name to procure a judgment in our favor, also known as a derivative action, provided that the stockholder bringing the action is a holder of shares of our stock at the time of the transaction to which the action relates or such stockholder's stock thereafter devolved by operation of law.

### **Exclusive Forum**

Our amended and restated certificate of incorporation will provide that unless we consent to the selection of an alternative forum, the Court of Chancery of the State of Delaware shall be the sole and exclusive forum for any stockholder (including any beneficial owner) to bring (i) any derivative action or proceeding brought on

## [Table of Contents](#)

behalf of the Company, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director or officer of the Company to the Company or the Company's stockholders, creditors or other constituents, (iii) any action asserting a claim against the Company or any director or officer of the Company arising pursuant to any provision of the DGCL or our amended and restated certificate of incorporation or our amended and restated bylaws, or (iv) any action asserting a claim against the Company or any director or officer of the Company governed by the internal affairs doctrine, in each such case subject to said Court of Chancery having subject matter jurisdiction, in certain cases, and having personal jurisdiction over the indispensable parties named as defendants therein. Any person or entity purchasing or otherwise acquiring any interest in shares of capital stock of the Company shall be deemed to have notice of and consented to the forum provisions in our amended and restated certificate of incorporation. However, the enforceability of similar forum provisions in other companies' certificates of incorporation has been challenged in legal proceedings, and it is possible that a court could find these types of provisions to be unenforceable.

### **Conflicts of Interest**

Delaware law permits corporations to adopt provisions renouncing any interest or expectancy in certain opportunities that are presented to the corporation or its officers, directors or stockholders. Our amended and restated certificate of incorporation will, to the maximum extent permitted from time to time by Delaware law, renounce any interest or expectancy that we have in, or right to be offered an opportunity to participate in, specified business opportunities that are from time to time presented to our officers, directors or stockholders or their respective affiliates, other than those officers, directors, stockholders or affiliates who are our or our subsidiaries' employees. Our amended and restated certificate of incorporation will provide that, to the fullest extent permitted by law, none of the Controlling Owners or any of their affiliates will have any duty to refrain from (i) engaging in a corporate opportunity in the same or similar lines of business in which we or our affiliates now engage or propose to engage or (ii) otherwise competing with us or our affiliates. In addition, to the fullest extent permitted by law, in the event that a Controlling Owner acquires knowledge of a potential transaction or other business opportunity which may be a corporate opportunity for itself or its affiliates or for us or our affiliates, such person will have no duty to communicate or offer such transaction or business opportunity to us or any of our affiliates and they may take any such opportunity for themselves or offer it to another person or entity. Our amended and restated certificate of incorporation will not renounce our interest in any business opportunity that is expressly offered to a director designated by a Controlling Owner solely in his or her capacity as a director or officer of the Company.

### **Limitations on Liability and Indemnification of Officers and Directors**

The DGCL authorizes corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties, subject to certain exceptions. Our amended and restated certificate of incorporation includes a provision that eliminates the personal liability of directors for monetary damages for any breach of fiduciary duty as a director, except to the extent such exemption from liability or limitation thereof is not permitted under the DGCL. The effect of these provisions is to eliminate the rights of us and our stockholders, through stockholders' derivative suits on our behalf, to recover monetary damages from a director for breach of fiduciary duty as a director, including breaches resulting from grossly negligent behavior. However, exculpation does not apply to any director if the director has acted in bad faith, knowingly or intentionally violated the law, authorized illegal dividends or redemptions or derived an improper benefit from his or her actions as a director.

Our amended and restated bylaws provide that we must indemnify and advance expenses to our directors and officers to the fullest extent authorized by the DGCL. We also are expressly authorized to carry directors' and officers' liability insurance providing indemnification for our directors, officers and certain employees for some liabilities. We believe that these indemnification and advancement provisions and insurance are useful to attract and retain qualified directors and executive officers.

---

## [Table of Contents](#)

The limitation of liability, indemnification and advancement provisions in our amended and restated certificate of incorporation and amended and restated bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. In addition, your investment may be adversely affected to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

We currently are party to indemnification agreements with certain of our directors and officers. These agreements require us to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified.

There is currently no pending material litigation or proceeding involving any of our directors or officers for which indemnification is sought.

### **Transfer Agent and Registrar**

The transfer agent and registrar for shares of our common stock is Computershare Trust Company, N.A.

### **Listing**

We intend to list shares of our common stock on the NYSE under the symbol “ARMK.”

## SHARES ELIGIBLE FOR FUTURE SALE

Prior to this offering, there has not been a public market for our common stock, and we cannot predict what effect, if any, market sales of shares of our common stock or the availability of shares of our common stock for sale will have on the market price of our common stock prevailing from time to time. Nevertheless, sales of substantial amounts of common stock, including shares issued upon the exercise of outstanding options or restricted stock units, in the public market, or the perception that such sales could occur, could materially and adversely affect the market price of our common stock and could impair our future ability to raise capital through the sale of our equity or equity-related securities at a time and price that we deem appropriate.

Upon the closing of this offering, we will have outstanding an aggregate of approximately \_\_\_\_\_ shares of common stock. In addition, as of the closing of this offering there will be an aggregate of approximately \_\_\_\_\_ shares of our common stock subject to outstanding options or restricted stock units. Of the outstanding shares, the shares sold in this offering will be freely tradable without restriction or further registration under the Securities Act, except that any shares held by our affiliates, as that term is defined under Rule 144 of the Securities Act, may be sold only in compliance with the limitations described below. The remaining \_\_\_\_\_ outstanding shares of our common stock will be deemed restricted securities, as defined under Rule 144. Restricted securities may be sold in the public market only if registered or if they qualify for an exemption from registration under Rule 144 under the Securities Act, which we summarize below.

The restricted shares and the shares held by our affiliates will be available for sale in the public market as follows:

- \_\_\_\_\_ shares will be eligible for sale at various times after the date of this prospectus pursuant to Rule 144; and
- \_\_\_\_\_ shares subject to the lock-up agreements will be eligible for sale at various times beginning 180 days after the date of this prospectus pursuant to Rule 144.

### Rule 144

In general, under Rule 144, as currently in effect, a person (or persons whose shares are aggregated) who is not deemed to be or have been one of our affiliates for purposes of the Securities Act at any time during 90 days preceding a sale and who has beneficially owned the shares proposed to be sold for at least six months, including the holding period of any prior owner other than an affiliate, is entitled to sell such shares without registration, subject to compliance with the public information requirements of Rule 144. If such a person has beneficially owned the shares proposed to be sold for at least one year, including the holding period of a prior owner other than an affiliate, then such person is entitled to sell such shares without complying with any of the requirements of Rule 144.

In general, under Rule 144, as currently in effect, our affiliates or persons selling shares on behalf of our affiliates, who have met the six month holding period for beneficial ownership of “restricted shares” of our common stock, are entitled to sell within any three-month period, a number of shares that does not exceed the greater of:

- 1% of the number of shares of our common stock then outstanding, which will equal approximately \_\_\_\_\_ shares immediately after this offering; or
- the average reported weekly trading volume of our common stock on the NYSE during the four calendar weeks preceding the filing of a notice on Form 144 with respect to such sale.

Sales under Rule 144 by our affiliates or persons selling shares on behalf of our affiliates are also subject to certain manner of sale provisions and notice requirements and to the availability of current public information about us. The sale of these shares, or the perception that sales will be made, could adversely affect the price of our common stock after this offering because a great supply of shares would be, or would be perceived to be, available for sale in the public market.

## [Table of Contents](#)

### **Rule 701**

In general and subject to certain vesting restrictions and the expiration of the applicable lock-up restrictions, under Rule 701 promulgated under the Securities Act, any of our employees, directors or officers who purchased shares from us in connection with a qualified compensatory stock or option plan or other written agreement before the effective date of this offering, or who purchased shares from us after that date upon the exercise of options granted before that date, are eligible to resell such shares in reliance upon Rule 144 subject to the availability of current public information about us. If such person is not an affiliate, the sale may be made under Rule 144 without compliance with the holding periods of Rule 144 and subject only to the manner-of-sale restrictions of Rule 144. If such a person is an affiliate, the sale may be made under Rule 144 without compliance with its one-year minimum holding period, but subject to the other Rule 144 restrictions.

### **Lock-Up Agreements**

In connection with this offering, we and the selling stockholders, our executive officers and directors and certain principal holders of outstanding shares of our common stock and common stock equivalents have agreed, subject to certain exceptions, not to sell, dispose of or hedge any shares of our common stock or securities convertible into or exchangeable for shares of our common stock, during the period ending 180 days after the date of this prospectus, except with the prior written consent of \_\_\_\_\_, except in limited circumstances. This agreement does not apply to any existing employee benefit plans.

The 180-day restricted period described in the preceding paragraph will be automatically extended if:

- during the last 17 days of the 180-day restricted period we issue an earnings release or announces material news or a material event; or
- prior to the expiration of the 180-day restricted period, we announce that we will release earnings results during the 15-day period following the last day of the 180-day period,

in which case the restrictions described in this paragraph will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the announcement of the material news or material event. See “Underwriting.”

In addition, following completion of this offering, certain shares held by officers and other employees of the company will be subject to restrictions on transfer pursuant to our Stockholder’s Agreement for a period of up to one year.

### **Registration on Form S-8**

Following completion of this offering, we intend to file one or more registration statements on Form S-8 under the Securities Act to register shares of our common stock issuable under our stock incentive plans. As a result, shares of our common stock issued pursuant to such stock incentive plans, including upon exercise of stock options and vesting of restricted stock units, will be eligible for resale in the public market without restriction, subject to the Rule 144 limitations applicable to affiliates and the lock-up agreements described above.

### **Registration Rights**

Pursuant to the Registration Rights Agreement, certain existing stockholders are entitled to participate in certain offerings of the Company’s securities registered under the Securities Act which are initiated by the Company, the Sponsors or Mr. Neubauer, subject to certain exceptions. All stockholders party to the agreement are entitled to “piggy back” rights in connection with this offering so long as any such stockholder is permitted by the Company to participate in the offering. In addition, under the agreement, certain stockholders who hold

## [Table of Contents](#)

more than 10% of our then-outstanding shares, or Mr. Neubauer, or the coordination committee (in the case of a “shelf” registration) have the right to require us to file a registration statement with the SEC for the resale of our common stock following the completion of this offering. The agreement provides to the Sponsors an unlimited number of “demand” registrations and provides to Mr. Neubauer two “demand” registrations. In addition, the Sponsors, Mr. Neubauer and, in certain circumstances, some members of senior management are also entitled to “piggy back” rights in subsequent offerings. In any subsequent offerings in which “piggy back” rights apply, Mr. Neubauer is entitled to participate in the offering at a participation rate two times his pro rata share as compared to the pro rata share of the Sponsors. The Registration Rights Agreement also provides that we will pay certain expenses of these stockholders relating to such registrations and indemnify them against certain liabilities which may arise under the Securities Act of 1933, as amended. The shares subject to the Registration Rights Agreement will represent approximately % of our outstanding common stock after this offering, or % if the underwriters exercise their option to purchase additional shares in full. These shares also may be sold under Rule 144 under the Securities Act, depending on their holding period and subject to restrictions in the case of shares held by persons deemed to be our affiliates.

## CERTAIN UNITED STATES FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a summary of certain United States federal income and estate tax consequences, as of the date hereof, to a non-U.S. holder (as defined below) of the purchase, ownership and disposition of shares of our common stock. This summary deals only with shares of common stock that are held as a capital asset.

Except as modified for estate tax purposes (as discussed below), “non-U.S. holder” means a beneficial owner of shares that, for United States federal income tax purposes, is an individual, corporation, estate or trust other than:

- an individual who is a citizen or resident of the United States;
- a corporation created or organized under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to United States federal income taxation regardless of its source; or
- a trust if it (1) is subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable United States Treasury regulations to be treated as a United States person.

If an entity treated as a partnership for United States federal income tax purposes holds shares of our common stock, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership considering an investment in shares of our common stock, you should consult your own tax advisors.

This summary is based upon provisions of the Internal Revenue Code of 1986, as amended (the “Code”), and regulations, rulings and judicial decisions as of the date hereof. Those authorities may be changed or subject to different interpretations, perhaps retroactively, so as to result in United States federal income and estate tax consequences different from those summarized below. We cannot assure you that a change in law will not alter significantly the tax considerations that we describe in this summary.

This summary does not address all aspects of United States federal income and estate taxes and does not address the effects of any other United States federal tax laws (including gift tax or the recently enacted Medicare tax on certain investment income) or any foreign, state, local or other tax laws that may be relevant to non-U.S. holders in light of their particular circumstances. In addition, it does not represent a detailed description of the United States federal income or estate tax consequences applicable to you if you are subject to special treatment under the United States federal income tax laws (including if you are a United States expatriate, “controlled foreign corporation,” “passive foreign investment company” or a partnership or other pass-through entity for United States federal income tax purposes (or an investor in such an entity)).

**If you are considering the purchase of shares our common stock, you should consult your own tax advisors concerning the particular United States federal income and estate tax consequences to you of the purchase, ownership and disposition of the shares of common stock, as well as the consequences to you arising under other United States federal tax laws and the laws of any other taxing jurisdiction.**

### Dividends

Subject to the discussions of backup withholding and additional withholding requirements below, dividends paid to a non-U.S. holder of shares of our common stock generally will be subject to withholding of United States federal income tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. However, dividends that are effectively connected with the conduct of a trade or business by the non-U.S. holder within the United States are generally not subject to the withholding tax, provided certain certification and

disclosure requirements are satisfied. Instead, such dividends are subject to United States federal income tax on a net income basis in generally the same manner as if the non-U.S. holder were a United States person as defined under the Code, unless an applicable income tax treaty provides otherwise. In addition, a foreign corporation may be subject to a “branch profits tax” at a 30% rate (or such lower rate as may be specified by an applicable income tax treaty) on its effectively connected earnings and profits, subject to adjustments.

A non-U.S. holder of shares of our common stock who wishes to claim the benefit of an applicable treaty rate and avoid backup withholding, as discussed below, for dividends will be required (a) to complete Internal Revenue Service Form W-8BEN (or other applicable form) and certify under penalty of perjury that such holder is not a United States person as defined under the Code and is eligible for treaty benefits or (b) if the shares of our common stock are held through certain foreign intermediaries, to satisfy the relevant certification requirements of applicable United States Treasury regulations. Special certification and other requirements apply to certain non-U.S. holders that are pass-through entities rather than corporations or individuals.

A non-U.S. holder of shares of our common stock eligible for a reduced rate of United States withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the Internal Revenue Service.

### **Gain on Disposition of Common Stock**

Subject to the discussions of backup withholding and additional withholding requirements below, any gain recognized on a disposition of shares of our common stock generally will not be subject to United States federal income tax unless:

- the gain is effectively connected with a trade or business of the non-U.S. holder in the United States;
- the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of such disposition, and certain other conditions are met; or
- we are or have been a “United States real property holding corporation” for United States federal income tax purposes.

A non-U.S. holder described in the first bullet point immediately above will be subject to tax on the net gain derived from the disposition on a net income basis in generally the same manner as a United States person, unless an applicable income tax treaty provides otherwise. If a non-U.S. holder that is a foreign corporation falls under the first bullet point immediately above, it may also be subject to a branch profits tax equal to 30% of its effectively connected earnings and profits (subject to adjustments) or such lower rate as may be specified by an applicable income tax treaty.

Unless an applicable income tax treaty provides otherwise, an individual non-U.S. holder described in the second bullet point immediately above will be subject to a flat 30% tax on the gain derived from the disposition, which may be offset by United States source capital losses, even though the individual is not considered a resident of the United States.

We believe we are not and do not anticipate becoming a “United States real property holding corporation” for United States federal income tax purposes. However, even if we are or were to become a United States real property holding corporation, so long as our common stock remains regularly traded on an established securities market for United States federal income tax purposes, any gain recognized by a non-U.S. holder that is not subject to tax under either of the first two bullet points would generally be subject to United States federal income tax only if such non-U.S. holder actually or constructively owned more than five percent of our outstanding common stock at some time during the shorter of such non-U.S. holder’s holding period and the five year period ending on the date of such disposition.

## **Federal Estate Tax**

Shares of common stock held (or deemed held) at the time of death by an individual non-U.S. holder who is neither a citizen or resident of the United States (as specifically defined for United States estate tax purposes) will be included in such holder's gross estate for United States federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

## **Information Reporting and Backup Withholding**

We must report annually to the Internal Revenue Service and to each non-U.S. holder the amount of dividends paid to such holder and the tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty.

A non-U.S. holder will be subject to backup withholding with respect to dividends paid to such holder unless such holder certifies under penalty of perjury that it is a non-U.S. holder (and the payor does not have actual knowledge or reason to know that such holder is a United States person as defined under the Code), or such holder otherwise establishes an exemption.

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a disposition of our common stock within the United States or conducted through certain United States-related financial intermediaries, unless the beneficial owner certifies under penalty of perjury that it is a non-U.S. holder (and the payor does not have actual knowledge or reason to know that the beneficial owner is a United States person as defined under the Code), or such owner otherwise establishes an exemption.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder's United States federal income tax liability provided the required information is timely furnished to the Internal Revenue Service.

## **Additional Withholding Requirements**

Under legislation enacted in 2010 and administrative guidance as modified by intergovernmental agreements entered between the United States and certain foreign jurisdictions ("IGAs"), a new 30% United States federal withholding tax may apply to any dividends paid after June 30, 2014, and the gross proceeds from a disposition of shares of our common stock occurring after December 31, 2016, in each case paid to (i) a "foreign financial institution" (as specifically defined in the legislation or an applicable IGA, if any), whether such foreign financial institution is the beneficial owner or an intermediary, unless such foreign financial institution agrees to verify, report and disclose its United States "account" holders (as specifically defined in the legislation or an applicable IGA, if any) and meets certain other specified requirements or (ii) a non-financial foreign entity, whether such non-financial foreign entity is the beneficial owner or an intermediary, unless such entity provides a certification that the beneficial owner of the payment does not have any substantial United States owners or provides the name, address and taxpayer identification number of each such substantial United States owner and certain other specified requirements are met. In certain cases, the relevant foreign financial institution or non-financial foreign entity may qualify for an exemption from, or be deemed to be in compliance with, these requirements. You should consult your own tax advisor regarding this legislation, administrative guidance, and IGAs and whether they may be relevant to your ownership and disposition of shares of our common stock.

Shares sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ \_\_\_\_\_ per share from the initial public offering price. After the initial offering of the shares, the

representatives may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We and our officers, directors, and holders of substantially all of our common stock, including the selling stockholders, have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus continuing through the date 180 days after the date of this prospectus, except with the prior written consent of . See "Shares Eligible for Future Sale" for a discussion of certain transfer restrictions.

The 180-day restricted period described in the preceding paragraph will be automatically extended if: (1) during the last 17 days of the 180-day restricted period, we issue an earnings release or announce material news or a material event; or (2) prior to the expiration of the 180-day restricted period, we announce that we will release earnings results during the 15-day period following the last day of the 180-day period, in which case the restrictions described in the preceding paragraph will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the announcement of the material news or material event.

Prior to the offering, there has been no public market for the shares. The initial public offering price has been negotiated among us and the representatives. Among the factors to be considered in determining the initial public offering price of the shares, in addition to prevailing market conditions, will be our historical performance, estimates of our business potential and earnings prospects, an assessment of our management and the consideration of the above factors in relation to market valuation of companies in related businesses.

We have applied for listing of our common stock on the NYSE under the symbol "ARMK." In order to meet one of the requirements for listing the common stock on the NYSE, the underwriters have undertaken to sell lots of 100 or more shares to a minimum of 400 beneficial owners.

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. A "covered short position" is a short position that is not greater than the amount of additional shares for which the underwriters' option described above may be exercised. The underwriters may cover any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to cover the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option described above. "Naked" short sales are any short sales that create a short position greater than the amount of additional shares for which the option described above may be exercised. The underwriters must cover any such naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of our stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the

## [Table of Contents](#)

market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. The underwriters are not required to engage in these activities and may end any of these activities at any time. These transactions may be effected on the NYSE, in the over-the-counter market or otherwise.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “Relevant Member State”), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State, no offer of shares may be made to the public in that Relevant Member State other than:

- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the shares in, from or otherwise involving the United Kingdom.

**ARAMARK HOLDINGS CORPORATION AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**NOTE 1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

On January 26, 2007, ARAMARK Holdings Corporation (the “Company” or “Holdings”), a Delaware corporation controlled by investment funds associated with GS Capital Partners, CCMP Capital Advisors, J.P. Morgan Partners, Thomas H. Lee Partners and Warburg Pincus LLC (collectively, the “Sponsors”), Joseph Neubauer, Chairman and former Chief Executive Officer of ARAMARK Corporation, and certain other members of the Company’s management, acquired all of the outstanding shares of ARAMARK Corporation.

The consolidated financial statements include the accounts of the Company and all of its subsidiaries in which a controlling financial interest is maintained. For those material consolidated subsidiaries in which the Company’s ownership is less than 100%, the outside stockholders’ interests are shown as noncontrolling interest in the accompanying Consolidated Balance Sheets. All significant intercompany transactions and accounts have been eliminated. Certain amounts in the prior period’s financial statements have been reclassified to conform with the current year classifications. The reclassifications had no effect on net income.

**Fiscal Year**

The Company’s fiscal year is the fifty-two or fifty-three week period which ends on the Friday nearest September 30th. The fiscal years ended September 27, 2013, September 28, 2012 and September 30, 2011 were each fifty-two week periods.

**New Accounting Standard Updates**

In December 2011, the FASB issued an accounting standard update (“ASU”) that requires companies with financial instruments and derivative instruments that are offset on the balance sheet or subject to a master netting arrangement to provide additional disclosures regarding the instruments impact on a company’s financial position. In January 2013, the FASB issued an accounting standard update to clarify the scope of this ASU. The guidance is effective for the Company beginning in the first quarter of fiscal 2014. The Company is currently evaluating the impact of this pronouncement.

In September 2011, the FASB issued an accounting standard update that simplifies how entities test goodwill for impairment. The amendment permits an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. The Company adopted the guidance beginning in fiscal 2013 which did not have a material impact on the consolidated financial statements.

In June 2011, the FASB issued an accounting standard update that modifies the presentation of comprehensive income in the financial statements. The standard requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This standard eliminates the current option to report other comprehensive income and its components in the statement of changes in equity. The Company adopted the guidance retrospectively beginning in the first quarter of fiscal 2013 which only resulted in changes to the presentation of the consolidated financial statements.

In June 2012, the FASB issued an accounting standard update which amends the guidance on testing indefinite-lived intangible assets, other than goodwill, for impairment. The amendment permits an entity to perform a qualitative impairment assessment before proceeding to the two-step impairment test. The Company adopted the guidance beginning in fiscal 2013 which did not have a material impact on the consolidated financial statements.

## [Table of Contents](#)

In February 2013, the FASB issued an accounting standard update which requires companies to disclose information about reclassifications out of accumulated other comprehensive income (“AOCI”). Companies also are required to present reclassifications by component when reporting changes in AOCI balances. For significant items reclassified out of AOCI to net income in their entirety in the period, companies must report the effect of the reclassifications on the respective line items in the statement where net income is presented. The guidance is effective for the Company beginning in the first quarter of fiscal 2014. The Company is currently evaluating the impact of this pronouncement.

### **Revenue Recognition**

The Company recognizes sales when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the fee is fixed and determinable and collectability is reasonably assured. In each of the Company’s reportable segments, sales are recognized in the period in which services are provided pursuant to the terms of the Company’s contractual relationships with its clients. The Company generally records sales on food and support services contracts (both profit and loss contracts and client interest contracts) on a gross basis as the Company is the primary obligor and service provider.

Certain profit and loss contracts include commissions paid to the client, typically calculated as a fixed or variable percentage of various categories of sales. In some cases these contracts require minimum guaranteed commissions. Commissions paid to clients are recorded in “Cost of services provided.”

Sales from client interest contracts are generally comprised of amounts billed to clients for food, labor and other costs that the Company incurs, controls and pays for. Sales from client interest contracts also include any associated management fees, client subsidies or incentive fees based upon the Company’s performance under the contract. Sales from direct marketing activities are recognized upon shipment. All sales related taxes are presented on a net basis.

### **Vendor Consideration**

Consideration received from vendors include rebates, allowances and volume discounts and are accounted for as an adjustment to the cost of the vendors’ products or services and are reported as a reduction of “Cost of services provided,” “Inventory,” or “Property and Equipment.” Income from rebates, allowances and volume discounts is recognized based on actual purchases in the fiscal period relative to total actual or forecasted purchases to be made over the contractual rebate period agreed to with the vendor. Rebates, allowances and volume discounts related to Inventory held at the balance sheet date are deducted from the carrying value of these inventories. Rebates, allowances and volume discounts related to Property and Equipment are deducted from the costs capitalized.

### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and expenses during the reporting period. Actual results could differ from those estimates.

### **Comprehensive Income**

Comprehensive income includes all changes to stockholders’ equity during a period, except those resulting from investments by and distributions to stockholders. Components of comprehensive income include net income (loss), changes in foreign currency translation adjustments (net of tax), pension plan adjustments (net of tax), changes in the fair value of cash flow hedges (net of tax) and changes to the share of any equity investees’ comprehensive income (net of tax).

## Table of Contents

The tax effects on comprehensive income were as follows (in thousands):

	Fiscal Year Ended September 27, 2013	Fiscal Year Ended September 28, 2012	Fiscal Year Ended September 30, 2011
Pension plan adjustments	\$ (10,198)	\$ 8,646	\$ 2,207

Share of equity investee's comprehensive loss	(1,510)	7,200	—

Accumulated other comprehensive loss consists of the following (in thousands):

	September 27, 2013	September 28, 2012
Pension plan adjustments	\$ (30,523)	\$ (50,268)
Foreign currency translation adjustments	3,287	20,429

Share of equity investee's Accumulated Other Comprehensive loss	(7,995)	(10,800)
	<u>\$ (59,225)</u>	<u>\$ (73,745)</u>

### Currency Translation

Gains and losses resulting from the translation of financial statements of non-U.S. subsidiaries are reflected as a component of accumulated other comprehensive income (loss) in stockholders' equity. Transaction gains and losses included in operating results for fiscal 2013, fiscal 2012 and fiscal 2011 were not material.

### Current Assets

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Inventories are valued at the lower of cost (principally the first-in, first-out method) or market. Personalized work apparel, linens and other rental items in service are recorded at cost and are amortized over their estimated useful lives, which primarily range from one to four years. The amortization rates used are based on the Company's specific experience.

The components of inventories are as follows:

	September 27, 2013	September 28, 2012
Food	40.4%	39.5%
Career apparel and linens	56.5%	57.2%
Parts, supplies and novelties	3.1%	3.3%
	<u>100.0%</u>	<u>100.0%</u>

### Property and Equipment

Property and equipment are stated at cost and are depreciated over their estimated useful lives on a straight-line basis. Gains and losses on dispositions are included in operating results. Maintenance and repairs are charged to current operations, and replacements and significant improvements that extend the useful life of the asset are capitalized. The estimated useful lives for the major categories of property and equipment are 10 to 40 years for buildings and improvements and 3 to 10 years for service equipment and fixtures. Depreciation expense during fiscal 2013, fiscal 2012 and fiscal 2011 was \$239.1 million, \$236.6 million, and \$234.5 million, respectively.

### Other Assets

Other assets consist primarily of investments in 50% or less owned entities, client contract investments, deferred financing costs, computer software costs and long-term receivables. Investments in which the Company owns more than 20% but less than a majority are accounted for using the equity method. Investments in which the Company owns less than 20% are accounted for under the cost method. Client contract investments generally represent a cash payment provided by the Company to help finance improvement or renovation at the facility from which the Company operates. These amounts are amortized over the contract period. If a contract is terminated prior to its maturity date, the Company is generally reimbursed for the unamortized client contract investment amount. Amortization expense for client contract investments was \$100.9 million, \$86.9 million and \$76.7 million during fiscal 2013, fiscal 2012 and fiscal 2011, respectively.

The Company's principal equity method investment is its 50% ownership interest in AIM Services Co., Ltd., a Japanese food and support services company (approximately \$190.7 million and \$233.4 million at September 27, 2013 and September 28, 2012, respectively, which is included in "Other Assets" in the Consolidated Balance Sheets). Summarized financial information for AIM Services Co., Ltd. follows (in thousands):

	<u>September 27, 2013</u>	<u>September 28, 2012</u>

Noncurrent assets	169,469	222,813

Gross profit	192,857	222,033	222,970
Net income	29,236	39,174	41,949

The period to period comparisons of the summarized financial information for AIM Services Co., Ltd., presented in U.S. dollars above, is significantly impacted by currency translation. The Company's equity in undistributed earnings of AIM Services Co., Ltd., net of amortization related to purchase accounting for the 2007 going-private transaction (the "2007 Transaction"), was \$11.5 million, \$14.7 million and \$18.0 million for fiscal 2013, fiscal 2012 and fiscal 2011, respectively, and is recorded as a reduction of "Cost of services provided" in the Consolidated Statements of Income. During fiscal 2013, fiscal 2012 and fiscal 2011, the Company received \$7.9 million, \$34.9 million and \$10.5 million of cash distributions from AIM Services Co., Ltd, respectively.

### Other Accrued Expenses and Liabilities

Accrued expenses and other current liabilities consist principally of insurance accruals, advanced payments from clients, taxes, interest, fair value of interest rate swaps and accrued commissions. The Company is self-insured for the risk retained under its health and welfare and general liability and workers' compensation arrangements. [Table of Contents](#)**Share-Based Compensation**

The Company recognizes compensation cost related to share-based payment transactions in the consolidated financial statements. The cost is measured at the grant date, based on the estimated fair value of the award, and is recognized as an expense over the employee's requisite service period (generally the vesting period of the equity award). See Note 11 for additional information on share-based compensation.

**Earnings Per Share**

Basic earnings per share is computed using the weighted average number of common shares outstanding during the periods presented. Diluted earnings per share is computed using the weighted average number of common shares outstanding adjusted to include the potentially dilutive effect of stock awards.

The following table sets forth the computation of basic and diluted earnings per share attributable to ARAMARK Holdings stockholders (in thousands, except per share data):

Galls is accounted for as a discontinued operation in the Consolidated Statements of Income. Galls’ results of operations have been removed from the Company’s results of continuing operations for all periods presented. Galls was previously included in the Uniform and Career Apparel segment. All related disclosures have also been adjusted to reflect the discontinued operation.

*Spin-off of Seamless Holdings Corporation*

On October 29, 2012, the Company completed the spin-off of its majority interest in Seamless North America, LLC (“Seamless”) to its stockholders.

## [Table of Contents](#)

In the spin-off, ARAMARK Corporation distributed all of the issued and outstanding shares of the common stock of Seamless Holdings Corporation (“Seamless Holdings”), an entity formed for the purpose of completing the spin-off and whose assets primarily consist of the Company’s former interest in Seamless, to its parent company and sole stockholder, ARAMARK Intermediate. Thereafter, ARAMARK Intermediate distributed such shares to the Company, its parent company and sole stockholder, who then distributed all of the shares of Seamless Holdings on a pro rata basis to the holders of Holdings common stock as of October 26, 2012, the record date, through a tax-free stock dividend. Each ARAMARK Holdings stockholder received one share of Seamless Holdings common stock for each share of ARAMARK Holdings common stock held as of the record date.

Until October 29, 2012, Seamless Holdings and its subsidiaries were part of the Company and its assets, liabilities, results of operations, and cash flows are included in the amounts reported in these consolidated financial statements until that date.

Following the spin-off, Seamless Holdings is an independent company and the Company retains no ownership interest in Seamless Holdings or Seamless. The Company’s proforma results of operations for fiscal 2013 and fiscal 2012 would not have been materially different than reported assuming the spin-off and related transactions had occurred at the beginning of the prior year period.

### **Fiscal 2012**

#### *Acquisitions*

On October 3, 2011, ARAMARK Refreshment Services, LLC, a subsidiary of the Company, purchased all of the outstanding shares of capital stock of Van Houtte USA Holdings, Inc. (doing business as “Filterfresh”), a provider of office coffee services in the United States, for cash consideration of approximately \$145.2 million. The acquisition was financed with cash on hand and borrowings under the Company’s revolving credit facility. Under the terms of the purchase agreement, if a certain significant customer relationship was not maintained within a specific timeframe, the Company was entitled to a refund of a portion of the purchase price. During the second quarter of fiscal 2012, the Company received a refund of approximately \$7.4 million related to the termination of this customer relationship.

As part of the acquisition of Filterfresh, the Company acquired a subsidiary with a redeemable noncontrolling interest. The Company classifies redeemable noncontrolling interests outside of stockholders’ equity in the Consolidated Balance Sheets in “Common Stock Subject to Repurchase and Other.” As of September 27, 2013 and September 28, 2012, the redeemable noncontrolling interest related to the subsidiary was approximately \$10.2 million and \$10.4 million, respectively. For fiscal 2013, net income attributable to the redeemable noncontrolling interest was \$0.8 million. Distributions to the redeemable noncontrolling interest was \$0.9 million for fiscal 2013. For fiscal 2012, net income attributable to the redeemable noncontrolling interest was \$1.1 million. Distributions to the redeemable noncontrolling interest was \$0.9 million for fiscal 2012.

For fiscal 2012, \$108.0 million of sales and (\$1.6) million of net loss, which includes transition and integration costs, were recorded in the Consolidated Statements of Income related to the acquisition. During fiscal 2011, approximately \$0.7 million of pretax transaction-related costs related to the acquisition were recorded in earnings. The Company’s proforma results of operations for fiscal 2012 and fiscal 2011 would not have been materially different than reported, assuming the acquisition had occurred at the beginning of fiscal 2011.

### **Fiscal 2011**

#### *Acquisitions*

On March 18, 2011, ARAMARK Clinical Technology Services, LLC, a subsidiary of the Company, purchased the common stock of the ultimate parent company of Masterplan, a clinical technology management and medical equipment maintenance company, for cash consideration of approximately \$154.2 million. Also

## [Table of Contents](#)

acquired in the transaction was ReMedPar, an independent provider of sourced and refurbished medical equipment parts. During the first quarter of fiscal 2012, the Company sold MESA, a wholly-owned subsidiary acquired as part of the Masterplan acquisition, for cash consideration of approximately \$4.2 million. The sale resulted in a reduction to goodwill of approximately \$1.7 million. The Company's proforma results of operations for fiscal 2011 would not have been materially different than reported.

During the third quarter of fiscal 2012, the Company received \$5.5 million in cash related to the settlement of indemnity claims filed against the former owners of Masterplan. After applying a portion of the proceeds to agreed upon indemnification assets, and after adjusting for certain other exposures, the Company recorded a pretax gain of \$1.0 million, which is included in "Cost of services provided" in the Consolidated Statements of Income.

The Company followed the acquisition method of accounting in accordance with the accounting standard related to business combinations. The following table summarizes the final fair values of the assets acquired and liabilities assumed from Masterplan (in thousands):

Purchase consideration	\$154,154
Current assets	\$ 29,906
Current liabilities	(31,396)
Property and equipment	3,736
Other intangible assets	42,800
Goodwill	126,757
Other assets	314
Long-term borrowings	(767)
Deferred income taxes and other noncurrent liabilities	(17,196)
	<u>\$154,154</u>

For fiscal 2012 and fiscal 2011, \$107.3 million and \$62.4 million of sales and (\$0.2) million and (\$4.7) million of net loss, respectively, were recorded in the Consolidated Statements of Income related to Masterplan.

### *Divestitures*

During fiscal 2011, the Company completed the sale of its 67% ownership interest in the security business of its Chilean subsidiary for approximately \$11.6 million in cash. The transaction resulted in a pretax gain of approximately \$7.7 million (net of tax gain of approximately \$5.8 million), which is included in "Cost of services provided" in the Consolidated Statements of Income. The results of operations and cash flows associated with the security business were not material to the Company's consolidated operations and cash flows.

During the third quarter of fiscal 2011, the Company sold a noncontrolling interest in Seamless, an online and mobile food ordering service, for consideration of \$50.0 million in cash. During the fourth quarter of fiscal 2011, the Company completed the sale of its wholly-owned subsidiary, Galls, for approximately \$75.0 million in cash (see Note 2).

### **NOTE 4. SEVERANCE AND ASSET WRITE-DOWNS:**

During the second quarter of fiscal 2013, the Company initiated a series of actions and further developed its plans to drive efficiency through the consolidation and centralization of its operations. As a result, the Company recorded charges during fiscal 2013 of approximately \$63.9 million for severance and related costs. As of September 27, 2013, the Company has an accrual of approximately \$46.7 million related to the unpaid obligations for these costs. In addition, during the second quarter of fiscal 2013, the Company recorded charges of approximately \$11.7 million for goodwill impairments (see Note 5) and other asset write-downs of approximately \$11.4 million primarily related to the write-offs of certain client contractual investments.

**NOTE 5. GOODWILL AND OTHER INTANGIBLE ASSETS:**

Goodwill represents the excess of the fair value of consideration paid for an acquired entity over the fair value of assets acquired and liabilities assumed in a business combination. Goodwill is not amortized and is subject to an impairment test that the Company conducts annually or more frequently if a change in circumstances or the occurrence of events indicates that potential impairment exists, using discounted cash flows. The Company performs its assessment of goodwill at the reporting unit level. Within the Food and Support Services—International segment, each country is evaluated separately since such operating units are relatively autonomous and separate goodwill balances have been recorded for each entity. The Company has completed the annual goodwill impairment test, which did not result in an impairment charge. The Company performs its annual impairment test as of the end of fiscal August.

During the second quarter of fiscal 2013, the Company recorded an impairment charge of approximately \$11.7 million in the Food and Support Services—International segment to write-off all of the goodwill associated with its reporting units in Spain and Korea. The impairment charge is included in “Cost of services provided” in the Consolidated Statement of Income. The impairment charge resulted from continued economic weakness in Spain and reductions in government support for the healthcare and education sectors, two of the primary sectors of the Spanish reporting unit. In Korea, the Company undertook a strategic analysis of the Korean reporting unit, which prompted the impairment analysis in the second quarter. The completion of the step two impairment analyses confirmed that goodwill for both reporting units was impaired. During the second quarter of fiscal 2011, the Company recorded an impairment charge of \$5.3 million in the Food and Support Services—International segment in order to write off the goodwill (approximately \$4.0 million) and other intangible assets (approximately \$1.3 million) associated with its India operations. The impairment charge is included in “Cost of services provided” in the Consolidated Statements of Income. The impairment charge primarily resulted from a change in the strategic direction of the business and continuing operating losses due to competitive pressures. The completion of the step two impairment analyses confirmed that goodwill for the reporting unit was impaired. The Company estimated these nonrecurring fair value measurements using a discounted cash flow valuation methodology, a Level 3 measurement, which included making assumptions about the future profitability and cash flows of the business.

Goodwill, allocated by segment (see Note 14 for a description of segments), is as follows (in thousands):

<u>Segment</u>	<u>September 28, 2012</u>	<u>Acquisitions and Divestitures</u>	<u>Impairment</u>	<u>Translation and Other</u>	<u>September 27, 2013</u>
Food and Support Services—North	\$ 3,701,137	\$ 7,398	\$ —	\$(113,487)	\$ 3,595,048
Food and Support Services—International	454,552	—	(11,698)	8,300	451,154

The amounts for acquisitions during fiscal 2013 may be revised upon final determination of the purchase price allocations. The other adjustments to the Food and Support Services—North America segment primarily represents the goodwill related to the Seamless Holdings spin-off (see Note 3).

Acquisition-related intangible assets consist of customer relationship assets, the ARAMARK trade name and other trade names. Customer relationship assets are being amortized principally on a straight-line basis over the expected period of benefit, 5 to 24 years, with a weighted average life of approximately 11 years. The ARAMARK trade name is an indefinite lived intangible asset and is not amortizable but is evaluated for impairment at least annually. The Company completed its annual trade name impairment test, which did not result in an impairment charge.

Intangible assets of approximately \$21.4 million were acquired through business combinations during fiscal 2013. Amortization of intangible assets for fiscal 2013, fiscal 2012 and fiscal 2011 was approximately \$192 million, \$198 million and \$193 million, respectively.

The estimated amortization expense of the amortizable intangible assets through 2018 reflects the 2007 Transaction and acquisitions since January 26, 2007. Based on the recorded balances at September 27, 2013, total estimated amortization of all acquisition-related intangible assets for fiscal years 2014 through 2018 follows (in thousands):

2014	\$ 156,302
2015	\$ 131,992
2016	\$ 95,454

## [Table of Contents](#)

In the second quarter of fiscal 2013, the Company completed a refinancing, repurchasing all of the Fixed Rate Notes, Floating Rate Notes and Holdings Notes. The Company refinanced that debt with borrowings of ARAMARK Corporation in the form of the new term loans and new notes as described herein.

### **Senior Secured Credit Agreement**

The senior secured credit agreement is comprised of the senior secured term loan facility, the senior secured revolving credit facility and the synthetic letter of credit facility. The senior secured credit agreement provides that ARAMARK Corporation has the right at any time to request up to \$750 million of incremental commitments in the aggregate (reduced to \$630 million as of September 27, 2013) under one or more incremental term loan facilities and/or synthetic letter of credit facilities and/or revolving credit facilities and/or by increasing commitments under the revolving credit facility. ARAMARK Corporation's ability to obtain extensions of credit under these incremental facilities or commitments will be subject to the same conditions as extensions of credit under the existing credit facilities. However, the lenders under the existing facilities will not be under any obligation to provide any such incremental facilities or commitments, and any such addition of or increase in facilities or commitments will be subject to pro forma compliance with an incurrence-based financial covenant and customary conditions precedent.

Borrowings under the senior secured credit agreement bear interest at a rate equal to an applicable margin plus, at ARAMARK Corporation's option, either (a) a LIBOR rate determined by reference to the costs of funds for deposits in the currency of such borrowing for the interest period relevant to such borrowing adjusted for certain additional costs, (b) with respect to borrowings denominated in U.S. dollars, a base rate determined by reference to the higher of (1) the prime rate of the administrative agent, and (2) the federal funds rate plus 0.50% or (c) with respect to borrowings denominated in Canadian dollars, (1) a base rate determined by reference to the prime rate of Canadian banks or (2) a BA (bankers' acceptance) rate determined by reference to the rate offered for bankers' acceptances in Canadian dollars for the interest period relevant to such borrowing.

All obligations under the senior secured credit agreement are guaranteed by ARAMARK Intermediate Holdco Corporation and, subject to certain exceptions, substantially all existing and future domestic subsidiaries of ARAMARK Corporation (the "U.S. Guarantors"). All obligations of each foreign borrower under the senior secured credit facilities are unconditionally guaranteed by ARAMARK Corporation, the U.S. Guarantors and, subject to certain exceptions and qualifications, the respective other foreign borrowers. All obligations under the senior secured credit agreement are secured by a security interest in substantially all assets of ARAMARK Intermediate Holdco Corporation, ARAMARK Corporation and the U.S. Guarantors. The senior secured credit agreement obligations are also secured by pledges of 100% of the capital stock of ARAMARK Corporation and 100% of the capital stock held by ARAMARK Corporation or any of the U.S. Guarantors.

The senior secured credit agreement requires ARAMARK Corporation to prepay outstanding term loans, subject to certain exceptions, with (i) 50% of ARAMARK Corporation's Excess Cash Flow if the Consolidated Capital Leverage Ratio is above 5.25x or 25% of ARAMARK Corporation's Excess Cash Flow if the Consolidated Capital Leverage Ratio falls between 5.25x and 4.50x (as defined in the senior secured credit agreement) (the actual ratio at September 27, 2013 was 4.88x), (ii) 100% of the net cash proceeds of all nonordinary course asset sales or other dispositions of property subject to certain exceptions and customary reinvestment rights, and (iii) 100% of the net cash proceeds of any incurrence of debt, including debt incurred by any business securitization subsidiary in respect of any business securitization facility, but excluding proceeds from ARAMARK Corporation's Receivables Facility and other debt permitted under the senior secured credit agreement. Any mandatory prepayments would be applied to the term loan facilities as directed by ARAMARK Corporation. Generally, ARAMARK Corporation is permitted to voluntarily repay outstanding loans under the senior secured credit agreement at any time without premium or penalty, other than customary "breakage" costs with respect to LIBOR loans.

The senior secured credit agreement contains a number of covenants that, among other things, restrict, subject to certain exceptions, ARAMARK Corporation's ability to: incur additional indebtedness; issue preferred stock or provide guarantees; create liens on assets; engage in mergers or consolidations; sell assets; pay

## Table of Contents

dividends, make distributions or repurchase its capital stock; make investments, loans or advances; repay or repurchase any notes, except as scheduled or at maturity; create restrictions on the payment of dividends or other amounts to ARAMARK Corporation from its restricted subsidiaries; make certain acquisitions; engage in certain transactions with affiliates; amend material agreements governing ARAMARK Corporation's outstanding notes (or any indebtedness that refinances the notes); and fundamentally change ARAMARK Corporation's business. In addition, the senior secured revolving credit facility requires ARAMARK Corporation to maintain a maximum senior secured leverage ratio and imposes limitations on capital expenditures. The senior secured credit agreement also contains certain customary affirmative covenants, such as financial and other reporting, and certain events of default. At September 27, 2013, ARAMARK Corporation was in compliance with all of these covenants.

The senior secured credit agreement requires ARAMARK Corporation to maintain a maximum Consolidated Secured Debt Ratio, defined as consolidated total indebtedness secured by a lien to Covenant Adjusted EBITDA (as defined) of 5.875x, being reduced over time to 5.125x by the end of 2016 (as of September 27, 2013—5.75x). Consolidated total indebtedness secured by a lien is defined in the senior secured credit agreement as total indebtedness outstanding under the senior secured credit agreement, capital leases, advances under the Receivables Facility and any other indebtedness secured by a lien reduced by the lesser of the amount of cash and cash equivalents on the consolidated balance sheet that is free and clear of any lien and \$75 million. Non-compliance with the maximum Consolidated Secured Debt Ratio could result in the requirement to immediately repay all amounts outstanding under such agreement, which, if ARAMARK Corporation's revolving credit facility lenders failed to waive any such default, would also constitute a default under the indenture. The actual ratio at September 27, 2013 was 4.00x.

The senior secured credit agreement establishes an incurrence-based minimum Interest Coverage Ratio, defined as Adjusted EBITDA to consolidated interest expense, as a condition for ARAMARK Corporation to incur additional indebtedness and to make certain restricted payments. The minimum Interest Coverage Ratio is 2.00x for the term of the senior secured credit agreement. If ARAMARK Corporation does not maintain this minimum Interest Coverage Ratio calculated on a pro forma basis for any such additional indebtedness or restricted payments, it could be prohibited from being able to incur additional indebtedness, other than the additional funding provided for under the senior secured credit agreement and pursuant to specified exceptions, and make certain restricted payments, other than pursuant to certain exceptions. Consolidated interest expense is defined in the senior secured credit agreement as consolidated interest expense excluding interest income, adjusted for acquisitions and dispositions, further adjusted for certain non-cash or nonrecurring interest expense and ARAMARK Corporation's estimated share of interest expense from one equity method investee. The actual ratio was 3.52x for the twelve months ended September 27, 2013.

### Senior Secured Term Loan Facilities

The senior secured term loan facility consists of the following subfacilities as of September 27, 2013:

In September 2013, ARAMARK Corporation made a payment of outstanding U.S. dollar term loan due 2016 of \$265.0 million.

### *Amendment Agreement No. 4*

On February 22, 2013, ARAMARK Corporation entered into Amendment Agreement No. 4 (“Amendment Agreement No. 4”) to the Amended and Restated Credit Agreement dated as of March 26, 2010 (as amended, the “Credit Agreement”) which provided for, among other things, additional term loans and the extension of a portion of the revolving credit facility. On March 7, 2013, ARAMARK Corporation borrowed \$1,400 million of term loans pursuant to Amendment Agreement No. 4. The new term loans were borrowed by ARAMARK Corporation with an original issue discount of 0.50%. The term loans under Amendment Agreement No. 4 mature on September 7, 2019. These term loans have a Eurocurrency rate margin, with respect to the U.S. dollar denominated, Canadian dollar denominated and Euro denominated term loans, of 3.00% and base rate margin on U.S. dollar denominated base rate term loans of 2.00%. Eurocurrency rate borrowings have a minimum LIBOR rate of 1.00% and base rate borrowings have a minimum rate of 2.00%.

Amendment Agreement No. 4 also increased the applicable margins for ARAMARK Corporation’s existing term loans and the fee rates on letter of credit deposits with respect to the synthetic letter of credit facility. From and after the effective date of Amendment Agreement No. 4, (A) the Eurocurrency rate margin and letter of credit fees with respect to the U.S. dollar denominated, Canadian dollar denominated and Euro denominated term loans and extended maturity letter of credit deposits increased 0.25% to 3.50%, (B) the margin on U.S. dollar denominated base rate term loans increased 0.25% to 2.50% and (C) the margins on yen denominated term loans and sterling denominated term loans increased 0.125% to 3.50%.

Amendment Agreement No. 4 also provided for an increase in the maximum Consolidated Secured Debt Ratio to reflect the additional secured indebtedness associated with the new term loan borrowings and certain additional flexibility with respect to the restricted payments covenant.

During the second quarter of fiscal 2013, approximately \$14.0 million of third-party costs directly attributable to the term loans borrowed pursuant to Amendment Agreement No. 4 were capitalized and are included in “Other Assets” in the Consolidated Balance Sheets, of which approximately \$6.2 million were paid to entities affiliated with GS Capital Partners and J.P. Morgan Partners.

### *Amendment Agreement No. 3*

On December 20, 2012, ARAMARK Corporation amended the senior secured credit agreement (“Amendment Agreement No. 3”) to, among other things, borrow \$670 million of new term loans with a maturity date of July 26, 2016. The proceeds of the new term loans were used primarily to repay approximately \$650 million of existing term loans with a maturity date of January 26, 2014 and to fund certain discounts, fees and costs associated with the amendment. The existing term loans repaid in connection with Amendment Agreement No. 3 included U.S. dollar denominated term loans as well as non-U.S. dollar term loans and consisted of the remaining balance of the term loans maturing in January 2014. The new term loans were borrowed by ARAMARK Corporation with an original issue discount of 0.25%.

During the first quarter of fiscal 2013, approximately \$11.6 million of third-party costs directly attributable to Amendment Agreement No. 3 were expensed and are included in “Interest and Other Financing Costs, net” in the Consolidated Statements of Income. Approximately \$4.6 million of the third-party costs were paid to entities affiliated with GS Capital Partners and J.P. Morgan Partners.

Consenting lenders received a one-time amendment fee of approximately \$3.2 million in the aggregate on their total loan commitments.

During the second quarter of fiscal 2012, approximately \$7.5 million of third-party costs directly attributable to Amendment Agreement No. 2 were expensed and are included in “Interest and Other Financing Costs, net” in the Consolidated Statements of Income. ### Senior Secured Revolving Credit Facility

The senior secured revolving credit facility consists of the following subfacilities:

- A revolving credit facility available for loans in U.S. dollars to ARAMARK Corporation with aggregate commitments of \$555 million (\$515 million with a final maturity of January 26, 2017 and \$40 million with a final maturity of January 26, 2015); and
- A revolving credit facility available for loans in Canadian dollars or U.S. dollars to ARAMARK Corporation or a Canadian subsidiary with aggregate commitments of \$50 million (due January 26, 2017).

### *Amendment Agreement No. 1*

On April 18, 2011, ARAMARK Corporation entered into an Amendment Agreement to the Restated Credit Agreement (the “Amendment Agreement No. 1”) that extended, from January 2013 to January 2015, the maturity of, and increased, from \$435 million to \$500 million, the U.S. dollar denominated portion of its existing revolving credit facility. Any commitments from existing lenders in the U.S. dollar facility that were not extended were terminated, which resulted in a write-off of deferred financing fees of \$2.1 million in fiscal 2011. Existing lenders that extended the U.S. dollar denominated portion of their existing revolving credit facility include entities affiliated with GS Capital Partners and J.P. Morgan Partners. Commitment fees and third party costs directly attributable to the amendment were approximately \$7.2 million in fiscal 2011, of which approximately \$3.9 million were paid to entities affiliated with GS Capital Partners and J.P. Morgan Partners.

### *Amendment Agreement No. 4*

Amendment Agreement No. 4 provided for the extension, from January 26, 2015 to January 26, 2017, of the maturity of \$500 million in revolving lender commitments of the existing \$550 million revolving credit facility, which extended portion was subsequently increased to \$510 million. The maturity date of the extended revolving credit facilities would accelerate to April 26, 2016 if term loans under the Credit Agreement that are due on July 26, 2016 remain outstanding on April 26, 2016. Third party costs directly attributable to the revolving credit facility of approximately \$2.8 million were capitalized and are included in “Other Assets” in the Consolidated Balance Sheets, of which approximately \$0.6 million were paid to entities affiliated with GS Capital Partners and J.P. Morgan Partners.

### *Amendment Agreement No. 5*

On March 22, 2013, ARAMARK Corporation entered into Amendment Agreement No. 5 (“Amendment Agreement No. 5”) to the Credit Agreement. Amendment Agreement No. 5 increased the aggregate revolving loan commitments made available to ARAMARK Corporation under the Credit Agreement by \$55.0 million to \$605.0 million.

## [Table of Contents](#)

The applicable margin spread for borrowings under the revolving credit facility are 3.25% with respect to Eurocurrency borrowings and 2.25% with respect to base-rate borrowings.

In addition to paying interest on outstanding principal under the senior secured credit agreement, ARAMARK Corporation is required to pay a commitment fee to the lenders under the revolving credit facility in respect of the unutilized commitments thereunder. The commitment fee rate is 0.50% per annum.

As of September 27, 2013, there was approximately \$579.0 million available for borrowing on the credit facility.

### **8.625% / 9.375% Senior Notes due 2016**

On April 18, 2011, the Company completed a private placement of \$600 million, net of a 1% discount, in aggregate principal amount of 8.625% / 9.375% Senior Notes due 2016. Interest on the Holdings Notes accrues at the rate of 8.625% per annum with respect to interest payments made in cash and 9.375% per annum with respect to any payment in-kind interest. The Holdings Notes are obligations of the Company, are not guaranteed by ARAMARK Corporation and its subsidiaries and are structurally subordinated to all existing and future indebtedness and other liabilities of ARAMARK Corporation and its subsidiaries.

The Company used the net proceeds from the offering of the Holdings Notes, along with \$132.7 million in borrowings by ARAMARK Corporation under the extended U.S. dollar revolving credit facility, to pay an approximately \$711 million dividend (\$3.50 per share) to the Company's stockholders and to pay fees and expenses related to the issuance of the Holdings Notes. Third party costs directly attributable to the Holdings Notes were approximately \$14.6 million, of which approximately \$8.3 million were paid to entities affiliated with GS Capital Partners and J.P. Morgan Partners.

### **5.75% Senior Notes due 2020**

On March 7, 2013, ARAMARK Corporation issued \$1,000 million of 5.75% Senior Notes due 2020 (the "Senior Notes") pursuant to a new indenture, dated as of March 7, 2013 (the "Indenture"). The Senior Notes were issued at par. The Senior Notes were sold only to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"), and to certain persons in offshore transactions in reliance on Regulation S, under the Securities Act. The Senior Notes are unsecured obligations of ARAMARK Corporation. The Senior Notes rank equal in right of payment to all of ARAMARK Corporation's existing and future senior debt and senior in right of payment to all of ARAMARK Corporation's existing and future debt that is expressly subordinated in right of payment to the Senior Notes. The Senior Notes are guaranteed on a senior, unsecured basis by substantially all of the domestic subsidiaries of ARAMARK Corporation. Interest on the Senior Notes is payable on March 15 and September 15 of each year, commencing on September 15, 2013. The Senior Notes and guarantees are structurally subordinated to all of the liabilities of any of ARAMARK Corporation's subsidiaries that do not guarantee the Senior Notes. The Senior Notes mature on March 15, 2020.

Prior to March 15, 2015, ARAMARK Corporation may redeem up to 40% of the Senior Notes with the proceeds from one or more qualified equity offerings at a price equal to 105.750% of the principal amount of the Senior Notes redeemed, plus accrued and unpaid interest and additional interest, if any, to the date of redemption. In addition, at any time prior to March 15, 2015, ARAMARK Corporation may redeem all or a portion of the Senior Notes at a price equal to 100% of the principal amount of the Senior Notes redeemed plus a "make whole" premium and accrued and unpaid interest and additional interest, if any, to the date of redemption. Thereafter, ARAMARK Corporation has the option to redeem all or a portion of the Senior Notes at any time at the redemption prices set forth in the Indenture.

In the event of certain types of changes of control, the holders of the Senior Notes may require ARAMARK Corporation to purchase for cash all or a portion of their Senior Notes at a purchase price equal to 101% of the principal amount of such Senior Notes, plus accrued and unpaid interest, if any, to the date of repurchase.

## [Table of Contents](#)

The Indenture contains covenants limiting ARAMARK Corporation's ability and the ability of its restricted subsidiaries to: incur additional indebtedness or issue certain preferred shares; pay dividends and make certain distributions, investments and other restricted payments; create certain liens; sell assets; enter into transactions with affiliates; limit the ability of restricted subsidiaries to make payments to ARAMARK Corporation; enter into sale and leaseback transactions; merge, consolidate, sell or otherwise dispose of all or substantially all of ARAMARK Corporation's assets; and designate ARAMARK Corporation's subsidiaries as unrestricted subsidiaries. The Indenture also provides for events of default which, if any of them occurs, would permit or require the principal of and accrued interest on the Senior Notes to become or to be declared due and payable.

During the second quarter of fiscal 2013, approximately \$13.8 million of third-party costs directly attributable to the Senior Notes were capitalized and are included in "Other Assets" in the Consolidated Balance Sheets. Approximately \$7.3 million of the third-party costs were paid to entities affiliated with GS Capital Partners and J.P. Morgan Partners.

### *Registration Rights Agreement*

On March 7, 2013, ARAMARK Corporation entered into a registration rights agreement (the "Registration Rights Agreement") among the guarantors named therein and Goldman, Sachs & Co. and J.P. Morgan Securities LLC, as representatives of the several initial purchasers, with respect to the Senior Notes. In the Registration Rights Agreement, ARAMARK Corporation agreed to, among other things, (1) file an exchange offer registration statement pursuant to which ARAMARK Corporation will offer exchange notes with terms identical in all material respects to, and evidencing the same indebtedness as, the Senior Notes, in exchange for such notes (but which exchange notes will not contain terms with respect to transfer restrictions or provide for the additional interest described below); and (2) use commercially reasonable efforts to cause the exchange offer registration statement to be declared effective under the Securities Act. ARAMARK Corporation has agreed to use commercially reasonable efforts to cause the exchange offer to be consummated or, if required, to have one or more shelf registration statements declared effective, within 390 days after the issue date of the Senior Notes.

If ARAMARK Corporation fails to satisfy this obligation (a "registration default"), the annual interest rate on the Senior Notes will increase by 0.25%. The annual interest rate on the Senior Notes will increase by an additional 0.25% for each subsequent 90-day period during which the registration default continues, up to a maximum additional interest rate of 1.00% per year over the applicable interest rate in the Indenture. If the registration default is corrected, the applicable interest rate on the Senior Notes will revert to the original level.

### **Repurchase of 8.50% Senior Notes due 2015, Senior Floating Rate Notes due 2015 and 8.625% / 9.375% Senior Notes due 2016**

#### *Tender Offer*

In February 2013, ARAMARK Corporation and the Company commenced a tender offer to purchase for cash any and all of the Holdings Notes and the Fixed Rate Notes and the Floating Rate Notes (collectively, the "Notes"). On March 7, 2013, ARAMARK Corporation used a portion of the aggregate proceeds of the Senior Notes offering and the borrowings under the new term loans pursuant to Amendment Agreement No. 4 to purchase all Notes tendered by March 6, 2013, the early tender date. On March 7, 2013, ARAMARK Corporation issued redemption notices for the portions of ARAMARK Corporation's Fixed Rate Notes and Floating Rate Notes that remained outstanding, including accrued and unpaid interest, as of March 7, 2013, which provided for the redemption of such notes on April 6, 2013 at prices of 100% of the principal amount thereof. On March 7, 2013, the Company issued a redemption notice for the portion of the Holdings Notes that remained outstanding as of March 7, 2013, including accrued and unpaid interest, which notices provided for the redemption of the Holdings Notes on May 1, 2013 at a price of 101% of the principal amount thereof.

On March 7, 2013, ARAMARK Corporation and the Company deposited sufficient funds in trust with the trustee under the indenture governing the Notes in full and complete satisfaction and discharge of the remaining aggregate principal amount of such notes, including accrued and unpaid interest (the "Satisfaction and

## [Table of Contents](#)

Discharge”). As a result of the Satisfaction and Discharge, the trustee became the primary obligor for payment of the remaining Notes on or about the redemption notice date of March 7, 2013. ARAMARK Corporation and the Company had a contingent obligation for payment of the Notes were the trustee to default on its payment obligations. The Company believed the risk of such default was remote and therefore did not record a related liability. The remaining Fixed Rate Notes and Floating Rate Notes were redeemed by the trustee on April 6, 2013. The remaining Holdings Notes were redeemed by the trustee on May 1, 2013.

During the second quarter of fiscal 2013, in connection with the tender offer and Satisfaction and Discharge, the Company recorded \$39.8 million of charges to “Interest and Other Financing Costs, net” in the Consolidated Statements of Income, consisting of \$12.9 million of third party costs for the tender offer premium and \$26.9 million of non-cash charges for the write-off of deferred financing costs.

### Future Maturities and Interest and Other Financing Costs, net

At September 27, 2013, annual maturities on long-term borrowings in the next five fiscal years and thereafter (excluding the \$7.8 million discount on the senior secured term loan facilities and presumes repayment of the \$2.6 billion U.S. and non-U.S. denominated term loans on July 26, 2016) are as follows (in thousands):

### NOTE 7. DERIVATIVE INSTRUMENTS:

The Company enters into contractual derivative arrangements to manage changes in market conditions related to interest on debt obligations, foreign currency exposures and exposure to fluctuating natural gas, gasoline and diesel fuel prices. Derivative instruments utilized during the period include interest rate swap agreements, foreign currency forward exchange contracts, and gasoline and diesel fuel agreements. All derivative instruments are recognized as either assets or liabilities on the balance sheet at fair value at the end of each quarter. The counterparties to the Company’s contractual derivative agreements are all major international financial institutions. The Company is exposed to credit loss in the event of nonperformance by these counterparties. The Company continually monitors its positions and the credit ratings of its counterparties, and does not anticipate nonperformance by the counterparties. For designated hedging relationships, the Company formally documents the hedging relationship and its risk management objective and strategy for undertaking the hedge, the hedging instrument, the hedged item, the nature of the risk being hedged, how the hedging instrument’s effectiveness in offsetting the hedged risk will be assessed prospectively and retrospectively, and a description of the method of measuring ineffectiveness. The Company also formally assesses, both at the hedge’s inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting cash flows of hedged items.

### Cash Flow Hedges

The Company previously entered into \$1.0 billion of interest rate swap agreements, fixing the rate on a like amount of variable rate borrowings. During fiscal 2013, the Company entered into \$1.3 billion of forward starting interest rate swap agreements to hedge the cash flow risk of variability in interest payments on variable rate borrowings. Subsequent to September 27, 2013, the Company entered into an additional \$600 million notional amount of forward starting interest rate swap agreements to hedge the cash flow risk of variability in interest rate payments on variable rate borrowings. Changes in the fair value of a derivative that is designated as and meets all the required criteria for a cash flow hedge are recorded in accumulated other comprehensive income (loss) and reclassified into earnings as the underlying hedged item affects earnings. As of September 27, 2013 and September 28, 2012, approximately (\$20.5) million and (\$28.1) million of unrealized net of tax losses related to the interest rate swaps were included in "Accumulated other comprehensive loss," respectively. The hedge ineffectiveness for these cash flow hedging instruments during fiscal 2013, fiscal 2012 and fiscal 2011 was not material.

The Company previously entered into a \$160.0 million amortizing cross currency swap to mitigate the risk of variability in principal and interest payments on the Canadian subsidiary's variable rate debt denominated in U.S. dollars. The agreement fixes the rate on the variable rate borrowings and mitigates changes in the Canadian dollar/U.S. dollar exchange rate. In March 2012, the cross currency swap was amended to match the terms of the Canadian subsidiary's debt that was impacted by the Amendment Agreement No. 2. A portion of the swap was amended and extended to match the terms related to its variable rate debt denominated in U.S. dollars that was extended under Amendment Agreement No. 2. The Company has designated the swaps as cash flow hedges. During fiscal 2013 and fiscal 2012, approximately \$1.0 million and (\$8.1) million of unrealized net of tax gains (losses) related to the swap were added to "Accumulated other comprehensive loss," respectively. Approximately (\$4.0) million and \$10.0 million were reclassified to offset net translation gains (losses) on the foreign currency denominated debt during fiscal 2013 and fiscal 2012, respectively. As of September 27, 2013 and September 28, 2012, unrealized net of tax losses of approximately (\$3.5) million and (\$5.0) million related to the cross currency swap were included in "Accumulated other comprehensive loss," respectively. As a result of amending the cross currency swap, the hedge ineffectiveness for fiscal 2012 was approximately \$3.6 million, which is recorded in "Interest and Other Financing Costs, net". The hedge ineffectiveness for this cash flow hedging instrument during fiscal 2013 and fiscal 2011 was not material.

As a result of Amendment Agreement No. 3, the Company de-designated the cross currency swap that hedged the Canadian subsidiary's term loan with a maturity date of January 26, 2014. Prior to Amendment Agreement No. 3, these contracts met the required criteria to be designated as cash flow hedging instruments. As a result, approximately \$3.2 million was reclassified from "Accumulated other comprehensive loss" in the Consolidated Balance Sheets to "Interest and Other Financing Costs, net" in the Consolidated Statements of Income during fiscal 2013.

The following table summarizes the net of tax effect of our derivatives designated as cash flow hedging instruments on Comprehensive Income (in thousands):

	Fiscal Year Ended September 27, 2013	Fiscal Year Ended September 28, 2012	Fiscal Year Ended September 30, 2011
Interest rate swap agreements	\$ 7,598	\$ 28,147	\$ 58,082

### Derivatives not Designated in Hedging Relationships

The Company elected to de-designate the cross currency swaps that were hedged against the Canadian subsidiary's term loan with a maturity date of January 26, 2014 due to the repayment of the term loan as a result of Amendment Agreement No. 3. As a result, on a prospective basis, changes in the fair value of these swaps are recorded in earnings. For fiscal 2013, the Company recorded a pretax gain (loss) of approximately \$3.0 million for the change in the fair value of these swaps in "Interest and Other Financing Costs, net" in the Consolidated Statements of Income. The changes in the fair value of these swaps are expected to offset future currency transaction gains and losses on a U.S. dollar denominated intercompany loan between the Company and its Canadian subsidiary.

The Company entered into a series of pay fixed/receive floating gasoline and diesel fuel agreements based on the Department of Energy weekly retail on-highway index in order to limit its exposure to price fluctuations for gasoline and diesel fuel. As of September 27, 2013, the Company has contracts for approximately 0.2 million gallons outstanding for fiscal 2014. Prior to October 1, 2011, all outstanding contracts were designated as cash flow hedging instruments; therefore, changes in the fair value of these contracts were recorded in accumulated other comprehensive income (loss) and reclassified into earnings as the underlying hedged item affects earnings. Beginning in first quarter of fiscal 2012, the Company no longer records its gasoline and diesel fuel agreements as hedges for accounting purposes. As a result, on a prospective basis, changes in the fair value of these contracts are recorded in earnings. Amounts previously recorded in accumulated other comprehensive income (loss) were reclassified into earnings as the underlying item affected earnings. During fiscal 2013 and fiscal 2012, the Company recorded a pretax gain (loss) of (\$0.7) million and \$0.7 million in the Consolidated Statements of Income for the change in the fair value on these agreements, respectively. The hedge ineffectiveness for the gasoline and diesel fuel hedging instruments for fiscal 2011 was immaterial.

As of September 27, 2013, the Company had foreign currency forward exchange contracts outstanding with notional amounts of €95.9 million, £45.8 million, kr.26.6 million and CAD16.0 million to mitigate the risk of changes in foreign currency exchange rates on short-term intercompany loans to certain international subsidiaries. Gains and losses on these foreign currency exchange contracts are recognized in income as the contracts were not designated as hedging instruments, substantially offsetting currency transaction gains and losses on the short term intercompany loans.

The following table summarizes the location and fair value, using Level 2 inputs, of the Company's derivatives designated and not designated as hedging instruments in the Consolidated Balance Sheets (in thousands):

As part of the 2007 Transaction, the Company entered into a Japanese yen denominated term loan in the amount of ¥5,422 million (see Note 6). The term loan was designated as a hedge of the Company’s net Japanese currency exposure represented by the equity investment in our Japanese affiliate, AIM Services Co., Ltd.

At September 27, 2013, the net of tax loss expected to be reclassified from “Accumulated other comprehensive loss” into earnings over the next twelve months based on current market rates is approximately \$17.0 million.

### NOTE 8. EMPLOYEE PENSION AND PROFIT SHARING PLANS:

In the United States, the Company maintains qualified contributory and non-contributory defined contribution retirement plans for eligible employees, with Company contributions to the plans based on earnings performance or salary level. The Company also has a non-qualified retirement savings plan for certain employees. The total expense of the above plans for fiscal 2013, fiscal 2012 and fiscal 2011 was \$32.4 million, \$29.5 million and \$31.5 million, respectively. The Company also maintains similar contributory and non-contributory defined contribution retirement plans at several of its international operations. The total expense of these international plans for fiscal 2013, fiscal 2012 and fiscal 2011 was \$8.5 million, \$5.0 million and \$5.7 million, respectively. Additionally, the Company maintains several contributory and non-contributory defined benefit pension plans, primarily in Canada and the United Kingdom.

	<u>September 27, 2013</u>	<u>September 28, 2012</u>
Discount rate	4.6%	4.2%
Rate of compensation increase	3.3%	3.4%

Assumptions are adjusted annually, as necessary, based on prevailing market conditions and actual experience.

The accumulated benefit obligation as of September 27, 2013 was \$273.8 million. During fiscal 2013, actuarial gains of approximately \$24.2 million were recognized in other comprehensive income (loss) (before taxes) and \$3.4 million of amortization of actuarial losses was recognized as net periodic pension cost during such period. The estimated portion of net actuarial loss included in accumulated other comprehensive loss as of September 27, 2013 expected to be recognized in net periodic pension cost during fiscal 2014 is approximately \$1.0 million (before taxes).

The accumulated benefit obligation as of September 28, 2012 was \$279.4 million. During fiscal 2012, actuarial losses of approximately \$22.8 million and settlement gains of \$0.3 million were recognized in other comprehensive income (loss) (before taxes) and \$0.6 million of amortization of actuarial losses was recognized as net periodic pension cost during such period. The estimated portion of net actuarial loss included in accumulated other comprehensive loss as of September 28, 2012 expected to be recognized in net periodic pension cost during fiscal 2013 approximately \$3.6 million (before taxes).

The following table sets forth information for the Company's single-employer pension plans with an accumulated benefit obligation in excess of plan assets as of September 27, 2013 and September 28, 2012 (in thousands):

	<u>September 27, 2013</u>	<u>September 28, 2012</u>
Projected benefit obligation	\$ 166,798	\$ 302,072
Accumulated benefit obligation	160,798	274,701
Fair value of plan assets	131,392	217,044

Assets of the plans are invested with the goal of principal preservation and enhancement over the long-term. The primary goal is total return, consistent with prudent investment management. The Company's investment policies also require an appropriate level of diversification across the asset categories. The current overall capital structure and targeted ranges for asset classes are 50-70% invested in equity securities and 30-50% invested in debt securities. Performance of the plans is monitored on a regular basis and adjustments of the asset allocations are made when deemed necessary.

The weighted-average long-term rate of return on assets has been determined based on an estimated weighted-average of long-term returns of major asset classes, taking into account historical performance of plan assets, the current interest rate environment, plan demographics, acceptable risk levels and the estimated value of active asset management.

The fair value of plan assets for the Company's defined benefit pension plans as of September 27, 2013 and September 28, 2012 is as follows (see Note 15 for a description of the fair value levels) (in thousands):

The fair value of the pooled separate accounts is based on the value of the underlying assets, as reported to the Plan by the trustees. The pooled separate account is comprised of a portfolio of underlying securities that can be valued on active markets. Fair value is calculated by applying the Plan's percentage ownership in the pooled separate account to the total market value of the account's underlying securities, and is therefore categorized as Level 2 as the Plan does not directly own shares in these underlying investments. Investments in equity securities include publicly-traded domestic (approximately 33%) and international (approximately 67%) companies that are diversified across industry, country and stock market capitalization. Investments in fixed income securities include domestic (approximately 10%) and international (approximately 90%) corporate bonds and government securities. Cash and cash equivalents include direct cash holdings, which are valued based on cost, and short-term deposits and investments in money market funds for which fair value measurements are all based on quoted prices for similar assets or liabilities in markets that are not active.

It is the Company's policy to fund at least the minimum required contributions as outlined in the required statutory actuarial valuation for each plan. The following table sets forth the benefits expected to be paid in the next five fiscal years and in aggregate for the five fiscal years thereafter by the Company's defined benefit pension plans (in thousands):

Fiscal 2014	\$12,218
Fiscal 2015	\$11,423
Fiscal 2016	\$11,899
Fiscal 2017	\$12,488
Fiscal 2018	\$13,010
Fiscal 2019 – 2023	\$69,358

The estimated benefit payments above are based on assumptions about future events. Actual benefit payments may vary significantly from these estimates.

The expected contributions to be paid to the Company's defined benefit pension plans during fiscal 2014 are approximately \$25.8 million.

### Multiemployer Defined Benefit Pension Plans

The Company contributes to a number of multiemployer defined benefit pension plans under the terms of collective-bargaining agreements (“CBA”) that cover its union-represented employees. The risks of participating in these multiemployer plans are different from single-employer plans in the following respects:

- Assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers.
- If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers.
- If the Company chooses to stop participating in some of its multiemployer plans, the Company may be required to pay those plans an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

The Company’s participation in these plans for fiscal 2013 is outlined in the table below. The “EIN/Pension Plan Number” column provides the Employee Identification Number (EIN) and the three-digit plan number, if applicable. Unless otherwise noted, the most recent Pension Protection Act (PPA) zone status available in 2013 and 2012 is for the plans’ two most recent fiscal year-ends. The zone status is based on information that the Company received from the plan and is certified by the plan’s actuary. Among other factors, plans in the red zone are generally less than 65 percent funded, plans in the yellow zone are less than 80 percent funded, and plans in the green zone are at least 80 percent funded. The “FIP/RP Status Pending/Implemented” column indicates plans for which a financial improvement plan (FIP) or a rehabilitation plan (RP) is either pending or has been implemented. The last column lists the expiration date(s) of the CBA(s) to which the plans are subject. There have been no significant changes that affect the comparability of fiscal 2013, fiscal 2012 and fiscal 2011 contributions.

During fiscal 2013, the Company reached an agreement with the New England Teamsters and Trucking Industry Pension Fund (“New England Pension Fund”), a multiemployer pension plan in which the Company is a participant, to restructure the pension liabilities. As part of this agreement, the Company agreed to withdraw from the original pool of the New England Pension Fund of which it had historically been a participant, and reenter the New England Pension Fund’s newly-established pool as a new employer. As a result of withdrawing from the original pool, the Company recorded a charge of approximately \$2.4 million, which represents the present value of the future payment obligations.

At the date the Company’s financial statements were issued, Forms 5500 were not available for the plan years ending in 2013.

**NOTE 9. INCOME TAXES:**

The Company accounts for income taxes using the asset and liability method. Under this method, the provision for income taxes represents income taxes payable or refundable for the current year plus the change in deferred taxes during the year. Deferred taxes result from differences between the financial and tax bases of the Company’s assets and liabilities and are adjusted for changes in tax rates and tax laws when changes are enacted. Valuation allowances are recorded to reduce deferred tax assets when it is more likely than not that a tax benefit will not be realized. Interest and penalties related to income tax matters are included in the provision for income taxes.

The components of income from continuing operations before income taxes by source of income are as follows (in thousands):

	<u>Fiscal Year Ended September 27, 2013</u>	<u>Fiscal Year Ended September 28, 2012</u>	<u>Fiscal Year Ended September 30, 2011</u>
United States	\$ 18,557	\$ 34,498	\$ (16,162)

	<u>\$ 90,629</u>	<u>\$ 124,968</u>	<u>\$ 95,969</u>

The provision (benefit) for income taxes consists of (in thousands):

<b>Current:</b>

	<u>\$ 19,233</u>	<u>\$ 18,066</u>	<u>\$ (734)</u>

Current taxes receivable of \$44.6 million and \$3.1 million at September 27, 2013 and September 28, 2012, respectively, are included in "Prepayments and other current assets."

The provision for income taxes varies from the amount determined by applying the United States Federal statutory rate to pretax income as a result of the following (all percentages are as a percentage of pretax income):

	Fiscal Year Ended September 27, 2013	Fiscal Year Ended September 28, 2012	Fiscal Year Ended September 30, 2011
United States statutory income tax rate	35.0%	35.0%	35.0%
Increase (decrease) resulting from:			
State income taxes, net of Federal tax benefit	1.0	0.5	2.1
Foreign taxes	(2.2)	(9.8)	(10.7)
Permanent book/tax differences	1.8	(0.6)	1.2
Uncertain tax positions	(1.6)	(1.8)	(17.7)
Tax credits & other	(12.8)	(8.8)	(10.7)
Effective income tax rate	<u>21.2%</u>	<u>14.5%</u>	<u>(0.8)%</u>

The effective tax rate is based on expected income, statutory tax rates and tax planning opportunities available to the Company in the various jurisdictions in which it operates. Judgment is required in determining the effective tax rate and in evaluating the Company's tax positions. The Company establishes reserves when, despite the belief that the Company's tax return positions are supportable, the Company believes that certain positions are likely to be challenged and that the Company may not succeed. The Company adjusts these reserves in light of changing facts and circumstances, such as the progress of a tax audit. The effective tax rate includes the impact of reserve provisions and changes to the reserve that the Company considers appropriate, as well as related interest and penalties. During fiscal 2011, the Company recorded a reduction of approximately \$17.0 million related to the remeasurement of an uncertain tax position. The American Taxpayer Relief Act (the "Act") was enacted on January 3, 2013. Under the Act, the Work Opportunity Tax Credit was extended until December 31, 2013.

A number of years may elapse before a particular tax reporting year is audited and finally resolved. The number of years with open tax audits varies depending on the tax jurisdiction. In the United States, the statutes for state income taxes for 2002 and forward remain open. The Company received final notification in November

## [Table of Contents](#)

2012 that the Internal Revenue Service has settled the 2007 and 2008 examinations of the Company's tax returns. While it is often difficult to predict the final outcome or the timing of resolution of any particular tax matter, the Company believes that its income tax accruals reflect the probable outcome of known tax contingencies. Unfavorable settlement of any particular issue would require use of the Company's cash.

As of September 27, 2013, certain subsidiaries have recorded deferred tax assets of \$21.0 million associated with accumulated federal, state and foreign net operating loss carryforwards. The Company has approximately a \$10.3 million valuation allowance as of September 27, 2013 against these deferred tax assets due to the uncertainty of its realization. In addition, certain subsidiaries have accumulated state net operating loss carryforwards for which no benefit has been recorded as they are attributable to uncertain tax positions. The unrecognized tax benefits, as of September 27, 2013, attributable to these net operating losses was approximately \$5.7 million. Due to the uncertain tax position, these net operating losses are not included as components of deferred tax assets as of September 27, 2013. The federal, state and foreign net operating loss carryforwards will expire from 2014 through 2033.

As of September 27, 2013, the Company has approximately \$16.2 million of general business and foreign tax credit carryforwards, which expire in 2033 and 2023, respectively. The Company believes it is more likely than not that it will be able to generate taxable income in the future sufficient to utilize these carryforwards, and no valuation allowance is necessary. The Company does not currently hold significant or excessive cash balances at any of its foreign operations and does not consider any of its unremitted earnings to be permanently reinvested. Therefore, the Company has provided a deferred tax liability for incremental U.S. taxes on all unremitted earnings.

As of September 27, 2013 and September 28, 2012, the components of deferred taxes are as follows (in thousands):

	<u>September 27, 2013</u>	<u>September 28, 2012</u>
<b>Deferred tax liabilities:</b>		
Property and equipment	\$ 71,425	\$ 82,627

Current deferred tax assets of \$42.7 million and \$77.9 million at September 27, 2013 and September 28, 2012 are included in "Prepayments and other current assets," respectively. Deferred tax liabilities of \$589.9 million and \$632.3 million at September 27, 2013 and September 28, 2012 are included in "Deferred Income Taxes and Other Noncurrent Liabilities," respectively. The increase in the Company's inventory and other deferred tax liabilities relates to the change in tax regulations impacting the timing of allowable deductions for certain in service inventory.

The Company had approximately \$27.3 million of total gross unrecognized tax benefits as of September 27, 2013, all of which, if recognized, would impact the effective tax rate. A reconciliation of the beginning and ending amount of gross unrecognized tax benefits follows (in thousands):

The Company had approximately \$7.0 million and \$8.4 million accrued for interest and penalties as of September 27, 2013 and September 28, 2012, respectively, and recorded approximately (\$0.3) million and (\$1.0) million in interest and penalties during fiscal 2013 and fiscal 2012, respectively.

The Company is subject to U.S. federal income tax as well as income tax of multiple state and foreign jurisdictions. The Company has substantially concluded all U.S. federal income tax matters for years through 2009, with the exception of certain Work Opportunity Tax Credits and Welfare to Work Tax Credits which are pending the outcome of Protective Refund Claims filed for 1998 through 2006.

The Company has significant operations in approximately 20 states and foreign taxing jurisdictions. The Company has open tax years in these jurisdictions ranging from 1 to 10 years. The Company does not anticipate that any adjustments resulting from tax audits would result in a material change to the results of operations or financial condition.

The Company does not expect the amount of unrecognized tax benefits to significantly change within the next 12 months.

### **NOTE 10. CAPITAL STOCK:**

Pursuant to the Stockholders Agreement of the Company, upon termination of employment from the Company or one of its subsidiaries, members of the Company's management (other than Mr. Neubauer) who hold shares of common stock of the Company can cause the Company to repurchase all of their initial investment shares (as defined) or shares acquired as a result of the exercise of Installment Stock Purchase Opportunities at appraised fair market value. Generally, payment for shares repurchased could be, at the Company's option, in cash or installment notes, which would be effectively subordinated to all indebtedness of ARAMARK Corporation. The amount of this potential repurchase obligation has been classified outside of stockholders' equity. The amount of common stock subject to repurchase as of September 27, 2013 and September 28, 2012 was \$158.7 million and \$167.5 million, which is based on approximately 9.4 million and 11.0 million shares of common stock of the Company valued at \$16.88 and \$15.17 per share, respectively. The fair value of the common stock subject to repurchase is calculated using discounted cash flow techniques and comparable public

company trading multiples. Inputs used in the discounted cash flow analysis include the weighted average cost of capital, long-term revenue growth rates, long-term EBIT margins and residual growth rates. Inputs used in the comparable public company trading multiples include the last-twelve-months' EBITDA multiple, forward EBITDA multiples and control premium. During fiscal 2013 and fiscal 2012, approximately \$66.6 million and \$67.3 million of common stock of the Company was repurchased, respectively, and has been reflected in the Company's consolidated financial statements. The Stockholders Agreement, the senior secured credit agreement and the indenture governing the Senior Notes contain limitations on the amount the Company can expend for such share repurchases.

### **NOTE 11. SHARE-BASED COMPENSATION:**

In connection with the 2007 Transaction, the Company established the ARAMARK Holdings Corporation 2007 Management Stock Incentive Plan (the "2007 MSIP"). Incentive awards under the 2007 MSIP may be granted to employees or directors of, or consultants to, the Company or one of its affiliates in the form of non-qualified stock options, unvested shares of common stock, the opportunity to purchase shares of common stock and other awards that are valued in whole or in part by reference to, or are otherwise based on, the fair market value of the Company's shares. The 2007 MSIP permits the granting of awards of up to 42.0 million shares of common stock of the Company. As of September 27, 2013, there were 11.7 million shares available for grant.

On June 20, 2013, the Company adopted the Fourth Amended and Restated ARAMARK Holdings Corporation 2007 Management Stock Incentive Plan (the "Fourth Amended Stock Incentive Plan"). The Fourth Amended Stock Incentive Plan provides for the grant of restricted stock units and restricted stock in addition to stock options. The Company also approved a new form of non-qualified stock option award agreement which provides for 100% time-based vesting. Options granted under earlier forms of non-qualified discretionary stock option agreements provided for 50% time-based vesting and 50% performance-based vesting. Finally, the Company offered to holders of outstanding Installment Stock Purchase Opportunities ("ISPOs") the ability to exchange such awards for restricted stock and non-qualified stock options, which were granted pursuant to a restricted stock award agreement and a replacement stock option award agreement, respectively, with the Company. On June 20, 2013, the Compensation and Human Resources Committee (the "Compensation Committee") approved a new restricted stock award agreement and non-qualified replacement stock option award agreement to be used in connection with the exchange. The restricted stock award agreement provides for a grant of restricted stock under the Fourth Amended Stock Incentive Plan with a vesting schedule based upon the vesting schedule of the ISPO that is exchanged. The non-qualified replacement stock option award agreement is similar to the Time-Based Options discussed below, but the vesting schedule of the replacement stock option is based upon the vesting schedule of the ISPO that is exchanged.

Share-based compensation expense charged to expense for fiscal 2013, fiscal 2012 and fiscal 2011 was approximately \$19.4 million, before taxes of approximately \$7.6 million, approximately \$15.7 million, before taxes of approximately \$6.1 million, and approximately \$17.3 million, before taxes of approximately \$6.8 million, respectively. The compensation expense recognized is classified as "Selling and general corporate expenses" in the Consolidated Statements of Income. No compensation expense was capitalized.

Cash received from option exercises during fiscal 2013, fiscal 2012 and fiscal 2011 was \$5.6 million, \$6.7 million and \$1.0 million, respectively. For fiscal 2013, fiscal 2012 and fiscal 2011, the amount of tax benefits included in "Other financing activities" in the Consolidated Statements of Cash Flows was \$4.8 million, \$4.5 million and \$0.7 million, respectively.

### **Stock Options**

Each award of stock options under the 2007 MSIP is comprised of two types of stock options. One-half of the options awarded vest solely based upon continued employment over a specific period of time, generally four years ("Time-Based Options"). One-half of the options awarded vest based both upon continued employment and

upon the achievement of a level of earnings before interest and taxes (“EBIT”), as defined in the 2007 MSIP, over time, generally four years (“Performance-Based Options”). The Performance-Based Options may also vest in part or in full upon the occurrence of specific return-based events. The exercise price for Time-Based Options and Performance-Based Options equals the fair value of the Company’s stock on the date of the grant. All options remain exercisable for ten years from the date of grant. Due to the Fourth Amended Stock Incentive Plan, all option awards granted subsequent to June 20, 2013 will only be comprised of Time-Based Options.

### *Time-Based Options*

The fair value of the Time-Based Options granted was estimated using the Black-Scholes option pricing model and the weighted-average assumptions noted in the table below. Since the Company’s stock is not publicly traded, the expected volatility is based on an average of the historical volatility of the Company’s competitors’ stocks over the expected term of the stock options. The expected life represents the period of time that options granted are expected to be outstanding and is calculated using the simplified method as permitted under Securities and Exchange Commission (“SEC”) rules and regulations due to the lack of history of our equity incentive plan and the lack of a public market for our common stock. The simplified method uses the midpoint between an option’s vesting date and contractual term. The risk-free rate is based on the U.S. Treasury security with terms equal to the expected life of the option as of the grant date.

	Fiscal Year Ended September 27, 2013	Fiscal Year Ended September 28, 2012	Fiscal Year Ended September 30, 2011

Risk-free interest rate	1.02% - 2.36%	1.04% - 1.61%	1.41% - 2.86%

The weighted-average grant-date fair value of Time-Based Options granted during fiscal 2013, fiscal 2012 and fiscal 2011 was \$5.41, \$4.57 and \$4.42 per option, respectively.

Compensation expense for Time-Based Options is recognized on a straight-line basis over the vesting period during which employees perform related services. Approximately \$9.3 million, \$8.5 million and \$10.3 million was charged to expense during fiscal 2013, fiscal 2012 and fiscal 2011 for Time-Based Options, respectively. The Company has applied a forfeiture assumption of 8.7% per annum in the calculation of such expense.

As of September 27, 2013, there was approximately \$29.0 million of unrecognized compensation expense related to nonvested Time-Based Options, which is expected to be recognized over a weighted-average period of approximately 3.16 years.

A summary of Time-Based Options activity is presented below:

The total fair value of Time-Based Options that vested during fiscal 2013, fiscal 2012 and fiscal 2011 was \$3.9 million, \$7.9 million and \$15.8 million, respectively.

### **Performance-Based Options**

The fair value of the Performance-Based Options was estimated using the Black-Scholes option pricing model and the weighted-average assumptions noted in the table below. Since the Company's stock is not publicly traded, the expected volatility is based on an average of the historical volatility of the Company's competitors' stocks over the expected term of the stock options. The expected life represents the period of time that options granted are expected to be outstanding and is calculated using the simplified method as permitted under SEC rules and regulations due to the lack of history of our equity incentive plan and the lack of a public market for our common stock. The simplified method uses the midpoint between an option's vesting date and contractual term. The risk-free rate is based on the U.S. Treasury security with terms equal to the expected life of the option as of the grant date.

Risk-free interest rate	0.61% - 0.85%	0.73% - 1.04%	1.43% - 2.86%

The weighted-average grant-date fair value of the Performance-Based Options granted during fiscal 2013, fiscal 2012 and fiscal 2011 was \$4.54, \$3.91 and \$4.21 per option, respectively.

Compensation expense for Performance-Based Options is recognized on a principally straight-line basis over the requisite performance and service periods. The Company recognized compensation expense of approximately \$6.4 million, \$3.6 million and \$5.1 million during fiscal 2013, fiscal 2012 and fiscal 2011 for Performance-Based Options, respectively. The Company has applied a forfeiture assumption of 8.7% per annum in the calculation of such expense.

As of September 27, 2013, there was approximately \$2.4 million of unrecognized compensation expense related to nonvested Performance-Based Options, which is expected to be recognized over a weighted-average period of approximately 0.54 years.

On June 21, 2011, the Company's board of directors (the "Board") approved new annual and cumulative EBIT targets for fiscal 2011 and beyond. Approximately 3.7 million options were affected by these modifications. The fair values of these Performance-Based Options were revalued at the award modification date. The fair value of the Performance-Based Options modified during fiscal 2011 was estimated using the Black-Scholes option pricing model and the following weighted-average assumptions: estimated volatility (30%), expected dividend yield (0%), expected life (3.5-6.8 years) and risk-free interest rate (0.69%-2.27%). The weighted-average fair value of the Performance-Based Options modified during fiscal 2011 was \$4.66 per option.

On June 21, 2011, the Company's Board also agreed that for awards granted on or after June 21, 2011, annual and cumulative EBIT targets for future fiscal years beginning after fiscal 2011 will be set within 90 days of the beginning of each fiscal year. The Third Amended Stock Incentive Plan also provides that if an annual EBIT target is established for fiscal 2012 or later years for options granted after June 21, 2011 that is less than the annual EBIT target for such fiscal year for outstanding stock options, the EBIT target for such outstanding options will be reduced to the lower EBIT target.

### ***Installment Stock Purchase Opportunities***

Installment Stock Purchase Opportunities provide the grantee the option to purchase shares of the Company's common stock. ISPO awards are divided into five equal installments. The first installment, which represents 20% of the total award, vests immediately upon grant and will be exercisable until the first anniversary of the grant date. At least 25% of the first installment must be exercised or the entire grant (including the remaining four installments) will expire and any part of the first installment that is not exercised during the exercise period will also expire, in each case on the first anniversary of the grant date. If the exercise conditions of the first installment are met, the remaining four installments will vest on December 15th of the first calendar year following the year in which the ISPO is granted, and on each of the three anniversaries of such date, respectively, and will be exercisable for 31 days thereafter. Any of these remaining four installments that becomes vested but is not exercised during its respective exercise period will expire at the end of its exercise period, but the holder may still exercise any subsequent installments when they vest in future years.

The fair value of the ISPOs was estimated using the Black-Scholes option pricing model and the following weighted-average assumptions noted in the table below. Since the Company's stock is not publicly traded, the expected volatility is based on an average of the historical volatility of the Company's competitors' stocks over the expected term of the stock options. The expected life represents the period of time that options granted are expected to be outstanding and is calculated using the simplified method as permitted under SEC rules and regulations due to the lack of history of our equity incentive plan and the lack of a public market for our common stock. The weighted-average grant-date fair value of ISPOs granted during fiscal 2013, fiscal 2012 and fiscal 2011 was \$2.88, \$2.80 and \$2.47 per option, respectively.

## [Table of Contents](#)

Compensation expense for ISPOs is recognized on a straight-line basis over the vesting period during which employees perform related services. The Company recorded approximately \$1.6 million, \$1.0 million and \$0.8 million of compensation expense related to these awards, including the exchanged awards discussed below, during fiscal 2013, fiscal 2012 and fiscal 2011, respectively. The Company has applied a forfeiture assumption of 8.7% per annum in the calculation of such expense.

As discussed above, the Company offered to holders of outstanding ISPOs the ability to exchange such awards for restricted stock and non-qualified stock options. On July 31, 2013, as a result of the exchange, outstanding ISPOs were converted into approximately 0.2 million of restricted stock awards at a grant-date fair value of \$16.21 and approximately 1.1 million of non-qualified replacement stock option awards at a weighted-average exercise price of \$16.21. The fair value of the non-qualified replacement stock option awards was estimated using the Black-Scholes option pricing model and the following weighted-average assumptions: estimated volatility (30%), expected dividend yield (0%), expected life (4.6-6.2 years) and risk-free interest rate (1.38%). The weighted-average fair value of the replacement stock option awards was \$4.79 per option.

As of September 27, 2013, there was approximately \$5.0 million of unrecognized compensation expense related to nonvested ISPOs and exchanged awards, which is expected to be recognized over a weighted-average period of approximately 2.86 years.

A summary of ISPOs activity is presented below:

### **Seamless Unit Options**

During fiscal 2011, Seamless established the Seamless North America 2011 Equity Incentive Plan (the "Plan"). The Plan allows for the issuance of unit options and other equity-based awards in Seamless. The unit options awarded vest solely based on continued employment over a specific period of time, generally four years. The Company recognized compensation expense of approximately \$0.2 million, \$2.1 million and \$0.1 million for Seamless unit options during fiscal 2013, fiscal 2012 and fiscal 2011, respectively. During fiscal 2012, Seamless granted approximately 3.5 million unit options. The Company did not record any additional expense for these awards upon the completion of the spin-off of Seamless Holdings (see Note 3).

### **Deferred Stock Units**

Deferred stock units are issued only to non-employee members of the Board of Directors of the Company who are not representatives of one of the Sponsors and represent the right to receive shares of the Company's common stock in the future. Each deferred stock unit will be converted to one share of the Company's common stock six months and one day after the date on which such director ceases to serve as a member of the Board of Directors. The grant-date fair value of deferred stock units is based on the fair value of the Company's common

stock. Since the deferred stock units are fully vested upon grant, compensation expense for the entire award is recognized immediately upon grant. The Company granted 42,462 deferred stock units during fiscal 2013. The compensation cost charged to expense during fiscal 2013, fiscal 2012 and fiscal 2011 for deferred stock units was approximately \$0.6 million, \$0.5 million and \$1.0 million, respectively.

### **Time-Based Restricted Stock Units**

The Restricted Stock Unit Agreement provides for grants of restricted stock units (“RSUs”), 25% of which will vest and be settled in shares on each of the first four anniversaries of the date of grant, subject to the participant’s continued employment with the Company through each such anniversary. The grant-date fair value of RSUs is based on the fair value of the Company’s common stock. Participants holding RSUs will receive the benefit of any dividends paid on shares in the form of additional restricted stock units. The unvested units are subject to forfeiture if employment is terminated other than due to death, disability or retirement, and the units are nontransferable while subject to forfeiture.

The Company granted 1,273,275 RSUs during fiscal 2013 at a weighted-average grant-date fair value of \$16.22. Compensation expense for RSUs is recognized on a straight-line basis over the vesting period during which employees perform related services. The compensation cost charged to expense during fiscal 2013 for restricted stock units was approximately \$1.3 million.

As of September 27, 2013, there was approximately \$15.6 million of unrecognized compensation expense related to nonvested RSUs, which is expected to be recognized over a weighted-average period of approximately 3.78 years.

### **NOTE 12. ACCOUNTS RECEIVABLE SECURITIZATION:**

ARAMARK Corporation has an agreement (the “Receivables Facility”) with several financial institutions whereby it sells on a continuous basis an undivided interest in all eligible trade accounts receivable, as defined in the Receivables Facility. The maximum amount available under the Receivables Facility is \$300 million, which expires in January 2015. Pursuant to the Receivables Facility, ARAMARK Corporation formed ARAMARK Receivables, LLC, a wholly-owned, consolidated, bankruptcy-remote subsidiary. ARAMARK Receivables, LLC was formed for the sole purpose of buying and selling receivables generated by certain subsidiaries of the Company. Under the Receivables Facility, ARAMARK Corporation and certain of its subsidiaries transfer without recourse all of their accounts receivable to ARAMARK Receivables, LLC. As collections reduce previously transferred interests, interests in new, eligible receivables are transferred to ARAMARK Receivables, LLC, subject to meeting certain conditions. At September 27, 2013 and September 28, 2012, the amount of outstanding borrowings under the Receivables Facility was \$300.0 million and \$263.8 million, respectively, and is included in “Long-Term Borrowings”.

The maximum potential liability to the Company under such arrangements was approximately \$110.3 million at September 27, 2013 if the terminal fair value of vehicles coming off lease was zero. Consistent with past experience, management does not expect any significant payments will be required pursuant to these arrangements. No amounts have been accrued for guarantee arrangements at September 27, 2013.

**NOTE 15. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES:**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assets and liabilities recorded at fair value are classified based upon the level of judgment associated with the inputs used to measure their fair value. The hierarchical levels related to the subjectivity of the valuation inputs are defined as follows:

- Level 1—inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets
- Level 2—inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument
- Level 3—inputs to the valuation methodology are unobservable and significant to the fair value measurement

*Recurring Fair Value Measurements*

The Company's financial instruments consist primarily of cash and cash equivalents, accounts receivable, accounts payable, borrowings, common stock subject to repurchase and derivatives (see Note 7). Management believes that the carrying value of cash and cash equivalents, accounts receivable and accounts payable are representative of their respective fair values. In conjunction with the fair value measurement of the derivative instruments, the Company made an accounting policy election to measure the credit risk of its derivative instruments that are subject to master netting agreements on a net basis by counterparty portfolio. The fair value

of the Company's debt at September 27, 2013 and September 28, 2012 was \$5,854.9 million and \$6,052.9 million, respectively. The carrying value of the Company's debt at September 27, 2013 and September 28, 2012 was \$5,824.1 million and \$6,008.8 million, respectively. The fair values were computed using market quotes, if available, or based on discounted cash flows using market interest rates as of the end of the respective periods. The inputs utilized in estimating the fair value of the Company's debt has been classified as level 2 in the fair value hierarchy levels.

The following table presents the changes in the Company's common stock subject to repurchase for which level 3 inputs were significant to their valuation for fiscal 2013 (in thousands):

In addition, during the 18 month period following the initial public offering, if the closing trading price for common stock of Holdings equals or exceeds \$25.00 per share over any consecutive twenty day trading period, 100% of the Missed Year Options will become vested. There are a total of approximately 5.3 million Missed Year Options. The accounting for the modification related to the Missed Year Options, which in total is estimated to be approximately \$55 million, will be reflected beginning upon completion of this offering.

### **Management's Responsibility for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan ("Japanese GAAP"); this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of AIM SERVICES Co., Ltd. and its subsidiaries as of March 31, 2013 and 2012, and the results of their operations and their cash flows for each of the three years in the period ended March 31, 2013 in accordance with Japanese GAAP.

### **Emphasis of Matter**

Japanese GAAP varies in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 14 to the consolidated financial statements. Our opinion is not modified with respect to this matter.

The cash flows of Nissho from January 1, 2010 to March 31, 2011 were included in the consolidated statement of cash flows for the year ended March 31, 2011.

**Notes to Consolidated Financial Statements**

**1. BASIS OF PRESENTING CONSOLIDATED FINANCIAL STATEMENTS**

AIM SERVICES Co., Ltd. (the “Company”) mainly provides business dining services in Japan and is owned 50 percent by ARAMARK Corporation and 50 percent by Mitsui & Co., Ltd.

The accompanying consolidated financial statements have been prepared in accordance with the provisions set forth in the Companies Act of Japan (the “Companies Act”) and in conformity with accounting principles generally accepted in Japan (“Japanese GAAP”). Japanese GAAP varies in certain significant respects from accounting principles generally accepted in the United States of America (“U.S. GAAP”). Information relating to the nature and effect of such differences is presented in Note 14 to the consolidated financial statements.

In preparing these consolidated financial statements, certain reclassifications and rearrangements, including additions of the consolidated statements of cash flows and footnote disclosures, have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan. In addition, certain reclassifications have been made in the 2012 and 2011 consolidated financial statements to conform to the classifications used in 2013.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which the Company is incorporated and operates. The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan and has been made at the rate of ¥94 to \$1, the approximate rate of exchange at March 31, 2013. Such translation should not be construed as a representation that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

- a. Consolidation**—The consolidated financial statements as of March 31, 2013 include the accounts of the Company and all 11 (11 in 2012 and 12 in 2011) subsidiaries (together, the “Group”).

An investment in an associated company (a company over which the Company has the ability to exercise significant influence) is accounted for by the equity method. Refer to Note 2.e.

The excess of the cost of an acquisition over the fair value of the net assets of the acquired subsidiaries at the date of acquisition is represented as “Goodwill” on the consolidated balance sheets and is being amortized on a straight-line basis over a period from 10 to 13 years.

Intercompany balances and transactions have been eliminated in consolidation. Unrealized profit included in assets resulting from transactions within the Group is eliminated.

The Company acquired the remaining 5.37% of ownership interest in Nissho on March 18, 2011 and sold all shares of the common stock of Nissho to Yamashita Co, a third party on March 31, 2011 to redeploy the Company’s capital to its core food servicing businesses. Nissho had been a subsidiary of the Company engaged in the linen supply businesses and had a December 31 fiscal year-end. As the Company sold its shares on March 31, 2011, Nissho’s income and loss, and cash flows from January 1, 2010 to March 31, 2011 were included in the Company’s consolidated financial statements. The gross proceeds from the sale were ¥860,000 thousand, and the gain from the sale was ¥313,669 thousand. Nissho’s net income after tax during the three months from January 1, 2011 to March 31, 2011 amounted to ¥12,453 thousand.

- b. Cash and Cash Equivalents**—Cash equivalents are short-term investments that are readily convertible into cash and that are exposed to insignificant risk of changes in value. Cash equivalents include time deposits and benefit bonds of securities investment trusts, all of which mature or become due within three months of the date of acquisition.

Deposit is a contract in which cash is trusted to the subsidiary of the Company's shareholder. The cash can be readily withdrawn within a few days, however the Company does not have the intention to do so as the Company has sufficient working capital and do not need this deposit within a short period of time (i.e., three months). Based on this, the Company did not treat Deposit as Cash and Cash Equivalents.

- c. **Inventories**—Inventories are mainly stated at the latest purchase price which approximates the first-in, first-out cost method. In accordance with Accounting Standard Board of Japan (the "ASBJ") Statement No. 9, "Accounting Standard for Measurement of Inventories," inventories held for sale in the ordinary course of business are measured at the lower of cost or net selling value, which is defined as the selling price less additional estimated manufacturing costs and estimated direct selling expenses. The replacement cost may be used in place of the net selling value, if appropriate.
- d. **Marketable and Investment Securities**—Marketable and investment securities are classified and accounted for, depending on management's intent, as follows: (1) held-to-maturity debt securities, which are expected to be held to maturity with the positive intent and ability to hold to maturity, are reported at amortized cost and (2) available-for-sale securities, which are not classified as the aforementioned securities, are reported at fair value with unrealized gains and losses, net of applicable taxes, reported in a separate component of equity.

Declines in fair value of held-to-maturity and available-for-sale securities are analyzed to determine if the decline is temporary or "other than temporary." When other than temporary declines occur, the investment is reduced to its fair value and the amount of the reduction is reported as a loss. Any subsequent increases in other than temporary declines in fair value will not be realized until the securities are sold.

Non-marketable available-for-sale securities are stated at cost determined by the moving-average cost method. For other than temporary declines in fair value, non-marketable available-for-sale securities are reduced to net realizable value by a charge to income.

- e. **Investment in Associated Company**—The Company uses the equity method of accounting for its investment in and earnings or losses of an associated company that the Company does not control but over which the Company does exert significant influence. Significant influence is generally deemed to exist if the Company has an ownership interest in the voting stock of an investee of between 20% and 50%. The Company determines whether a decline in fair value is other than temporary by considering various factors, such as historical financial data, product development activities and the overall health of the affiliate's industry. If the Company considers any such decline to be other than temporary, then a write-down to the estimated fair value is recorded.
- f. **Property, Plant and Equipment**—Property, plant and equipment are stated at cost. Depreciation of property, plant and equipment of the Group is computed substantially by the declining-balance method at rates based on the estimated useful lives of the assets, while the straight-line method is applied to the buildings which were acquired after April 1, 1998. The range of useful lives is principally from 3 to 47 years for buildings and structures, from 2 to 10 years for machinery and equipment, from 5 to 20 years for furniture and fixtures, and 5 years for lease assets.

Amendments to the Corporate Tax Law in Japan have resulted in changes to the depreciation methods used for property, plant and equipment acquired since April 1, 2007. Prior to these amendments, the Group's depreciation methods were based on a depreciation limit of 95% and a residual value of 5% of the acquisition price of an asset. This depreciation limit and residual value were removed and the full acquisition price can now be depreciated to the nominal value of ¥1 at the end of the asset's useful life, either on a straight-line basis or on a declining-balance basis. The depreciation rates for both methods, set forth by the Corporate Tax Law, were also amended. Assets acquired on or after April 1, 2007 are depreciated according to the new depreciation methods while existing assets acquired on or before March 31, 2007 are depreciated based on the traditional methods with the depreciation limit written off equally over 5 years.

Effective April 1, 2012, as a result of the revision of Japanese corporate tax law in Japan, the Company and its consolidated subsidiaries changed their depreciation method for property, plant and equipment acquired on or after April 1, 2012 to the method stipulated under the revised corporate tax law. The effect of this change was immaterial.

- g. Software**— Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. Costs directly associated with identifiable and unique software products, which are likely to generate economic benefits exceeding costs beyond one year, are recognized as intangible assets. Software is carried at cost less accumulated amortization, which is calculated using the straight-line method over the estimated useful lives of 5 years.
- h. Impairment of Long-Lived Assets**—The Group reviews its long-lived assets including goodwill for impairment whenever events or changes in circumstance indicate the carrying amount of an asset or asset group may not be recoverable. An impairment loss would be recognized if the carrying amount of an asset or asset group exceeds the sum of the undiscounted future cash flows expected to result from the continued use and eventual disposition of the asset or asset group. The impairment loss would be measured as the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the discounted cash flows from the continued use and eventual disposition of the asset or the net selling price at disposition.

For the fiscal years ended March 31, 2013 and March 31, 2012, the Company wrote down the book value of its idle facilities amounting to ¥2,749 thousand (\$29 thousand) and ¥14,614 thousand, respectively, as an impairment loss.

- i. Golf Membership**—Golf membership is stated at cost. For other than temporary declines in fair value, golf membership is reduced to net realizable value by a charge to income.
- j. Operating Rights**—Operating rights are mainly the right to operate the kiosk in factories which were acquired in December 2005 as part of a business acquisition. Operating rights are carried at cost less accumulated amortization, which is calculated by the straight-line method over 5 years, and were fully amortized during the year ended March 31, 2011. Amortization expenses for the years ended March 31, 2011 amounted to ¥18,947 thousand.
- k. Lease Deposits and Insurance Deposits**—Lease deposits are mainly related to the Group's office spaces and are refundable at the termination of each lease contract.

Insurance deposits consist of life insurance and non-life insurance policies for employees, for which the Company is the named beneficiary. Most of the insurance deposits are refundable.

- l. Retirement and Pension Plans**—The Company and certain subsidiaries have defined benefit corporate pension plans covering substantially all of their regular employees. The Group accounts for the liability for retirement benefits based on projected benefit obligations and plan assets at the balance sheet date.

Retirement benefits to directors and corporate auditors are provided at the amount which would be required if all directors and corporate auditors retired at the balance sheet date.

- m. Leases**—In March 2007, the ASBJ issued an Accounting Standard—ASBJ Statement No. 13, “Accounting Standard for Lease Transaction and its Implementation Guidance” and ASBJ Guidance No. 16, “Guidance on Accounting Standard for Lease Transactions.” The new standard and related implementation guidance eliminated a transitional rule where companies were allowed to account for finance leases that did not transfer ownership at the end of the lease term as operating leases and required the companies to recognize them as finance leases on their balance sheet.

In accordance with new accounting standard for lease, the Company capitalized all finance leases on its consolidated balance sheets and is depreciating the lease assets by the straight-line method over their respective lease terms. However, finance leases that do not transfer ownership and whose commencement day falls prior to April 1, 2008 continue to be accounted for as an operating lease with required disclosure in the notes in accordance with an exceptional rule in the new accounting standard.

- n. Asset Retirement Obligations**—In March 2008, the ASBJ issued Accounting Standard—ASBJ Statement No. 18, “Accounting Standard for Asset Retirement Obligations” and ASBJ Guidance No. 21, “Guidance on Accounting Standard for Asset Retirement Obligations.” The new standard and related implementation guidance require companies to recognize asset retirement obligations as liabilities and the corresponding asset retirement costs as tangible fixed assets.

The Group leases several corporate and regional offices and has installed leasehold improvements, such as partitions, counters and phone systems, in these leased properties. Most lease agreements in Japan require the lessee to restore the leased property to its original condition, including removal of the leasehold improvements the lessee has installed when the lessee moves out of the leased property. As a result, the Group will incur certain future costs for the restorations that are required under the lease agreements.

- o. Financial Instruments**—In March 2008, the ASBJ revised Accounting Standard—ASBJ Statement No. 10, “Accounting Standard for Financial Instruments” and issued ASBJ Guidance No. 19, “Guidance on Disclosures about Fair Value of Financial Instruments.” This revised standard and related implementation guidance expanded the disclosure requirements relating to the fair value measurements of financial instruments. This standard and implementation guidance were effective for the fiscal years ending on or after March 31, 2010. The adoption of ASBJ Statement No. 10 and related guidance did not have an impact on its consolidated financial position and results of operations.

- p. Income Taxes**—The Group adopted the accounting standard for interperiod allocation of income taxes based on the asset and liability method. Deferred income taxes are recorded to reflect the impact of temporary differences between assets and liabilities recognized for financial reporting purposes and such amounts recognized for tax purposes. These deferred taxes are measured by applying currently enacted tax laws to the temporary differences. The Group determined the recoverability of deferred tax assets based on all future information currently available.

Amendments to the Japanese tax regulations were enacted into law on November 30, 2011. As a result of these amendments, the statutory income tax rate will be reduced from approximately 40% to 38% effective from the year beginning April 1, 2012, and to approximately 35% effective from the year beginning April 1, 2015 and thereafter. Consequently, the statutory income tax rate utilized for deferred tax assets and liabilities expected to be settled or realized in the period from April 1, 2012 to March 31, 2015 is approximately 38% and for periods subsequent to March 31, 2015 the rate is approximately 35%. The adjustments to deferred tax assets and liabilities resulting from the reduction in the tax rate was an increase in income taxes of ¥176,903 thousand and have been reflected in income taxes in the consolidated statement of income for the year ended March 31, 2012.

- q. Appropriations of Retained Earnings**—Appropriations of retained earnings at each year-end are reflected in the consolidated financial statements in the year following shareholders’ approval.

- r. Per Share Information**—Basic net income per share is computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding for the period. Cash dividends per share presented in the accompanying consolidated statement of income are dividends applicable to the respective years including dividends to be paid after the end of the year.

- s. Revenue Recognition**—Most of the operating businesses of the Group have contractual relationships with customers. In these businesses, revenue is recognized in the period in which the services are provided pursuant to the terms of the contracts. Revenue from dining, delivery food and beverage services is recognized upon delivery of food and beverage products.

- t. Presentation of Comprehensive Income**—In June 2010, the ASBJ issued Accounting Standard—ASBJ Statement No. 25, “Accounting Standard for Presentation of Comprehensive Income.” This new standard requires the presentation of comprehensive income and other comprehensive income on financial statements. This standard was effective for the consolidated financial statements for the periods ending on or after March 31, 2011. The Company presented Accumulated other comprehensive

income as of March 31, 2013 and 2012 in the balance sheets, comprehensive income for the years ended March 31, 2013, 2012 and 2011 in the statements of comprehensive income.

- u. **Dividend distribution**—Dividend distribution to the Company’s shareholders is recognized as a liability in the Group’s financial statements in the period in which the dividends are approved by the Company’s shareholders.
- v. **Accounting Changes and Error Corrections**—In December 2009, the ASBJ issued ASBJ Statement No. 24, “Accounting Standard for Accounting Changes and Error Corrections” and ASBJ Guidance No. 24, “Guidance on Accounting Standard for Accounting Changes and Error Corrections.” Accounting treatments under this standard and guidance are as follows: (1) Changes in Accounting Policies—When a new accounting policy is applied following revision of an accounting standard, the new policy is applied retrospectively unless the revised accounting standard includes specific transitional provisions, in which case the entity shall comply with the specific transitional provisions. (2) Changes in Presentation—When the presentation of financial statements is changed, prior-period financial statements are reclassified in accordance with the new presentation. (3) Changes in Accounting Estimates—A change in an accounting estimate is accounted for in the period of the change if the change affects that period only, and is accounted for prospectively if the change affects both the period of the change and future periods. (4) Corrections of Prior-Period Errors—When an error in prior-period financial statements is discovered, those statements are restated.

**5. LIABILITY FOR EMPLOYEES' RETIREMENT BENEFITS**

The Company and certain subsidiaries have defined benefit corporate pension plans for employees.

Under most circumstances, employees terminating their employment are entitled to retirement benefits determined based on the rate of pay at the time of termination, years of service and certain other factors. Such retirement benefits are made in the form of a lump-sum severance payment from the Company or from certain subsidiaries and annuity payments from a trustee. Employees are entitled to larger payments if the termination is involuntary, by retirement at the mandatory retirement age, or by death.

## 6. EQUITY

The significant provisions in the Companies Act that affect financial and accounting matters are summarized below:

### *a. Dividends*

Under the Companies Act, companies can pay dividends at any time during the fiscal year in addition to the year-end dividend upon resolution at the shareholders meeting. If companies meet certain criteria such as (1) having a Board of Directors, (2) having independent auditors, and (3) the term of service of the directors is prescribed as one year rather than two years of normal term by its articles of incorporation, the Board of Directors may declare dividends (except for dividends in-kind) at any time during the fiscal year if the company has prescribed so in its articles of incorporation. The Company meets the above criteria.

The Companies Act permits companies to distribute dividends-in-kind (non-cash assets) to shareholders subject to a certain limitation and additional requirements.

Semiannual interim dividends may also be paid once a year upon resolution by the Board of Directors if the articles of incorporation of the company so stipulate. The Companies Act provides certain limitations on the amounts available for dividends or the purchase of treasury stock. The limitation is defined as the amount available for distribution to the shareholders, but the amount of net assets after dividends must be maintained at no less than ¥3,000 thousand.

### *b. Increases/Decreases and Transfer of Common Stock, Reserve and Surplus*

The Companies Act requires that an amount equal to 10% of dividends must be appropriated as a legal reserve (a component of retained earnings) or as additional paid-in capital (a component of capital surplus) depending on the equity account charged upon the payment of such dividends until the total of the aggregate amount of legal reserve and additional paid-in capital equals 25% of the common stock. Under the Companies Act, the total amount of additional paid-in capital and legal reserve may be reversed without limitation. The Companies Act also provides that common stock, legal reserve, additional paid-in capital, other capital surplus

and retained earnings can be transferred among the accounts under certain conditions upon resolution of the shareholders.

***c. Treasury Stock and Treasury Stock Acquisition Rights***

The Companies Act also allows for companies to purchase treasury stock and dispose of such treasury stock by resolution of the Board of Directors. The amount of treasury stock purchased cannot exceed the amount available for distribution to the shareholders which is determined by specific formula. Under the Companies Act, stock acquisition rights, which were previously presented as a liability, are now presented as a separate component of equity. The Companies Act also provides that companies can purchase both treasury stock acquisition rights and treasury stock. Such treasury stock acquisition rights are presented as a separate component of equity or deducted directly from stock acquisition rights.

Class shares subject to call option included a call option which allowed the Company, at its option, to exchange all of the class shares subject to call option for new common shares at an exchange ratio of 20,000 class shares to 1 new common share. On November 1, 2007, the Company exercised its call options and exchanged all of its issued class shares for new shares of common stock. Class A shares are the shares without the right for the distribution of residual property.

For the year ended March 31, 2013, the Company added ¥9,577 thousand (\$102 thousand) to the balance of asset retirement cost because it has become clear that retirement cost for some assets will be more than the estimation previously calculated.

## 10. FINANCIAL INSTRUMENTS

### (1) Financial Instruments

The Company obtains operating funds through loans from financial institutions such as banks, and excess funds are invested only in short-term deposit with banks and deposited with subsidiaries of shareholders. Interest rates for the loans are determined based on discussion with the financial institutions considering the current short-term money market.

Credit risks for notes receivable and accounts receivable are managed based on internal risk management policy.

The Company's investment securities mainly consist of equity securities. For listed shares, the Company reviews their fair value on a quarterly basis.

### (2) Fair Value of Financial Instruments

The carrying amounts of financial instruments recorded in the Company's consolidated balance sheets and their estimated fair values as of March 31, 2013 and 2012 are as follows:

	Thousands of Yen				Thousands of U.S. Dollars

(\*) ( ) indicates liability account.

In accordance with the requirement of ASBJ Statement No. 10, "Accounting Standard for Financial Instruments," the Company has provided the above fair value estimates and the following information about valuation methodologies.

#### Cash and cash equivalents

Due to nature of cash and cash equivalents, the fair value approximates the carrying value.

#### Notes receivable and accounts receivable

As these are settled in a short-term period, the fair value approximates the carrying value.

#### Marketable securities

Due to the nature and remaining terms of held-to-maturity debt securities, the fair value approximates the amortized cost.

## [Table of Contents](#)

### Deposit

As these are settled in a short-term period, the fair value approximates the carrying value.

### Investment securities

Equity securities are valued using quoted market prices.

### Notes payable and accounts payable

As these are settled in a short-term period, the fair value approximates the carrying value.

Because unlisted shares do not have market price and future cash flows are not estimable, it was determined that obtaining fair value information for non-marketable equity securities was not practicable. Thus, unlisted shares, whose carrying amount as of March 31, 2013 and 2012 were ¥1,234,022 thousand (\$13,128 thousand) and ¥1,158,780 thousand, respectively, are not included in "Investment securities—Available-for-sale marketable equity securities" in the list above.

The following is a summary of the significant adjustments made to equity and net income to reconcile the Japanese GAAP results with U.S. GAAP. The paragraphs below refer to the corresponding items set forth above.

### **a. Business Combinations**

Under Japanese GAAP, the Business Accounting Council issued a Statement of Opinion, "Accounting for Business Combinations" in October 2003 which was effective for fiscal years beginning on or after April 1, 2006. Before this statement, there was no specific accounting standard addressing accounting for business combinations; therefore, companies followed common business practices dictated by the Commercial Code of Japan (the "Code"), currently code of the Companies Act.

Under the purchase method generally applied by Japanese companies, goodwill is measured as the excess of purchase price over the carrying values of the individual assets acquired and liabilities assumed at the acquisition date. Subsequently, the goodwill is amortized on a straight-line basis over a number of years that may vary, depending on the nature of the acquired business.

Under U.S. GAAP, all business combinations (excluding combinations of entities under common control) are accounted for using the acquisition method as defined in ASC 805, "Business Combinations." ASC 805 requires that the net assets, tangible and identifiable intangible assets less liabilities of the acquired company be recorded at fair value, with the excess of the cost of an acquired company over the fair value of the acquired net assets recorded as goodwill. Also, after the adoption of ASC 350, "Intangibles—Goodwill and Other," goodwill and recognized indefinite-lived intangible assets in a business combination are not amortized, but are tested for impairment at least annually, as well as on an interim basis if events or changes in circumstances indicate that the goodwill or indefinite-lived intangible assets might be impaired. Separate intangible assets that are not deemed to have an indefinite life are amortized over their expected economic life and also tested for impairment.

In 2000, the Company purchased 100% of the outstanding common stock of KK Kizembo ("Kizembo"). In December 2005, the Company purchased 100% of the common stock of Yamato Corporation ("Yamato"). In July 2002, the Company purchased 100% of the common stock of Atlas Co. ("Atlas") which owned 52.8% of the common stock of Mefos Co. ("Mefos"); subsequently, Atlas acquired the remaining 47.2% of common stock of Mefos in a series of step acquisitions that concluded in December 2005.

In March 2006, the Company and Atlas merged, with the Company as the surviving entity. As a result of the merger, the Company directly held 100% of the common stock of Mefos. Under Japanese GAAP, and in line with the Code, the Company consolidated the net carrying amount of the assets and liabilities of Mefos and wrote off the unamortized amount of goodwill related to the previous acquisition of Atlas and its subsidiary, Mefos.

Under U.S. GAAP, the March 2006 merger between the Company and Atlas was accounted for as a transfer of net assets or equity interests between entities under common control. Such transfer is accounted for by the receiving entity (the Company) at the carrying amounts, including goodwill in the accounts of the transferring entity (Atlas) at the date of the transfer. Consequently, the one-time accelerated goodwill amortization charge is reversed for U.S. GAAP reporting purposes.

On November 1, 2007, the Company completed its merger with Yamato.

On April 1, 2008, the Company completed its merger with its wholly owned subsidiaries, Kizembo and AIM Dining Support Co., Ltd. All assets and liabilities of these entities were transferred to the Company at the appropriate carrying amount and there is no impact on the Company's consolidated financial statements or the reconciliation to U.S. GAAP.

**Goodwill:**

The following table presents the carrying amount of goodwill under Japanese GAAP and U.S. GAAP as of March 31, 2013 and 2012:

For U.S. GAAP reporting purposes, the Company recognized goodwill impairment loss of ¥194,000 thousand (\$2,063 thousand) for the year ended March 31, 2013 in connection with goodwill of Yamato, which represents the office coffee and tea services (the “OCS”) business reporting unit. Goodwill was impaired primarily due to reduced profitability of the OCS business reporting unit resulting from macro and micro economic factors surrounding the OCS business reporting unit.

The amount of the impairment was determined based on the estimated fair value of the OCS business reporting unit using a discounted cash flow model as compared to the carrying amount of the OCS business reporting unit, including goodwill.

For the years ended March 31, 2013, 2012 and 2011, the net income reconciliation item related to goodwill represents the reversal of the goodwill amortization charge amounting to ¥317,938 thousand (\$3,382 thousand), ¥317,938 thousand and ¥317,938 thousand, respectively, recorded under Japanese GAAP and the recognition of goodwill impairment loss under U.S. GAAP as referred above.

Under Japanese GAAP, the estimated aggregate amortization expense for goodwill for the next five years is as follows:

Year Ending March 31	Thousands of Yen	Thousands of U.S. Dollars
2014	¥ 317,938	\$ 3,382
2015	317,938	3,382

### **Adjustment to intangible assets:**

Under Japanese GAAP, the Company did not recognize identifiable intangible assets, other than goodwill, as part of purchase price allocation in a business combination.

In connection with the above-mentioned acquisitions, under U.S. GAAP, the Company recognized identifiable intangible assets and is amortizing those over the expected economic life of each intangible asset. The table below presents the gross carrying amount, accumulated amortization and net carrying amount, in total and by major class of intangible assets acquired in the above-mentioned business combinations as of March 31, 2013 and 2012:

	Thousands of Yen						Thousands of U.S. Dollars		
	2013			2012			2013

For the years ended March 31, 2013, 2012 and 2011, the net income reconciliation item related to intangible assets represents the intangible assets amortization charge recognized under U.S. GAAP amounting to ¥413,921 thousand (\$4,403 thousand), ¥413,921 thousand and ¥413,921 thousand, respectively.

Customer contracts are being amortized on a straight-line basis over periods of 14 to 20 years. Trademarks are not amortized but are tested for impairment at least annually, as well as on an interim basis if events or changes in the circumstances indicate that the trademarks might be impaired.

Under U.S. GAAP, the estimated aggregate amortization expense for intangible assets acquired for the next five years is as follows:

Year Ending March 31	Thousands of Yen	Thousands of U.S. Dollars
2014	¥413,921	\$ 4,403
2015	413,921	4,403

### **Other adjustments in connection with business combinations:**

The following table represents a summary of other adjustments in connection with the Yamato business combination as described above as of March 31, 2013 and 2012 and for the years ended March 31, 2011:

- (\*) Under Japanese GAAP, Yamato, the acquired company, had arrangements that required Yamato's customers to pay a certain amount of revenue at the start of the contract prior to the acquisition date. These up-front payments were characterized as non-refundable and were related to services to be provided in future years. Yamato recognized these payments as revenue when cash is received. Under U.S. GAAP, the up-front payments are deferred over the longer of the contractual life of an arrangement or the customer relationship life. In addition, if the balance sheet of an acquired entity immediately before the acquisition date includes deferred revenue, the acquiring entity is required to recognize a liability if such deferred revenue represents a legal obligation assumed by the acquiring entity. The amount assigned to that liability is based on its estimated fair value at the acquisition date.

### **Business combinations adjustments summary:**

The following table summarizes the U.S. GAAP adjustments related to the above-mentioned business combinations:

### **b. Accrued Vacation**

Japanese GAAP does not specifically require a company to accrue liabilities for future compensated absences (short-term employee benefits). Under U.S. GAAP, in accordance with ASC 710, "Compensation—General," absences such as vacations are accrued when earned by employees.

### **c. Employees' Retirement Benefits**

Japanese GAAP and U.S. GAAP follow similar principles in accounting for retirement benefit obligations; however, there are currently several differences in the detailed application of these principles (See Note g for Recent Accounting Pronouncements Adopted and to Be Adopted in Future Periods for Retirement Benefits in Japanese GAAP).

The following represent the most relevant differences between Japanese GAAP and U.S. GAAP in connection with assumptions used to calculate the pension liability:

- (1) Unlike U.S. GAAP, there is no corridor approach and actuarial gain or loss is always amortized under Japanese GAAP. Instead, Japanese GAAP allows the entity to use the same assumed discount rate as the prior year if it fluctuates within the permitted range as described in (3) below.
- (2) Under Japanese GAAP, the prior service credits of ¥37,370 thousand which were recognized as a result of amendments of the pension plans were included in net periodic pension credit entirely in the year ended March 31, 2011. Under U.S. GAAP, the prior service credit was recognized as a charge to other comprehensive income at the date of amendment and amortized as a component of net periodic pension cost over the average remaining service period. Unamortized prior service credits as of March 31, 2013 and March 31, 2012 were ¥210,783 thousand (\$2,242 thousand) and ¥237,224 thousand, respectively, and were included in accumulated other comprehensive income.

[Table of Contents](#)

- (3) Under Japanese GAAP, it is acceptable to select the same discount rate as the prior year as long as there would be only a minor difference between the projected benefit obligations estimated using the rate as of the balance sheet date and the one estimated using the prior year's rate. However, there is no such exception under U.S. GAAP.
- (4) Under Japanese GAAP, it is not required to recognize the overfunded or underfunded status of a defined benefit postretirement plan in accumulated other comprehensive income in the balance sheet. Under U.S. GAAP, such amounts are recognized in accumulated other comprehensive income, net of tax, in the balance sheet, and also the actuarial gains or losses and prior service costs that arise during the period but are not recognized as components of net periodic benefit cost are recognized as a component of other comprehensive income.

The liability for employees' retirement benefits at March 31, 2013 and 2012 under U.S. GAAP consisted of the following:

### d. Capital Leases

Previously, Japanese GAAP permitted finance leases that did not transfer ownership of the leased property to a lessee to be accounted for as operating lease transactions if certain “as if capitalized” information was disclosed in the notes to the lessee’s financial statements. However, as explained in Note 2.m, the new accounting standard for lease required the Company to capitalize finance leases on its consolidated balance sheet.

Finance leases that do not transfer ownership and whose commencement day falls prior to the first year of implementation of this accounting standard may continue to be accounted for as an operating lease with required pro forma disclosure in the notes in accordance with an exception rule in the new accounting standard. Refer to Notes 2.m and 8.

U.S. GAAP requires the application of ASC 840, “Leases,” in order to determine whether a lease should be classified as an operating or capital lease. The Group analyzed its leases in accordance with the criteria specified in ASC 840 and determined that certain of its leases should be capitalized.

The following table presents a summary of the differences between Japanese GAAP and U.S. GAAP for lease-related assets and liabilities as of March 31, 2013, 2012 and 2011, and income statement related information for the years ended March 31, 2013, 2012 and 2011:

**e. Tax Effect of Adjustments**

Accounting for income taxes in accordance with Japanese GAAP is substantially similar to accounting for income taxes in accordance with ASC 740, "Income Taxes." Other than the deferred tax impact related to the U.S. GAAP reconciliation items, there is no material difference in connection with accounting for income taxes resulting from the application of U.S. GAAP.

The following table illustrates the impact on the Japanese GAAP deferred tax assets and liabilities in the Group's consolidated balance sheets as a result of the U.S. GAAP adjustments as of March 31, 2013 and 2012:

Tax effects arising from U.S. GAAP adjustments for the years ended March 31, 2013, 2012 and 2011 were charged or credited to the following items:

U.S. GAAP adjustments related to the reversal of goodwill amortization charges recorded under Japanese GAAP have no tax effects since they are not deductible for tax purposes under Japanese Tax Laws and Regulations.

### **f. Cash and Cash Equivalents**

The adjustment in the statements of cash flows to U.S. GAAP from Japanese GAAP mainly consisted of certain lease transactions which are only accounted for as capital leases under U.S. GAAP. Lease payments related to such are presented in financing activities under U.S. GAAP rather than operating activities under Japanese GAAP.

The following table represents the Group's condensed consolidated information related to the statements of cash flows under U.S. GAAP for the years ended March 31, 2013, 2012 and 2011:

	Thousands of Yen			Thousands of

### **g. Recent Accounting Pronouncements Adopted and to Be Adopted in Future Periods**

#### **U.S. GAAP**

In October 2009, the FASB issued Accounting Standard Update regarding the accounting for multiple-deliverable arrangements, Accounting Standard Update No. 2009-13, "Revenue Recognition (Topic 605)." The guidance addresses the accounting for multiple-deliverable arrangements to enable vendors to account for products or services (deliverables) separately rather than as a combined unit. The amendments in this guidance were effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. The effect of the adoption of this guidance on the Company's financial position and results of operations was immaterial.

In January 2010, the FASB issued Accounting Standard Update which requires an additional disclosure and clarifies existing disclosure requirements related to fair value measurements, Accounting Standard Update No. 2010-06, "Fair Value Measurements and Disclosures (Topic 820)—Improving Disclosures about Fair Value Measurements." The guidance requires additional disclosure of significant transfers in and out of Level 1 and Level 2 fair value measurements and activity in Level 3 fair value measurement. This guidance also clarifies existing disclosure requirements regarding the level of disaggregation and valuation inputs and techniques. This guidance was effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosure of the Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which was effective for interim and annual reporting periods beginning after December 15, 2010. The adoption of this guidance had no impact on the Company's financial position and results of operations.

In May 2011, the FASB issued Accounting Standard Update No. 2011-04, "Fair Value Measurement (Topic 820)—Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." The guidance amends the terms used in the requirements for fair value measurements and disclosures under ASC 820, "Fair Value Measurement." It also amends certain principles and requirements

of fair value measurements and disclosures, and expands the disclosure requirements. This guidance was effective for interim and annual reporting periods beginning after December 15, 2011. The adoption of this guidance had no impact on the Company's financial position and results of operations.

In June 2011, the FASB issued Accounting Standard Update No. 2011-05, "Comprehensive Income (Topic 220)—Presentation of Comprehensive Income." The guidance eliminates the option to present the components of other comprehensive income as part of the statement of changes in equity and requires that all non-owner changes in equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This guidance was effective retrospectively for fiscal years, and interim periods within those years, beginning after December 15, 2011. The adoption of this provision had no impact on the Company's financial position and results of operations.

In September 2011, the FASB issued Accounting Standards Update No. 2011-08, "Intangibles—Goodwill and Other (Topic 350)—Testing Goodwill for Impairments." The guidance allows companies an option to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining if it is necessary to perform the two-step quantitative goodwill impairment test. Under the guidance, a reporting entity is no longer required to calculate the fair value of a reporting unit unless the entity determines, based on the qualitative assessment, that it is more likely than not that its fair value is less than its carrying amount. The guidance was effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The effect of the adoption of this guidance on the Company's financial position and results of operations was immaterial.

In December 2011, the FASB issued Accounting Standards Update No. 2011-11 "Balance sheet (Topic 210)." The guidance requires a reporting entity to disclose information about offsetting and related arrangements to enable financial statement users to understand the effect of such arrangements on the statement of financial position as well as to improve comparability of balance sheets prepared under U.S. GAAP and International Financial Reporting Standards. The guidance is required to be applied retrospectively and is effective for annual periods for fiscal years beginning on or after January 1, 2013. The Company does not expect its adoption will have a material impact on its financial position and results of operations.

In July 2012, the FASB issued Accounting Standards Update No. 2012-02, "Intangibles—Goodwill and Other (Topic 350) : Testing Indefinite-lived Intangible Assets for Impairment" The guidance allows entities an option to first assess qualitative factors to determine whether it is more likely than not that indefinite lived intangible assets are impaired as a basis for determining if it is necessary to perform the quantitative impairment test. Under the new guidance, entities are no longer required to calculate the fair value of the assets unless the entities determine, based on the qualitative assessment, that it is more likely than not that indefinite lived intangible assets is impaired. The new guidance is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. The Company does not expect its adoption will have a material impact on its financial position and results of operations.

In February 2013, the FASB issued Accounting Standards Update No. 2013-02, "Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income". The guidance requires entities to report the significant reclassifications out of accumulated other comprehensive income if the amount is required to be reclassified in its entirety to net income. For other amounts that are not required to be reclassified in their entirety to net income in the same reporting period, an entity is required to cross-reference other disclosures required that provide additional detail about those amounts.

In February 2013, the FASB issued Accounting Standard Update No. 2013-04, "Liabilities (Topic 405): Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date (a consensus of the FASB Emerging Issues Task Force)". This guidance requires an entity to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date, as the

## [Table of Contents](#)

sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors, plus any additional amount the reporting entity expects to pay on behalf of its co-obligors. The new guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The Company does not expect its adoption will have a material impact on its financial position and results of operations.

### ***Japanese GAAP***

In December 2009, the ASBJ issued Accounting Standard—ASBJ Statement No. 24, “Accounting Standard for Accounting Changes and Error Corrections” and ASBJ Implementation Guidance No. 24, “Guidance on Accounting Standard for Accounting Changes and Error Corrections.” This new standard and implementation guidance clarify the treatment for retrospective applications to past financial statements when changes in accounting policies, changes in presentations and corrections of prior period errors are made, as well as the treatment for changes in accounting estimates, as required in the global accounting standards. This standard and implementation guidance apply to accounting changes and corrections of prior period errors which are made after the beginning of the fiscal year beginning on or after April 1, 2011. The effect of adoption of this provision on the Company’s financial position and results of operations was immaterial.

In March 2011, the ASBJ issued Accounting Standard—ASBJ Statement No. 22, “Revised Accounting Standard for Consolidated Financial Statements”, ASBJ Guidance No. 15, “Revised Guidance on Disclosures about Certain Special Purpose Entities,” ASBJ Guidance No. 22, “Revised Guidance on Determining a Subsidiary and an Affiliate” and PITF No. 20, “Revised Practical Solution on Application of the Control Criteria and Influence Criteria to Investment Associations.” These revisions are aimed to provide a short-term improvement to the existing standards to address current treatment for certain special purpose entities. Those pronouncements will be effective for the annual periods beginning on or after April 1, 2013. Early adoption is permitted. The Company does not expect adoption of those pronouncements will have a significant impact on its financial position and results of operations.

In May 2012, the ASBJ issued Accounting Standard—ASBJ Statement No. 26, “Accounting Standard for Retirement Benefits” and ASBJ Guidance No. 25, “Guidance on Accounting Standard for Retirement Benefits.” The standard and the guidance replace previous standards and guidance for retirement benefits and include (a) recognition of actuarial gains and losses and past service costs to be recognized in profit and loss as other comprehensive income after adjusting for tax effects and the deficit or surplus would be recognized as a liability or asset, (b) the choice of the method of attributing expected benefit to periods between straight-line basis and benefit formula basis and (c) enhancement of disclosures. The standard and guidance will be effective for the end of annual periods beginning on or after April 1, 2013. The Company is currently evaluating the potential impact from adopting the standard and guidance on its financial position and results of operations.

Section 145 of the Delaware General Corporation Law (the "DGCL") grants each corporation organized thereunder the power to indemnify any person who is or was a director, officer, employee or agent of a corporation or enterprise against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, other than an action by or in the right of the corporation, by reason of being or having been in any such capacity, if he acted in good faith in a manner reasonably believed to be in, or not opposed to, the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful.

Section 102(b)(7) of the DGCL enables a corporation in its certificate of incorporation or an amendment thereto to eliminate or limit the personal liability of a director to the corporation or its stockholders of monetary damages for violations of the directors' fiduciary duty of care, except (i) for any breach of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the DGCL (providing for liability of directors for unlawful payment of dividends or unlawful stock purchases or redemptions) or (iv) for any transaction from which a director derived an improper personal benefit.

Directors of the Corporation shall be elected annually for terms of one year and shall continue to hold office until the next annual meeting of stockholders and until such director's successor shall have been elected and qualified, or until such director's earlier death, resignation, disqualification or removal.

(B) Advance notice of nominations for the election of directors by stockholders and of business to be brought by stockholders before any meeting of stockholders shall be given in the manner provided in the by-laws.

(C) Subject to the rights granted to the holders of any one or more series of Preferred Stock then outstanding or the rights granted pursuant to the Amended and Restated Stockholders Agreement, dated as of , 2013, by and among the Corporation, ARAMARK Intermediate HoldCo Corporation and the Stockholders from time to time party thereto, a copy of which shall be available to any stockholder upon written request to the Corporation (as the same may be further amended, supplemented, restated or otherwise modified from time to time, the "Stockholders Agreement"), any newly-created directorship on the Board of Directors that results from an increase in the authorized number of directors and any vacancy occurring in the Board of Directors (whether by death, resignation, disqualification, removal or other cause) shall be filled by a majority of the directors then in office, although less than a quorum, by a sole remaining director or by the stockholders; provided, however, that at any time when investment funds associated with or designated by GS Capital Partners, CCMP Capital Advisors, J.P. Morgan Partners, Thomas H. Lee Partners, Warburg Pincus and Joseph Neubauer (the "Controlling Owners") and their affiliates beneficially own, in the aggregate, less than a majority in voting power of the stock of the Corporation entitled to vote generally in the election of directors, any newly-created directorship on the Board of Directors that results from an increase in the authorized number of directors and any vacancy occurring in the Board of Directors shall, unless otherwise required by law or by resolution of the Board of Directors, be filled only by a majority of the directors then in office, although less than a quorum, or by a sole remaining director (and not by stockholders). Any director elected to fill a vacancy or newly created directorship shall hold office until the next annual meeting of stockholders and until his or her successor shall be elected and qualified, or until his or her earlier death, resignation, disqualification or removal. No decrease in the authorized number of directors shall shorten the term of any incumbent director.

(D) Any or all of the directors (other than the directors elected solely by the holders of any series of Preferred Stock of the Corporation, voting separately as a series or together with one or more other such series, as the case may be) may be removed at any time either with or without cause by the affirmative vote of a majority in voting power of all outstanding shares of stock of the Corporation then entitled to vote at any election of directors, voting

as a single class; provided, however, that at any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, less than a majority in voting power of the stock of the Corporation entitled to vote generally in the election of directors, any such director or all such directors may be removed only by the affirmative vote of the holders of at least 75% in voting power of all the then-outstanding shares of stock of the Corporation entitled to vote thereon, voting together as a single class.

(E) Elections of directors need not be by written ballot unless the by-laws shall so provide.

**SEVENTH: BY-LAWS.** In furtherance and not in limitation of the powers conferred by the laws of the State of Delaware, the Board of Directors is expressly authorized to make, alter, amend, change, add to, rescind or repeal the by-laws of the Corporation, in whole or in part, without the vote of the stockholders, in any manner not inconsistent with the laws of the State of Delaware or this Certificate of Incorporation. Any adoption, amendment or repeal of the by-laws of the Corporation by the board of directors shall require the approval of a majority of the Whole Board. Notwithstanding anything to the contrary contained in this Certificate of Incorporation or any provision of law which might otherwise permit a lesser vote of the stockholders, for so long as the Controlling Owners and their affiliates beneficially own, in the aggregate, at least a majority in voting power of the stock of the Corporation entitled to vote generally in the election of directors, in addition to any vote of the holders of any class or series of capital stock of the Corporation required herein (including any Preferred Stock Designation) or by applicable law, the affirmative vote of a majority in voting power of all the then-outstanding shares of stock of the Corporation entitled to vote on such amendment, alteration, change, addition, rescission or repeal, voting together as a single class, shall be required in order for the stockholders of the Corporation to alter, amend, repeal or rescind, in whole or in part, any provision of the by-laws or to adopt any provision inconsistent therewith. At any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, less than a majority in voting power of all outstanding shares of stock of the Corporation entitled to vote generally in the election of directors, in addition to any vote of the holders of any class or series of capital stock of the Corporation required herein (including any Preferred Stock Designation) or by applicable law, any amendment, alteration, rescission or repeal of the by-laws by the stockholders will require the affirmative vote of the holders of at least 75% in voting power of all the then-outstanding shares of stock of the Corporation entitled to vote thereon, voting together as a single class.

**EIGHTH: INDEMNIFICATION OF DIRECTORS AND OFFICERS.** Each person who was or is made a party or is threatened to be made a party to or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (hereinafter a "proceeding"), by reason of the fact that he or she or a person of whom he or she is the legal representative is or was a director or an officer of the Corporation or, while a director or officer of the Corporation, is or was serving at the request of the Corporation as a director, officer, employee, agent or trustee of another corporation, or as its representative in a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (hereinafter an "indemnatee"), whether the basis of such proceeding is alleged action in an official capacity as a director, officer, employee, agent, trustee or representative or in any other capacity while serving as a director, officer, employee, agent, trustee or representative, shall be indemnified and held harmless by the Corporation to the fullest extent permitted by the DGCL, as the same exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader indemnification rights than such law permitted the Corporation to provide prior to such amendment), against all expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid or to be paid in settlement) reasonably incurred or suffered by such indemnatee in connection therewith; provided, however, that, except as provided in this Article Eighth with respect to proceedings to enforce rights to indemnification and "advancement of expenses" (as defined below) or with respect to any compulsory counterclaim brought by such indemnatee, the Corporation shall indemnify any such indemnatee in connection with a proceeding (or part thereof) initiated by such indemnatee only if such proceeding (or part thereof) was authorized by the Board of Directors of the Corporation.

In addition to the right to indemnification conferred in this Article Eighth, an indemnatee shall also have the right to be paid by the Corporation the expenses (including attorney's fees) incurred in appearing at, participating in or defending any such proceeding in advance of its final disposition or in connection with a proceeding brought to establish or enforce a right to indemnification or advancement of expenses under this Article Eighth (hereinafter an "advancement of expenses"); provided, however, that, if the DGCL requires or in the case of an advance made in a proceeding brought to establish or enforce a right to indemnification or advancement, an advancement of expenses

incurred by an indemnitee in his or her capacity as a director or officer (and not in any other capacity in which service was or is rendered by such indemnitee, including, without limitation, service to an employee benefit plan) shall be made only upon delivery to the Corporation of an undertaking (hereinafter an “undertaking”), by or on behalf of such indemnitee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal (hereinafter a “final adjudication”) that such indemnitee is not entitled to be indemnified or entitled to advancement for such expenses under this Article Eighth or otherwise.

If a claim under this Article Eighth is not paid in full by the Corporation within sixty (60) days after a written claim for indemnification has been received by the Corporation, and in the case of a claim for an advancement of expenses, within twenty (20) days, the indemnitee may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim or to obtain advancement of expenses, as applicable. To the fullest extent permitted by law, if successful in whole or in part in any such suit, or in a suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the indemnitee shall be entitled to be paid also the expense of prosecuting or defending such suit. In (i) any suit brought by the indemnitee to enforce a right to indemnification hereunder (but not in a suit brought by the indemnitee to enforce a right to an advancement of expenses) it shall be a defense that, and (ii) in any suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the Corporation shall be entitled to recover such expenses upon a final adjudication that, the indemnitee has not met any applicable standard for indemnification set forth in the DGCL. Neither the failure of the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) to have made a determination prior to the commencement of such suit that indemnification of the indemnitee is proper in the circumstances because the indemnitee has met the applicable standard of conduct set forth in the DGCL, nor an actual determination by the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) that the indemnitee has not met such applicable standard of conduct, shall create a presumption that the indemnitee has not met the applicable standard of conduct or, in the case of such a suit brought by the indemnitee, be a defense to such suit. In any suit brought by the indemnitee to enforce a right to indemnification or to an advancement of expenses hereunder, or brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the burden of proving that the indemnitee is not entitled to be indemnified, or to such advancement of expenses, under this Article Eighth or otherwise shall be on the Corporation.

The provision of indemnification to or the advancement of expenses and costs to any indemnitee under this Article Eighth, or the entitlement of any indemnitee to indemnification or advancement of expenses and costs under this Article Eighth, shall not limit or restrict in any way the power of the Corporation to indemnify or advance expenses and costs to such indemnitee in any other way permitted by law or be deemed exclusive of, or invalidate, any right to which any indemnitee seeking indemnification or advancement of expenses and costs may be entitled under any law, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in such indemnitee’s capacity as an officer, director, employee or agent of the Corporation and as to action in any other capacity.

Given that certain jointly indemnifiable claims (as defined below) may arise due to the service of the indemnitee as a director of the Corporation at the request of the indemnitee-related entities (as defined below), the Corporation shall be fully and primarily responsible for the payment to the indemnitee in respect of indemnification or advancement of expenses in connection with any such jointly indemnifiable claims, pursuant to and in accordance with the terms of this Article Eighth, irrespective of any right of recovery the indemnitee may have from the indemnitee-related entities. Under no circumstance shall the Corporation be entitled to any right of subrogation or contribution by the indemnitee-related entities and no right of advancement or recovery the indemnitee may have from the indemnitee-related entities shall reduce or otherwise alter the rights of the indemnitee or the obligations of the Corporation hereunder. In the event that any of the indemnitee-related entities shall make any payment to the indemnitee in respect of indemnification or advancement of expenses with respect to any jointly indemnifiable claim, the indemnitee-related entity making such payment shall be subrogated to the extent of such payment to all of the rights of recovery of the indemnitee against the Corporation, and the indemnitee shall execute all papers reasonably required and shall do all things that may be reasonably necessary to secure such rights, including the execution of such documents as may be necessary to enable the indemnitee-related entities effectively to bring suit to enforce such rights. Each of the indemnitee-related entities shall be third-party beneficiaries with respect to this paragraph of this Article Eighth, entitled to enforce this paragraph of this Article Eighth.

For purposes of this Article, the following terms shall have the following meanings: The term “indemnitee-related entities” means any corporation, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise (other than the Corporation or any other corporation, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise for which the indemnitee has agreed, on behalf of the Corporation or at the Corporation’s request, to serve as a director, officer, employee or agent and which service is covered by the indemnity described herein) from whom an indemnitee may be entitled to indemnification or advancement of expenses with respect to which, in whole or in part, the Corporation may also have an indemnification or advancement obligation.

The term “jointly indemnifiable claims” shall be broadly construed and shall include, without limitation, any action, suit or proceeding for which the indemnitee shall be entitled to indemnification or advancement of expenses from both the indemnitee-related entities and the Corporation pursuant to Delaware law, any agreement or certificate of incorporation, by-laws, partnership agreement, operating agreement, certificate of formation, certificate of limited partnership or comparable organizational documents of the Corporation or the indemnitee-related entities, as applicable.

The Corporation may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Corporation or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the DGCL.

The Corporation may, to the extent authorized from time to time by the Board of Directors, grant rights to indemnification and to the advancement of expenses to any employee or agent of the Corporation to the fullest extent of the provisions of this Article Eighth with respect to the indemnification and advancement of expenses of directors and officers of the Corporation.

The rights conferred upon indemnitees in this Article Eighth shall be contract rights and such rights shall continue as to an indemnitee who has ceased to be a director, officer or trustee and shall inure to the benefit of the indemnitee’s heirs, executors and administrators. Any amendment, alteration or repeal of this Article Eighth that adversely affects any right of an indemnitee or its successors shall be prospective only and shall not limit or eliminate any such right with respect to any proceeding involving any occurrence or alleged occurrence of any action or omission to act that took place prior to such amendment or repeal.

**NINTH: LIMITATION OF DIRECTORS’ LIABILITY.** To the fullest extent permitted by the DGCL as it now exists or may hereafter be amended, a director of the Corporation shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty owed to the Corporation or its stockholders as a director, except for liability (i) for any breach of the director’s duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the DGCL, or (iv) for any transaction from which the director derived an improper personal benefit. Neither the amendment nor repeal of this Article Ninth, nor the adoption of any provision of this Certificate of Incorporation, nor, to the fullest extent permitted by the DGCL, any modification of law shall eliminate, reduce or otherwise adversely affect any right or protection of a current or former director of the Corporation existing at the time of such amendment, repeal, adoption or modification.

**TENTH: MEETINGS OF STOCKHOLDERS.** (A) At any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, at least a majority in voting power of the stock of the Corporation entitled to vote generally in the election of directors, any action required or permitted to be taken at any annual or special meeting of stockholders of the Corporation may be taken without a meeting, without prior notice and without a vote, if a consent or consents, setting forth the action so taken, shall be executed and delivered in the manner required by law. At any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, less than a majority in voting power of the stock of the Corporation entitled to vote generally in the election of directors, any action required or permitted to be taken by the stockholders of the Corporation must be effected at a

duly called annual or special meeting of such holders and may not be effected by any consent in writing by such holders; provided, however, that any action required or permitted to be taken by the holders of Preferred Stock, voting separately as a series or separately as a class with one or more other such series, may be taken without a meeting, without prior notice and without a vote, to the extent expressly so provided by the applicable Preferred Stock Designation.

(B) Except as otherwise required by law and subject to the rights of the holders of any series of Preferred Stock, special meetings of the stockholders of the Corporation for any purpose or purposes may be called at any time only by or at the direction of the Board of Directors acting pursuant to a resolution adopted by a majority of the Whole Board or the Chairman of the Board of Directors; provided, however, that at any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, at least a majority in voting power of the stock of the Corporation entitled to vote generally in the election of directors, special meetings of the stockholders of the Corporation for any purpose or purposes shall also be called by or at the direction of the Board of Directors or the Chairman of the Board of Directors at the request of the Controlling Owners and their affiliates.

(C) An annual meeting of stockholders for the election of directors to succeed those whose terms expire and for the transaction of such other business as may properly come before the meeting, shall be held at such place, if any, on such date, and at such time as shall be fixed exclusively by resolution of the Board of Directors or a duly authorized committee thereof.

**ELEVENTH: COMPETITION AND CORPORATE OPPORTUNITIES.** (A) In recognition and anticipation that (i) certain directors, principals, officers, employees and/or other representatives of the Controlling Owners and their Affiliates (as defined below) may serve as directors, officers or agents of the Corporation, (ii) the Controlling Owners and their respective director designees may now engage and may continue to engage in the same or similar activities or related lines of business as those in which the Corporation, directly or indirectly, may engage and/or other business activities that overlap with or compete with those in which the Corporation, directly or indirectly, may engage, the provisions of this Article Eleventh are set forth to regulate and define the conduct of certain affairs of the Corporation with respect to certain business opportunities as they may involve any of the Controlling Owners or their respective Affiliates and the powers, rights, duties and liabilities of the Corporation and its directors, officers and stockholders in connection therewith.

(B) Except as provided below, to the fullest extent permitted by law, (i) none of the Controlling Owners or any of their respective director designees (collectively, "Identified Persons") shall have any duty (fiduciary or otherwise) or obligation, if any, to refrain from (a) engaging in the same or similar activities or lines of business as the Corporation or any of its subsidiaries, (b) doing business with any client, customer or vendor of the Corporation or any of its subsidiaries or (c) entering into and performing one or more agreements (or modifications or supplements to pre-existing agreements) with the Corporation or any of its subsidiaries, including, in the cases of clauses (a), (b) or (c), any such matters as may be any potential transaction, investment or business opportunity or prospective economic or competitive advantage in which the Corporation or any of its subsidiaries could have any expectancy or interest (each a "Corporate Opportunity"); and (ii) no Identified Persons nor any officer, director or employee thereof shall be deemed to have breached any duty (fiduciary or otherwise), if any, to the Corporation, any of its subsidiaries or securityholders solely by reason of any Identified Person engaging in any such activity or entering into such transactions, including any Corporate Opportunities.

(C) Subject to clause (E) below and except as otherwise provided in this clause (C) with respect to Identified Corporate Opportunities (as defined below), the Corporation and its subsidiaries shall have no interest or expectation in, nor right to be informed of, any Corporate Opportunity, and in the event that any Identified Person or Controlling Owner Related Person (as defined below) acquires knowledge of a potential transaction or matter which may be a Corporate Opportunity, such Identified Person or Controlling Owner Related Person shall, to the fullest extent permitted by law, have no duty (fiduciary or otherwise) or obligation to communicate or offer such Corporate Opportunity to the Corporation or any of its subsidiaries or securityholders or to any other director designee of a Controlling Owner and shall not, to the fullest extent permitted by law, be liable to the Corporation or any of its subsidiaries or securityholders for breach of any fiduciary duty as a director, officer or securityholder of the Corporation or any of its subsidiaries solely by reason of the fact that any Identified Person or Controlling Owner Related Person acquires or seeks such Corporate Opportunity for itself, directs such Corporate Opportunity to another person, or otherwise does not communicate information regarding such Corporate Opportunity to the

Corporation or its subsidiaries or securityholders, and the Corporation and its subsidiaries, to the fullest extent permitted by law, waive and renunciate any claim that such business opportunity constituted a Corporate Opportunity that should have been presented to the Corporation or any of its Affiliates; provided that if an opportunity is expressly communicated to a Controlling Person Related Person in his or her capacity as a director or officer of the Corporation or such subsidiary for the express purpose of causing such opportunity to be communicated to the Corporation or such subsidiary (an "Identified Corporate Opportunity"), then such Controlling Person Related Person shall reasonably promptly communicate the opportunity, or, in lieu thereof, the identity of the party initiating the communication and the subject of the communication, to the Board of Directors, and, upon such communication, such Controlling Person Related Person shall be deemed to have satisfied his or her obligations pursuant to this clause (C) and his or her fiduciary obligations, if any, in respect of such opportunity except that such Controlling Person Related Person shall otherwise keep such Identified Corporate Opportunity confidential and shall not disclose it to any other person.

(D) For the purposes of this Article Eleventh, (i) an "Affiliate" of, or a person "affiliated" with, a specified person, is a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the person specified; and (ii) a "Controlling Person Related Person" shall mean any director or officer of the Corporation or any of its subsidiaries who is also a director, officer or employee of any Controlling Owner or any of its Affiliates.

(E) Notwithstanding anything to the contrary in this Article Eleventh, in the event that any Controlling Owner is pursuing a Corporate Opportunity, such Controlling Owner will ensure that its director designee to the Board of Directors does not participate in any discussions of the Board of Directors regarding such Corporate Opportunity, or receive information from the Corporation or any Affiliate with respect thereto, or vote with respect to, any such Corporate Opportunity.

(F) To the fullest extent permitted by law, any person or entity purchasing or otherwise acquiring any interest in any shares of capital stock of the Corporation shall be deemed to have notice of and to have consented to the provisions of this Article Eleventh.

**TWELFTH: CORPORATE ACTIONS.** At every meeting of stockholders duly called and held at which a quorum is present (i) in all matters other than the election of directors, the vote of the holders of a majority of the voting power represented in person or by proxy at the meeting and entitled to vote on the matter and (ii) in the case of the election of directors, a plurality of the votes cast at the meeting upon the election, by the holders who are present in person or by proxy and entitled to vote on the matter, shall be necessary to decide the question or election, unless the question is one upon which, by express provision of applicable law, of the rules or regulations of any stock exchange applicable to the Corporation, of any regulation applicable to the Corporation or its securities, of this Certificate of Incorporation or of the By-laws, a different vote is required, in which case such express provision shall govern and control the decision of such question or election.

**THIRTEENTH: MISCELLANEOUS.** (A) If any provision or provisions of this Certificate of Incorporation shall be held to be invalid, illegal or unenforceable as applied to any circumstance for any reason whatsoever: (i) the validity, legality and enforceability of such provisions in any other circumstance and of the remaining provisions of this Certificate of Incorporation (including, without limitation, each portion of any paragraph of this Certificate of Incorporation containing any such provision held to be invalid, illegal or unenforceable that is not itself held to be invalid, illegal or unenforceable) shall not in any way be affected or impaired thereby and (ii) to the fullest extent possible, the provisions of this Certificate of Incorporation (including, without limitation, each such portion of any paragraph of this Certificate of Incorporation containing any such provision held to be invalid, illegal or unenforceable) shall be construed so as to permit the Corporation to protect its directors, officers, employees and agents from personal liability in respect of their good faith service or for the benefit of the Corporation to the fullest extent permitted by law.

(B) Unless the Corporation consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware shall, to the fullest extent permitted by law, be the sole and exclusive forum for any stockholder (including any beneficial owner) to bring (i) any derivative action or proceeding brought on behalf of the Corporation, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director or officer of

the Corporation to the Corporation or the Corporation's stockholders, creditors or other constituents, (iii) any action asserting a claim against the Corporation or any director or officer of the Corporation arising pursuant to any provision of the DGCL or this Certificate of Incorporation or the by-laws (as either may be amended and/or restated from time to time), or (iv) any action asserting a claim against the Corporation or any director or officer of the Corporation governed by the internal affairs doctrine, except as to each of (i) through (iv) above, for any claim as to which the Court of Chancery determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, or for which the Court of Chancery does not have subject matter jurisdiction; provided, that, if and only if the Court of Chancery of the State of Delaware dismisses any such action for lack of subject matter jurisdiction, such action may be brought in another state court sitting in the State of Delaware. To the fullest extent permitted by law, any person or entity purchasing or otherwise acquiring any interest in shares of capital stock of the Corporation shall be deemed to have notice of and consents to the provisions of this Article Thirteenth(B).

**FOURTEENTH: AMENDMENT.** Notwithstanding anything contained in this Certificate of Incorporation to the contrary or any provision of law that might otherwise permit a lesser vote or no vote, at any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, less than a majority in voting power of the stock of the Corporation entitled to vote generally in the election of directors, in addition to any vote required by applicable law or this Certificate of Incorporation, the following provisions in this Certificate of Incorporation may be amended, altered, repealed or rescinded, in whole or in part, or any provision inconsistent therewith or herewith may be adopted, only by the affirmative vote of the holders of at least 75% in voting power of all the then-outstanding shares of stock of the Corporation entitled to vote thereon, voting together as a single class: this Article Fourteenth, Article Sixth, Article Seventh, Article Ninth, Article Tenth, Article Eleventh and Article Thirteenth. For the purposes of this Certificate of Incorporation, beneficial ownership of shares shall be determined in accordance with Rule 13d-3 promulgated under the Securities Exchange Act of 1934, as amended.

IN WITNESS WHEREOF, this Certificate of Incorporation which has been duly adopted in accordance with Sections 242 and 245 of the Delaware General Corporation Law, has been executed by a duly authorized officer on this      day of      , 2013.

ARTICLE II  
MEETINGS OF STOCKHOLDERS

§1. PLACE OF MEETINGS — All meetings of the stockholders shall be held in the offices of the Corporation in Philadelphia, Pennsylvania, or at such other place as shall be determined by the Board of Directors and stated in the notice of the meeting or in a duly executed waiver of notice thereof. The Board of Directors may, in its sole discretion, determine that the meeting shall not be held at any place, but may instead be held solely by means of remote communication as described in Section 11 of Article II of these By-laws in accordance with Section 211(a)(2) of the General Corporation Law of the State of Delaware (the “Delaware General Corporation Law”).

§2. ANNUAL MEETING — An annual meeting of the stockholders, for the election of directors and for the transaction of such other business as may properly come before the meeting, shall be held at such place, on such date, and at such time as the Board of Directors shall each year fix.

Nominations of persons for election to the Board and the proposal of business to be transacted by the stockholders may be made at an annual meeting of stockholders pursuant to the Corporation’s notice of meeting (or any supplement thereto) delivered pursuant to Section 4 of Article II of these By-laws, (a) pursuant to the Corporation’s proxy materials, (b) by or at the direction of the Board or any authorized committee thereof, including pursuant to the Stockholders Agreement (as defined in the Corporation’s certificate of incorporation as then in effect (as the same may be amended from time to time, the “Amended and Restated Certificate of Incorporation”)) or (c) by any stockholder of record of the Corporation who was a stockholder of record at the time of the giving of the notice provided for in the following paragraph, who is entitled to vote at the meeting and who has complied with the notice procedures set forth in this section. For the avoidance of doubt, the foregoing clause (c) shall be the exclusive means for a stockholder to make nominations or propose business (other than business included in the Corporation’s proxy materials pursuant to Rule 14a-8 under the Securities Exchange Act of 1934, as amended (such act, and the rules and regulations promulgated thereunder, the “Exchange Act”)) at an annual meeting of the stockholders.

For nominations or other business to be properly brought before an annual meeting by a stockholder pursuant to clause (c) of the foregoing paragraph, (1) the stockholder must have given timely notice thereof in writing to the Secretary of the Corporation, (2) such business must be a proper matter for stockholder action, including under the General Corporation Law of the State of Delaware, (3) if the stockholder, or the beneficial owner on whose behalf any such proposal or nomination is made, has provided the Corporation with a Solicitation Notice, as that term is defined in subclause (c)(iv) of this paragraph, such stockholder or beneficial owner must, in the case of a proposal, have delivered a proxy statement and form of proxy to holders of at least the percentage of the Corporation's voting shares required under applicable law to carry any such proposal, or, in the case of a nomination or nominations, have delivered a proxy statement and form of proxy to holders of a percentage of the Corporation's voting shares reasonably believed by such stockholder or beneficial holder to be sufficient to elect the nominee or nominees proposed to be nominated by such stockholder, and must, in either case, have included in such materials the Solicitation Notice and (4) if no Solicitation Notice relating thereto has been timely provided pursuant to this section, the stockholder or beneficial owner proposing such business or nomination must not have solicited a number of proxies sufficient to have required the delivery of such a Solicitation Notice under this section. To be timely, a stockholder's notice shall be delivered to or mailed and received by the Secretary at the principal executive offices of the Corporation not less than 90 nor more than 120 days in advance of the first anniversary of the preceding year's annual meeting (the "Anniversary") (which date shall, for purposes of the Corporation's first annual meeting of stockholders after its shares of Common Stock are first publicly traded, be deemed to have occurred on February 15, 2014); provided, however, subject to the following sentence, that if the date of the annual meeting is advanced more than 30 days prior to or delayed by more than 30 days after the Anniversary, or if no annual meeting was held in the preceding year, notice by the stockholder to be timely must be so delivered not later than the close of business on the later of (i) the 90th day prior to such annual meeting or (ii) the 10th day following the day on which public announcement of the date of such meeting is first made. In no event shall an adjournment or postponement of an annual meeting for which notice has been given commence a new time period (or extend any time period) for the giving of a stockholder's notice. Such stockholder's notice shall set forth (a) as to each person whom the stockholder proposes to nominate for election or reelection as a director all information relating to such person as would be required to be disclosed in solicitations of proxies for the election of such nominees as directors or is otherwise required, in each case, pursuant to Section 14(a) under the Exchange Act and the rules and regulations promulgated thereunder, and such person's written consent to being named in the proxy statement and to serve as a director if elected; (b) as to any other business that the stockholder proposes to bring before the meeting, a brief description of such business, the text of the proposal or business (including the text of any resolutions proposed for consideration and, in the event that such business includes a proposal to amend these By-laws, the language of the proposed amendment), reasons for conducting such business at the meeting and any material interest in such business of such stockholder and the beneficial owner, if any, on whose behalf the proposal is made; (c) as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the nomination or proposal is made

(i) the name and address of such stockholder, as they appear on the Corporation's books, and of such beneficial owner, (ii) the class and number of shares of the Corporation that are owned, directly or indirectly, beneficially and of record by such stockholder and such beneficial owner, (iii) in the case of the stockholder giving the notice, a representation that the stockholder is a holder of record of the stock of the Corporation at the time of the giving of the notice, will be entitled to vote at such meeting and will appear in person or by proxy at the meeting to propose such business or nomination, (iv) a representation whether or not the stockholder or the beneficial owner, if any, will or is part of a group which will (x) deliver a proxy statement and/or form of proxy to holders of at least the percentage of the voting power of the Corporation's outstanding capital stock required under applicable law to approve or adopt the proposal or, in the case of nominations, reasonably believed by such stockholder or beneficial owner to elect the nominee and/or (y) otherwise solicit proxies or votes from stockholders in support of such proposal or nomination (in each case, a "Solicitation Notice"), (v) a certification regarding whether such stockholder and beneficial owner, if any, have complied with all applicable federal, state and other legal requirements in connection with the stockholder's and/or beneficial owner's acquisition of shares of capital stock or other securities of the Corporation and/or the stockholder's and/or beneficial owner's acts or omissions as a stockholder of the Corporation and (vi) any other information relating to such stockholder and beneficial owner, if any, required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for, as applicable, the proposal and/or for the election of directors in an election contest pursuant to and in accordance with Section 14(a) of the Exchange Act and the rules and regulations promulgated thereunder; (d) a description of any agreement, arrangement or understanding with respect to the nomination or proposal and/or the voting of shares of any class or series of stock of the Corporation between or among the stockholder giving the notice, the beneficial owner, if any, on whose behalf the nomination or proposal is made, any of their respective affiliates or associates and/or any others acting in concert with any of the foregoing (collectively, "proponent persons"); and (e) a description of any agreement, arrangement or understanding (including without limitation any contract to purchase or sell, acquisition or grant of any option, right or warrant to purchase or sell, swap or other instrument) to which any proponent person is a party, the intent or effect of which may be (i) to transfer to or from any proponent person, in whole or in part, any of the economic consequences of ownership of any security of the Corporation, (ii) to increase or decrease the voting power of any proponent person with respect to shares of any class or series of stock of the Corporation and/or (iii) to provide any proponent person, directly or indirectly, with the opportunity to profit or share in any profit derived from, or to otherwise benefit economically from, any increase or decrease in the value of any security of the Corporation. A stockholder providing notice of a proposed nomination for election to the Board of Directors or other business proposed to be brought before a meeting (whether given pursuant to this Section 2 or Section 3 of Article II of these By-laws) shall update and supplement such notice from time to time to the extent necessary so that the information provided or required to be provided in such notice shall be true and correct (x) as of the record date for determining the stockholders entitled to notice of the meeting and (y) as of the date that is fifteen (15) days prior to the meeting or any adjournment or postponement thereof, provided that if the record date for determining the stockholders entitled to vote at the meeting is less than fifteen (15) days prior to the meeting or any adjournment or postponement thereof, the information shall be supplemented and updated as of such later date. Any such update and supplement shall be delivered in writing to the Secretary of the Corporation at the principal

executive offices of the Corporation not later than five (5) days after the record date for determining the stockholders entitled to notice of the meeting (in the case of any update and supplement required to be made as of the record date for determining the stockholders entitled to notice of the meeting), not later than ten (10) days prior to the date for the meeting or any adjournment or postponement thereof (in the case of any update or supplement required to be made as of fifteen (15) days prior to the meeting or adjournment or postponement thereof) and not later than five (5) days after the record date for determining the stockholders entitled to vote at the meeting, but no later than the date prior to the meeting or any adjournment or postponement thereof (in the case of any update and supplement required to be made as of a date less than fifteen (15) days prior the date of the meeting or any adjournment or postponement thereof). The Corporation may require any proposed nominee to furnish such other information as it may reasonably require to determine the eligibility of such proposed nominee to serve as a director of the Corporation and to determine the independence of such director under the Exchange Act and rules and regulations thereunder and applicable stock exchange rules.

Notwithstanding anything in these By-laws to the contrary, in the event that the number of directors to be elected to the Board is increased and there is no public announcement naming all of the nominees for director or specifying the size of the increased Board made by the Corporation at least 100 days prior to the Anniversary, a stockholder's notice required by this By-law shall also be considered timely, but only with respect to nominees for any new positions created by such increase, if it shall be received by the Secretary of the Corporation at the principal executive offices of the Corporation not later than the close of business on the tenth day following the day on which such public announcement is first made by the Corporation.

Only persons nominated in accordance with the procedures set forth in this Section 2 or Section 3 or by or at the direction of the Board of Directors shall be eligible to serve as directors and such business shall be conducted at a meeting of stockholders as shall have been brought before the meeting in accordance with the procedures set forth in this section or Section 3. The chair of the meeting shall have the power and the duty to determine whether a nomination or any business proposed to be brought before the meeting has been made in accordance with the procedures set forth in these By-laws and, if any proposed nomination or business is not in compliance with these By-laws, to declare that such defective proposed business or nomination shall not be presented for stockholder action at the meeting and shall be disregarded. Notwithstanding anything herein to the contrary, unless otherwise required by law, if the stockholder (or a qualified representative of the stockholder) does not appear at the annual or special meeting of stockholders of the Corporation to present a nomination or business, such nomination shall be disregarded and such proposed business shall not be transacted, notwithstanding that proxies in respect of such vote may have been received by the Corporation. For purposes of this Section 2 of Article II, to be considered a qualified representative of the stockholder, a person must be a duly authorized officer, manager or partner of such stockholder or must be authorized by a writing executed by such stockholder or an electronic transmission delivered by such stockholder to act for such stockholder as proxy at the meeting of stockholders and such person must produce such writing or electronic transmission, or a reliable reproduction of the writing or electronic transmission, at the meeting of stockholders.

For purposes of these By-laws, “public announcement” shall mean disclosure (a) in a press release released by the Corporation, provided such press release is released by the Corporation following its customary procedures, is reported by the Dow Jones News Service, Associated Press or a comparable national news service, or is generally available on internet news sites, or (b) in a document publicly filed by the Corporation with the Securities and Exchange Commission pursuant to Section 13, 14 or 15(d) of the Exchange Act and the rules and regulations promulgated thereunder.

Notwithstanding the foregoing provisions of this Section 2, a stockholder shall also comply with all applicable requirements of the Exchange Act and the rules and regulations thereunder with respect to matters set forth in this Section 2. Nothing in this Section 2 shall be deemed to affect any rights of stockholders to request inclusion of proposals in the Corporation’s proxy statement pursuant to Rule 14a-8 under the Exchange Act.

Notwithstanding anything to the contrary contained in this Section 2 or Section 3 of Article II, for as long as the Stockholders Agreement remains in effect with respect to the Controlling Owners (as defined in the Amended and Restated Certificate of Incorporation), the Controlling Owners and their affiliates (to the extent then subject to the Stockholders Agreement) shall not be subject to the notice procedures set forth in Section 2 or Section 3 of Article II with respect to any annual or special meeting of stockholders.

§3. SPECIAL MEETINGS — Special meetings of the stockholders may only be called in the manner provided in the Amended and Restated Certificate of Incorporation and may be held either within or without the State of Delaware. The Board of Directors acting pursuant to a resolution adopted by a majority of the Whole Board may postpone, reschedule or cancel any special meeting of stockholders previously scheduled by the Board of Directors or the Chairman of the Board of Directors; provided, however, that with respect to any special meeting of stockholders previously scheduled by the Board of Directors or the Chairman of the Board of Directors at the request of the Controlling Owners and their affiliates, the Board of Directors shall not postpone, reschedule or cancel such special meeting without the prior written consent of such Controlling Owners or affiliates. Special meetings of the stockholders, for any purpose or purposes prescribed in the notice of the meeting, may be called by a majority of the Whole Board. For purposes of these By-laws, the term “Whole Board” shall mean the total number of authorized directors whether or not there exist any vacancies in previously authorized directorships. Such meetings shall be held at the place, on the date and at the time as they or he shall fix. Business transacted at all special meetings shall be confined to the purpose or purposes stated in the Corporation’s notice of meeting. Nominations of persons for election to the Board of Directors may be made at a special meeting of stockholders at which directors are to be elected pursuant to the Corporation’s notice of meeting (a) by or at the direction of the Board of Directors or any committee thereof or (b) provided that the Board (or the Controlling Owners or their affiliates pursuant to Section (B) of Article Tenth of the Amended and Restated Certificate of Incorporation) has determined that directors shall be elected at such meeting, by any stockholder of record of the Corporation who is a stockholder of record at the time such notice is delivered to the Secretary of the Corporation as provided for in this paragraph, who shall be entitled to vote at the meeting and who delivers a written notice to the Secretary setting forth the information required in connection with nominations for annual meetings pursuant to Section 2

of this Article II. In the event the Corporation calls a special meeting of stockholders for the purpose of electing one or more directors to the Board, any such stockholder entitled to vote in the election of directors may nominate a person or persons (as the case may be) for election to such position(s) as specified in the Corporation's notice of meeting if the stockholder's notice required by the preceding sentence shall be received by the Secretary at the principal executive offices of the Corporation not later than the close of business on the later of the 90th day prior to such special meeting or the 10th day following the day on which public announcement is first made of the date of the special meeting and of the nominees proposed by the Board of Directors to be elected at such meeting. In no event shall an adjournment or postponement of a special meeting commence a new time period (or extend any time period) for the giving of a stockholder's notice as described above.

Notwithstanding the foregoing provisions of this Section 3, a stockholder shall also comply with all applicable requirements of the Exchange Act and the rules and regulations thereunder with respect to matters set forth in this Section 3.

§4. NOTICE OF MEETINGS — Notice of the place, if any, date, and time of the meeting, the means of remote communication, if any, by which stockholders and proxy holders may be deemed to be present in person and vote at such meeting, the record date for determining the stockholders entitled to vote at the meeting, if such date is different from the record date for determining stockholders entitled to notice of the meeting, and, in the case of a special meeting, the purposes for which the meeting is called, shall be given not less than ten nor more than sixty days before the date on which the meeting is to be held, to each stockholder of record entitled to vote thereat as of the record date for determining the stockholders entitled to notice of the meeting, except as otherwise provided herein or required by law (meaning, here and hereinafter, as required from time to time by the Delaware General Corporation Law or the Amended and Restated Certificate of Incorporation). When a meeting is adjourned to another place, date or time, notice need not be given of the adjourned meeting if the time and place, if any, thereof, and the means of remote communications, if any, by which stockholders and proxyholders may be deemed to be present in person and to vote at such adjourned meeting are announced at the meeting at which the adjournment is taken; provided, however, that if the date of any adjourned meeting is more than thirty days after the date for which the meeting was originally noticed, or if a new record date is fixed for the adjourned meeting, notice of the place, if any, date, and time of the adjourned meeting and the means of remote communications, if any, by which stockholders and proxyholders may be deemed present and to vote at such adjourned meeting shall be given in conformity herewith. At any adjourned meeting, any business may be transacted which might have been transacted at the original meeting; but only those stockholders entitled to vote at the meeting as originally noticed shall be entitled to vote at any adjournment or adjournments thereof, unless the Board of Directors shall fix a new record date for the adjourned meeting pursuant to these By-laws.

§5. QUORUM — Except to the extent that the presence of a larger number may be required by law, the Amended and Restated Certificate of Incorporation or the rules of any stock exchange upon which the Corporation's securities are listed, the presence, in person or by proxy, of the holders of record of a majority of the voting power of the issued and outstanding shares of capital stock of the Corporation entitled to vote thereat shall constitute a quorum at all meetings

of the stockholders, and every reference in these By-laws to a majority or other proportion of shares or stock (or the holders thereof) for the purposes of determining any quorum requirement or any requirement for stockholder consent or approval shall be deemed to refer to such majority or other proportion of the votes (or the holders thereof) then entitled to be cast in respect of such shares or capital stock. Once a quorum is present to organize a meeting, it shall not be broken by the subsequent withdrawal of any stockholders.

If a quorum shall fail to attend any meeting, the chairman of the meeting or, if the chairman of the meeting so elects, the holders of a majority of the voting power of the shares of stock entitled to vote who are present, in person or by proxy, may adjourn the meeting to another place, if any, date, or time.

§6. ORGANIZATION — The Chairman of the Board, if one is elected, or in his or her absence or disability, such person as the Board of Directors may have designated or, in the absence of, or upon the failure so to delegate such a person, the Chief Executive Officer of the Corporation, shall call to order any meeting of the stockholders and act as chairman of the meeting. The Secretary of the Corporation shall act as Secretary of all meetings of the stockholders. In the absence or disability of the Secretary of the Corporation, the secretary of the meeting shall be such person as the chairman or the Chief Executive Officer appoints.

§7. CONDUCT OF BUSINESS — Except as otherwise required by law, the Amended and Restated Certificate of Incorporation or these By-laws, the chairman of the meeting shall, in addition to making any other determination that may be appropriate for the conduct of the meeting, have the power and duty to determine whether a nomination or any business proposed to be brought before the meeting was made or proposed, as the case may be, in accordance with the procedures set forth in these By-laws and, if any proposed nomination or business is not in compliance with these By-laws, to declare that such defective proposal or nomination shall be disregarded. The date and time of the opening and the closing of the polls for each matter upon which the stockholders will vote at a meeting shall be announced at the meeting by the chairman of the meeting. The Board of Directors may adopt by resolution such rules and regulations for the conduct of the meeting of stockholders as it shall deem appropriate. Except to the extent inconsistent with such rules and regulations as adopted by the Board of Directors, the chairman of the meeting shall have the right and authority to convene and (for any or no reason) to recess and/or adjourn the meeting, to prescribe such rules, regulations and procedures and to do all such acts as, in the judgment of such chairman, are appropriate for the proper conduct of the meeting. Such rules, regulations or procedures, whether adopted by the Board of Directors or prescribed by the chairman of the meeting, may include, without limitation, the following: (i) the establishment of an agenda or order of business for the meeting, (ii) rules and procedures for maintaining order at the meeting and the safety of those present; (iii) limitations on attendance at or participation in the meeting to stockholders entitled to vote at the meeting, their duly authorized and constituted proxies or such other persons as the chairman of the meeting shall determine; (iv) restrictions on entry to the meeting after the time fixed for the commencement thereof; and (v) limitations on the time allotted to questions or comments by participants and on shareholder approvals. Unless and to the extent determined by the Board of Directors or the chairman of the meeting, meeting of stockholders shall not be required to be held in accordance with the rules of parliamentary procedure.

§8. PROXIES AND VOTING — Each stockholder entitled to vote at a meeting of stockholders or to express consent to corporate action in writing without a meeting may authorize another person or persons to act for such stockholder by proxy authorized by an instrument in writing or by a transmission permitted by law filed in accordance with the procedure established for the meeting and bearing a date not more than three years prior to said meeting, unless said instrument provides for a longer period. Any copy, facsimile telecommunication or other reliable reproduction of the writing or transmission created pursuant to this paragraph may be substituted or used in lieu of the original writing or transmission for any and all purposes for which the original writing or transmission could be used, provided that such copy, facsimile telecommunication or other reproduction shall be a complete reproduction of the entire original writing or transmission. A proxy shall be irrevocable if it states that it is irrevocable and if, and only as long as, it is coupled with an interest sufficient in law to support an irrevocable power. A stockholder may revoke any proxy which is not irrevocable by attending the meeting and voting in person or by delivering to the Secretary of the Corporation a revocation of the proxy or a new proxy bearing a later date. Each stockholder shall be entitled to vote, in accordance with the provisions of the Amended and Restated Certificate of Incorporation relating to shares of stock, the shares of stock registered in his name on the record date for the meeting, except as otherwise provided herein or required by law. Unless required by the Amended and Restated Certificate of Incorporation or applicable law, or determined by the chairman of the meeting to be advisable, the vote on any question need not be by ballot. Every vote taken by ballots shall be counted by an inspector or inspectors appointed as provided herein.

At every meeting of stockholders duly called and held at which a quorum is present (i) in all matters other than the election of directors, the vote of the holders of a majority of the voting power represented in person or by proxy at the meeting and entitled to vote on the matter and (ii) in the case of the election of directors, a plurality of the votes cast at the meeting upon the election, by the holders who are present in person or by proxy and entitled to vote on the matter, shall be necessary to decide the question or election, unless the question is one upon which, by express provision of applicable law, of the rules or regulations of any stock exchange applicable to the Corporation, of any regulation applicable to the Corporation or its securities, of the Amended and Restated Certificate of Incorporation or of these By-laws, a different vote is required, in which case such express provision shall govern and control the decision of such question or election. Shares represented by a limited proxy (i.e., a proxy that by its terms, withholds authority or does not empower the holder to vote on the matter) will not be considered as part of the voting power present and entitled to vote with respect to that matter for determining whether the matter has a majority (or other required percentage) approval of the voting power present and entitled to vote on the matter. Abstentions (whether in person or by proxy) are counted as voting power present and entitled to vote on any proposal to which they relate.

§9. STOCK LIST — A complete list of stockholders entitled to vote at any meeting of stockholders, arranged in alphabetical order and showing the address of each such stockholder and the number of shares registered in his name, shall be open to the examination of any such stockholder, for any purpose germane to the meeting for a period of at least ten days prior to the meeting, (provided, however, if the record date for determining the stockholders entitled to vote

is less than ten (10) days before the date of the meeting, the list shall reflect the stockholders entitled to vote as of the tenth day before the meeting date) (a) on a reasonably accessible electronic network; provided that the information required to gain access to such list is provided with the notice of meeting or (b) during ordinary business hours at the principal place of business of the Corporation. In the event that the Corporation determines to make the list available on an electronic network, the Corporation may take reasonable steps to ensure that such information is available only to stockholders of the Corporation.

If the meeting is to be held at a place, the stock list shall also be kept at the place of the meeting during the whole time thereof and shall be open to the examination of any such stockholder who is present. If the meeting is to be held solely by means of remote communication, then the list shall also be open to the examination of any stockholder during the whole time of the meeting on a reasonably accessible electronic network, and the information required to access such list shall be provided with the notice of the meeting. Except as otherwise provided by law, this list shall presumptively determine the identity of the stockholders entitled to examine the list of stockholders required by this Section or entitled to vote at the meeting and the number of shares held by each of them.

§10. CONSENT OF STOCKHOLDERS IN LIEU OF MEETING — Any action required or permitted to be taken at any annual or special meeting of stockholders of the Corporation may be taken without a meeting, without prior notice and without a vote only to the extent permitted by and in the manner provided in the Amended and Restated Certificate of Incorporation and in accordance with applicable law.

§11. REMOTE COMMUNICATION — If authorized by the Board of Directors in its sole discretion, and subject to such guidelines and procedures as the Board of Directors may adopt, stockholders and proxy holders not physically present at a meeting of stockholders may, by means of remote communication:

(a) participate in a meeting of stockholders; and

(b) be deemed present in person and vote at a meeting of stockholders whether such meeting is to be held at a designated place or solely by means of remote communication,

*provided, that*

(i) the Corporation shall implement reasonable measures to verify that each person deemed present and permitted to vote at the meeting by means of remote communication is a stockholder or proxyholder;

(ii) the Corporation shall implement reasonable measures to provide such stockholders and proxyholders a reasonable opportunity to participate in the meeting and to vote on matters submitted to the stockholders, including an opportunity to read or hear the proceedings of the meeting substantially concurrently with such proceedings; and

(iii) if any stockholder or proxyholder votes or takes other action at the meeting by means of remote communication, a record of such vote or other action shall be maintained by the Corporation.

§12. INSPECTORS OF ELECTION — The Corporation may, and shall if required by law, in advance of any meeting of stockholders, appoint one or more inspectors of election, who may be employees of the Corporation, to act at the meeting or any adjournment thereof and to make a written report thereof. The Corporation may designate one or more persons as alternate inspectors to replace any inspector who fails to act. In the event that no inspector so appointed or designated is able to act at a meeting of stockholders, the chairman of the meeting shall appoint one or more inspectors to act at the meeting. Each inspector, before entering upon the discharge of his or her duties, shall take and sign an oath to execute faithfully the duties of inspector with strict impartiality and according to the best of his or her ability. The inspector or inspectors so appointed or designated shall (i) ascertain the number of shares of capital stock of the Corporation outstanding and the voting power of each such share, (ii) determine the shares of capital stock of the corporation represented at the meeting and the validity of proxies and ballots, (iii) count all votes and ballots, (iv) determine and retain for a reasonable period a record of the disposition of any challenges made to any determination by the inspectors, and (v) certify their determination of the number of shares of capital stock of the Corporation represented at the meeting and such inspectors' count of all votes and ballots. Such certification and report shall specify such other information as may be required by law. In determining the validity and counting of proxies and ballots cast at any meeting of stockholders of the Corporation, the inspectors may consider such information as is permitted by applicable law. No person who is a candidate for an office at an election may serve as an inspector at such election.

ARTICLE III  
BOARD OF DIRECTORS

§1. NUMBER AND TERM — Subject to the Amended and Restated Certificate of Incorporation, the number of directors shall be fixed exclusively by resolution adopted by a majority of the Whole Board from time to time. Each director shall be elected to serve for a term that expires at the next regular annual meeting of the shareholders and when a successor is elected and has qualified, or at the time of the earlier death, resignation, removal or disqualification of the director. Directors need not be stockholders.

§2. CHAIRMAN — The Board of Directors shall elect a Chairman of the Board, who shall have the powers and perform such duties as provided in these By-laws and as the Board of Directors may from time to time prescribe. The Chairman of the Board shall preside at all meetings of the Board of Directors at which he or she is present. If the Chairman of the Board is not present at a meeting of the Board of Directors, the Chief Executive Officer (if the Chief Executive Officer is a director and is not also the Chairman of the Board) shall preside at such meeting, and, if the Chief Executive Officer is not present at such meeting or is not a director, a majority of the directors present at such meeting shall elect one (1) of their members to preside.

§3. RESIGNATION AND VACANCIES — Any director or member of a committee may resign at any time. Such resignation shall be made to the Board of Directors, the Chairman of the Board of Directors, the Chief Executive Officer or the Secretary of the Corporation, in writing or by electronic transmission, and shall take effect at the time specified therein and if no time is specified, at the time of its receipt. The acceptance of a resignation shall not be necessary to make it effective unless otherwise expressly provided in the resignation. Vacancies (whether by

death, resignation, disqualification, removal or other cause) and newly created directorships resulting from any increase in the authorized number of directors shall be filled in accordance with the Amended and Restated Certificate of Incorporation. Any director elected to fill a vacancy or newly created directorship shall hold office until the next regular annual meeting of the stockholders and until his or her successor shall be elected and qualified, or until his or her earlier death, resignation, disqualification or removal.

§4. REMOVAL — Directors of the Corporation may be removed in the manner provided in the Amended and Restated Certificate of Incorporation and applicable law.

§5. COMMITTEES — The Board of Directors may designate one or more committees, each committee to consist of one or more directors of the Corporation. The Board may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee. In the absence or disqualification of any member of any committee and any alternate member in his or her place, the member or members of the committee present at the meeting and not disqualified from voting, whether or not he or she or they constitute a quorum, may by unanimous vote appoint another member or the Board of Directors to act at the committee meeting in the place of the absent or disqualified member.

Any such committee, to the extent provided in the resolution of the Board of Directors establishing such committee, shall have and may exercise all the powers and authority of the Board of Directors in the management of the business and affairs of the Corporation, and may authorize the seal of the Corporation to be affixed to all papers which may require it; but no such committee shall have the power or authority in reference to the following matters: (a) approving or adopting, or recommending to the stockholders, any action or matter (other than the election or removal of directors) expressly required by the Delaware General Corporation Law to be submitted to stockholders for approval or (b) adopting, amending or repealing any By-law of the Corporation. Each committee may determine the procedural rules for meeting and conducting its business and shall act in accordance therewith, except as otherwise provided herein, by a resolution of the Board of Directors designating such committee, or required by law. Adequate provision shall be made for notice to members of all meetings; unless otherwise provided in such a resolution, at least a majority of the members shall constitute a quorum unless the committee shall consist of one or two members, in which event one member shall constitute a quorum; and all matters shall be determined by a majority vote of the members present at a meeting of the committee at which a quorum is present.

§6. MEETINGS — Regular meetings of the Board of Directors may be held without notice at such places and times as shall be determined from time to time by resolution of the Board of Directors and publicized among all directors. A notice of each regular meeting shall not be required. Special meetings of the Board of Directors may be called by the Chairman of the Board of Directors, the Chief Executive Officer or by the Secretary of the Corporation if directed by the Board of Directors and shall be called by them on the written request of any two directors. Notice of the place, date, and time of each such special meeting shall be given each director by whom it is not waived by mailing notice not less than five days before the meeting or by sending notice by guaranteed overnight carrier not less than forty-eight hours before the meeting or by telephoning, hand delivering, telegraphing, faxing, e-mailing or sending by similar form of

telecommunication notice or electronic transmission not less than twenty-four hours before the meeting. Unless otherwise indicated in the notice thereof, any and all business may be transacted at a special meeting. Members of the Board of Directors, or any committee designated by the Board of Directors, may participate in a meeting of the Board of Directors (whether regular or special), or any committee, by means of conference telephone call or by means of other communications equipment by which all persons participating in the meeting can hear each other, and such participation in a meeting shall constitute presence in person at the meeting.

§7. QUORUM AND VOTING — In addition to any other requirements set forth in the Stockholders Agreement, a majority of the Whole Board shall constitute a quorum for the transaction of business. If at any meeting of the Board of Directors there shall be less than a quorum present, a majority of those present may adjourn the meeting from time to time until a quorum is obtained, and no further notice thereof need be given other than by announcement at the meeting which shall be so adjourned. The affirmative vote of the majority of the directors present at a meeting at which a quorum is present shall be the act of the Board of Directors unless applicable law, the Amended and Restated Certificate of Incorporation or these By-laws shall require the vote of a greater number.

§8. COMPENSATION — Directors shall be entitled to such compensation and fees (including reimbursement of reasonable expenses) for their services as directors or as members of committees as shall be authorized by resolution of the Board. Nothing herein contained shall be construed to preclude any director from serving the Corporation in any other capacity as an officer, agent or otherwise, and receiving compensation therefor.

§9. ACTION WITHOUT MEETING — Any action required or permitted to be taken at any meeting of the Board of Directors, or of any committee designated by the Board of Directors, may be taken without a meeting, if all members of the Board or of such committee, as the case may be, consent thereto in writing or by electronic transmission and the writing or writings or transmission or transmissions are filed with the minutes of proceedings of the Board or committee. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form.

§10. POWERS — The Board of Directors shall have full power to manage the business and affairs of the Corporation; and all powers of the Corporation, except those specifically reserved or granted to the stockholders by statute, the Amended and Restated Certificate of Incorporation or these By-laws, are hereby granted to and vested in the Board of Directors.

ARTICLE IV  
OFFICERS

§1. OFFICERS — The officers of the Corporation shall be a Chief Executive Officer, a President, one or more Vice Presidents, a Treasurer and a Secretary, all of whom shall be elected by the Board of Directors and shall hold office until their successors are elected and qualified or until their earlier resignation or removal. In addition, the Board of Directors may elect a Chairman and a Vice Chairman of the Board of Directors and such Assistant Secretaries and Assistant Treasurers, as it may deem proper. Except for the Chief Executive Officer, none of the officers of the Corporation need be directors. Two or more offices may be held by the same person.

§2. OTHER OFFICERS AND AGENTS — The Board of Directors may appoint such other officers and agents as it may deem advisable, who shall hold office for such terms and shall exercise such powers and perform such duties as shall be determined from time to time by the Board of Directors.

§3. CHIEF EXECUTIVE OFFICER — The Chief Executive Officer of the Corporation shall be responsible for the general supervision of the business and affairs of the Corporation and, except as set forth in these By-laws or a resolution of the Board of Directors, of the Corporation's other officers, and shall have and perform such other duties as from time to time may be assigned to him by the Board of Directors. He may sign, execute and acknowledge, in the name of the Corporation, deeds, mortgages, bonds, contracts or other instruments authorized by the Board of Directors, except in cases where the signing and execution thereof shall be expressly and exclusively delegated by the Board of Directors, or by these By-laws, to some other officer or agent of the Corporation; and, in general, shall perform all duties incident to the office of Chief Executive Officer, and such other duties as from time to time may be assigned to him by the Board of Directors.

§4. PRESIDENT — The President shall have such powers and shall perform such duties as from time to time shall be assigned to him by the Chief Executive Officer or the Board of Directors.

§5. VICE-PRESIDENTS — Each Vice-President shall have such powers and shall perform such duties as from time to time shall be assigned to him by the Chief Executive Officer or the Board of Directors.

§6. TREASURER — The Treasurer shall provide for the custody of the corporate funds and securities and shall keep full and accurate account of receipts and disbursements in books belonging to the Corporation. He shall collect and deposit all moneys and other valuables in the name and to the credit of the Corporation in such depositories as may be designated by the Board of Directors.

He shall render to the Chief Executive Officer and the Board of Directors at meetings of the Board of Directors, or whenever the directors may request it, an account of all his transactions as

Treasurer and of the financial condition of the Corporation. If required by the Board of Directors, he shall give the Corporation a bond for the faithful discharge of his duties in such amount and with such surety as the Board of Directors shall prescribe. In addition, the Treasurer shall have such further powers and perform such other duties incident to the office of Treasurer as from time to time are assigned to him by the Chief Executive Officer or the Board of Directors.

§7. SECRETARY — The Secretary shall be present at and give, or cause to be given, notice of all meetings of stockholders and directors, and all other notices required by law or by these By-laws, and in case of his absence or refusal or neglect so to do, any such notice may be given by any Assistant Secretary or by any person thereunto directed by the Chief Executive Officer, or by the Board of Directors. ASSISTANT TREASURERS AND ASSISTANT SECRETARIES — Each Assistant Treasurer and each Assistant Secretary, if any are elected, shall be vested with all the powers and shall perform all the duties of the Treasurer and Secretary, respectively, in the absence or disability of such officer, unless or until the Chief Executive Officer or the Board of Directors shall otherwise determine. Assistant Treasurers and Assistant Secretaries, if any, shall have such powers and shall perform such duties as shall be assigned to them, respectively, by the Chief Executive Officer or by the Board of Directors.

§9. REMOVAL AND REMOVAL — Any officer of the Corporation may be removed at any time, with or without cause, by the Board of Directors. Any officer may resign at any time in the same manner prescribed under Section 3 of Article III of these By-laws.

§13. VACANCIES. The Board of Directors shall have the power to fill vacancies occurring in any office.

ARTICLE V  
GENERAL PROVISIONS

§1. CERTIFICATES OF STOCK — The stock of the Corporation shall be represented by certificates unless the Board of Directors shall by resolution in accordance with applicable law provide that some or all of any class or series of stock shall be uncertificated shares. Any such resolution shall not apply to shares represented by a certificate until such certificate is surrendered to the Corporation. Every holder of stock in the Corporation represented by certificates shall be entitled to have a certificate signed by, or in the name of the Corporation by, the Chairman of the Board of Directors or the Vice Chairman of the Board of Directors, or the President or a Vice President, and by the Treasurer or an Assistant Treasurer or the Secretary or an Assistant Secretary of the Corporation, certifying the number and class of shares of stock of the Corporation owned by such holder. Any or all of the signatures on the certificate may be a facsimile. The Board of Directors shall have the power to appoint one or more transfer agents and/or registrars for the transfer or registration of certificates of stock of any class, and may require stock certificates to be countersigned or registered by one or more of such transfer agents and/or registrars.

§2. SHARES WITHOUT CERTIFICATES — If the Board of Directors chooses to issue shares of stock without certificates, the Corporation, if required by the Delaware General Corporation Law, shall, within a reasonable time after the issue or transfer of shares without certificates, send the stockholder a written statement of the information required by the Delaware General Corporation Law. The Corporation may adopt a system of issuance, recordation and transfer of its shares of stock by electronic or other means not involving the issuance of certificates, provided the use of such system by the Corporation is permitted in accordance with applicable law.

§3. LOST CERTIFICATES — Unless otherwise provided by the Amended and Restated Certificate of Incorporation, a new certificate of stock or uncertificated shares may be issued in the place of any certificate theretofore issued by the Corporation alleged to have been lost, stolen, destroyed or mutilated, and (in the case of any certificate alleged to be lost, stolen or destroyed) the Board of Directors may, in its discretion, require the owner thereof or his legal representatives, to give the Corporation a bond, in such sum as the Board of Directors may direct, sufficient to indemnify the Corporation against any claim that may be made against it with respect to any such certificate, prior to the issuance of any new certificate.

§4. TRANSFER OF SHARES — Shares of stock of the Corporation shall be transferable upon its books by the holders thereof, in person or by their duly authorized attorneys or legal representatives, upon surrender to the Corporation by delivery thereof (to the extent evidenced by a physical stock certificate) to the person in charge of the stock and transfer books and

ledgers. Certificates representing such shares, if any, shall be cancelled and new certificates, if the shares are to be certificated, shall thereupon be issued. Shares of capital stock of the Corporation that are not represented by a certificate shall be transferred in accordance with applicable law. A record shall be made of each transfer. Whenever any transfer of shares shall be made for collateral security, and not absolutely, it shall be so expressed in the entry of the transfer if, when the certificates are presented, both the transferor and transferee request the Corporation to do so. The Board of Directors shall have power and authority to make such rules and regulations as it may deem necessary or proper concerning the issue, transfer and registration of certificates for shares of stock of the Corporation.

§5. STOCKHOLDER RECORD DATE — In order that the Corporation may determine the stockholders entitled to notice of any meeting of stockholders or any adjournment thereof, or entitled to receive payment of any dividend or other distribution or allotment of any rights or entitled to exercise any rights in respect of any change, conversion or exchange of stock or for the purpose of any other lawful action, the Board of Directors may fix a record date, which record date shall not precede the date on which the resolution fixing the record date is adopted and which, unless otherwise required by law, shall not be more than sixty nor less than ten days before the date of such meeting, nor more than sixty days prior to any such other action. If the Board of Directors so fixes a date, such date shall also be the record date for determining the stockholders entitled to vote at such meeting unless the Board of Directors determines, at the time it fixes such record date, that a later date on or before the date of the meeting shall be the date for making such determination. If no record date is fixed by the Board of Directors, the record date for determining stockholders entitled to notice of and to vote at a meeting of stockholders shall be at the close of business on the day next preceding the day on which notice is given, or, if notice is waived, at the close of business on the day next preceding the day on which the meeting is held, and, for determining stockholders entitled to receive payment of any dividend or other distribution or allotment of rights or to exercise any rights of change, conversion or exchange of stock or for any other purpose, the record date shall be at the close of business on the day on which the Board of Directors adopts a resolution relating thereto.

A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to an adjournment of the meeting; provided, however, that the Board of Directors may fix a new record date for the adjourned meeting, and in such case shall also fix as the record date for stockholders entitled to notice of such adjourned meeting the same or an earlier date as that fixed for determination of stockholders entitled to vote in accordance herewith at the adjourned meeting.

Unless otherwise restricted by the Amended and Restated Certificate of Incorporation, in order that the Corporation may determine the stockholders entitled to express consent to corporate action in writing without a meeting, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which record date shall not be more than ten (10) days after the date upon which the resolution fixing the record date is adopted by the Board of Directors. If no record date for determining stockholders entitled to express consent to corporate action in writing without a meeting is fixed by the Board of Directors, (i) when no prior action of the Board of Directors is required by law, the record date for such purpose shall be the first date

on which a signed written consent setting forth the action taken or proposed to be taken is delivered to the Corporation in accordance with applicable law, and (ii) if prior action by the Board of Directors is required by law, the record date for such purpose shall be at the close of business on the day on which the Board of Directors adopts the resolution taking such prior action.

§6. REGISTERED STOCKHOLDERS — Prior to the surrender to the Corporation of the certificate or certificates for a share or shares of stock or notification to the Corporation of the transfer of uncertificated shares with a request to record the transfer of such share or shares, the Corporation may treat the registered owner of such share or shares as the person entitled to receive dividends, to vote, to receive notifications and otherwise to exercise all the rights and powers of an owner of such share or shares. To the fullest extent permitted by law, the Corporation shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of any other person, whether or not it shall have express or other notice thereof.

§7. DIVIDENDS — Subject to the provisions of law and the provisions of the Amended and Restated Certificate of Incorporation or any resolution or resolutions adopted by the Board of Directors pursuant to authority expressly vested in it by the Amended and Restated Certificate of Incorporation and Section 151 of the Delaware General Corporation Law, the Board of Directors may, to the fullest extent permitted by law, declare dividends upon the capital stock of the Corporation. Before declaring any dividend there may be set apart out of any funds of the Corporation legally available for dividends, such sum or sums as the Board of Directors from time to time in its discretion deem proper for working capital, future capital needs or as a reserve fund to meet contingencies or for such other purposes as the Board of Directors shall deem appropriate or in the interests of the Corporation.

§8. SEAL — The Board of Directors may provide a suitable seal, containing the name of the Corporation and the words “CORPORATE SEAL DELAWARE”. Such seal may be used by causing it or a facsimile thereof to be impressed or affixed or reproduced or otherwise.

§9. FACSIMILE SIGNATURES — In addition to the provisions for use of facsimile signatures elsewhere specifically authorized in these By-laws, facsimile signatures of any officer or officers of the Corporation may be used whenever and as authorized by the Board of Directors or a committee thereof.

§10. RELIANCE UPON BOOKS, REPORTS AND RECORDS — Each director, each member of any committee designated by the Board of Directors, and each officer of the Corporation shall, in the performance of his duties, be fully protected in relying in good faith upon the books of account or other records of the Corporation and upon such information, opinions, reports or statements made to the Corporation by any of its officers, or employees, or committees of the Board of Directors, or by any other person as to matters the member reasonably believes are within such other person’s professional or expert competence and who has been selected with reasonable care by or on behalf of the Corporation.

§11. FISCAL YEAR — The fiscal year of the Corporation shall end on the Friday nearest September 30 in each year, and shall be subject to change, by resolution of the Board of Directors.

§12. CHECKS — All checks, drafts or other orders for the payment of money, notes or other evidences of indebtedness issued in the name of the Corporation shall be signed by such officer or officers, agent or agents of the Corporation, and in such manner, as shall be determined from time to time by resolution of the Board of Directors.

§13. NOTICE AND WAIVER OF NOTICE — Except as otherwise provided in this Section 13, whenever any notice is required to be given, personal notice is not meant unless expressly so stated, and any notice so required shall be deemed to be sufficient if deposited in the United States mail, postage prepaid, addressed to the person entitled thereto at his address as it appears on the records of the Corporation, and such notice shall be deemed to have been given on the day of such mailing. Without limiting the manner by which notice otherwise may be given effectively to stockholders, any notice to stockholders may be given by electronic transmission in the manner provided in Section 232 of the Delaware General Corporation Law. Stockholders not entitled to vote shall not be entitled to receive notice of any meetings except as otherwise required by law.

Whenever any notice is required to be given under the provisions of any law, or under the provisions of the Amended and Restated Certificate of Incorporation or these By-laws, a waiver thereof in writing, or by telegraph, fax or similar form of telecommunication or electronic transmission, whether before or after the time stated therein, shall be deemed equivalent thereto. Neither the business nor the purpose of any meeting needs to be specified in such a waiver. Attendance at any meeting (in person or by remote communication) shall constitute waiver of notice except attendance for the sole purpose of objecting at the beginning of the meeting to the transaction of any business because the meeting is not lawfully called or convened.

§14. TIME PERIODS – In applying any provision of these By-laws which requires that an act be done or not done a specified number of days prior to an event or that an act be done during a period of a specified number of days prior to an event, calendar days shall be used, the day of the doing of the act shall be excluded, and the day of the event shall be included.

§15. SECTION HEADINGS – Section headings in these By-laws are for convenience of reference only and shall not be given any substantive effect in limiting or otherwise construing any provision herein.

§16. INCONSISTENT PROVISIONS – In the event that any provision of these By-laws is or becomes inconsistent with any provision of the Amended and Restated Certificate of Incorporation, the Delaware General Corporation Law or any other applicable law, such provision of these By-laws shall not be given any effect to the extent of such inconsistency but shall otherwise be given full force and effect.

ARTICLE VI  
AMENDMENTS

The Board of Directors is authorized to make, repeal, alter, amend change, add to and rescind, in whole or in part, these By-laws without the assent or vote of the stockholders in any manner not inconsistent with the laws of the State of Delaware or the Amended and Restated Certificate of Incorporation. Notwithstanding any other provisions of these By-laws or any provision of law which might otherwise permit a lesser vote of the stockholders, for as long as the Controlling Owners and their affiliates beneficially own, in the aggregate, at least a majority in voting power of the shares of stock of the Company entitled to vote generally in the election of directors, any amendment, alteration, rescission or repeal of these By-laws (including, without limitation, this Article VI) or adoption of any provision inconsistent herewith by our stockholders shall require the affirmative vote of a majority in voting power of the outstanding shares of our stock present in person or represented by proxy at the meeting of stockholders and entitled to vote on such amendment, alteration, change, addition, rescission or repeal. At any time when the Controlling Owners and their affiliates beneficially own, in the aggregate, less than a majority in voting power of all outstanding shares of stock of the Company entitled to vote generally in the election of directors, any amendment, alteration, rescission or repeal of these By-laws (including, without limitation, this Article VI) or adoption of any provision inconsistent herewith by our stockholders shall require the affirmative vote of the holders of at least 75% in voting power of all the then-outstanding shares of stock of the Company entitled to vote thereon, voting together as a single class.

ARTICLE VII  
INDEMNIFICATION OF DIRECTORS AND OFFICERS

Each person who was or is made a party or is threatened to be made a party to or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (hereinafter a "proceeding"), by reason of the fact that he or she or a person of whom he or she is the legal representative is or was a director or an officer of the Corporation or, while a director or officer of the Corporation, is or was serving at the request of the Corporation as a director, officer, employee, agent or trustee of another corporation, or as its representative in a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (hereinafter an "indemnitee"), whether the basis of such proceeding is alleged action in an official capacity as a director, officer, employee, agent trustee or representative or in any other capacity while serving as a director, officer, employee, agent trustee or representative, shall be indemnified and held harmless by the Corporation to the fullest extent permitted by the Delaware General Corporation Law, as the same exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader indemnification rights than such law permitted the Corporation to provide prior to such amendment), against all expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid or to be paid in settlement) reasonably incurred or suffered by such indemnitee in connection therewith; provided, however, that, except as provided in this Article with respect to proceedings to enforce rights to indemnification and "advancement of expenses" (as defined below) or with respect to any compulsory counterclaim brought by such indemnitee, the Corporation shall indemnify any such indemnitee in connection with a proceeding (or part thereof) initiated by such indemnitee only if such proceeding (or part thereof) was authorized by the Board of Directors of the Corporation.

In addition to the right to indemnification conferred in this Article, an indemnitee shall also have the right to be paid by the Corporation the expenses (including attorneys' fees) incurred in appearing at, participating in or defending any such proceeding in advance of its final disposition or in connection with a proceeding brought to establish or enforce a right to indemnification or advancement of expenses under this Article (hereinafter an "advancement of expenses"); provided, however, that, if the Delaware General Corporation Law requires or in the case of an advance made in a proceeding brought to establish or enforce a right to indemnification or advancement, an advancement of expenses incurred by an indemnitee in his or her capacity as a director or officer (and not in any other capacity in which service was or is rendered by such indemnitee, including, without limitation, service to an employee benefit plan) shall be made only upon delivery to the Corporation of an undertaking (hereinafter an "undertaking"), by or on behalf of such indemnitee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal (hereinafter a "final adjudication") that such indemnitee is not entitled to be indemnified or entitled to advancement for such expenses under this Article or otherwise. If a claim under this Article is not paid in full by the Corporation within sixty (60) days after a written claim for indemnification has been received by the Corporation, and in the case of a claim for an advancement of expenses, within twenty (20) days, the indemnitee may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim or to obtain advancement of expenses, as applicable. To the fullest extent permitted by law, if successful in whole or in part in any such suit, or in a suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the indemnitee shall be entitled to be paid also the expense of prosecuting or defending such suit. In (i) any suit brought by the indemnitee to enforce a right to indemnification hereunder (but not in a suit brought by the indemnitee to enforce a right to an advancement of expenses) it shall be a defense that, and (ii) in any suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the Corporation shall be entitled to recover such expenses upon a final adjudication that, the indemnitee has not met any applicable standard for indemnification set forth in the Delaware General Corporation Law. Neither the failure of the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) to have made a determination prior to the commencement of such suit that indemnification of the indemnitee is proper in the circumstances because the indemnitee has met the applicable standard of conduct set forth in the Delaware General Corporation Law, nor an actual determination by the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) that the indemnitee has not met such applicable standard of conduct, shall create a presumption that the indemnitee has not met the applicable standard of conduct or, in the case of such a suit brought by the indemnitee, be a defense to such suit. In any suit brought by the indemnitee to enforce a right to indemnification or to an advancement of expenses hereunder, or brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the burden of proving that the indemnitee is not entitled to be indemnified, or to such advancement of expenses, under this Article or otherwise shall be on the Corporation.

The provision of indemnification to or the advancement of expenses and costs to any indemnitee under this Article, or the entitlement of any indemnitee to indemnification or advancement of expenses and costs under this Article, shall not limit or restrict in any way the power of the Corporation to indemnify or advance expenses and costs to such indemnitee in any other way permitted by law or be deemed exclusive of, or invalidate, any right to which any indemnitee seeking indemnification or advancement of expenses and costs may be entitled under any law, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in such indemnitee's capacity as an officer, director, employee or agent of the Corporation and as to action in any other capacity.

Given that certain jointly indemnifiable claims (as defined below) may arise due to the service of the indemnitee as a director of the Corporation at the request of the indemnitee-related entities (as defined below), the Corporation shall be fully and primarily responsible for the payment to the indemnitee in respect of indemnification or advancement of expenses in connection with any such jointly indemnifiable claims, pursuant to and in accordance with the terms of this Article, irrespective of any right of recovery the indemnitee may have from the indemnitee-related entities. Under no circumstance shall the Corporation be entitled to any right of subrogation or contribution by the indemnitee-related entities and no right of advancement or recovery the indemnitee may have from the indemnitee-related entities shall reduce or otherwise alter the rights of the indemnitee or the obligations of the Corporation hereunder. In the event that any of the indemnitee-related entities shall make any payment to the indemnitee in respect of indemnification or advancement of expenses with respect to any jointly indemnifiable claim, the indemnitee-related entity making such payment shall be subrogated to the extent of such payment to all of the rights of recovery of the indemnitee against the Corporation, and the indemnitee shall execute all papers reasonably required and shall do all things that may be reasonably necessary to secure such rights, including the execution of such documents as may be necessary to enable the indemnitee-related entities effectively to bring suit to enforce such rights. Each of the indemnitee-related entities shall be third-party beneficiaries with respect to this paragraph of this Article, entitled to enforce this paragraph of this Article.

For purposes of this Article, the following terms shall have the following meanings: The term "indemnitee-related entities" means any corporation, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise (other than the Corporation or any other corporation, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise for which the indemnitee has agreed, on behalf of the Corporation or at the Corporation's request, to serve as a director, officer, employee or agent and which service is covered by the indemnity described herein) from whom an indemnitee may be entitled to indemnification or advancement of expenses with respect to which, in whole or in part, the Corporation may also have an indemnification or advancement obligation.

The term "jointly indemnifiable claims" shall be broadly construed and shall include, without limitation, any action, suit or proceeding for which the indemnitee shall be entitled to indemnification or advancement of expenses from both the indemnitee-related entities and the Corporation pursuant to Delaware law, any agreement or certificate of incorporation, by-laws, partnership agreement, operating agreement, certificate of formation, certificate of limited partnership or comparable organizational documents of the Corporation or the indemnitee-related entities, as applicable.

The Corporation may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Corporation or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the Delaware General Corporation Law.

The Corporation may, to the extent authorized from time to time by the Board of Directors, grant rights to indemnification and to the advancement of expenses to any employee or agent of the Corporation to the fullest extent of the provisions of this Article with respect to the indemnification and advancement of expenses of directors and officers of the Corporation.

The rights conferred upon indemnitees in this Article shall be contract rights and such rights shall continue as to an indemnitee who has ceased to be a director, officer or trustee and shall inure to the benefit of the indemnitee's heirs, executors and administrators. Any amendment, alteration or repeal of this Article that adversely affects any right of an indemnitee or its successors shall be prospective only and shall not limit or eliminate any such right with respect to any proceeding involving any occurrence or alleged occurrence of any action or omission to act that took place prior to such amendment or repeal.

#### ADMINISTRATION OF THE PLAN; SHARES SUBJECT TO THE PLAN

##### **Section 3.1. Committee.**

The Plan shall be administered by the Committee, except that to the extent required to obtain exemption from Section 16(b) of the Exchange Act under Rule 16b-3 promulgated thereunder or necessary to obtain the exception for performance-based compensation under Section 162(m) of the Code, as applicable, (i) the Compensation and Human Resources Committee or the Sub-Committee must consist of two or more members of Board, and (ii) each member of the Compensation and Human Resources Committee or Sub-Committee shall, at the time he or she takes any action with respect to an Award under the Plan, be an Eligible Director.

However, the fact that a Compensation and Human Resources Committee or Sub-Committee member shall fail to qualify as an Eligible Director shall not invalidate any Award granted by the Compensation and Human Resources Committee or Sub-Committee that is otherwise validly granted under the Plan.

##### **Section 3.2. Procedures.**

The Committee shall adopt such rules and regulations as it shall deem appropriate concerning the holding of meetings and the administration of the Plan.

##### **Section 3.3. Interpretation; Powers of Committee.**

Except as may otherwise be expressly reserved to the Board as provided herein, and with respect to any Award, except as may otherwise be provided in the Award Agreement evidencing such Award or an Individual Agreement between the Participant and Company, the Committee shall have all powers with respect to the administration of the Plan, including the authority to:

(a) determine eligibility and the particular persons who will receive Awards;

(b) grant Awards to eligible persons, determine the price and number of securities to be offered or awarded to any of such persons, determine the other specific terms and conditions of Awards consistent with the express limits of the Plan, establish the installments (if any) in which such Awards will become exercisable or will vest and the respective consequences thereof (or determine that no delayed exercisability or vesting is required), and establish the events of termination or reversion of such Awards;

provided, however, that the Compensation and Human Resources Committee may also delegate, at any time and from time to time, to any sub-committee of the Compensation and Human Resources Committee and the Board may also delegate, at any time and from time to time, to any other committee of the Board (in either case which shall consist of one or more members of the Compensation and Human Resources Committee or Board, respectively, and may consist solely of the Chief Executive Officer of the Corporation so long as he or she is a member of the Compensation and Human Resources Committee or Board, respectively) (a “Sub-Committee”), subject to such guidelines as the Board or the Compensation and Human Resources Committee may establish from time to time, the authority to act on behalf of the Compensation and Human Resources Committee or the Board with respect to any matter, right, obligation, or election that is the responsibility of or that is allocated to the Committee herein.

(c) approve the forms of Award Agreements, which need not be identical either as to type of Award or among Participants;

(d) construe and interpret the provisions of the Plan and any Award Agreement or other agreement defining the rights and obligations of the Company and Participants under the Plan, make factual determinations with respect to the administration of the Plan, further define the terms used in the Plan, and prescribe, amend and rescind rules and regulations relating to the administration of the Plan;

(e) cancel, modify, or waive the Company’s rights with respect to, or modify, discontinue, suspend, or terminate any or all outstanding Awards held by Participants, subject to any required consent under Article X;

(f) accelerate or extend the exercisability or extend the term of any or all outstanding Awards, subject to any consent required under Article X; and

(g) make all other determinations and take such other action as contemplated by this Plan or as may be necessary or advisable for the administration of this Plan and the effectuation of its purposes, other than the amendment of any Plan provision, which power and authority shall be held by the Board and, to the extent applicable, the Stockholders Agreement.

In addition to the foregoing, Shares that are subject to Awards of Deferred Stock Units or New CEO Grants that are forfeited without settlement of Shares, and Shares purchased by the Company from any Participants who are non-employee directors of the Company or former Management Stockholders pursuant to the Stockholders Agreement or otherwise, shall again only become available for subsequent Awards of Deferred Stock Units or New CEO Grants, respectively, under the Plan, and for all purposes of this Plan shall be included in the term "Returned Shares" as defined in the immediately preceding sentence.

**Section 3.5. Reservation of Shares.**

The number of Shares reserved for issuance with respect to Awards granted under the Plan shall at no time be less than the maximum number of Shares which may be issued or delivered at any time pursuant to outstanding Awards.

**ARTICLE V**

**STOCK OPTIONS**

**Section 5.1. General.**

Options may be granted under the Plan at any time and from time to time on or prior to the Termination Date. Each Option granted under the Plan shall be subject to the terms and conditions set forth in the Plan. Each Option shall be evidenced by an Award Agreement

incorporating the terms and provisions of the Plan that shall be executed by the Company and the Participant. The Award Agreement shall specify the number of Shares for which such Option shall be exercisable, the Option Price (as defined in Section 5.4 below) for such Shares and the other terms and conditions of the Option.

**Section 5.2. Vesting.**

The Committee, in its sole discretion, shall determine whether and to what extent any Options are subject to vesting based upon the Participant's continued service to, or the Participant's performance of duties for, the Company and its Subsidiaries, and/or upon any other basis.

**Section 5.3. Date of Grant.**

Except as may be otherwise provided in an Award Agreement or as may be required by applicable law, the date of grant of an Option under this Plan shall be the date as of which the Committee approves the grant.

**Section 5.4. Option Price.**

The "Option Price" shall be the exercise price per Share of any Option granted under this Plan, to be determined by the Committee and set forth in the Award Agreement. In no event, however, may the Committee determine an Option Price that is less than the Fair Market Value of the Share on the date of grant.

**Section 5.5. Payment of Option Price and Tax Withholding.**

The aggregate Option Price (and any Tax Withholding due) shall, to the extent permitted by applicable law, be paid:

(a) in cash (by wire transfer of immediately available funds to a bank account of the Company, by delivery of a certified check payable to the Company);

(b) by surrender of shares of Common Stock (by delivery of such shares or by attestation) with a Fair Market Value equal to the Option Price; provided that such Shares have been held by the Participant for such period, if any, as may be required from time to time by the Committee in order to satisfy applicable generally accepted accounting principles);

(c) pursuant to a Net Exercise arrangement; provided, however, that in such event, the Committee may exercise its discretion to limit or prohibit the use of a Net Exercise solely with respect to Tax Withholding if the Committee determines in good faith that to allow for a Net Exercise with respect to Tax Withholding would result in a material negative impact on the Company's and its Subsidiaries, near-term liquidity needs; provided, further, however, that solely with respect to an ISPO Option, a Net Exercise arrangement may be limited or prohibited as provided in the Award Agreement;

(d) if the Common Stock is a class of securities then listed or admitted to trading on any national securities exchange or traded on any national market system, in compliance with a broker-assisted cashless exercise program pursuant to which the Company is delivered a copy of irrevocable instructions to a stockbroker to sell shares of Common Stock otherwise deliverable upon the exercise of the Option and to deliver promptly to the Company an amount equal to the Option Price, subject to the terms of Article XIV hereof; or

(e) a combination of the methods set forth in this Section 5.5.

**Section 5.6. Notice of Exercise.**

A Participant (or other person, as provided in Section 8.2) may exercise an Option (for the Shares represented thereby) granted under the Plan in whole or in part (but for the purchase of whole Shares only), as provided in the Award Agreement evidencing his Option, by delivering a notice (the “Notice”) to the Company in accordance with the Option exercise notice practices and procedures in effect at the Company from time to time. In accordance therewith, the Notice may include the following:

(a) that the Participant elects to exercise the Option;

(b) the number of Shares with respect to which the Option is being exercised (the “Option Shares”);

(c) the method of payment for the Option Shares (which method must be available to the Participant under the terms of his Award Agreement);

(d) the date upon which the Participant desires to consummate the purchase of the Option Shares (which date must be prior to the termination of such Option); and

(e) any additional provisions with respect to Notice consistent with the Plan as the Committee may from time to time require.

The exercise date of an Option shall be the date on which the Company receives the Notice and any payment due from the Participant. Such Notice shall also contain, to the extent such Participant is not then a party to the Stockholders Agreement (and the Stockholders Agreement has not been terminated prior to such date), an Adoption Agreement, in form and substance satisfactory to the Board pursuant to which the Participant agrees to become a party to the Stockholders Agreement.

## ARTICLE VI

### OTHER STOCK-BASED AWARDS

#### **Section 6.1. Other Stock-Based Awards.**

Subject to the Stockholders Agreement (including, without limitation, Section 1.09(a)) and subject to the Reserved Shares limit referred to in Section 3.4(a) of this Plan, the Committee may grant or sell awards of Shares, including awards of Restricted Stock, Purchased Stock and awards that are valued in whole or in part by reference to, or are otherwise based on the Fair Market Value of, Shares, including, without limitation, awards of Deferred Stock Units and Restricted Stock Units (all such other awards, the “Other Stock-Based Awards”). Such Other Stock-Based Awards shall be in such form, and dependent on such conditions, as the Committee shall determine, including, without limitation, the right to receive, or vest with respect to, one or more Shares (or the equivalent cash value of such Shares) upon the completion of a specified period of service, the occurrence of an event and/or the attainment of performance objectives. Other Stock-Based Awards may be granted alone or in addition to any other Awards under the Plan. Subject to the provisions of the Plan and the Stockholders’ Agreement, the Committee shall determine to whom and when other stock-based Awards will be made, the number of Shares to be awarded under (or otherwise related to) such Awards; whether such Awards shall be settled in cash, Shares or a combination of cash and Shares; and all other terms and conditions of such awards (including, without limitation, the vesting provisions thereof and provisions ensuring that all Shares so awarded and issued shall be fully paid and non-assessable).

#### **Section 6.2. Issuance of Shares to Participants.**

The Company shall issue Shares to a Participant upon the entry by the Company into the stockholder records of the Company in the name of the Participant (or other person exercising the applicable Option in accordance with the provisions of Section 8.2) of the number of Shares acquired by the Participant under the Plan, whether upon exercise of an Option (in which case such issuance shall occur as soon as practicable after receipt of the Notice and payment of the aggregate Option Price for such Shares) or otherwise; provided that the Company, in its sole discretion, may elect to not issue any fractional Shares upon the exercise of an Option (determining the fractional Shares after aggregating all Shares issuable to a single holder as a result of an exercise of an Option for more than one Share) and, in lieu of issuing such fractional Shares, shall pay the Participant the Fair Market Value thereof. Neither the Participant nor any person exercising an Option in accordance with the provisions of Section 8.2 shall have any privileges as a stockholder of the Company with respect to any Shares of stock issuable under any Award granted under the Plan until the date of entry of the stockholdings of the Participant into the stockholder records of the Company representing such Shares pursuant to this Section 6.2.

## ARTICLE VII

### ADJUSTMENTS

#### **Section 7.1. Changes in Capital Structure.**

(a) Subject to Section 7.2, in the event of a stock dividend, stock split, reverse stock split, share combination, or recapitalization or similar event affecting the capital structure of the Company, an extraordinary cash dividend, separation, Spin-off or a reorganization, the Committee shall act in good faith and make appropriate and equitable substitutions or

adjustments, as applicable, to: (A) the aggregate number and kind of Shares or other securities reserved for issuance and delivery under the Plan, (B) the number and kind of Shares or other securities subject to outstanding Awards; (C) performance metrics and targets underlying outstanding Awards; and (D) the Option Price of outstanding Options.

(b) In the event of a merger, consolidation, acquisition of property or shares, stock rights offering, liquidation, disaffiliation, or similar event affecting the Company or any of its Subsidiaries (each, a "Corporate Transaction"), the Committee shall act in good faith and make appropriate and equitable substitutions or adjustments, as applicable, to (A) the aggregate number and kind of Shares or other securities reserved for issuance and delivery under the Plan, (B) the number and kind of Shares or other securities subject to outstanding Awards; (C) performance metrics and targets underlying outstanding Awards; and (D) the Option Price of outstanding Options. In the case of a Corporate Transaction that does not constitute a Change of Control, the Committee shall act in good faith and make appropriate and equitable substitutions or adjustments, which, in addition to those identified in the immediately preceding sentence, may also include, without limitation, (1) the cancellation of outstanding Awards in exchange for, on a per Share basis, the same amount and kind of consideration, in the same proportion, as that received by each Sponsor Stockholder in respect of each Share held (directly or indirectly) by the Sponsor Stockholder (less, in the event an Award is an Option, the applicable Option Price); and (2) the substitution of other property (including, without limitation, cash or other securities of the Company and securities of entities other than the Company) for the Shares subject to outstanding Awards.

(c) In the case of a Corporate Transaction that does constitute a Change in Control, unless any given Participant agrees otherwise with respect to his or her own Awards, all then outstanding Awards shall be cancelled in exchange for, on a per Share basis, the same amount and kind of consideration, in the same proportion, as that received by each Sponsor Stockholder in respect of each Share held (directly or indirectly) by the Sponsor Stockholder (less, in the event an Award is an Option, the applicable Option Price).

#### **Section 7.2. Extraordinary Cash Distributions.**

In the event of an extraordinary cash distribution on Shares subject to an Option, the Option Price of such Option shall be reduced by the amount of such cash distribution (the "Adjustment Amount"), but only to the extent permitted without subjecting such Option to Section 409A of the Code. If the Adjustment Amount exceeds the reduction permitted without subjecting such Option to Section 409A of the Code (such excess, the "Excess"), then, if and when the Option becomes a Vested Option, the holder thereof shall receive, in addition to the Shares subject to such Option, an amount in cash or in the form of additional Shares having a value equal to the Excess; and otherwise the Options shall be subject to the applicable provisions of Section 7.1 above.

## ARTICLE VIII

### RESTRICTIONS ON AWARDS

#### **Section 8.1. Compliance With Securities Laws.**

(a) No Awards shall be granted under the Plan, and no Shares shall be issued and delivered pursuant to Awards granted under the Plan, unless and until the Company and/or the Participant shall have complied with all applicable Federal, state or foreign registration, listing and/or qualification requirements and all other requirements of law or of any regulatory agencies having jurisdiction.

(b) The Committee in its discretion may, as a condition to the delivery of any Shares pursuant to any Award granted under the Plan, require under the Award Agreement that the applicable Participant (i) represent in writing that the Shares received pursuant to such Award are being acquired for investment and not with a view to distribution and (ii) make such other representations and warranties as are deemed reasonably appropriate by the Committee. Stock certificates representing Shares acquired under the Plan that have not been registered under the Securities Act shall, if required by the Committee, bear such legends as may be required by the Stockholders Agreement and the applicable Award Agreement.

#### **Section 8.2. Nonassignability of Awards.**

No Award granted under this Plan shall be assignable or otherwise transferable by the Participant, except by designation of a beneficiary, by will or by the laws of descent and distribution, in each case in compliance with applicable laws. An Option may be exercised during the lifetime of the Participant only by the Participant, unless the Participant dies or becomes subject to a Disability. If a Participant dies or becomes subject to a Disability, his Options shall thereafter be exercisable, during the period specified in the applicable Award Agreement (as the case may be), by the Participant subject to a Disability by his designated beneficiary or if no beneficiary has been designated in writing, or by his executors or administrators to the full extent (but only to such extent) to which such Options were exercisable by the Participant at the time of (and after giving effect to any vesting that may occur in connection with) his death or Disability.

#### **Section 8.3. No Right to an Award or Grant.**

Neither the adoption of the Plan nor any action of the Board or the Committee shall be deemed to give an employee, director or consultant any right to be granted an Option to purchase Common Stock, receive an Award under the Plan except as may be evidenced by an Award Agreement duly executed on behalf of the Company, and then only to the extent of and on the terms and conditions expressly set forth in the Award Agreement. The Plan will be unfunded. The Company will not be required to establish any special or separate fund or to make any other segregation of funds or assets to assure the payment of any Award.

**Section 8.4. No Evidence of Employment or Service.**

Nothing contained in the Plan or in any Award Agreement shall confer upon any Participant any right with respect to the continuation of his employment by or service with the Company or any of its Subsidiaries or interfere in any way with the right of the Company or any such Subsidiary, in its sole discretion (subject to the terms of any separate agreement to the contrary), at any time to terminate such employment or service or to increase or decrease the compensation of the Participant from the rate in existence at the time of the grant of an Award.

**Section 8.5. No Liability with Respect to Any Corporate Action.**

Subject to Article XIII, nothing contained in the Plan or in any Award Agreement will be construed to prevent the Company or any Subsidiary or Affiliate of the Company from taking any corporate action which is deemed by the Company or by its Subsidiaries and Affiliates to be appropriate or in its best interest and no Participant or beneficiary of a Participant will have any claim against the Company or any affiliate as a result of any such corporate action.

**ARTICLE IX**

**TERM OF THE PLAN**

This Plan shall become effective on the Effective Date and shall terminate on the Termination Date. No Awards may be granted after the Termination Date. Any Award outstanding as of the Termination Date shall remain in effect and the terms of the Plan will apply until such Award terminates as provided in the Plan or the applicable Award Agreement.

**ARTICLE X**

**AMENDMENT OF PLAN**

Subject to any applicable provision of the Stockholders Agreement, the Plan may be modified or amended in any respect, and at any time or from time to time, by the Board or by the Committee with the prior approval of the Board. Notwithstanding the foregoing, the Plan may not be modified or amended as it pertains to any existing Award Agreement without the consent of an applicable Participant where such modification or amendment would materially impair the rights of such Participant. In addition, no such amendment shall be made without the approval of the Company's stockholders to the extent such approval is required by applicable law or regulation or the listing standards of the securities exchange, which is, at the applicable time, the principal market for the Common Stock.

**ARTICLE XI**

**CAPTIONS**

The use of captions in the Plan is for convenience. The captions are not intended to provide substantive rights.

## ARTICLE XII

### WITHHOLDING TAXES

Upon any exercise or payment of any Award, the Participant shall be required to pay or provide for payment of the amount of any Tax Withholding which the Company or any Subsidiary may be required to withhold with respect to any exercise of an Option or other payment of an Award; provided, that to the extent permitted by applicable law or as otherwise provided in the Award Agreement, the Participant may satisfy such payment obligations to the Company through (i) the deduction from any amount payable to the Participant in cash or securities in respect of the Award the amount of any taxes which the Company may be required to withhold with respect to such exercise or payment; or (ii) with respect to any Award, in the same manner (and subject to the same conditions) as permitted upon exercise of an Option pursuant to the mechanics of Section 5.5(c) hereof, the reduction of the number of Shares to be delivered to the Participant in connection with such exercise or payment by the appropriate number of Shares, valued at their then Fair Market Value, to satisfy the minimum Tax Withholding obligation; provided, however, that in such event, the Committee may exercise its discretion to limit or prohibit the use of Shares for such Tax Withholding if the Committee determines in good faith that to allow for the use of such Shares with respect to Tax Withholding would result in a material negative impact on the Company's and its Subsidiaries, near-term liquidity needs; provided, further, however, that solely with respect to an ISPO Option, a Net Exercise arrangement may be limited or prohibited as provided in the Award Agreement. In no event will the value of Shares withheld under clause (ii) above exceed the minimum amount of required Tax Withholding under applicable law.

## ARTICLE XIII

### CODE SECTION 409A COMPLIANCE

It is intended that all Awards under this Plan and any Award Agreement, either be exempt from or comply with Section 409A of the Code. All Options or other similar Awards that are granted with an exercise price have been and shall be granted with an exercise price such that the Award would not constitute deferred compensation under Section 409A of the Code or shall otherwise be structured to avoid taxation under Section 409A of the Code unless and to the extent that the Committee specifically determines otherwise. Any ambiguity in this Plan and any Award Agreement shall be interpreted to comply with Section 409A of the Code. The Committee shall use commercially reasonable efforts to implement the provisions of this Article XIII in good faith. If any term, distribution or settlement of an Award, or any other action by the Company (including by the Committee) pursuant to the terms of this Plan or an Award Agreement, subjects a Participant to tax under Section 409A of the Code, the Company shall indemnify and hold harmless the Participant for any taxes, interest and penalties the Participant may incur under Section 409A of the Code as a result thereof, such that on a net-after-tax basis, the Participant shall not be liable for any such taxes, interest or penalties, or for any taxes, interest or penalties imposed upon the Company's provision of such indemnity. The Company and the Participant shall cooperate in good faith, and consult with tax counsel to the Company, to

restructure the Award and the Award Agreement (which may require the provision of an alternative payment or benefit, but which shall not convey an economic benefit to the Participant that is diminished in value to the Participant other than in a de minimis manner) in a manner that will cause the Participant to not be subject to such taxes, interest and penalties in respect of the Award and the Award Agreement (or any such restructured arrangement).

Further, if any Award is subject to Section 409A of the Code, (a) references under the Plan or the applicable Award Agreement to the Participant's Termination of Relationship shall be deemed to refer to the date upon which the Participant has experienced a "separation from service" within the meaning of Section 409A of the Code and (b) any installment of Shares or cash due under any such Award shall constitute a "separate payment" within the meaning of Section 409A of the Code. In addition, if at the time of the Participant's separation from service with the Company, the Participant is a "specified employee" as defined in Section 409A of the Code, and the deferral of the commencement of any payments or benefits otherwise payable under any Award as a result of such separation from service is necessary in order to prevent the imposition of any accelerated or additional tax under Section 409A of the Code, then the Company will defer the commencement of the payment of any such payments or benefits hereunder (without any reduction in such payments or benefits ultimately paid or provided to the Participant) to the minimum extent necessary to satisfy Section 409A of the Code until the date that is six months and one day following the Participant's separation from service with the Company (or the earliest date as is permitted under Section 409A of the Code), if such payment or benefit is payable upon a Termination of Relationship.

#### **ARTICLE XIV**

##### **COMPLIANCE WITH SECTION 16 AND OTHER APPLICABLE LAW**

It is intended that any Award made to a Participant and any action taken under the Plan subject to Section 16 of the Exchange Act will be approved in accordance with the requirements of Rule 16b-3. In addition, it is intended that the Plan, any Award and any action taken under the Plan will comply with the Sarbanes-Oxley Act of 2002 and any other applicable law, applicable rules and regulations of the SEC or applicable rules and regulations of any securities exchange or inter-dealer quotation system on which the securities of the Company are listed or traded. Accordingly, unless otherwise provided by the Committee, if any provisions of the Plan, any Award or any such action, as applicable, would disqualify the Plan, the Award or such action, as applicable, or would otherwise not comply with Rule 16b-3 or other applicable law, rule or regulation, such provision, Award or action, as applicable, will be construed or deemed amended to conform to Rule 16b-3 or such other applicable law, rule or regulation.

#### **ARTICLE XV**

##### **OTHER PROVISIONS**

Each Award granted under the Plan may contain such other terms and conditions not inconsistent with the Plan as may be determined by the Committee, in its sole discretion.

**ARTICLE XVI**

**NUMBER AND GENDER**

With respect to words used in the Plan, the singular form shall include the plural form, the masculine gender shall include the feminine gender, and vice versa, as the context requires.

**ARTICLE XVII**

**MISCELLANEOUS**

**Section 17.1. Affiliate Employees.**

In the case of a grant of an Award to an employee or consultant of any Affiliate of the Company, the Company may, if the Committee so directs, issue or transfer the shares of Common Stock, if any, covered by the Award to the Affiliate, for such lawful consideration as the Committee may specify, upon the condition or understanding that the Affiliate will transfer the shares of Common Stock to the employee or consultant in accordance with the terms of the Award specified by the Committee pursuant to the provisions of the Plan. All shares of Common Stock underlying Awards that are forfeited or canceled shall revert to the Company.

**Section 17.2. Foreign Employees and Foreign Law Considerations.**

The Committee may grant Awards to individuals who are eligible to participate in the plan who are foreign nationals, who are located outside the United States or who are not compensated from a payroll maintained in the United States, or who are otherwise subject to (or could cause the Company to be subject to) legal or regulatory provisions of countries or jurisdictions outside the United States, on such terms and conditions different from those specified in the Plan as may, in the judgment of the Committee, be necessary or desirable to foster and promote achievement of the purposes of the Plan, and, in furtherance of such purposes, the Committee may make such modifications, amendments, procedures, or sub-plans as may be necessary or advisable to comply with such legal or regulatory provisions.

**Section 17.3. Information Delivery.**

The Company will provide the following information to all Participants who hold Options until such times as the Company becomes subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act or is no longer relying on the exemption from registration of stock options under the Exchange Act as provided in Rule 12h-1(f)(1) of the Exchange Act; provided that the Company's obligation to provide any such information may be subject to any confidentiality requirements imposed by the Company:

A Participant may also revoke or change a beneficiary designation at any time by filing an Approved Form in accordance with the Rules. If a Participant fails to elect a beneficiary, or is not survived by a designated beneficiary, the Participant's beneficiary shall be the Participant's estate.

(b) Notice to Plan Administrative Committee. An Eligible Employee who wishes to defer Compensation under this Section for any period shall, in the manner specified in the Rules, so notify the Plan Administrative Committee and authorize the Committee to reduce the Eligible Employee's Compensation for such period by the amount of the Eligible Employee's Salary Deferral Percentage election provided, however, that except as provided in Section 2.2(a) such Eligible Employee's election to defer such Compensation must be made not later than the close of the preceding calendar year, unless the Eligible Employee first becomes a participant pursuant to Section 2.2(b), in which case such Eligible Employee must make an election to defer any as yet unearned Compensation at any time prior to the 30th day after the date such Eligible Employee becomes eligible to participate in the Plan.

**3.2 Change in Contributions**. A Participant is not permitted to stop, increase, decrease or resume the Participant's Salary Deferral Percentage(s) during the calendar year, unless the Participant has incurred a Separation from Service or the Participant is no longer eligible to participate in the Plan, in which case the Participant's Salary Deferrals will immediately cease (to the extent permitted under Section 409A of the Code).

**ARTICLE IV. Matching Contributions.**

**4.1 Amount of Contributions.** As soon as administratively practicable after the end of each Plan Year, ARAMARK may make a discretionary matching contribution (“Matching Contributions”) to the Matching Contributions Accounts of Sharing Participants of between a minimum of 25% and a maximum of 75% of such Sharing Participants’ Salary Deferrals for such Plan Year, excluding:

(a) Salary Deferrals made by the Sharing Participant prior to such Sharing Participant’s completion of one Year of Service;

(b) Salary Deferrals in excess of the first 6% of a Participant’s Compensation for any payroll period; and

(c) Salary Deferrals in excess of the maximum elective deferrals permitted under a qualified cash or deferred plan pursuant to Section 401(g) of the Code for the calendar year in which the Plan Year ends.

The percentage of Salary Deferrals on which the amount of Matching Contributions is to be based shall be the matching percentage contributed by ARAMARK to the Retirement Savings Plan for the same Fiscal Year.

**4.2 Allocations to Participants.** Matching Contributions made with respect to a Plan Year shall be credited only to the Matching Contributions Account of each Participant who is a Sharing Participant for the Plan Year based upon the Participant’s Salary Deferral for such Plan Year.

The Participant’s appropriate Account or Accounts shall be reduced by the amount distributed or withdrawn. Subject to Section 6.5, a distribution or withdrawal shall be paid as soon as reasonably practicable and, in any case, no more than 30 days after the payment determination date. The amount due any Participant with respect to the Participant’s Salary Deferral Account and Matching Contributions Account shall be determined by the valuation under Section 5.3.

**6.4 Separation from Service for Cause.** A Participant who ceases to be an Employee receiving credit for three or more Years of Service and whose Separation from Service is on account of "cause," i.e., commission of a crime or other conduct which directly and adversely affects the Company, or disclosure of confidential information, or other aid and assistance to a competitor of the Company, shall be paid the Participant's entire Account Balance other than the Participant's Matching Contributions Account, which shall be forfeited, in accordance with Section 6.5. **6.5 Method of Payment.** Payment of any Accounts upon a distribution or withdrawal shall be made in accordance with Section 5.4. Distribution of a Participant's Accounts may be made in a lump sum cash payment or in installments pursuant to a valid election made by the Participant in accordance with Sections 3.1 and 9.2 and the Rules. **7.1 Withdrawal of Salary Deferral Account.** A Participant may make withdrawals from the Participant's Salary Deferral Account solely due to the occurrence of an Unforeseeable Emergency if approved by the Plan Administrative Committee in its sole discretion, to the extent such withdrawal is permitted under Section 409A(a)(2)(B)(ii) of the Code. The Participant shall certify in writing to the Plan Administrative Committee that the purpose of the withdrawal is due to an Unforeseeable Emergency and

shall provide such documentation to that effect as may be requested by the Plan Administrative Committee to assist it in its determination. The amounts distributed due to an Unforeseeable Emergency cannot exceed the amounts necessary to satisfy such emergency plus amounts necessary to pay taxes reasonably anticipated as a result of the distribution, after taking into account the extent to which such emergency is or may be relieved through reimbursement or compensation by insurance or otherwise or by liquidation of the Participant's assets (to the extent the liquidation of such assets would not itself cause severe financial hardship).

**7.2 Withdrawal of Matching Contributions Account.** A Participant is not permitted to withdraw any amounts from the Participant's Matching Contributions Account while still an Employee.

**ARTICLE VIII. Breaks in Service.**

**8.1 Cancellation of Years of Service.** An Employee's Years of Service and Years of Participation shall be canceled for purposes of computing the Employee's nonforfeitable interest in the Employee's Account Balance under Articles VI and VII if the Employee has a Separation from Service before the Employee has met the requirements for Early or Normal Retirement, and before the Employee is credited with two Years of Participation, or three Years of Service. If a former Employee again becomes an Employee the Employee's Years of Service and Years of Participation shall be restored if the Employee becomes an Employee before incurring five consecutive Breaks in Service, or if the Employee was at any time a Participant in the Plan, and

No Participant or other person shall have any interest in any particular assets of the Company by reason of the right to receive a benefit under the Plan and any such Participant or other person shall have only the rights of a general unsecured creditor of ARAMARK with respect to any rights under the Plan.

## **ARTICLE XI. Amendment and Termination.**

**11.1 Amendment or Termination of Plan.** The Board may amend or terminate the Plan at any time, to the extent permitted under Treas. Reg. § 1.409A-3(j)(4)(ix). Notwithstanding the foregoing, effective upon a Change in Control, no amendment or termination of the Plan shall modify, without the consent of the affected Participants, any provision relating to amounts contributed or deferred under the Plan on or prior to the Change in Control.

**11.2 Sale of Affiliate.** In the event that a Participant in this Plan ceases to be an Employee by reason of the sale or spin-off of an Affiliate that constitutes a change in the ownership or effective control of, or in the ownership of a substantial portion of the assets of, such Affiliate under Code Section 409A(a)(2)(A)(v), such Participant shall be treated as a terminated employee and distribution of the Participant's Account Balance under this Plan shall be made in accordance with Article VI.

## **ARTICLE XII. Miscellaneous.**

**12.1 No Assignment or Alienation of Benefits.** Except as hereinafter provided with respect to domestic relations orders (as defined in Section 414(p)(1)(B) of the Code), a Participant's Account may not be voluntarily or involuntarily assigned or alienated. In cases of domestic relations orders, the Company will observe the terms of the Plan unless or until ordered to do otherwise by a state or Federal court. As a condition of participation, a Participant agrees to hold the Company harmless from any claims that arise out of the Company's obeying the final order of any state or Federal court, whether such order effects a judgment of such court or is issued to enforce a judgment or order of another court. In addition, for application only to Plan Participants subject to Section 16 of the Securities Exchange Act of 1934, the requirements of SEC Rule 16a-12 (or any successor provision) are specifically incorporated herein by reference.

**12.2 Effect on Employment.** This Plan shall not confer upon any person any right to be continued in the employment of the Company or an Affiliate.

**12.3 Facility of Payment.** If ARAMARK deems any person incapable of receiving benefits to which such person is entitled by reason of age of minority, illness, infirmity, or other incapacity, it may direct that payment be made directly for the benefit of such person or to any person selected by ARAMARK to disburse it, whose receipt shall be a complete acquittance therefore. Such payments shall, to the extent thereof, discharge all liability of ARAMARK, the Company, and the party making the payment.

**12.4 Tax Withholding.** Distributions from the Plan may be subject to tax withholding for Federal, state, and local taxes. Participant, by agreeing to participate in the Plan, consents to the timely withholding of such taxes, either through a reduction in the amount of the distribution, withholding from other amounts payable by Company to Participant, including salary and bonus payments, or by payment to ARAMARK in cash of an appropriate amount in taxes.

**12.5 Applicable Law.** Except as provided by Federal law, the Plan shall be governed by and construed in accordance with the laws of New York.

**12.6 Effective Date.** The foregoing provisions of this Plan shall apply to individuals (or beneficiaries of individuals) who are Employees on or after the Amendment Date, except as may otherwise be provided in the Plan. The rights of any other individual (or beneficiary) shall be determined by the provisions of the Plan (or predecessor plan) as in effect on the date of such individual's latest Separation from Service except as may be provided by specific reference in any amendment adopted thereafter.

**12.7 SEC Rule 16b-3.** Transactions pursuant to this Plan are intended to come within the exemptions provided by SEC Rule 16b-3 (or any successor provision) with respect to persons who are subject to Section 16 of the Securities Exchange Act of 1934 to the full extent provided thereby. Any provision required by such Rule to be set forth in this Plan is incorporated herein by reference, and any inconsistent provision herein (other than Section 11.1) is superseded.

**12.8 Deferred Compensation Provisions.** This Plan is intended to comply with Section 409A of the Code and will be interpreted in a manner intended to comply with Section 409A of the Code. In furtherance thereof, no payments may be accelerated under the Plan other than to the extent permitted under Section 409A of the Code. To the extent that any provision of the Plan violates Section 409A of the Code such that amounts would be taxable to a Participant prior to payment or would otherwise subject a Participant to a penalty tax under Section 409A, such provision shall be automatically reformed or stricken to preserve the intent hereof. Notwithstanding anything herein to the contrary, (i) if at the time of a Participant's Separation from Service the Participant is a Specified Employee and the deferral of the commencement of any payments or benefits otherwise payable hereunder as a result of such Separation from Service is necessary in order to prevent any accelerated or additional tax under Section 409A of the Code, then the Company shall defer the commencement of the payment of any such payments or benefits hereunder (without any reduction in such payments or benefits ultimately paid or provided to the Participant) until the date that is six months following the Participant's Separation from Service (or the earliest date as is permitted under Section 409A of the Code) and (ii) if any other payments due to a Participant hereunder could cause the application of an accelerated or additional tax under Section 409A of the Code, such payments or other benefits shall be deferred if deferral will make such payment compliant under Section 409A of the Code, or otherwise such payment shall be restructured, to the extent possible, in a manner, determined by the Committee, that does not cause such an accelerated or additional tax. The Committee shall implement the provisions of this Section 12.8 in good faith; provided that neither the Company, the Committee, nor any of the Company's or its Affiliates' employees or representatives shall have any liability to Participants with respect to this Section 12.8.

**ARAMARK HOLDINGS CORPORATION**  
**2007 MANAGEMENT STOCK INCENTIVE PLAN**  
**FORM OF**  
**DEFERRED STOCK UNIT AWARD AGREEMENT**

**THIS AGREEMENT** dated as of \_\_\_\_\_, 20\_\_\_\_ (this "Agreement") between **ARAMARK HOLDINGS CORPORATION**, a Delaware corporation (the "Company"), and the Participant set forth on the signature page to this Agreement (the "Participant"). All capitalized terms not defined herein shall have the meaning set forth in the ARAMARK Holdings Corporation 2007 Management Stock Incentive Plan (the "Plan").

**WHEREAS**, the Company, acting through the Committee (as such term is defined in the Plan) with the consent of the Company's Board of Directors (the "Board") made an automatic grant, pursuant to resolutions adopted by the Board on \_\_\_\_\_, 20\_\_\_\_ to the Participant on \_\_\_\_\_, 20\_\_\_\_ (the "Grant Date"), under the Plan, an Award of a number of Deferred Stock Units on the terms and subject to the conditions set forth in this Agreement and the Plan.

**NOW, THEREFORE**, in consideration of the promises and of the mutual agreements contained in this Agreement, the parties hereto hereby agree as follows:

1. Grant of DSUs

Effective on the Grant Date, the Company hereby grants the number of deferred stock units ("DSUs") listed on the attached grant certificate to the Participant, on the terms and conditions hereinafter set forth. This grant is made pursuant to the terms of the Plan. Capitalized terms not otherwise defined in this Agreement shall have the meaning ascribed to them in the Plan.

2. Payment of Shares

(a) The Company shall, subject to the remainder of this Agreement, transfer to the Participant a number of Shares equal to the number of DSUs granted to the Participant under this Agreement on the date that is six months and one day after the date on which the Participant ceases to serve as a member of the Board of Directors of the Company (in whole Shares only with the Participant receiving a cash payment equal to the Fair Market Value of any fractional Share on or about the transfer date).

(b) In the event of a Change of Control, Shares equal to all outstanding DSUs hereunder shall be distributed to the Participant immediately prior to the Change of Control; provided that the Committee may determine that, in lieu of Shares and/or fractional Shares, the Participant shall receive a cash payment equal to the Fair Market Value of such Shares (or fractional Shares, as the case may be) on such date.

(c) Upon each transfer of Shares in accordance with Sections 2(a) or 2(b) of this Agreement, DSUs with respect to which Shares have been transferred hereunder shall be extinguished. Prior to delivery of any Shares to the Participant, the Participant shall be required to execute a joinder agreement to become a party to the Stockholders Agreement, a copy of which is attached hereto as Exhibit A.

3. Dividends

If on any date while DSUs are outstanding hereunder the Company shall pay any dividend on the Shares (other than a dividend payable in Shares), the number of DSUs granted to the Participant shall, as of such dividend payment date, be increased by a number of DSUs equal to: (a) the product of (x) the number of DSUs held by the Participant as of the related dividend record date, multiplied by (y) the per Share amount of any cash dividend (or, in the case of any dividend payable in whole or in part other than in cash, the per Share value of such dividend, as determined in good faith by the Committee), divided by (b) the Fair Market Value of a Share on the payment date of such dividend. In the case of any dividend declared on Shares that is payable in the form of Shares, the number of DSUs granted to the Participant shall be increased by a number equal to the product of (I) the aggregate number of DSUs that have been held by the Participant through the related dividend record date, multiplied by (II) the number of Shares (including any fraction thereof) payable as a dividend on a Share. Shares shall be transferred with respect to all additional DSUs granted pursuant to this Section 3 at the same time as Shares are transferred with respect to the DSUs to which such additional DSUs were attributable, as set forth in Section 2 above.

4. Adjustments Upon Certain Events

In the event of any event described in Section 7.1 of the Plan, the DSUs shall be adjusted pursuant to the terms thereof; provided that such adjustment shall be consistent with the requirements of Section 409A of the Code.

5. No Right to Continued Service as a Director

Neither the Plan nor this Agreement shall be construed as giving the Participant the right to continue to serve as a director of the Company. Further, the Company may at any time cease to nominate the Participant for reelection to the Board of Directors of the Company, free from any liability or any claim under the Plan or these Rules and Procedures, except as otherwise expressly provided herein.

6. No Acquired Rights

In participating in the Plan, the Participant acknowledges and accepts that the Committee or the Board has the power to amend or terminate the Plan at any time and that the opportunity given to the Participant to participate in the Plan is entirely at the discretion of the Committee or the Board and does not obligate the Company or any of its Affiliates to offer such participation in the future (whether on the same or different terms).

7. No Rights of a Shareholder

The Participant shall not have any rights as a shareholder of the Company until the Shares in question have been registered in the Company's register of shareholders.

8. Transferability

DSUs may not be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered by the Participant otherwise than by will or by the laws of descent and distribution, and any purported assignment, alienation, pledge, attachment, sale, transfer or encumbrance not permitted by this Section 8 shall be void and unenforceable against the Company or any Affiliate.

9. Choice of Law

THE INTERPRETATION, PERFORMANCE AND ENFORCEMENT OF THE PARTICIPANT'S RIGHTS WITH RESPECT TO THE DSUs SHALL BE GOVERNED BY THE LAWS OF THE STATE OF DELAWARE WITHOUT REGARD TO PRINCIPLES OF CONFLICTS OF LAW.

10. DSUs Subject to Plan; Shares Subject to DSUs Subject to Stockholders Agreement

By accepting the award of DSUs, the Participant agrees and acknowledges that the Participant has received and read a copy of the Plan and the Stockholders Agreement. All DSUs are subject to the Plan and all Shares will be issued and held subject to the terms and conditions of the Stockholders Agreement. In the event of a conflict between any term or provision contained herein and a term or provision of the Plan, the applicable terms and provisions of the Plan will govern and prevail. Notwithstanding the foregoing, for purposes of the Stockholders Agreement, all provisions relating to the Participant's "employment" with the Company or any of its Subsidiaries as set forth therein shall be deemed to refer to the Participant's service as a member of the Board.

11. Section 409A

Notwithstanding anything in this Agreement to the contrary, any payments hereunder that would be subject to the additional income tax imposed by Section 409A of the Internal Revenue Code of 1986, as amended, shall be deferred until the earliest date that such payments may be made without the imposition of such tax.

**IN WITNESS WHEREOF**, the parties hereto have executed this Award Agreement as of the date first written above.

### **III. ELIGIBILITY**

The Plan Administrator shall determine, in its sole discretion, the Executives eligible to participate in the Plan for purposes of deferring Salary and/or Bonuses. Notwithstanding the foregoing, each Executive who, immediately prior to the Effective Date, was a participating executive making deferrals under the ARAMARK 2001 Deferred Compensation Plan, shall be eligible to participate in this Plan on the Effective Date and to make deferrals of Salary and/or Bonus, as applicable, earned in respect of periods on and after the Effective Time.

The Committee may delegate responsibility for administering and reviewing hardship withdrawal requests to one or more individuals.

**VIII. NO ASSIGNMENT OR ALIENATION OF BENEFITS**

Except as hereinafter provided, amounts deferred under this Plan may not be voluntarily or involuntarily assigned, pledged, or alienated. Unless required by law, no execution or attachment of any amount that becomes payable pursuant to any provision of this Plan shall be valid or recognized by the Company.

**X. ADMINISTRATION**

**A.** The Committee shall administer the Plan and shall be the sole interpreter and arbiter of this Plan; provided, however, that the Committee may delegate to other persons such of its functions as it deems appropriate. The Committee has the right to amend the Plan's provisions at any time, provided that such amendments do not (1) decrease the balance of the Executive's Deferral Account at the time of such amendment, or (2) retroactively decrease the applicable rate of interest, earnings or other investment return prior to the time of such amendment. The individuals serving on the Committee shall be indemnified and held harmless by the Company from any and all liability, costs, and expenses, arising out of any action taken by any member with respect to the Plan to the maximum extent permitted by law.

**B.** Deferral forms, payment elections and other forms utilized under the Plan shall be in the form approved by the Executive Vice President, Human Resources.

**XI. MISCELLANEOUS**

**A.** The rights and obligations of the Company and its subsidiaries under this Plan shall be binding on their successors and assigns.

**B.** This Plan shall not confer upon any person any right to be continued in the employment of the Company or any subsidiary.

**C.** In the event any provision of the Plan is held invalid, void or unenforceable, the same shall not affect, in any respect, the validity of the other provisions of the Plan.

**D.** The Company is authorized to withhold amounts necessary to satisfy any federal, state or local tax withholding requirements and social security or other employee tax requirements applicable with respect to the deferral or payment of amounts hereunder.

**E.** This Plan is intended to comply with Section 409A of the Code and will be interpreted in a manner intended to comply with Section 409A of the Code. In furtherance thereof, no payments may be accelerated under the Plan other than to the extent permitted under Section 409A of the Code. To the extent that any provision of the Plan violates

Section 409A of the Code such that amounts would be taxable to an Executive prior to payment or would otherwise subject an Executive to a penalty tax under Section 409A, such provision shall be automatically reformed or stricken to preserve the intent hereof. Notwithstanding anything herein to the contrary, (i) if at the time of an Executive's separation from service with the Company the Executive is a "specified employee" as defined in Section 409A of the Code (and any related regulations or other pronouncements thereunder) and the deferral of the commencement of any payments or benefits otherwise payable hereunder as a result of such separation from service is necessary in order to prevent any accelerated or additional tax under Section 409A of the Code, then the Company shall defer the commencement of the payment of any such payments or benefits hereunder (without any reduction in such payments or benefits ultimately paid or provided to the Executive) until the date that is six months following the Executive's separation from service (or the earliest date as is permitted under Section 409A of the Code) and (ii) if any other payments due to an Executive hereunder could cause the application of an accelerated or additional tax under Section 409A of the Code, such payments or other benefits shall be deferred if deferral will make such payment compliant under Section 409A of the Code, or otherwise such payment shall be restructured, to the extent possible, in a manner, determined by the Committee, that does not cause such an accelerated or additional tax. The Committee shall implement the provisions of this Section XI(E) in good faith; provided that neither the Company, the Committee, nor any of the Company's or its subsidiaries' employees or representatives shall have any liability to Executives with respect to this Section XI(E).

**F.** The Plan is intended to be an unfunded plan maintained primarily to provide deferred compensation benefits for a select group of management or highly compensated employees within the meaning of Sections 201, 301 and 401 of ERISA and therefore to be exempt from Parts 2, 3 and 4 of Title I of ERISA.

**G.** The Plan shall be governed and construed in accordance with the laws of the state of New York, without regard to conflicts of law provisions thereof, except to the extent pre-empted by ERISA.

**(c) Adjustment for Extraordinary Items.** The Committee shall adjust, upward or downward, to the extent permitted by Section 162(m), the Performance Measures to reflect, as applicable: (i) a change in generally acceptable accounting standards or principles, (ii) a significant acquisition or divestiture, or a discontinuation of operations, (iii) a significant capital transaction, (iv) any charges and costs associated with restructurings of the ARAMARK Group and (v) any other unusual, nonrecurring items which are separately identified and quantified in ARAMARK's audited financial statements, Notes to ARAMARK's audited financial statements or management's discussion and analysis of financial condition and results of operations contained in ARAMARK's then most recent report filed with the U.S. Securities and Exchange Commission pursuant to applicable law, so long as such accounting change is required or such transaction or nonrecurring item occurs after the Performance Measures for the Performance Period are established, and such adjustments are stated at the time that the Performance Measures are determined. The Committee may also adjust, upward or

downward, as applicable, the Performance Measures to reflect any other extraordinary item or event, so long as any such item or event is separately identified as an item or event requiring adjustment of such Performance Measures at the time the Performance Measures are established, and such item or event occurs after the Performance Measures for the Performance Period are established. In all events, any adjustments to be made to the Performance Measures shall be disclosed in a manner intended to satisfy the requirements of Section 162(m).

**(d) Negative Discretion.** At the time the extent of attainment of the Performance Measures for a given Performance Period is determined by the Committee, the Committee, in its sole discretion, may reduce, but may not increase, the amount of the Bonus Award that would be otherwise payable to a Participant in respect of such Performance Period under this Plan. The Committee may take into consideration any and all factors relating to ARAMARK's and the Participant's performance for such Performance Period.

**(e) Payment Only Upon Attainment of Performance Goals.**

(i) A Bonus Award shall be paid to a Participant under this Plan only in accordance with the terms of this Plan and only upon the attainment of the Performance Measures established, adjusted and applied by the Committee for such Participant. Except as explicitly provided in this Plan, no waiver or modification of any Performance Measure may be made. The Committee shall be the sole and exclusive arbiter of the extent, if any, to which the Performance Measures have been attained, and the amount of the Bonus Award payable hereunder. Prior to the payment of any Bonus Award to any Participant under this Plan, the Committee shall certify in writing the extent to which the Performance Measure(s) upon which the Bonus Award may be payable to such Participant have been attained.

(ii) After Committee certification of the attainment of the Performance Measures, Bonus Awards may be paid immediately (but in no event later than March 15 of the calendar year following the calendar year in which the Performance Period ends) or may be deferred; provided that (A) payment of any Bonus Award will only be made to Participants who were employed with ARAMARK or one of its subsidiaries on the last day of the applicable Performance Period, and (B) the deferral of any Bonus Award may only be made if (I) the Participant irrevocably elects to defer his or her Bonus Award on or before (x) the calendar year preceding the calendar year in which the Performance Period to which such Bonus Award relates, if the Performance Period is less than 12 full months or (y) the date that is six months prior to the end of the applicable Performance Period in respect of which the Bonus Award is payable, if the Performance Period is at least 12 full months; and (II) such Participant remains continuously employed by ARAMARK from the later of the beginning of the applicable Performance Period or the date the performance criteria are established in accordance with Section 7(b), through the date of such deferral election.

(iii) If earned pursuant to the terms of this Plan, a Bonus Award may be payable in the form of cash or settled in shares of common stock of ARAMARK, restricted stock units that are settled in common stock of ARAMARK stock or a combination thereof, any of which stock-based awards shall be settled under the ARAMARK Holding Corporation 2013 Stock Incentive Plan.

**8. Additional Terms.** Unless otherwise specifically provided by this Plan or by the Committee or unless not permitted by Section 162(m), the administrative terms of the ARAMARK Management Incentive Bonus Plan (as the same shall be in effect from time to time) (“**MIB**”) shall apply to Bonus Awards payable under this Plan, including by way of example terms relating to such matters as the ability to defer receipt of payment of an annual Bonus Award; provided, however, that in the event of a conflict between this Plan and the MIB, this Plan shall govern.

**9. Stockholder Approval.** This Plan shall be effective upon its approval by the stockholders of ARAMARK.

**10. Amendment.** The Committee may, without further action by the stockholders, amend the Plan from time to time as it deems desirable; provided, that no such amendment may increase the group of employees who may receive compensation under the Plan identified in Section 3 above, change the permitted Performance Measures set forth in Section 4 above, increase the maximum Bonus Award payable under the Plan as set forth in Section 6 above or make any other change requiring further stockholder approval under Section 162(m). In addition, with respect to Participants who reside or work outside the United States, the Committee may, in its sole discretion, amend the terms of this Plan with respect to such Participants in order to conform such terms with the requirements of local law or to obtain more favorable tax or other treatment for a Participant.

**11. Duration and Termination.** This Plan, unless earlier terminated, shall be effective through the first meeting of the shareholders of ARAMARK occurring in 2017. The Board may, in its discretion, terminate this Plan at any time.

**12. Compliance with IRC Section 409A.** This Plan is intended to be exempt from Section 409A; provided, that with respect to any Bonus Award (or portion thereof) that is deferred pursuant to Section 7(e), such amounts shall constitute nonqualified deferred compensation under Section 409A and shall be compliant with the provisions applicable thereto, and, in the case of any ambiguity with respect to this Plan, this Plan will be interpreted in a manner intended to comply with Section 409A. In furtherance thereof, no payments may be accelerated under this Plan other than to the extent permitted under Section 409A. To the extent that any provision of this Plan violates Section 409A such that amounts would be taxable to a Participant prior to payment or would otherwise subject a Participant to a penalty tax under Section 409A, such provision shall be automatically reformed or stricken to preserve the intent hereof. Notwithstanding anything herein to the contrary, (i) if at the time of a Participant’s termination of employment the Participant is a “specified employee” as defined in Section 409A and the deferral of the commencement of any payments or benefits otherwise payable hereunder as a result of such termination of employment is necessary in order to prevent any accelerated or additional tax under Section 409A, then ARAMARK shall defer the commencement of the payment of any such payments or benefits hereunder (without any reduction in such payments or benefits ultimately paid or provided to the Participant) until the date that is six months following the Participant’s termination of employment (or the earliest date as is permitted under Section 409A) and (ii) if any other payments due to a Participant hereunder could cause the application of an accelerated or additional tax under Section 409A, such payments or other benefits shall be deferred if deferral will make such payment compliant under Section 409A, or otherwise such payment shall be restructured, to the extent possible, in a manner, determined by the Committee, that does not cause such an accelerated or

additional tax. For purposes of Section 409A, each payment made under this Plan shall be designated as a “separate payment” within the meaning of the Section 409A, and references herein to a Participant’s “termination of employment” shall refer to Participant’s separation from service with ARAMARK and its affiliates within the meaning of Section 409A. The Committee shall use commercially reasonable efforts to implement the provisions of this section in good faith; provided that neither ARAMARK, nor the Board, Committee nor any of ARAMARK’s or its subsidiaries’ employees, directors or representatives shall have any liability to any Participants with respect to this section 12.

**13. Governing Law.** This Plan shall be governed by and construed in accordance with the laws of the State of New York without regard to conflicts of laws.

**Approved:** November 12, 2013, effective as of December 1, 2013

**AMENDED AND RESTATED  
EXECUTIVE LEADERSHIP COUNCIL  
MANAGEMENT INCENTIVE BONUS PLAN**

**General**

Management Incentive Bonus (MIB) Plan provides annual cash bonuses to eligible executives for the achievement of explicit performance objectives established prior to each fiscal year. The ELC MIB is in two parts: a financial portion representing 80% of the overall MIB, and individual objectives representing the remaining 20%.

**Eligibility**

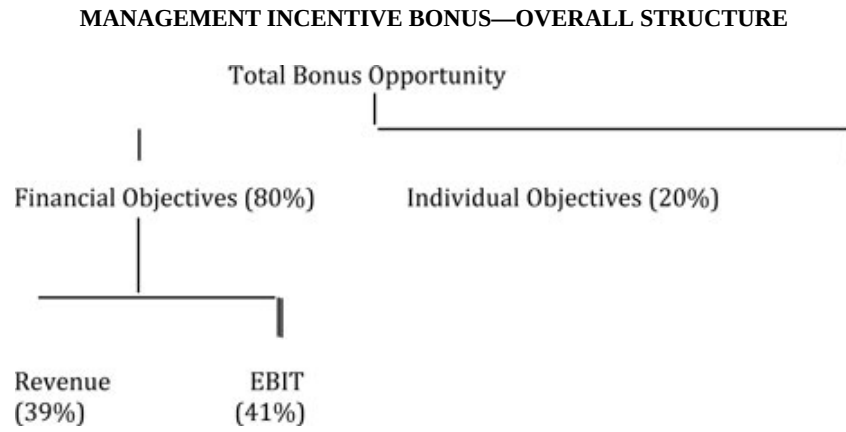

All executives in career bands 2 and 3 are eligible to participate in the ELC MIB Plan. Generally an individual is eligible for a potential award under the ELC MIB Plan if they were an executive for six or more months during the fiscal year.

**Overall Structure**

MIB awards will be determined by performance during the fiscal year as measured by the following:

- **Financial Objectives**
  - Attainment of revenue targets by the business to which the participant is assigned. \*
  - Attainment of EBIT targets by the business to which the participant is assigned. \*
- **Individual Objectives**
  - Individual or team objectives the plan participant is expected to attain during the fiscal year.

Bonus potential will be based upon the “guideline” or standard percent of salary set at the beginning of the fiscal year for an eligible executive. The apportionment of the bonus payoff elements is reflected in this diagram:

To establish the performance expectations for the fiscal year, as close as possible to the start of each fiscal year, individuals are provided with an ELC MIB Plan that specifies: (1) the appropriate business Revenue & EBIT targets, and (2) an area to develop individual objectives.

#### **Determination of Bonus Targets — Financial Portion**

For purposes of determining bonus targets, Revenue & EBIT are defined as follows:

**Revenue** Sales as reported internally to Corporate Accounting and used for external financial reporting.

**EBIT** Earnings before interest expense (income) and income tax expense (benefit) and inclusive of Corporate and other overhead allocations determined pursuant to the Corporation’s accounting policies and procedures.

If these definitions differ from those included within the final year-end financial statements of the business, the definitions which were used in establishing the Revenue & EBIT targets will be attached to each performance plan.

In a limited number of cases and where business warrants, the financial targets and percentages may be other than those shown here. All such changes, however, must be approved by the Chief Executive Officer in advance.

#### **Determination of Awards — Financial Portion**

For all financial metrics, payouts under the financial portion of the MIB vary as financial targets are over or under achieved. The minimum bonus, equal to 25% of the guideline amount, is awarded

provided a minimally acceptable “threshold” level of performance is achieved. (No bonus will be awarded for performance below the threshold for that metric.) Bonuses increase to the guideline amount if targets are achieved fully and may increase up to a maximum (“ceiling”) of 150% to 200% of the guideline amount if performance increasingly exceeds the target levels.

Bonus awards for performance between threshold and ceiling will be computed by interpolating between either: (1) the threshold and target awards, or (2) the target and ceiling awards, as appropriate.

The levels for threshold and maximum bonus payouts (referred to as the “leverage curve”), may vary among organizations, reflecting financial volatility resulting from the magnitude of the unit’s business plan. For example, a lower volatility business may begin to pay out at 90% of target attainment, while a higher volatility business may begin to pay out at 85% of target attainment.

### **Determination of Individual Objectives and Awards**

The remaining parts of the ELC MIB Plan provide for establishing the individual objectives upon which those portions of the bonus will be based.

Generally, objectives will be established for each participant at the start of the fiscal year. The individual objectives will not duplicate the measures of annual financial performance addressed under the financial portion of the MIB. Rather, they will address those concerns which most contribute to the business gaining a sustainable competitive advantage. Attainment of them is measured for and during the fiscal year for which they are set. Unplanned objectives that emerge during the fiscal year and which take priority over the planned objectives may be added (or substituted) as appropriate.

For each part, the guideline bonus amounts will be awarded if performance fully meets the target expectations defined in these objectives. If performance differs from expectations, the bonuses awarded will vary proportionally with performance, from 0 to 150% of the guideline amount.

### **Total MIB Award**

The total MIB award will be the sum of the bonuses awarded for each of the performance measures: Revenue, EBIT and individual objectives.

### **Payment of Awards**

1) Earned awards are paid (minus appropriate tax withholdings) as soon as practicable after receipt of the audited year-end financial reports, but in no event more than 2.5 months after the end of the calendar year in which it was earned.

Except in cases of voluntary or involuntary termination (discussed in 2 below), the following provisions apply:

- If the executive has worked **at least 6 months**, but less than 12 and is still employed at the end of the bonus (fiscal) year, the participant will receive a pro-rata share of the earned bonus award (e.g., if the executive has worked for 9 months, 75% of the calculated total bonus will be awarded).
- If the executive has served in two or more components or units covered by this plan, the earned award will be calculated on the portion of the year served in each component or unit.

- If the executive was promoted during the year and his guideline bonus amount changed, the earned award will be prorated. However, if the executive remains in the same position with essentially the same duties and responsibilities, and the participant's guideline amount changed during the fiscal year, the guideline amount at year end will be used in determining the award for the entire year.

2) No bonus award is payable to an executive whose employment terminates, voluntarily or involuntarily, prior to completion of the bonus (fiscal) year.\* Exceptions in certain cases of involuntary termination may be granted with prior approval of the Chief Executive Officer of ARAMARK.

An executive whose employment terminates after the close of the bonus year but before awards are paid will be eligible to receive any award attained under the payout formula of the financial portion of the Plan. Any bonus awards for individual achievement in the case of such terminations may be payable at the discretion of the Chief Executive Officer of ARAMARK.

In no case, however, will a bonus award be made to an individual whose employment is terminated at any time for "cause," as defined in the plan participant's Agreement Relating to Employment and Post Employment Competition.

\* A pro-rata share of the earned bonus award is payable at the same time as earned bonuses are otherwise payable to active employees in the event the executive becomes permanently disabled, retires having reached the age of 65, or dies.

### **Deferral**

Payment of all or part of the MIB award may be deferred in accordance with procedures established by ARAMARK and amended from time to time, in accordance with the applicable deferral provisions of Section 409A of the Internal Revenue Code ("Section 409A").

### **Administration**

This ELC MIB Plan is intended to be provide for compensation that is exempt from the requirements of Section 409A. The Chief Executive Officer of ARAMARK is the sole interpreter and arbiter of the provisions of the ELC MIB Plan and has the right to amend, withdraw, or revoke them before the beginning of any fiscal year or to grant specific exceptions.

In administering the ELC MIB Plan, the Chief Executive Officer of ARAMARK has the final authority to adjust financial performance standards or actual results for unusual non-recurring income, expense or balance sheet items (e.g., non-operating gains/losses, acquisitions, divestitures) so that comparisons between actual and planned performance are consistent. Any earned bonus award of any plan participant who, as of the end of a given bonus (fiscal) year is a named executive officer of ARAMARK may not be greater than the maximum bonus amount that may be earned under the ARAMARK Holdings Corporation Senior Executive Annual Performance Bonus Plan, as in effect from time to time.

Objectives and formulas for all portions of the MIB must be approved by the Chief Executive Officer of ARAMARK. He also must approve any unplanned objectives added during the year.

Bonus awards are reviewed and approved by the Compensation and Human Resources Committee (or any designated sub-committee thereof).

#### 7. Options.

(a) Generally. Each Option granted under the Plan shall be evidenced by an Award Agreement. Each Option so granted shall be subject to the conditions set forth in this Section 7, and to such other conditions not inconsistent with the Plan as may be reflected in the applicable Award Agreement. All Options granted under the Plan shall be Nonqualified Stock Options unless the applicable Award Agreement expressly states that the Option is intended to be an Incentive Stock Option. Incentive Stock Options shall be granted only to Eligible Persons who are employees of the Company and its Affiliates, and no Incentive Stock Option shall be granted to any Eligible Person who is ineligible to receive an Incentive Stock Option under the Code. No Option shall be treated as an Incentive Stock Option unless the Plan has been approved by the stockholders of the Company in a manner intended to comply with the stockholder approval requirements of Section 422(b)(1) of the Code, *provided*, that any Option intended to be an Incentive Stock Option shall not fail to be effective solely on account of a failure to obtain such approval, but rather such Option shall be treated as a Nonqualified Stock Option unless and until such approval is obtained. In the case of an Incentive Stock Option, the terms and conditions of such grant shall be subject to and comply with such rules as may be prescribed by Section 422 of the Code. If for any reason an Option intended to be an Incentive Stock Option (or any portion thereof) shall not qualify as an Incentive Stock Option, then, to the extent of such non-qualification, such Option or portion thereof shall be regarded as a Nonqualified Stock Option appropriately granted under the Plan.

(b) Exercise Price. Except as otherwise provided by the Committee in the case of Substitute Awards, the exercise price ("Exercise Price") per share of Common Stock for each Option shall not be less than 100% of the Fair Market Value of such share (determined as of the Date of Grant); *provided, however*, that in the case of an Incentive Stock Option granted to an employee who, at the time of the grant of such Option, owns stock representing more than 10% of the voting power of all classes of stock of the Company or any of its Affiliates, the Exercise Price per share shall not be less than 110% of the Fair Market Value per share on the Date of Grant; and *provided, further*, that a Nonqualified Stock Option may be granted with an Exercise Price lower than that set forth herein if such Option is granted pursuant to an assumption or substitution for another option in a manner satisfying the provisions of Section 424(a) and Section 409A of the Code.

(c) *Vesting and Expiration.* Options shall vest and become exercisable in such manner and on such date or dates determined by the Committee and shall expire after such period, not to exceed ten years, as may be determined by the Committee (the “Option Period”); *provided, however,* that the Option Period shall not exceed five years from the Date of Grant in the case of an Incentive Stock Option granted to a Participant who on the Date of Grant owns stock representing more than 10% of the voting power of all classes of stock of the Company or any of its Affiliates; *provided, further,* that notwithstanding any vesting dates set by the Committee, the Committee may, in its sole discretion, accelerate the exercisability of any Option.

(d) *Method of Exercise and Form of Payment.* No shares of Common Stock shall be delivered pursuant to any exercise of an Option until payment in full of the Exercise Price therefor is received by the Company and the Participant has paid to the Company an amount equal to any Tax Withholding obligations of the Participant. Options that have become exercisable may be exercised by delivery of written or electronic notice of exercise to the Company in accordance with the terms of the Option accompanied by payment of the Exercise Price. Unless otherwise expressly provided by the Committee in any Award Agreement, the aggregate Exercise Price (and any Tax Withholding due) shall, to the extent permitted by applicable law, be payable:

(i) in cash (by wire transfer of immediately available funds to a bank account of the Company, by delivery of a certified check payable to the Company);

(ii) by surrender of shares of Common Stock valued at the Fair Market Value at the time the Option is exercised (including, pursuant to procedures approved by the Committee, by means of attestation of ownership of a sufficient number of shares of Common Stock in lieu of actual delivery of such shares to the Company); *provided,* that such shares of Common Stock are Mature Shares;

(iii) pursuant to a Net Exercise arrangement; *provided,* however, that in such event, the Committee may exercise its discretion to limit or prohibit the use of a Net Exercise solely with respect to Tax Withholding if the Committee determines in good faith that to allow for a Net Exercise with respect to Tax Withholding would result in a material negative impact on the Company’s and its subsidiaries, near-term liquidity needs;

(iv) in other property having a fair market value on the date of exercise equal to the Exercise Price,

(v) if there is a public market for the shares of Common Stock at such time, by means of a broker-assisted “cashless exercise” pursuant to which the Company is delivered a copy of irrevocable instructions to a stockbroker to sell the shares otherwise deliverable upon the exercise of the Option and to deliver promptly to the Company an amount equal to the Exercise Price; or

(vi) a combination of the methods set forth in this Section 7(d).

Any fractional shares of Common Stock shall be settled in cash.

(e) *Notice of Exercise.* A Participant (or other person, as provided in Section 15(b)) may exercise an Option (for the shares of Common Stock represented thereby) granted under the Plan in whole or in part (but for the purchase of whole shares only), as provided in the Award Agreement evidencing his Option, by delivering a notice (the “Notice”) to the Company in accordance with the Option exercise notice practices and procedures in effect at the Company from time to time. In accordance therewith, the Notice may include the following:

(i) that the Participant elects to exercise the Option;

(ii) the number of shares of Common Stock with respect to which the Option is being exercised (the “Option Shares”);

(iii) the method of payment for the Option Shares (which method must be available to the Participant under the terms of his or her Award Agreement);

(iv) the date upon which the Participant desires to consummate the purchase of the Option Shares (which date must be prior to the termination of such Option); and

(v) any additional provisions with respect to Notice consistent with the Plan as the Committee may from time to time require.

The exercise date of an Option shall be the date on which the Company receives the Notice and any payment due from the Participant.

(f) *Notification upon Disqualifying Disposition of an Incentive Stock Option.* Each Participant awarded an Incentive Stock Option under the Plan shall notify the Company in writing immediately after the date he makes a disqualifying disposition of any Common Stock acquired pursuant to the exercise of such Incentive Stock Option. A disqualifying disposition is any disposition (including, without limitation, any sale) of such Common Stock before the later of (A) two years after the Date of Grant of the Incentive Stock Option or (B) one year after the date of exercise of the Incentive Stock Option.

(g) *Compliance With Laws, etc.* Notwithstanding the foregoing, in no event shall a Participant be permitted to exercise an Option in a manner that the Committee determines would violate the Sarbanes-Oxley Act of 2002, or any other applicable law or the applicable rules and regulations of the SEC or the applicable rules and regulations of any securities exchange or inter-dealer quotation system on which the securities of the Company are listed or traded.

#### 8. Stock Appreciation Rights.

(a) Generally. Each SAR granted under the Plan shall be evidenced by an Award Agreement. Each SAR so granted shall be subject to the conditions set forth in this Section 8, and to such other conditions not inconsistent with the Plan as may be reflected in the applicable Award Agreement. Any Option granted under the Plan may include tandem SARs. The Committee also may award SARs to Eligible Persons independent of any Option.

(b) Vesting and Expiration. A SAR granted in connection with an Option shall become exercisable and shall expire according to the same vesting schedule and expiration provisions as the corresponding Option. A SAR granted independent of an Option shall vest and become exercisable and shall expire in such manner and on such date or dates determined by the Committee and shall expire after such period, not to exceed ten years, as may be determined by the Committee (the "SAR Period"); *provided, however*, that notwithstanding any vesting dates set by the Committee, the Committee may, in its sole discretion, accelerate the exercisability of any SAR.

(c) Method of Exercise. SARs that have become exercisable may be exercised by delivery of written or electronic notice of exercise to the Company in accordance with the terms of the Award, specifying the number of SARs to be exercised and the date on which such SARs were awarded. Notwithstanding the foregoing, if on the last day of the Option Period (or in the case of a SAR independent of an option, the SAR Period), the Fair Market Value exceeds the Strike Price, the Participant has not exercised the SAR or the corresponding Option (if applicable), and neither the SAR nor the corresponding Option (if applicable) has expired, such SAR shall be deemed to have been exercised by the Participant on such last day and the Company shall make the appropriate payment therefor.

(d) Payment. Upon the exercise of a SAR, the Company shall pay to the Participant an amount equal to the number of shares subject to the SAR that are being exercised multiplied by the excess, if any, of the Fair Market Value of one share of Common Stock on the exercise date over the Strike Price, less an amount equal to any Tax Withholding obligations of the Participant. The Company shall pay such amount in cash, in shares of Common Stock valued at Fair Market Value, or any combination thereof, as determined by the Committee. Any fractional shares of Common Stock shall be settled in cash.

#### 9. Restricted Stock and Restricted Stock Units.

(a) Generally. Each grant of Restricted Stock and Restricted Stock Units shall be evidenced by an Award Agreement. Each such grant shall be subject to the conditions set forth in this Section 9, and to such other conditions not inconsistent with the Plan as may be reflected in the applicable Award Agreement.

(b) Book Entry and Stock Certificates; Escrow or Similar Arrangement. Upon the grant of Restricted Stock, the Committee shall cause a Participant's ownership to be recognized through uncertificated book entry. If the Company elects to issue stock certificates, then stock certificates registered in the name of the Participant shall be issued and, if the Committee determines that the Restricted Stock shall be held by the Company or in escrow rather than delivered to the Participant pending the release of the applicable restrictions, the Committee may require the Participant to additionally execute and deliver to the Company (i) an

escrow agreement satisfactory to the Committee, if applicable, and (ii) the appropriate stock power (endorsed in blank) with respect to the Restricted Stock covered by such agreement. If a Participant shall fail to execute an agreement evidencing an Award of Restricted Stock and, if applicable, an escrow agreement and blank stock power within the amount of time specified by the Committee, the Award shall be null and void. Subject to the restrictions set forth in this Section 9 and the applicable Award Agreement, the Participant generally shall have the rights and privileges of a stockholder as to such Restricted Stock, including without limitation the right to vote such Restricted Stock. To the extent shares of Restricted Stock are forfeited, any stock certificates issued to the Participant evidencing such shares shall be returned to the Company, and all rights of the Participant to such shares and as a stockholder with respect thereto shall terminate without further obligation on the part of the Company.

(c) Vesting. The Restricted Stock Period with respect to any shares of Restricted Stock shall lapse and the Restricted Stock Units shall vest in such manner and on such date or dates as determined by the Committee.

(d) Delivery of Restricted Stock and Settlement of Restricted Stock Units.

(i) Upon the expiration of the Restricted Period with respect to any shares of Restricted Stock, the restrictions set forth in the applicable Award Agreement shall be of no further force or effect with respect to such shares, except as set forth in the applicable Award Agreement. If an escrow arrangement is used, upon such expiration, the Company shall deliver to the Participant, or his beneficiary, without charge, the stock certificate evidencing the shares of Restricted Stock that have not then been forfeited and with respect to which the Restricted Period has expired (rounded down to the nearest full share). Dividends, if any, that may have been withheld by the Committee and attributable to any particular share of Restricted Stock shall be distributed to the Participant in cash or, at the sole discretion of the Committee, in shares of Common Stock having a Fair Market Value equal to the amount of such dividends, upon the release of restrictions on such share and, if such share is forfeited, the Participant shall have no right to such dividends (except as otherwise set forth by the Committee in the applicable Award Agreement).

(ii) Unless otherwise provided by the Committee in an Award Agreement, upon the expiration of the Restricted Period with respect to any outstanding Restricted Stock Units, the Company shall deliver to the Participant, or his beneficiary, without charge, one share of Common Stock for each such outstanding Restricted Stock Unit; *provided, however*, that the Committee may, in its sole discretion, provide in an Award Agreement the Company's ability to elect to (A) pay cash or part cash and part Common Stock in lieu of delivering only shares of Common Stock in respect of such Restricted Stock Units or (B) defer the delivery of Common Stock (or cash or part Common Stock and part cash, as the case may be) beyond the expiration of the Restricted Period. If a cash payment is made in lieu of delivering shares of Common Stock, the amount of such payment shall be equal to the Fair Market Value of the Common Stock as of the date on which the Restricted Period lapsed with respect to such Restricted Stock Units, less an amount equal to any Tax Withholding obligations of the Participant.

(e) Legends on Restricted Stock. To the extent applicable, all book entries (or stock certificates, if any) representing Restricted Stock awarded under the Plan shall bear a book entry notation or legend substantially in the form of the following in addition to any other information the Company deems appropriate until the lapse of all restrictions with respect to such Common Stock:

TRANSFER OF THIS CERTIFICATE AND THE SHARES REPRESENTED HEREBY IS RESTRICTED PURSUANT TO THE TERMS OF THE ARAMARK HOLDINGS CORPORATION 2013 MANAGEMENT STOCK INCENTIVE PLAN AND A RESTRICTED STOCK AWARD AGREEMENT, BETWEEN ARAMARK HOLDINGS CORPORATION AND PARTICIPANT. A COPY OF SUCH PLAN AND AWARD AGREEMENT IS ON FILE AT THE PRINCIPAL EXECUTIVE OFFICES OF ARAMARK HOLDINGS CORPORATION.

10. Stock Bonus Awards; Deferred Stock Units; Dividend Equivalents.

(a) Stock Bonus Awards. The Committee may issue unrestricted Common Stock, or other Awards denominated in Common Stock under the Plan to Eligible Persons, either alone or in tandem with other awards, in such amounts as the Committee shall from time to time in its sole discretion determine. Each Stock Bonus Award granted under the Plan shall be evidenced by an Award Agreement. Each Stock Bonus Award so granted shall be subject to such conditions not inconsistent with the Plan as may be reflected in the applicable Award Agreement.

(b) Deferred Stock Units. Each grant of Deferred Stock Units shall be evidenced by an Award Agreement. Each such grant shall be subject to the conditions set forth in this Section 10(b), and to such other conditions not inconsistent with the Plan as may be reflected in the applicable Award Agreement. Each Deferred Stock Unit shall entitle the holder thereof to receive one share of Common Stock on the date the Deferred Stock Unit becomes vested or upon a specified settlement date thereafter (which settlement date may (but is not required to) be the date of the Participant's Termination of Relationship). Shares of Common Stock underlying a Deferred Stock Unit award which is subject to a vesting schedule or other conditions or criteria set by the Committee shall not be issued until on or following the date that those conditions and criteria have been satisfied. Unless otherwise provided by the Committee, a holder of Deferred Stock Units shall have no rights as a Company stockholder with respect to such Deferred Stock Units until such time as the Award has vested and any other applicable conditions and/or criteria have been satisfied and the shares of Common Stock underlying the Award have been issued to the Holder.

(c) Dividend Equivalents. Dividend Equivalents may be granted by the Committee based on dividends declared on the Common Stock, to be credited as of dividend payment dates during the period between the date an Award is granted to a Participant and the date such Award vests, is exercised, is distributed or expires, as determined by the Committee. Such Dividend Equivalents shall be converted to cash, additional Awards or additional shares of Common Stock by such formula and at such time and subject to such limitations as may be determined by the Committee. No Dividend Equivalent shall be payable with respect to any Award unless specified by the Committee in the Award Agreement.

## 11. Performance Compensation Awards.

(a) Generally. The Committee shall have the authority, at the time of grant of any Award described in Sections 7 through 10 of the Plan, to designate such Award as a Performance Compensation Award intended to qualify as “performance-based compensation” under Section 162(m) of the Code. The Committee shall have the authority to make an award of a cash bonus to any Participant and designate such Award as a Performance Compensation Award intended to qualify as “performance-based compensation” under Section 162(m) of the Code.

(b) Discretion of Committee with Respect to Performance Compensation Awards. With regard to a particular Performance Period, the Committee shall have sole discretion to select the length of such Performance Period, the type(s) of Performance Compensation Awards to be issued, the Performance Criteria that will be used to establish the Performance Goal(s), the kind(s) and/or level(s) of the Performance Goals(s) that is (are) to apply and the Performance Formula. Within the first ninety (90) days of a Performance Period (or, if longer or shorter, within the maximum period allowed under Section 162(m) of the Code), the Committee shall, with regard to the Performance Compensation Awards to be issued for such Performance Period, exercise its discretion with respect to each of the matters enumerated in the immediately preceding sentence and record the same in writing.

(c) Performance Criteria. The Performance Criteria that will be used to establish the Performance Goal(s) shall be based on the attainment of target levels of, a targeted percentage increase in, or, to the extent permitted under Section 162(m) of the Code, solely the achievement of, one or more of the following Company or business group measures (all capitalized terms not defined herein shall have the meanings contained in the Company’s audited financial statements for the relevant performance period as such terms and definitions may be expressly modified and established by the Committee with respect to the relevant performance period): (i) Earnings Before Interest and Taxes (“EBIT”), (ii) Return on Net Assets (“RONA”), (iii) Net Income, (iv) After Tax Return on Investment (“ATROI”), (v) Sales, (vi) Revenues, (vii) Earnings Per Share, (viii) Total Shareholder Return, (ix) Return on Equity (“ROE”), (x) Return on Investment (“ROI”), (xi) Total Business Return, (xii) Return on Gross Investment (“ROGI”), (xiii) Operating Cash Flow, (xiv) Free Cash Flow, (xv) Operating Income, (xvi) Pretax Income or (xvii) stock price appreciation. The measures may be based on absolute Company performance or Company performance relative to a peer group or other external measure of selected performance. The Committee also has the authority to provide for accelerated vesting of any Award based on the achievement of Performance Goals pursuant to the Performance Criteria specified in this paragraph. To the extent required under Section 162(m) of the Code, the Committee shall, within the first ninety (90) days of a Performance Period (or, if longer or shorter, within the maximum period allowed under Section 162(m) of the Code), define in an objective fashion the manner of calculating the Performance Criteria it selects to use for such Performance Period and thereafter promptly communicate such Performance Criteria to the Participant.

(d) Modification of Performance Goal(s). In the event that applicable tax and/or securities laws change to permit Committee discretion to alter the governing Performance Criteria without obtaining stockholder approval of such alterations, the Committee shall have sole discretion to make such alterations without obtaining stockholder approval. The Committee is authorized at any time during the first ninety (90) days of a Performance Period (or, if longer or shorter, within the maximum period allowed under Section 162(m) of the Code), or at any time thereafter to the extent the exercise of such authority at such time would not cause the Performance Compensation Awards granted to any Participant for such Performance Period to fail to qualify as “performance-based compensation” under Section 162(m) of the Code, in its sole discretion, to adjust or modify the calculation of a Performance Goal for such Performance Period, based on and in order to appropriately reflect the following events: (i) a change in accounting standards or principles, (ii) a significant acquisition or divestiture, (iii) a significant capital transaction, or (iv) any other unusual, nonrecurring items which are separately identified and quantified in the Company’s audited financial statements, so long as such accounting change is required or such transaction or nonrecurring item occurs after the goals for the fiscal year are established, and such adjustments are stated at the time that the performance goals are determined. The Committee may also adjust, upward or downward, as applicable, the Performance Goals to reflect any other extraordinary item or event, so long as any such item or event is separately identified as an item or event requiring adjustment of such Performance Goals at the time the Performance Goals are determined, and such item or event occurs after the Performance Goals for the fiscal year are established. In all events, any adjustments to be made to the Performance Goals shall be disclosed in a manner intended to satisfy the requirements of Section 162(m) of the Code.

(e) Payment of Performance Compensation Awards.

(i) Condition to Receipt of Payment. Unless otherwise provided in the applicable Award Agreement, a Participant must be employed by the Company on the last day of a Performance Period to be eligible for payment in respect of a Performance Compensation Award for such Performance Period.

(ii) Limitation. A Participant shall be eligible to receive payment in respect of a Performance Compensation Award only to the extent that: (A) the Performance Goals for such period are achieved; and (B) all or some of the portion of such Participant’s Performance Compensation Award has been earned for the Performance Period based on the application of the Performance Formula to such achieved Performance Goals.

(iii) Certification. Following the completion of a Performance Period, the Committee shall review and certify in writing whether, and to what extent, the Performance Goals for the Performance Period have been achieved and, if so, calculate and certify in writing that amount of the Performance Compensation Awards earned for the period based upon the Performance Formula. The Committee shall then determine the amount of each Participant’s Performance Compensation Award actually payable for the Performance Period and, in so doing, may apply Negative Discretion.

(iv) Use of Negative Discretion. In determining the actual amount of an individual Participant’s Performance Compensation Award for a Performance Period, the Committee may reduce or eliminate the amount of the Performance Compensation Award earned

under the Performance Formula in the Performance Period through the use of Negative Discretion if, in its sole judgment, such reduction or elimination is appropriate. The Committee shall not have the discretion, except as is otherwise provided in the Plan, to (A) grant or provide payment in respect of Performance Compensation Awards for a Performance Period if the Performance Goals for such Performance Period have not been attained; or (B) increase a Performance Compensation Award above the applicable limitations set forth in Section 5 of the Plan.

(f) Timing of Award Payments. Performance Compensation Awards granted for a Performance Period shall be paid to Participants as soon as administratively practicable following completion of the certifications required by this Section 11, but in no event later than two-and-one-half months following the end of the fiscal year during which the Performance Period is completed.

12. Changes in Capital Structure and Similar Events. In the event of (a) any stock dividend, extraordinary cash dividend or other distribution (whether in the form of securities or other property), recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, split-off, combination, repurchase or exchange of shares of Common Stock or other securities of the Company, issuance of warrants or other rights to acquire shares of Common Stock or other securities of the Company, or other similar corporate transaction or event (including, without limitation, a Change of Control) that affects the shares of Common Stock, or (b) unusual or nonrecurring events (including, without limitation, a Change of Control) affecting the Company, any of its Affiliates, or the financial statements of the Company or any of its Affiliates, or changes in applicable rules, rulings, regulations or other requirements of any governmental body or securities exchange or inter-dealer quotation system, accounting principles or law, such that in either case an adjustment is determined by the Committee in its sole discretion to be necessary or appropriate, then the Committee shall make any such adjustments in such manner as it may deem equitable, including without limitation any or all of the following:

(i) adjusting any or all of (A) the number of shares of Common Stock or other securities of the Company (or number and kind of other securities or other property) that may be delivered in respect of Awards or with respect to which Awards may be granted under the Plan (including, without limitation, adjusting any or all of the limitations under Section 5 of the Plan) and (B) the terms of any outstanding Award, including, without limitation, (1) the number of shares of Common Stock or other securities of the Company (or number and kind of other securities or other property) subject to outstanding Awards or to which outstanding Awards relate, (2) the Exercise Price or Strike Price with respect to any Award or (3) any applicable performance measures (including, without limitation, Performance Criteria and Performance Goals);

(ii) providing for a substitution or assumption of Awards, accelerating the exercisability of, lapse of restrictions on, or termination of, Awards or providing for a period of time for exercise prior to the occurrence of such event; and

(iii) cancelling any one or more outstanding Awards and causing to be paid to the holders thereof, in cash, shares of Common Stock, other securities or other property, or any combination thereof, the value of such Awards, if any, as determined by the Committee (which if applicable may be based upon the price per share of Common Stock received or to be received by other stockholders of the Company in such event), including without limitation, in the case of an outstanding Option or SAR, a cash payment in an amount equal to the excess, if any, of the Fair Market Value (as of a date specified by the Committee) of the shares of Common Stock subject to such Option or SAR over the aggregate Exercise Price or Strike Price of such Option or SAR, respectively (it being understood that, in such event, any Option or SAR having a per share Exercise Price or Strike Price equal to, or in excess of, the Fair Market Value of a share of Common Stock subject thereto may be canceled and terminated without any payment or consideration therefor).

For the avoidance of doubt, in the case of any “equity restructuring” (within the meaning of the Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards Codification Topic 718, Stock Compensation), the Committee shall make an equitable or proportionate adjustment to outstanding Awards to reflect such equity restructuring. Any adjustment in Incentive Stock Options under this Section 12 (other than any cancellation of Incentive Stock Options) shall be made only to the extent not constituting a “modification” within the meaning of Section 424(h)(3) of the Code, and any adjustments under this Section 12 shall be made in a manner that does not adversely affect the exemption provided pursuant to Rule 16b-3 under the Exchange Act, to the extent applicable. The Company shall give each Participant notice of an adjustment hereunder and, upon notice, such adjustment shall be conclusive and binding for all purposes.

13. Effect of Change of Control. Except to the extent otherwise provided in an Award Agreement, in the event of (i) the occurrence of a Change of Control, and (ii) thereafter, a Termination of Relationship of any given Participant by the Company or any of its Affiliates (or successors in interest) without Cause or by the Participant for Good Reason that occurs prior to the second anniversary of the date of such Change of Control, then notwithstanding any other provision of the Plan to the contrary, with respect to all or any portion of the Participant’s then outstanding Award or Awards:

(a) the then outstanding Options and SARs shall become immediately exercisable on the date of the Termination of Relationship;

(b) the Restricted Period shall expire on the date of the Termination of Relationship (which includes, without limitation the waiver of any applicable Performance Goals);

(c) Performance Periods in effect on of the date of the Termination of Relationship occurs shall end on such date, and with respect to each such Performance Period, all applicable Performance Goals shall be deemed to have been achieved at the applicable “target” levels of performance; and

(d) All Awards that have been previously deferred shall be settled in full as soon as practicable, but if any only if, with respect to any Award which provides for the deferral of compensation and is subject to Section 409A of the Code, (I) such Termination of Relationship occurs prior to the second anniversary of the Change of Control and (II) such settlement does not contradict any pre-existing deferral election under any other plan, program or arrangement of the Company or any of its Affiliates then in effect.

To the extent practicable, any actions taken by the Committee under the immediately preceding clauses (a) through (d) shall occur in a manner and at a time which allows affected Participants the ability to participate in the Change of Control transactions with respect to the Common Stock subject to their Awards.

14. Amendments and Termination.

(a) Amendment and Termination of the Plan. The Board may amend, alter, suspend, discontinue, or terminate the Plan or any portion thereof at any time; *provided*, that (i) no amendment to Section 11(c) or Section 14(b) (to the extent required by the proviso in such Section 14(b)) shall be made without stockholder approval and (ii) no such amendment, alteration, suspension, discontinuation or termination shall be made without stockholder approval if such approval is necessary to comply with any tax or regulatory requirement applicable to the Plan (including, without limitation, as necessary to comply with any rules or requirements of any securities exchange or inter-dealer quotation system on which the shares of Common Stock may be listed or quoted or to prevent the Company from being denied a tax deduction under Section 162(m) of the Code); *provided, further*, that any such amendment, alteration, suspension, discontinuance or termination that would materially and adversely affect the rights of any Participant or any holder or beneficiary of any Award theretofore granted shall not to that extent be effective without the consent of the affected Participant, holder or beneficiary.

(b) Amendment of Award Agreements. The Committee may, to the extent consistent with the terms of any applicable Award Agreement, waive any conditions or rights under, amend any terms of, or alter, suspend, discontinue, cancel or terminate, any Award theretofore granted or the associated Award Agreement, prospectively or retroactively; *provided*, that any such waiver, amendment, alteration, suspension, discontinuance, cancellation or termination that would materially and adversely affect the rights of any Participant with respect to any Award theretofore granted shall not to that extent be effective without the consent of the affected Participant; *provided, further*, that without stockholder approval, except as otherwise permitted under Section 12 of the Plan, (i) no amendment or modification may reduce the Exercise Price of any Option or the Strike Price of any SAR, and (ii) the Committee may not cancel any outstanding Option or SAR in order to replace it with a new Option, SAR or other Award, and the Committee may not take any other action that is considered a “repricing” for purposes of the stockholder approval rules of the applicable securities exchange or inter-dealer quotation system on which the Common Stock is listed or quoted.

(c) Extension of Termination Date. A Participant’s Award Agreement may provide that if the exercise of the Option following the Participant’s Termination of Relationship (other than upon the Participant’s death or Disability) would be prohibited at any time solely because the issuance of shares of Common Stock would violate the registration requirements under the Securities Act, or any other requirements of applicable law, then the Option shall terminate on the earlier of (i) the expiration of the term of the Option set forth in Section 7(c) and (ii) the expiration of a period of 30 days after the Participant’s Termination of Relationship during which the exercise of the Option would not be in violation of such registration requirements or other applicable requirements.

(d) Restriction on Grant of Awards. No Awards may be granted during any period of suspension or after termination of the Plan, and in no event may any Award be granted under the Plan after the tenth anniversary of the Effective Date.

15. General.

(a) Award Agreements. Each Award under the Plan shall be evidenced by an Award Agreement, which shall specify the terms and conditions of the Award and any rules applicable thereto, including without limitation, the effect on such Award of the death, Disability or Termination of Relationship of a Participant, or of such other events as may be determined by the Committee. The terms of any Award issued hereunder shall be binding upon the executors, administrators, beneficiaries, successors and assigns of the Participant.

(b) Nontransferability.

(i) Each Award shall be exercisable only by a Participant during the Participant's lifetime, or, if permissible under applicable law, by the Participant's legal guardian or representative. No Award may be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered by a Participant other than by will or by the laws of descent and distribution and any such purported assignment, alienation, pledge, attachment, sale, transfer or encumbrance shall be void and unenforceable against the Company or any of its Affiliates; *provided*, that the designation of a beneficiary shall not constitute an assignment, alienation, pledge, attachment, sale, transfer or encumbrance.

(ii) Notwithstanding the foregoing, the Committee may, in its sole discretion, permit Awards (other than Incentive Stock Options) to be transferred by a Participant, without consideration, subject to such rules as the Committee may adopt consistent with any applicable Award Agreement to preserve the purposes of the Plan, to: (A) any person who is a "family member" of the Participant, as such term is used in the instructions to Form S-8 under the Securities Act (collectively, the "Immediate Family Members"); (B) a trust solely for the benefit of the Participant and his or her Immediate Family Members; or (C) a partnership or limited liability company whose only partners or stockholders are the Participant and his or her Immediate Family Members; or (D) any other transferee as may be approved either (I) by the Board or the Committee in its sole discretion, or (II) as provided in the applicable Award Agreement (each transferee described in clauses (A), (B) (C) and (D) above is hereinafter referred to as a "Permitted Transferee"); *provided*, that the Participant gives the Committee advance written notice describing the terms and conditions of the proposed transfer and the Committee notifies the Participant in writing that such a transfer would comply with the requirements of the Plan.

(iii) The terms of any Award transferred in accordance with the immediately preceding sentence shall apply to the Permitted Transferee and any reference in the Plan, or in any applicable Award Agreement, to a Participant shall be deemed to refer to the Permitted Transferee, except that (A) Permitted Transferees shall not be entitled to transfer any

Award, other than by will or the laws of descent and distribution; (B) Permitted Transferees shall not be entitled to exercise any transferred Option unless there shall be in effect a registration statement on an appropriate form covering the shares of Common Stock to be acquired pursuant to the exercise of such Option if the Committee determines, consistent with any applicable Award Agreement, that such a registration statement is necessary or appropriate; (C) the Committee or the Company shall not be required to provide any notice to a Permitted Transferee, whether or not such notice is or would otherwise have been required to be given to the Participant under the Plan or otherwise; and (D) the satisfaction of any applicable vesting conditions and consequences of the Participant's Termination of Relationship under the terms of the Plan and the applicable Award Agreement shall continue to be applied with respect to the Participant, including, without limitation, that an Option or SAR shall be exercisable by the Permitted Transferee only if such Option or SAR has vested due to the Participant's satisfaction of the applicable vesting criteria and only to the extent, and for the periods, specified in the Plan and the applicable Award Agreement.

(c) Tax Withholding.

(i) A Participant shall be required to pay to the Company or any of its Affiliates, and the Company or any of its Affiliates shall have the right and is hereby authorized to withhold, from any cash, shares of Common Stock, other securities or other property deliverable under any Award or from any compensation or other amounts owing to a Participant, the amount (in cash, Common Stock, other securities or other property) of any required withholding taxes in respect of an Award, its exercise, or any payment or transfer under an Award or under the Plan and to take such other action as may be necessary in the opinion of the Committee or the Company to satisfy all obligations for the payment of such withholding and taxes.

(ii) Without limiting the generality of clause (i) above, the Committee shall, in its sole discretion, permit a Participant to satisfy, in whole or in part, the foregoing withholding liability by (i) the deduction from any amount payable to the Participant in cash or the delivery of shares of Common Stock (which are Mature Shares) owned by the Participant having a Fair Market Value equal to such withholding liability, or (ii) having the Company withhold from the number of shares of Common Stock otherwise issuable or deliverable pursuant to the exercise or settlement of the Award, including, for the avoidance of doubt, shares redeemed as part of a Net Exercise settlement, a number of shares with a Fair Market Value equal to such withholding liability (but no more than the minimum required statutory withholding liability); *provided, however*, that in such event, the Committee may exercise its discretion to limit or prohibit the use of shares of Common Stock for such Tax Withholding if the Committee determines in good faith that to allow for the use of such shares with respect to Tax Withholding would result in a material negative impact on the Company's and its Affiliates' near-term liquidity needs.

(d) No Claim to Awards; No Rights to Continued Employment; Waiver. No employee of the Company or any of its Affiliates, or other person, shall have any claim or right to be granted an Award under the Plan or, having been selected for the grant of an Award, to be selected for a grant of any other Award. There is no obligation for uniformity of treatment of

Participants or holders or beneficiaries of Awards. The terms and conditions of Awards and the Committee's determinations and interpretations with respect thereto need not be the same with respect to each Participant and may be made selectively among Participants, whether or not such Participants are similarly situated. Neither the Plan nor any action taken hereunder shall be construed as giving any Participant any right to be retained in the employ or service of the Company or any of its Affiliates, nor shall it be construed as giving any Participant any rights to continued service on the Board. The Company or any of its Affiliates may at any time dismiss a Participant from employment or discontinue any consulting relationship, free from any liability or any claim under the Plan, unless otherwise expressly provided in the Plan or any Award Agreement. By accepting an Award under the Plan, a Participant shall thereby be deemed to have waived any claim to continued exercise or vesting of an Award or to damages or severance entitlement related to non-continuation of the Award beyond the period provided under the Plan or any Award Agreement, notwithstanding any provision to the contrary in any written employment contract or other agreement between the Company and its Affiliates and the Participant, whether any such agreement is executed before, on or after the Date of Grant.

(e) *International Participants.* With respect to Participants who reside or work outside of the United States of America and who are not (and who are not expect to be) "covered employees" within the meaning of Section 162(m) of the Code, the Committee may in its sole discretion amend the terms of the Plan or outstanding Awards with respect to such Participants in order to conform such terms with the requirements of local law or to obtain more favorable tax or other treatment for a Participant, the Company or its Affiliates.

(f) *Designation and Change of Beneficiary.* Each Participant may file with the Committee a written designation of one or more persons as the beneficiary(ies) who shall be entitled to receive the amounts payable with respect to an Award, if any, due under the Plan upon his death. A Participant may, from time to time, revoke or change his beneficiary designation without the consent of any prior beneficiary by filing a new designation with the Committee. The last such designation received by the Committee shall be controlling; *provided, however*, that no designation, or change or revocation thereof, shall be effective unless received by the Committee prior to the Participant's death, and in no event shall it be effective as of a date prior to such receipt. If no beneficiary designation is filed by a Participant, the beneficiary shall be deemed to be his or her spouse or, if the Participant is unmarried at the time of death, his or her estate.

(g) *Termination of Relationship.*

(i) Unless determined otherwise by the Committee, neither a temporary absence from employment or service due to illness, vacation or leave of absence nor a transfer from employment or service with the Company to employment or service with any of its Affiliates (or vice-versa) shall be considered a Termination of Relationship with the Company or such Affiliate.

(ii) Notwithstanding anything in this Plan to the contrary, with respect to any Award, a Termination of Relationship shall not be deemed to have occurred if a Participant remains an employee or a member of the Board of the Company or any Affiliate, but

a Termination of Relationship shall be deemed to have occurred if a Participant remains a consultant of the Company or any Affiliate; *provided* that this paragraph shall not be effective if its existence or its application would result in imposition of taxes under Section 409A of the Code.

(h) *No Rights as a Stockholder.* Except as otherwise specifically provided in the Plan or any Award Agreement, no person shall be entitled to the privileges of ownership in respect of shares of Common Stock that are subject to Awards hereunder until such shares have been issued or delivered to that person.

(i) *Government and Other Regulations.*

(i) The obligation of the Company to settle Awards in Common Stock or other consideration shall be subject to all applicable laws, rules, and regulations, and to such approvals by governmental agencies as may be required. Notwithstanding any terms or conditions of any Award to the contrary, the Company shall be under no obligation to offer to sell or to sell, and shall be prohibited from offering to sell or selling, any shares of Common Stock pursuant to an Award unless such shares have been properly registered for sale pursuant to the Securities Act with the SEC or unless the Company has received an opinion of counsel, satisfactory to the Company, that such shares may be offered or sold without such registration pursuant to an available exemption therefrom and the terms and conditions of such exemption have been fully complied with. The Company shall be under no obligation to register for sale under the Securities Act any of the shares of Common Stock to be offered or sold under the Plan. The Committee shall have the authority to provide that all certificates for shares of Common Stock or other securities of the Company or any of its Affiliates delivered under the Plan shall be subject to such stop transfer orders and other restrictions as the Committee may deem advisable under the Plan, the applicable Award Agreement, the federal securities laws, or the rules, regulations and other requirements of the SEC, any securities exchange or inter-dealer quotation system upon which such shares or other securities are then listed or quoted and any other applicable federal, state, local or non-U.S. laws, and, without limiting the generality of Section 9 of the Plan, the Committee may cause a legend or legends to be put on any such certificates to make appropriate reference to such restrictions. Notwithstanding any provision in the Plan to the contrary, the Committee reserves the right to add any additional terms or provisions to any Award granted under the Plan that it in its sole discretion deems necessary or advisable in order that such Award complies with the legal requirements of any governmental entity to whose jurisdiction the Award is subject.

(ii) The Committee may cancel an Award or any portion thereof if it determines, in its sole discretion, that legal or contractual restrictions and/or blockage and/or other market considerations would make the Company's acquisition of shares of Common Stock from the public markets, the Company's issuance of Common Stock to the Participant, the Participant's acquisition of Common Stock from the Company and/or the Participant's sale of Common Stock to the public markets, illegal, impracticable or inadvisable. If the Committee determines to cancel all or any portion of an Award in accordance with the foregoing, the Company shall pay to the Participant an amount equal to the excess of (A) the aggregate Fair Market Value of the shares of Common Stock subject to such Award or portion thereof canceled

(determined as of the applicable exercise date, or the date that the shares would have been vested or delivered, as applicable), over (B) the aggregate Exercise Price or Strike Price (in the case of an Option or SAR, respectively) or any amount payable as a condition of delivery of shares of Common Stock (in the case of any other Award). Such amount shall be delivered to the Participant as soon as practicable following the cancellation of such Award or portion thereof.

(j) Payments to Persons Other Than Participants. If the Committee shall find that any person to whom any amount is payable under the Plan is unable to care for his affairs because of illness or accident, or is a minor, or has died, then any payment due to such person or his estate (unless a prior claim therefor has been made by a duly appointed legal representative) may, if the Committee so directs the Company, be paid to his spouse, child, relative, an institution maintaining or having custody of such person, or any other person deemed by the Committee to be a proper recipient on behalf of such person otherwise entitled to payment. Any such payment shall be a complete discharge of the liability of the Committee and the Company therefor.

(k) Nonexclusivity of the Plan. Neither the adoption of this Plan by the Board nor the submission of this Plan to the stockholders of the Company for approval shall be construed as creating any limitations on the power of the Board to adopt such other incentive arrangements as it may deem desirable, including, without limitation, the granting of stock options or other awards otherwise than under this Plan, and such arrangements may be either applicable generally or only in specific cases.

(l) No Trust or Fund Created. Neither the Plan nor any Award shall create or be construed to create a trust or separate fund of any kind or a fiduciary relationship between the Company or any of its Affiliates, on the one hand, and a Participant or other person or entity, on the other hand. No provision of the Plan or any Award shall require the Company, for the purpose of satisfying any obligations under the Plan, to purchase assets or place any assets in a trust or other entity to which contributions are made or otherwise to segregate any assets, nor shall the Company maintain separate bank accounts, books, records or other evidence of the existence of a segregated or separately maintained or administered fund for such purposes. Participants shall have no rights under the Plan other than as unsecured general creditors of the Company, except that insofar as they may have become entitled to payment of additional compensation by performance of services, they shall have the same rights as other employees under general law.

(m) Reliance on Reports. Each member of the Committee and each member of the Board shall be fully justified in acting or failing to act, as the case may be, and shall not be liable for having so acted or failed to act in good faith, in reliance upon any report made by the independent public accountant of the Company and its Affiliates and/or any other information furnished in connection with the Plan by any agent of the Company or the Committee or the Board, other than himself.

(n) Relationship to Other Benefits. No payment under the Plan shall be taken into account in determining any benefits under any pension, retirement, profit sharing, group insurance or other benefit plan of the Company except as otherwise specifically provided in such other plan.

(o) Governing Law. All questions concerning the construction, interpretation and validity of the Plan and the instruments evidencing the Awards granted hereunder shall be governed by and construed and enforced in accordance with the domestic laws of the State of New York, without giving effect to any choice or conflict of law provision or rule (whether of the State of New York or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of New York. In furtherance of the foregoing, the internal law of the State of New York will control the interpretation and construction of this Plan, even if under such jurisdiction's choice of law or conflict of law analysis, the substantive law of some other jurisdiction would ordinarily apply.

(p) Severability. If any provision of the Plan or any Award or Award Agreement is or becomes or is deemed to be invalid, illegal, or unenforceable in any jurisdiction or as to any person or entity or Award, or would disqualify the Plan or any Award under any law deemed applicable by the Committee, such provision shall be construed or deemed amended to conform to the applicable laws, or if it cannot be construed or deemed amended without, in the determination of the Committee, materially altering the intent of the Plan or the Award, such provision shall be construed or deemed stricken as to such jurisdiction, person or entity or Award and the remainder of the Plan and any such Award shall remain in full force and effect.

(q) Obligations Binding on Successors. The obligations of the Company under the Plan shall be binding upon any successor corporation or organization resulting from the merger, consolidation or other reorganization of the Company, or upon any successor corporation or organization succeeding to substantially all of the assets and business of the Company.

(r) Code Section 162(m) Approval. If so determined by the Committee, (i) the Plan shall be approved by the stockholders of the Company no later than the first meeting of stockholders at which directors are to be elected that occurs after the close of the third calendar year following the calendar year in which the Company's Initial Public Offering, if any, occurs, and (ii) the provisions of the Plan regarding Performance Compensation Awards shall be disclosed and reapproved by stockholders no later than the first stockholder meeting that occurs in the fifth year following the year in which stockholders previously approved such provisions following the Company's Initial Public Offering, if any, in each case in order for certain Awards granted after such time to be exempt from the deduction limitations of Section 162(m) of the Code. Nothing in this clause, however, shall affect the validity of Awards granted after such time if such stockholder approval has not been obtained.

(s) Expenses; Gender; Titles and Headings. The expenses of administering the Plan shall be borne by the Company and its Affiliates. Masculine pronouns and other words of masculine gender shall refer to both men and women. The titles and headings of the sections in the Plan are for convenience of reference only, and in the event of any conflict, the text of the Plan, rather than such titles or headings shall control.

(t) Other Agreements. Notwithstanding the above, the Committee may require, as a condition to the grant of and/or the receipt of shares of Common Stock under an Award, that the Participant execute lock-up, stockholder or other agreements, as it may determine in its sole and absolute discretion.

(u) Payments. Participants shall be required to pay, to the extent required by applicable law, any amounts required to receive shares of Common Stock under any Award made under the Plan.

(v) Non-Qualified Deferred Compensation. To the extent applicable and notwithstanding any other provision of this Plan, this Plan and Awards hereunder shall be administered, operated and interpreted in accordance with Section 409A of the Code. Further, if any Award is subject to Section 409A of the Code, (a) references under the Plan or the applicable Award Agreement to the Participant's Termination of Relationship shall be deemed to refer to the date upon which the Participant has experienced a "separation from service" within the meaning of Section 409A of the Code and (b) any installment of Shares or cash due under any such Award shall constitute a "separate payment" within the meaning of Section 409A of the Code. In addition, if at the time of the Participant's separation from service with the Company, the Participant is a "specified employee" as defined in Section 409A of the Code, and the deferral of the commencement of any payments or benefits otherwise payable under any Award as a result of such separation from service is necessary in order to prevent the imposition of any accelerated or additional tax under Section 409A of the Code, then the Company will defer the commencement of the payment of any such payments or benefits hereunder (without any reduction in such payments or benefits ultimately paid or provided to the Participant) to the minimum extent necessary to satisfy Section 409A of the Code until the date that is six months and one day following the Participant's separation from service with the Company (or the earliest date as is permitted under Section 409A of the Code), if such payment or benefit is payable upon a Termination of Relationship. In addition, and notwithstanding any provision of the Plan to the contrary, in the event that the Committee determines that any amounts payable hereunder will be taxable to a Participant under Section 409A of the Code prior to the payment and/or delivery to such Participant of such amount, the Company may (i) adopt such amendments to the Plan and related Award Agreement, and appropriate policies and procedures, including amendments and policies with retroactive effect, that the Committee determines necessary or appropriate to preserve the intended tax treatment of the benefits provided by the Plan and Awards hereunder and/or (ii) take such other actions as the Committee determines necessary or appropriate to comply with the requirements of Section 409A of the Code. No action shall be taken under this Plan which shall cause an Award to fail to comply with Section 409A of the Code, to the extent applicable to such Award. However, in no event shall any member of the Board, the Company or any of its Affiliates (including their respective employees, officers, directors or agents) have any liability to any Participant (or any other person) with respect to this Section 15(v).

(w) Market Stand-off Provisions. If required by the Company (or a representative of the underwriter(s)) in connection with the first underwritten registration of the offering of any equity securities of the Company under the Securities Act, for a specified period of time, the Participant shall not sell, dispose of, transfer, make any short sale of, grant any

option for the purchase of, or enter into any hedging or similar transaction with the same economic effect as a sale, any shares of the Common Stock acquired by the Participant pursuant to an Award or other securities of the Company held by the Participant, and shall execute and deliver such other agreements as may be reasonably requested by the Company and/or the underwriter(s) that are consistent with the foregoing or that are necessary to give further effect thereto. In order to enforce the foregoing covenant, the Company may impose stop transfer instructions with respect to such shares until the end of such period.

(x) Claw-back Provisions. All Awards (including any proceeds, gains or other economic benefit actually or constructively received by the Participant upon any receipt or exercise of any Award or upon the receipt or resale of any shares of Common Stock underlying the Award) shall be subject to the provisions of any claw-back policy implemented by the Company, including, without limitation, any claw-back policy adopted to comply with the requirements of applicable law, including without limitation the Dodd-Frank Wall Street Reform and Consumer Protection Act and any rules or regulations promulgated thereunder, to the extent set forth in such claw-back policy and/or in the applicable Award Agreement.

(y) No Liability with Respect to Any Corporate Action. Subject to Section 15(v), nothing contained in the Plan or in any Award Agreement will be construed to prevent the Company or any Affiliate of the Company from taking any corporate action which is deemed by the Company or by its Affiliates to be appropriate or in its best interest and no Participant or beneficiary of a Participant will have any claim against the Company or any affiliate as a result of any such corporate action.

(z) Affiliate Employees. In the case of a grant of an Award to an employee or consultant of any Affiliate of the Company, the Company may, if the Committee so directs, issue or transfer the shares of Common Stock, if any, covered by the Award to the Affiliate, for such lawful consideration as the Committee may specify, upon the condition or understanding that the Affiliate will transfer the shares of Common Stock to the employee or consultant in accordance with the terms of the Award specified by the Committee pursuant to the provisions of the Plan. All shares of Common Stock underlying Awards that are forfeited or canceled shall revert to the Company.

(aa) Foreign Employees and Foreign Law Considerations. The Committee may grant Awards to individuals who are eligible to participate in the plan who are foreign nationals, who are located outside the United States or who are not compensated from a payroll maintained in the United States, or who are otherwise subject to (or could cause the Company to be subject to) legal or regulatory provisions of countries or jurisdictions outside the United States, on such terms and conditions different from those specified in the Plan as may, in the judgment of the Committee, be necessary or desirable to foster and promote achievement of the purposes of the Plan, and, in furtherance of such purposes, the Committee may make such modifications, amendments, procedures, or subplans as may be necessary or advisable to comply with such legal or regulatory provisions.

Capitalized terms used in this Certificate of Grant that are not defined shall have the same meanings as in the Award and the Plan.*

**FORM OF NON-QUALIFIED STOCK OPTION AWARD** (this "Award") dated as of the Date of Grant set forth on the Certificate of Grant to which this Award is attached (the "Grant Date") between **ARAMARK HOLDINGS CORPORATION**, a Delaware corporation (the "Company"), and the Participant set forth on the Certificate of Grant of the Options attached to this Award and made a part hereof (the "Certificate of Grant").

WHEREAS, the Company, acting through the Committee (as such term is defined in the Plan) or a subcommittee thereof, has agreed to grant to the Participant, as of the Grant Date, an option under the ARAMARK Holdings Corporation 2013 Stock Incentive Plan (as may be amended, the "Plan") to purchase a number of shares of Common Stock on the terms and subject to the conditions set forth in this Award, the Certificate of Grant and the Plan.

NOW, THEREFORE, in consideration of the promises and agreements contained in this Award:

Section 1. The Plan. The terms and provisions of the Plan are hereby incorporated into this Award as if set forth herein in their entirety. In the event of a conflict between any provision of this Award and the Plan, the provisions of the Plan shall control. A copy of the Plan has been provided to the Participant. Capitalized terms used herein and not otherwise defined herein shall have the respective meanings ascribed thereto in the Plan and the Certificate of Grant.

Section 2. Option Award; Exercise Price; Exercise of Vested Option. Effective on the Grant Date, on the terms and subject to the conditions of the Plan and this Award, the Company hereby grants to the Participant the option to purchase the number of Shares set forth on the Certificate of Grant (the "Option"), at the Exercise Price equal to the Exercise Price as set forth on the Certificate of Grant. Upon any exercise of any portion of any Vested Options, the payment of the Exercise Price may be made, at the election of the Participant, in any manner specified under Section 7(d) of the Plan, as such section is in effect on the Grant Date. The Option is not intended to qualify for federal income tax purposes as an "incentive stock option" within the meaning of Section 422 of the Code.

Section 3. Term. The term of the Option (the "Option Term") shall commence on the Grant Date and expire on the Expiration Date set forth on the Certificate of Grant, unless the Option shall have sooner been terminated in accordance with the terms of the Plan (including, without limitation, Section 13 of the Plan) or this Award.

Section 4. Vesting. Subject to the Participant's not having a Termination of Relationship and except as otherwise set forth in Section 7 hereof, the Options shall become non-forfeitable and exercisable (any Options that shall have become non-forfeitable and exercisable pursuant to this Section 3, the "Vested Options") as follows:

(a) in such percentages as on such dates as set forth on the Certificate of Grant of this Award under "Vesting Schedule"; or

(b) in the event of a Termination of Relationship as a result of the Participant's death, Disability, or Retirement (each, a "Special Termination"), the installment of Options scheduled to vest on the next Vesting Date immediately following such Special Termination shall immediately become Vested Options, and the remaining Options which are not then Vested Options shall be forfeited.

(c) in the event of (i) the occurrence of a Change of Control and (ii) thereafter, a Termination of Relationship of the Participant by the Company or any of its Affiliates (or successors in interest) without Cause or by the Participant for Good Reason that occurs prior to the second anniversary of the Change of Control, then each outstanding Option which has not theretofore become a Vested Option pursuant to Section 4(a) shall become a Vested Option on the date of such Termination of Relationship; or

(d) Except as otherwise provided above with respect to a Special Termination, upon a Termination of Relationship for any reason, the unvested portion of the Option (i.e. , that portion which does not constitute Vested Options) shall terminate and cease to be outstanding on the date the Termination of Relationship occurs and shall no longer be eligible to become Vested Options.

(e) All decisions by the Committee with respect to any calculations pursuant to this Section 4 shall be made in good faith after consultation with senior management and shall be final and binding on the Participant absent manifest error by the Committee.

Section 5. Restriction on Transfer. The Option may not be transferred, pledged, assigned, hypothecated or otherwise disposed of in any way by the Participant, except (i) if permitted by the Board or the Committee, (ii) by will or the laws of descent and distribution or (iii) pursuant to beneficiary designation procedures approved by the Company, in each case, in compliance with applicable laws. The Option shall not be subject to execution, attachment or similar process. Any attempted assignment, transfer, pledge, hypothecation or other disposition of the Option contrary to the provisions of this Award or the Plan shall be null and void and without effect.

Section 6. Participant's Employment. Nothing in this Award shall confer upon the Participant any right to continue in the employ of the Company or any of its Affiliates or interfere in any way with the right of the Company and its Affiliates, in their sole discretion, to terminate the Participant's employment or to increase or decrease the Participant's compensation at any time.

Section 7. Termination. The Option shall automatically terminate and shall become null and void, be unexercisable and be of no further force and effect upon the earliest of:

- (a) so long as the Participant remains employed by the Company or one of its Affiliates, the Expiration Date;
- (b) in the case of a Termination of Relationship due to a Special Termination, with respect to any Options that are vested as of the Termination of Relationship, the first anniversary of the Termination of Relationship;
- (c) in the case of a Termination of Relationship other than (x) for Cause or (y) due to a Special Termination, the 90th day following the Termination of Relationship; and
- (d) the day of the Termination of Relationship in the case of a Termination of Relationship for Cause.

Section 8. **Data Protection.** By accepting this Award, the Participant consents to the processing (including international transfer) of personal data as set out in Exhibit A attached hereto for the purposes specified therein and to any additional or different processes required by applicable law, rule or regulation.

Section 9. **No Rights as Stockholder.** The Participant shall not have any rights of a stockholder of the Company until shares of Common Stock have been issued pursuant to the exercise of the Options hereunder and until such shares have been registered in the Company's register of stockholders (including, without limitation, the right to any payment of any dividends paid on Shares (which prohibition does not prevent the Company, in its discretion, from providing dividend equivalent payments to the Participant or reducing the exercise price in respect of the Option pursuant to the Plan)).

Section 10. **No Acquired Rights.** The Committee or the Board has the power to amend or terminate the Plan at any time and the opportunity given to the Participant to participate in the Plan and the grant of this Award is entirely at the discretion of the Committee or the Board and does not obligate the Company or any of its Affiliates to offer such participation in the future (whether on the same or different terms). The Participant's participation in the Plan and the receipt of this Award is outside the terms of the Participant's regular contract of employment and is therefore not to be considered part of any normal or expected compensation and that the termination of the Participant's employment under any circumstances whatsoever will give the Participant no claim or right of action against the Company or its Affiliates in respect of any loss of rights under this Award or the Plan that may arise as a result of such termination of employment.

Section 11. **Notices.** All notices, claims, certifications, requests, demands and other communications hereunder shall be in writing and shall be deemed to have been duly given and delivered if personally delivered or if sent by nationally-recognized overnight courier, by telecopy, email or by registered or certified mail, return receipt requested and postage prepaid, addressed as follows:

If to the Company, to it at:

If to the Company, to:

ARAMARK Holdings Corporation  
ARAMARK Tower  
1101 Market Street  
Philadelphia, PA 19107-2988  
Attention: Head of Human Resources

If to the Participant, to him or her at the address set forth on the signature page hereto; or to such other address as the party to whom notice is to be given may have furnished to the other party in writing in accordance herewith. Any such notice or other communication shall be deemed to have been received (a) in the case of personal delivery, on the date of such delivery (or if such

date is not a business day, on the next business day after the date of delivery), (b) in the case of nationally-recognized overnight courier, on the next business day after the date sent, (c) in the case of telecopy transmission, when received (or if not sent on a business day, on the next business day after the date sent), and (d) in the case of mailing, on the third business day following that on which the piece of mail containing such communication is posted.

Section 12. Waiver of Breach. The waiver by either party of a breach of any provision of this Award must be in writing and shall not operate or be construed as a waiver of any other or subsequent breach.

Section 13. Governing Law. THIS AWARD WILL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, WITHOUT GIVING EFFECT TO ANY CHOICE OR CONFLICT OF LAW PROVISION OR RULE (WHETHER OF THE STATE OF NEW YORK OR ANY OTHER JURISDICTION) THAT WOULD CAUSE THE LAWS OF ANY JURISDICTION OTHER THAN THE STATE OF NEW YORK TO BE APPLIED. IN FURTHERANCE OF THE FOREGOING, THE INTERNAL LAW OF THE STATE OF NEW YORK WILL CONTROL THE INTERPRETATION AND CONSTRUCTION OF THIS AWARD, EVEN IF UNDER SUCH JURISDICTION'S CHOICE OF LAW OR CONFLICT OF LAW ANALYSIS, THE SUBSTANTIVE LAW OF SOME OTHER JURISDICTION WOULD ORDINARILY APPLY.

Section 14. Withholding. As a condition to exercising this Option in whole or in part, the Participant will pay, or make provisions satisfactory to the Company for payment of, any Federal, state, local and other applicable taxes required to be withheld in connection with such exercise in a manner that is set forth in Section 7(d) of the Plan.

Section 15. Adjustment to Option. In the event of any event described in Section 12 of the Plan occurring after the Grant Date, the adjustment provisions (including cash payments) as provided for under Section 12 of the Plan shall apply.

Section 16. Section 409A of the Code. This Option is intended to constitute a "stock right" within the meaning of Section 409A of the Code, and shall otherwise be subject to the provisions of Section 14(v) of the Plan.

Section 17. Modification of Rights; Entire Agreement. The Participant's rights under this Award, the Certificate of Grant and the Plan may be modified only to the extent expressly provided under this Award or under Sections 14(a) and (b) of the Plan. This Award, the Certificate of Grant and the Plan constitute the entire agreement between the parties with respect to the subject matter hereof and thereof and supersede all prior written or oral negotiations, commitments, representations and agreements with respect thereto.

Section 18. Severability. It is the desire and intent of the parties hereto that the provisions of this Award be enforced to the fullest extent permissible under the laws and public policies applied in each jurisdiction in which enforcement is sought. Accordingly, if any particular provision of this Award shall be adjudicated by a court of competent jurisdiction to be invalid, prohibited or unenforceable for any reason, such provision, as to such jurisdiction, shall be ineffective, without invalidating the remaining provisions of this Award or affecting the

validity or enforceability of such provision in any other jurisdiction. Notwithstanding the foregoing, if such provision could be more narrowly drawn so as not to be invalid, prohibited or unenforceable in such jurisdiction, it shall, as to such jurisdiction, be so narrowly drawn, without invalidating the remaining provisions of this Award or affecting the validity or enforceability of such provision in any other jurisdiction.

Capitalized terms used in this Certificate of Grant that are not defined shall have the same meanings as in the Award and the Plan.*

ARAMARK HOLDINGS CORPORATION

FORM OF  
RESTRICTED STOCK UNIT AWARD  
(TIME VESTING)

1. Grant of RSUs. The Company hereby grants the number of Restricted Stock Units (“RSUs”) set forth on the Certificate of Grant of the Restricted Stock Units attached to this Award and made a part hereof (the “Certificate of Grant”) to the Participant, on the terms and conditions hereinafter set forth. This grant is made pursuant to the terms of the ARAMARK Holdings Corporation 2013 Stock Incentive Plan (the “Plan”), which Plan, as amended from time to time, is incorporated herein by reference and made a part of this Award. Each RSU represents the unfunded, unsecured right of the Participant to receive a share of Common Stock, (as specified below) of the Company (each a “Share”), on the dates specified herein. Capitalized terms not otherwise defined herein shall have the same meanings as in the Plan and the Certificate of Grant.
2. Payment of Shares.
  - (a) The Company shall, subject to the remainder of this Award, transfer to the Participant a number of Shares of the Company equal to the number of RSUs granted to the Participant under this Award at such time as the Participant becomes vested in the right to such transfer (x) as set forth on the Certificate of Grant under “Vesting Date”, so long as the Participant remains employed with the Company or any of its Affiliates through such Vesting Date, or (y) as otherwise provided in Section 2(b) or (c) below (in whole Shares only with the Participant receiving a cash payment equal to the Fair Market Value of any fractional Share on or about the transfer date).
  - (b) Notwithstanding Section 2(a) of this Award,
    - (i) upon a Termination of Relationship as a result of the Participant’s death, Disability, or Retirement (each, a “Special Termination”), the installment of RSUs scheduled to vest on the next Vesting Date immediately following such Special Termination shall immediately become vested RSUs pursuant to which Shares equal to the number of RSUs scheduled to vest on the next Vesting Date shall be transferred, and the remaining RSUs which are not then vested shall be forfeited; and
    - (ii) upon a Termination of Relationship for any reason other than as set forth in clause (i) above, all outstanding RSUs shall be forfeited and immediately cancelled.
  - (c) Also notwithstanding Section 2(a) or (b) of this Award, in the event of (i) the occurrence of a Change of Control and (ii) thereafter, a Termination of Relationship of the Participant by the Company or any of its Affiliates (or successors in interest) without Cause or by the Participant for Good Reason that

occurs prior to the second anniversary of the date of such Change of Control, then all then outstanding RSUs shall become vested and the number of Shares equal to all such outstanding RSUs hereunder shall be distributed to the Participant, in each case, as soon as practicable following the date of such Termination of Relationship; provided that the Committee may determine that, in lieu of Shares and/or fractional Shares, the Participant shall receive a cash payment equal to the Fair Market Value of such Shares (or fractional Shares, as the case may be) on the Change of Control.

- (d) Upon each vesting event of any RSUs and the corresponding transfer of Shares as a result thereof, in each case in accordance with Sections 2(a), 2(b) or 2(c) of this Award, as applicable, the RSUs with respect to which Shares have been transferred hereunder shall be extinguished on the relevant transfer dates. In compliance with Section 409A of the Code, in no event shall any transfer occur later than March 15 of the calendar year following the calendar year in which the applicable vesting event occurs under this Award.
3. Dividends. If on any date while RSUs are outstanding hereunder, the Company shall pay any dividend on the Shares (other than a dividend payable in Shares), the number of RSUs granted to the Participant shall, as of such dividend payment date, be increased by a number of RSUs equal to: (a) the product of (x) the number of RSUs held by the Participant as of the related dividend record date, multiplied by (y) a dollar amount equal to the per Share amount of any cash dividend (or, in the case of any dividend payable in whole or in part other than in cash or Shares, the per Share value of such dividend, as determined in good faith by the Committee), divided by (b) the Fair Market Value of a Share on the payment date of such dividend. In the case of any dividend declared on Shares that is payable in the form of Shares, the number of RSUs granted to the Participant shall be increased by a number equal to the product of (I) the aggregate number of RSUs that have been held by the Participant through the related dividend record date, multiplied by (II) the number of Shares (including any fraction thereof) payable as a dividend on a Share. Shares shall be transferred with respect to all additional RSUs granted pursuant to this Section 3 at the same time as Shares are transferred with respect to the RSUs to which such additional RSUs were attributable.
  4. Adjustments Upon Certain Events. In the event of any event described in Section 12 of the Plan occurring after the Date of Grant, the adjustment provisions (including cash payments) as provided for under Section 12 of the Plan shall apply.
  5. Restriction on Transfer. The RSUs may not be transferred, pledged, assigned, hypothecated or otherwise disposed of in any way by the Participant, except (i) if permitted by the Board or the Committee, (ii) by will or the laws of descent and distribution or (iii) pursuant to beneficiary designation procedures approved by the Company, in each case in compliance with applicable laws. The RSUs shall not be subject to execution, attachment or similar process. Any attempted assignment, transfer, pledge, hypothecation or other disposition of the RSUs contrary to the provisions of this Award or the Plan shall be null and void and without effect.

6. **Data Protection.** By accepting this Award, the Participant consents to the processing (including international transfer) of personal data as set out in **Exhibit A** attached hereto for the purposes specified therein and to any additional or different processes required by applicable law, rule or regulation.
7. **Participant's Employment.** Nothing in this Award or in the RSU shall confer upon the Participant any right to continue in the employ of the Company or any of its Affiliates or interfere in any way with the right of the Company and its Affiliates, in their sole discretion, to terminate the Participant's employment or to increase or decrease the Participant's compensation at any time.
8. **No Acquired Rights.** The Committee or the Board has the power to amend or terminate the Plan at any time and the opportunity given to the Participant to participate in the Plan and the grant of this Award is entirely at the discretion of the Committee or the Board and does not obligate the Company or any of its Affiliates to offer such participation in the future (whether on the same or different terms). The Participant's participation in the Plan and the receipt of this Award is outside the terms of the Participant's regular contract of employment and is therefore not to be considered part of any normal or expected compensation and that the termination of the Participant's employment under any circumstances whatsoever will give the Participant no claim or right of action against the Company or its Affiliates in respect of any loss of rights under this Award or the Plan that may arise as a result of such termination of employment.
9. **No Rights of a Stockholder.** The Participant shall not have any rights as a stockholder of the Company until the Shares in question have been registered in the Company's register of stockholders.
10. **Withholding.**
  - (a) The Participant will pay, or make provisions satisfactory to the Company for payment of any federal, state, local and other applicable taxes required to be withheld in connection with any issuance or transfer of Shares under this Award and to take such action as may be necessary in the opinion of the Company to satisfy all obligations for the payment of such taxes. If Participant has not made payment for applicable taxes, such taxes shall be paid by withholding Shares from the issuance or transfer of Shares due under this Award, rounded down to the nearest whole Share, with the balance to be paid in cash or withheld from compensation or other amount owing to the Participant from the Company or any Affiliate, and the Company and any such Affiliate is hereby authorized to withhold such amounts from any such issuance, transfer, compensation or other amount owing to the Participant.
  - (b) If the Participant's employment with the Company terminates prior to the issuance or transfer of any remaining Shares due to be issued or transferred to the Participant under this Award, the payment of any applicable withholding taxes with respect to any such issuance or transfer shall be made through the withholding of Shares from such issuance or transfer, rounded down to the nearest whole Share, with the balance to be paid in cash or withheld from compensation or other amount owing to the Participant from the Company or any Affiliate, as provided in Section 10(a) above.

11. Section 409A of the Code. The provisions of Section 14(v) of the Plan are hereby incorporated by reference and made a part hereof.
12. RSUs Subject to Plan. All RSUs are subject to the Plan. In the event of a conflict between any term or provision contained herein and a term or provision of the Plan, the applicable terms and provisions of the Plan will govern and prevail.
13. Notices. All notices, claims, certifications, requests, demands and other communications hereunder shall be in writing and shall be deemed to have been duly given and delivered if personally delivered or if sent by nationally-recognized overnight courier, by telecopy, email or by registered or certified mail, return receipt requested and postage prepaid, addressed as follows:

If to the Company, to it at:

If to the Company, to:

If to the Participant, to him or her at the address set forth on the signature page hereto; or to such other address as the party to whom notice is to be given may have furnished to the other party in writing in accordance herewith. Any such notice or other communication shall be deemed to have been received (a) in the case of personal delivery, on the date of such delivery (or if such date is not a business day, on the next business day after the date of delivery), (b) in the case of nationally-recognized overnight courier, on the next business day after the date sent, (c) in the case of telecopy transmission, when received (or if not sent on a business day, on the next business day after the date sent), and (d) in the case of mailing, on the third business day following that on which the piece of mail containing such communication is posted.

14. Waiver of Breach. The waiver by either party of a breach of any provision of this Award must be in writing and shall not operate or be construed as a waiver of any other or subsequent breach.
15. Governing Law. THIS AWARD WILL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, WITHOUT GIVING EFFECT TO ANY CHOICE OR CONFLICT OF LAW PROVISION OR RULE (WHETHER OF THE STATE OF NEW YORK OR ANY OTHER JURISDICTION) THAT WOULD CAUSE THE LAWS OF ANY JURISDICTION OTHER THAN THE STATE OF NEW YORK TO BE APPLIED. IN FURTHERANCE OF THE

FOREGOING, THE INTERNAL LAW OF THE STATE OF NEW YORK WILL CONTROL THE INTERPRETATION AND CONSTRUCTION OF THIS AWARD, EVEN IF UNDER SUCH JURISDICTION'S CHOICE OF LAW OR CONFLICT OF LAW ANALYSIS, THE SUBSTANTIVE LAW OF SOME OTHER JURISDICTION WOULD ORDINARILY APPLY.

16. Modification of Rights; Entire Agreement. The Participant's rights under this Award and the Plan may be modified only to the extent expressly provided under this Award or under Sections 14(a) and (b) of the Plan. This Award and the Plan (and the other writings referred to herein) constitute the entire agreement between the parties with respect to the subject matter hereof and thereof and supersede all prior written or oral negotiations, commitments, representations and agreements with respect thereto.
17. Severability. It is the desire and intent of the parties hereto that the provisions of this Award be enforced to the fullest extent permissible under the laws and public policies applied in each jurisdiction in which enforcement is sought. Accordingly, if any particular provision of this Award shall be adjudicated by a court of competent jurisdiction to be invalid, prohibited or unenforceable for any reason, such provision, as to such jurisdiction, shall be ineffective, without invalidating the remaining provisions of this Award or affecting the validity or enforceability of such provision in any other jurisdiction. Notwithstanding the foregoing, if such provision could be more narrowly drawn so as not to be invalid, prohibited or unenforceable in such jurisdiction, it shall, as to such jurisdiction, be so narrowly drawn, without invalidating the remaining provisions of this Award or affecting the validity or enforceability of such provision in any other jurisdiction.

**FORM OF DEFERRED STOCK UNIT AWARD**

**THIS AWARD** (this "Award") between **ARAMARK HOLDINGS CORPORATION**, a Delaware corporation (the "Company"), and the Participant set forth on the certificate of grant (the "Certificate of Grant") attached to this Agreement (the "Participant") is made as of the Date of Grant set forth on the Certificate of Grant (the "Grant Date"). All capitalized terms not defined herein shall have the meaning set forth in the ARAMARK Holdings Corporation 2013 Stock Incentive Plan (the "Plan").

**WHEREAS**, the Company, acting through the Committee (as such term is defined in the Plan) with the consent of the Company's Board of Directors (the "Board") determined that it is in the best interests of the Company to grant to the Participant on the Grant Date, under the Plan, an Award of a number of deferred stock units on the terms and subject to the conditions set forth in this Award, the Plan and the Certificate of Grant.

**NOW, THEREFORE**, in consideration of the promises and of the mutual agreements contained in this Award, the parties hereto hereby agree as follows:

**1. Grant of DSUs**

This grant is made pursuant to and subject to the terms of the Plan. Capitalized terms not otherwise defined in this Award shall have the meaning ascribed to them in the Plan.

**2. Vesting and Payment of Shares**

(a) Subject to Participant's continued service on the Board of Directors of the Company, the DSUs will become vested on the first anniversary of the Grant Date (the "Vesting Date"). Subject to Section 2(c) below, the Company shall, subject to the terms and conditions of this Award, transfer to the Participant a number of shares of Common Stock ("Shares") equal to the number of vested DSUs granted to the Participant under this Award on the first day of the seventh month after the date on which Participant ceases to serve as a member of the Board of Directors of the Company (in whole Shares only with the Participant receiving a cash payment equal to the Fair Market Value of any fractional Share on or about the transfer date).

(b) Subject to Section 2(c) below, in the event of a Change of Control, Shares equal to all outstanding DSUs (whether vested or unvested) hereunder shall be distributed to the Participant immediately prior to the Change of Control; provided that the Committee may determine that, in lieu of Shares and/or fractional Shares, the Participant shall receive a cash payment equal to the Fair Market Value of such Shares (or fractional Shares, as the case may be) on such Change of Control.

(c) Upon each transfer of (or cash payment in lieu of) Shares in accordance with Sections 2(a) or 2(b) of this Award, DSUs with respect to which Shares have been transferred hereunder shall be extinguished.

### 3. Dividends

If on any date while DSUs are outstanding hereunder the Company shall pay any dividend on the Shares (other than a dividend payable in Shares), the number of DSUs granted to the Participant shall, as of such dividend payment date, be increased by a number of DSUs equal to: (a) the product of (x) the number of DSUs held by the Participant as of the related dividend record date, multiplied by (y) a dollar amount equal to the per Share amount of any cash dividend (or, in the case of any dividend payable in whole or in part other than in cash or Shares, the per Share value of such dividend, as determined in good faith by the Committee), divided by (b) the Fair Market Value of a Share on the payment date of such dividend. Shares shall be transferred with respect to all additional DSUs granted pursuant to this Section 3 at the same time as Shares are transferred with respect to the DSUs to which such additional DSUs were attributable, as set forth in Section 2 above.

The Participant shall not have any rights as a shareholder of the Company until the Shares in question have been registered in the Company's register of shareholders.

### 8. Transferability

DSUs may not be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered by the Participant otherwise than by will or by the laws of descent and distribution, and any purported assignment, alienation, pledge, attachment, sale, transfer or encumbrance not permitted by this Section 8 shall be void and unenforceable against the Company or any Affiliate.
